B.S., University of Oregon, 1947; M.S., 1949; graduate study, Teachers College, Columbia University, 1950.

Fern Rogers Hesson, B.S., M.A.—Assistant Professor of Home Economics
B.S., Mississippi Southern College, 1936; M.A., 1955.

Alma Hickman, A.B., Ph.B., M.A.—Professor Emeritus of English
A.B., Mississippi State College for Women, 1912; Ph.B., University of Chicago, 1918; M.A., Columbia University, 1924; graduate study, University of Southern California, 1932; graduate study, University of Colorado, 1942.

Laura May Hill, B.S., M.A.—Assistant Professor of Health and Physical Education
B.S., George Peabody College, 1917; M.A., 1925; graduate study, Harvard University, New York University, and Eastern School of Therapy.

Walter R. Hinds, B.S.Mus., B.S., M.S.—Assistant Professor of Voice and Music Education
B.S.Mus., Capitol University, 1946; B.S., M.S., with voice as a major, Juilliard School of Music, 1948; voice student of Ellis Snyder, Lucia Dunham, Bernard Taylor, and Willem Van Giesen.

Edith Hinton, A.B., M.A.—Critic Teacher in the George Hurst School and Instructor in Education
A.B., Mississippi State College for Women, 1931; M.A., Teachers College, Columbia University, 1945.

Jean Kubik Hooker, B.S., M.A.—Assistant Professor of Recreation
B.S., University of Colorado, 1950; M.S., Mississippi Southern College, 1953.

Bessie Cooper Hopkins, A.B., B.S., M.A., Ph.D.—Associate Professor of English
A.B., Whitworth College, 1909; B.S., Wesleyan College, 1910; A.B., Randolph-Macon Woman's College, 1912; graduate study, University of Mississippi and George Washington University; M.A., University of Alabama, 1948; study in creative writing, University of Oklahoma, 1950; study at Vanderbilt University, 1951; Ph.D., George Peabody College, 1957.

[2]Richard J. Hruby, B.A.—Assistant Professor of Economics
B.A., Baldwin-Wallace College, 1951; M.A., University of Virginia, 1952.

Joseph Huck, Mus.B., M.M.—Chairman of Piano Department and Associate Professor of Piano and Theory
Mus.B., American Conservatory, 1936; M.M., 1940; private piano tutelage under Andre Skalski, Leroy Campbell, Rudolph Reuter, Allen Spencer and Bruno Glade.

Ena Kay Hudson, B.S., M.L. — Reference Library Assistant and Instructor in Library Science

B.S., Mississippi State College for Women, 1950; M.L., Emory University, 1955.

George G. Hurst, B.S., M.A. — Assistant Professor of Chemistry

B.S., Mississippi Southern College, 1939; M.S., Tulane University, 1953.

[3]George Imbragulio, B.M., M.M. — Assistant Professor of Piano

B.M., and M.M., Michigan State University, 1948, 1949; private piano with Dr. Ernst Victor Wolff, related subjects with J. Murray Barbour and Owen Read; summer study, Aspen, Colorado, with Claudio Arrau and Rudolph Firkusny.

Francis Imgragulio, Mus.B., Mus.M. — Instructor in Piano

Mus.B., Mississippi Southern College, 1949; Mus.M., Michigan State University, 1951; further study at Florida State University and University of Michigan. Piano with Ernst Victor Wolff, Joseph Brinkman, and Edward Kilenyi. Piano and composition with Ernst van Dohnanyi.

Betty Jackson, A.B., Mus.M. — Assistant Professor of Organ and Theory and College Organist

A.B., Knox College, 1951; Mus.M., University of Michigan, 1955; Amsterdam Conservatory, 1957; organ student of Andre Wehrle, James Weddell, Robert Noehren, Anthon van de Horst, and Albert de Klerk; piano student of Guillaume Hesse; harpsichord student of Gustav Leonhardt.

Howard O. Jackson, B.S., M.A. — Assistant Professor of Business Education

B.S., Mississippi Southern College, 1949; M.A., 1955; graduate study, University of Alabama, 1956 and 1957.

Willery Jackson, A.B., M.A. — Assistant Professor of History

A.B., Mississippi State College for Women, 1921; M.A., Columbia University, 1927; graduate study, Columbia University, 1931-33.

Frances Roberta Jellinek, B.S., M.A. — Instructor in Health Physical Education and Recreation and Director of the Dixie Darlings

B.S., Brooklyn College, 1956; M.A., Mississippi Southern College, 1957.

Netta M. Jenkins, B.S. — Instructor in Institute of Latin-American Studies

B.S., Mississippi Southern College, 1932; graduate study, University of Mississippi, 1938, 1939.

M. C. Johnson, B.S., M.S. — Assistant Professor of Health and Physical Education and Director of Swimming Pool

B.S., Mississippi Southern College, 1941; M.S., Louisiana State University, 1948.

Roger B. Johnson, B.S., M.S. — Administrative Assistant

B.S., Mississippi State College, 1938; M.S., 1949.

Sarah S. Johnson, A.B., M.A. — Instructor in Foreign Languages

A.B., University of South Carolina, 1927; M.A., 1928; study at Institute de Touraine, Tours, France, 1929; Escuela Normal Superior, Bogota, Columbia, 1950; Purdue University, 1952; Sorbonne, University of Paris, 1955.

Minnie Evelyn Jones, B.S. — Instructor in Mathematics

B.S., Mississippi Southern College, 1957; graduate study, 1957-58.

Emily Peyton Jones, B.S., M.A. — Professor Emeritus of Education

B.S., George Peabody College, 1918; M.A., Teachers College, Columbia University, 1924; graduate study, 1936; graduate study, University of Southern California, 1937.

Bryce D. Jordan, B.S., M.P.A. — Assistant Professor of Economics

B.S., Mississippi State College, 1950; M.P.A., Harvard University, 1954.

Billy Karolyi, B.S., M.A. — Instructor in Mathematics

B.S., Mississippi Southern College, 1955; M.A., 1957.

Arthell Kelley, B.S., M.A., Ph.D. — Chairman of Department of Geography and Professor of Geography

B.S., Mississippi Southern College, 1940; M.A., University of Missouri, 1948; Ph.D., University of Nebraska, 1954.

Murray W. Kenna, B.S., M.A., Ed.D. — Registrar and Associate Professor of Education

A.B., University of Mississippi, 1936; M.A., Mississippi Southern College, 1950; Ed.D., Indiana University, 1957.

John M. King, B.S., M.A. — Director of George Hurst School and Associate Professor of Education

B.S., Mississippi Southern College, 1928; M.A., University of Mississippi 1938; graduate study, George Peabody College, 1942; Colorado State College.

Sheriff L. Knight, A.B., M.A., Ed.D. — Director of Audio-Visual Education and Associate Professor of Education

A.B., Southwestern, 1938; M.A., Mississippi Southern College, 1950; Ed.D., Indiana University, 1952.

John Lambert, B.S. — Part-time Instructor in Chemistry Laboratory

B.S., Mississippi State College, 1956.

Norvin L. Landskov, A.B., M.A., Ph.D. — Chairman of Department of Secondary School Education, Director of Student Teaching, and Professor of Education

A.B., St. Olaf College, 1926; M.A., Unversity of Minnesota, 1934; Ph.D., 1946.

Charles E. Lane, Jr., B.S., Ph.D. — Chairman of Department of Chemistry and Professor of Chemistry

B.S., University of Chicago, 1926; Ph.D., 1933.

Pearl Reynolds Leech, A.B., M.A. — Critic Teacher in George Hurst School and Instructor in Education

A.B., University of Mississippi, 1938; M.A., George Peabody College, 1945; summer study, University of Chicago, 1948, 1952, 1954.

Fred B. Lewis, Jr. — Head Basketball Coach and Associate Professor of Health and Physical Education

B.S, Eastern Kentucky, 1946 M.A., New York University, 1952; pre-doctoral work, New York University.

Noyes B. Livingston, B.Pd., A.B., B.S., M.Ed. — Assistant Professor of Geology

B.Pd., University of Tulsa, 1916; A.B., 1917; B.S., Texas College of Arts and Industries, 1949; M.Ed., University of Texas, 1947; graduate study, Texas College of Arts and Industries, 1941-1943, 1947-1949; Texas Technological College 1948-1949; University of Chicago, 1949; University of Texas, 1945-1947 and 1949-1952.

Walter J. Lok, B.Des., M.Des. — Chairman of Art Department and Assistant Professor of Art

B.Des., University of Michigan, 1943; M.Des., 1947; summer study, Mexico City College,

R. G. Lowrey, B.S., M.A., Ph.D. — Professor of English

B.S., Mississippi College, 1918; M.A., George Peabody College, 1922; Ph.D., 1927.

Aubrey Keith Lucas, B.S., M.A — Director of Admissions and Instructor in Psychology

B.S., Mississippi Southern College, 1955; M.A., 1956.

Toxie H. Luckey, B.S. — Instructor in Mathematics

B.S., Mississippi Southern College, 1952.

Jack Lawrence Lyall, B.F.A, M.A., Ed.D. — Director of Choral Activities and Professor of Music and Music Education

B.F.A., Oklahoma A. & M. College, 1940; M.A., Teachers College, Columbia University, 1947; Ed.D., Teachers College, Columbia University, 1952.

Robert L. McCroskey, B.S., M.A., Ph.D. ..... Associate Professor of Speech and Assistant Director of Speech and Hearing Clinic

B.S., Ohio State University, 1948; M.A., 1952; Ph.D., 1956.

Helen Janet McDonald, Mus.B., M.M. ..... Associate Professor of Violin, Piano and Music Education

Mus.B., Chicago Musical College, 1932; M.M., 1949; graduate student,, University of Michigan, 1944; Chicago Musical College, 1946; student of Leon Sametini, Paul Stassevitch, Gilbert Ross (violin); Gustav Dunkleberger, Wesley LaViolette, Max Wald (theory); David Mattern, Roxy Cowan, Rose Marie Grentzer, John C. Kendall (music education); Rudolph Ganz, Hans Rosenwald (music literature).

Sallie Stevens McLemore, B.S., M.A. ..... Critic Teacher Emeritus in George Hurst School and Instructor in Education

B.S., George Peabody College, 1926; M.A., 1931; graduate study, University of California, 1944.

Carl L. McQuagge, B.S., M.A., Ed.D. ..... Associate Professor of Educational Administration

B.S., Mississippi Southern College, 1932; M.A., University of Mississippi, 1947; Ed.D., University of Texas, 1954.

Robert E. Macklin, Captain, U.S.A., B.S. ..... Assistant Professor of Military Science and Tactics

B.S., U. S. Military Academy, 1951.

Thomas B. Maclin, A.B., M.A. ..... Assistant Professor of Speech and Director of Radio-Television

A.B., University of Arkansas, 1952; M.A., 1954; graduate study, University of Oklahoma.

Mary Jo Magee, A.B., B.S. in L.S. ..... Assistant Professor and Assistant Librarian

A.B., Louisiana Polytechnic Institute, 1943; B.S. in L.S., George Peabody College, 1946.

Raymond Mannoni, B. S., B.M., M.M.Ed., D.M.Ed. .. Chairman of Department of Instrumental Music, Director ~~of~~ Bands and Professorr of Music

B.S., Kansas State College, 1944; B.M., University of Michigan, 1947; M.M.Ed., Northwestern University, 1949; D.M.Ed., Chicago Musical College, 1955; study U. S. Navy School of Music, 1941-43; University of Chicago, 1950; Kansas University, 1946.

Frank Earl Marsh, Jr., Mus.B., M.A. ..... Chairman of Division of Fine Arts and Professor of Music

Mus.B., New England Conservatory of Music, 1916; M.A., Syracuse University, 1926; student of Senor Alberto Jones, Dr. Adolf Frey, Kurt Fischer, Ethel Newcomz, Arthur Newstead, George W. Chadwick, F. Stuart Mason, Dr. William Berwald, Dr. Frank Sill Rogers.

Gilmore Harold Massey, B.S., M.A., Ed.D. ..... Director of Student Counseling and Associate Professor of Education

B.S., Alabama Polytechnic Institute, 1944; M.A., George Peabody College, 1946; Ed.D., Texas Technological College, 1956.

J. Lloyd Milam, A.B., M.A., Ed.D. ..... Chairman of Department of Health, Physical Education, and Recreation and Professor of Health and Physical Education

A.B., Louisiana Institute of Technology, 1936; M.A., Columbia University, 1940; Ed.D., 1950.

Leo R. Miller, B.S.Ed., M.S.Ed., Ed.D. ..... Chairman of Department of Elementary Education and Professor of Elementary Education

B.S.Ed., Missouri Teachers College, 1935; M.S.Ed., University of Kansas, 1939; Ed.D., Pennsylvania State College, 1945.

Winfred Harmon Moncrief, B.S.—Part-time Instructor in Journalism
B.S., Mississippi Southern College, 1951.

Charles Moorman, A.B., M.A., Ph.D.— Chairman of Department of English and Literature and Professor of English
B.A., Kenyon College, 1949; M.A., Tulane University, 1951; Ph.D., 1953.

Paul C. Morgan, A.B., M.S., Ed.D. Director of Extension and Correspondence and Evening College and Professor of Education
A.B. Louisiana State University, 1931; M.S., Alabama Polytechnic Institute, 1937; Ed.D., George Peabody College, 1956.

Jack D. Munn, B.S., M.A.— Assistant Professor of Mathematics
B.S., Mississippi Southern College, 1949; M.A., University of Alabama, 1950; Oklahoma A&M, summer, 1955.

Ray S. Musgrave, A.B., M.A., Ph.D. Chairman of Department of Psychology and Professor of Psychology
A.B., Bethany College, 1933; M.A., Ohio Wesleyan College, 1935; Ph.D., Syracuse University, 1937; Post Doctoral, University of Cincinnati, 1946; Columbia University, 1950-51.

Warren B. Nation, B.S., M.B.A. Ph.D. Chairman of Department of Marketing and Professor of Marketing
B.S., Mississippi Southern College, 1949; M.B.A., University of Mississippi, 1950; Ph.D., University of Alabama, 1957.

John F. Nau, B.D., M.A., Ph.D.—Chairman of Department of Religion and Philosophy and Professor of Religion and Philosophy and Director of Student Christian Federation
B.D., Concorda Seminary, 1936; M.A., Tulane University, 1948; Ph.D., University of South Carolina, 1954.

George Wilson Nicholson, B.S., M.A., LL.B., Ph.D.—Professor of Mathematics
B.S., The Citadel, 1919; M.A., LL.B., University of South Carolina, 1922; Ph.D., University of North Carolina, 1933.

Holgar J. Nyholm, B.S.—Instructor in Geology
B.S., University of Alabama, 1940; graduate study, summer, 1950, 1951. 1952.

Ellen Marie Olson, BS., M.A.—Critic Teacher in George Hurst School and Instructor in Education
B.S., Mississippi Southern College, 1942; M.A., 1950.

Linwood E. Orange, B.A., M.A., Ph.D.—Associate Professor of English
A.B., Duke University, 1947; M.A., 1948; Ph.D., 1955.

Arthur Reis Orgel, B.S., M.S., Ph.D.—Instructor in Psychology in Extension
B.S., Rugters University, 1951; M.S., Florida State University, 1953; Ph.D., 1956.

Fannie Owings, B.S., M.S.—Assistant Professor of Home Economics
B.S., Mississippi Southern College, 1928; M.S., University of Tennessee, 1935; graduate study, University of Kentucky, summer, 1949.

Ralph S. Owings, A.B., M.A., Ed.D.—Chairman of Department of Educational Administration and Professor of Educational Administration
A.B., Wofford College, 1924; M.A., 1935; M.A., Teachers College, Columbia University, 1940; Ed.D., 1949.

Edson C. Perry, B.M., M.M.—Instructor in Strings in Extension
B.M., Stetson University, 1952; M.M., Louisiana State University, 1954.

[4]Robert W. Peters, B.A., M.A., Ph.D. — Director of Speech and Hearing Clinic and Professor of Speech

A.B., University of Minnesota, 1948; M.A., Ohio State University, 1950; Ph.D., 1953.

Mildred Wade Phelps, B.M., M.M., Ph.D. — Part-time Assistant Professor of Music

B.M., Stetson University, 1941; M.M., Northwestern University, 1947; Ph.D., State University of Iowa, 1951.

Roger P. Phelps, Mus.B., Mus.M., Ph.D. — Chairman of Music Education and Associate Professor of Music Education, Woodwinds, and Musicology
Director of College-Civic Symphony

Mus.B., Eastman School of Music, 1941; Mus.M., Northwestern University, 1947; Ph.D., State University of Iowa, 1951; student of Dr. Anne E. Pierce, Dr. John W. Beattie (music education); Albert T. Luper (musicology); Karl D. Van Hoesen (conducting); Robert Spprenkle, Francis Napolilli, Frank Malewski (oboe); Dr. Thomas C. Collins (bassoon); Dorothy White (flute); Himie Voxman (clarinet).

William Presser, A.B., Mus.M., Ph.D. — Chairman of Theory Department, Assistant Professor of Theory and Music Composition, and Co-Conductor of College-Civic Symphony Orchestra

A.B., Alma College, 1938; Mus.M., University of Michigon, 1940; Ph.D., University of Rochester, 1947; composition with Gardner Read, Burrill Phillips, Bernard Rogers, Roy Harris; conducting with Thor Johnson, Herman Genhart, Paul White, Guy Fraser Harrison, Pierre Monteux.

M. Benjamin Puyper, B.S., M.A. — Instructor in Accounting

B.S., Mississippi Southern College; M.A., 1957.

Frances Reck, B.S., M.A. — Assistant Professor of Business Education

B.S., Kansas State Teachers College, 1930; M.A., State University of Iowa. 1935.

Reginald C. Reindorp, A.B., M.A., Ph.D. — Director of Institute of Latin-American Studies and Professor of Foreign Languages

A.B., University of New Mexico, 1931; M.A., 1932; Ph.D., University of Texas, 1949.

[3]Richard D. Robbins, B.S., M.A. — Instructor in Mathematics

B.S., Mississippi Southern College, 1950; M.A., 1951.

Anna M. Roberts, A.B., M.A., B.S. in L.S. — Librarian and Professor of Library Science

A.B., Vanderbilt University, 1920; M.A., 1922; B.S. in L.S., University of Illinois, 1933; graduate study, University of Chicago Graduate Library School, 1938.

Samuel W. Rosso, A.B., M.A., — Instructor in Biology

A.B., Mississippi Southern College, 1950; M.S., Louisiana State University, 1952; graduate study, 1957.
1952.

Gilbert T. Saetre, B.S., M.A. in Mus.Ed. — Associate Professor of Music Education

B.S., New York University, 1930; M.A. in Mus.Ed., 1940; graduate study in higher education; study at Juilliard School of Music, summer 1945; student of Hollis Dann, John Warren Erb, Hugh Ross (conducting); Alfred Friese (percussion); Hollis Dann, William D. Revelli, Samuel T. Burns (music education).

W. F. St. Clair, B.S., M.A. — Acting Chairman of Department of Physics and Astronomy
and Assistant Professor of Physics and Astronomy

B.S., University of Florida, 1938; M.A., University of Alabama, 1940; graduate study, summer 1949, 1950-51 and 1952-53.

[3]William M. Sanders, B.S.Ed., M.A. — Instructor in Mathematics
B.S.Ed., Arkansas State Teachers College, 1949; M.A., University of Arkansas, 1952.

Joseph A. Santa Cruz, B.S., M.A. — Instructor in Business Administration
B.S., Mississippi Southern College, 1952; M.A., Mississippi Southern College, 1954.

Philip Earl Slade, B.A., M.S., Ph.D. — Associate Professor of Chemistry
B.A., Mississippi Southern College, 1951; M.S., Tulane University, 1953, Ph.D., 1955.

Gaston Smith, BS., M.A. — Assistant Professor of Mathematics
B.S., Mississippi Southern College, 1949; M.A. in Ed., University of Aabama, 1955; M.A., 1957; graduate study, summer, 1957.

Maude Virginia Smith, A.B., M.A. — Circulation Librarian and Assistant Professor of Library Science
A.B., Mississippi State College for Women, 1931; M.A., George Peabody College, 1951

Elizabeth Sorbet, B.A., M.A. — Assistant Professor of Marketing
B.A., Louisiana State Normal, 1941; M.A., George Peabody College, 1943; graduate study, Louisiana State University.

Alfrieda Sorrels, B.S. — Assistant Circulation Librarian
B.S., Mississippi Southern College, 1957.

William Jacob Sowder, B.S., M.A., Ph.D. — Associate Professor of English
B.S., Virginia Polytechnic Institute, 1938; M.A., University of Virginia, 1949; Ph.D., University of Kentucky, 1956.

Ralph C. Staiger, A.B., M.A., Ed.D. — Director of Reading Clinic and Professor of Psychology
A.B., Columbia University, 1939; M.A., Teachers College, Columbia University, 1942; Ed.D., Temple University, 1952.

O. C. Steede, B.S., M.A. — Assistant Professor of Education in Extension
B.S., Mississippi Southern College, 1929; M.A., George Peabody College, 1939; graduate study, 1946.

Martin Stegenga, B.S., M.S. — Acting Chairman of Business Education Department and Assistant Professor of Business Education
B,S., Mssissippi State College, 1937; M.S., 1939; graduate study, Indiana University, 1952-54, 1957.

Emma Helen Stewart, B.A., M.A. — Instructor in Institute of Latin-American Studies
B.A., Mississippi Southern College, 1950; M.A., Scarritt College, 1953.

Leonard Stocker, A.B., M.A. — Chairman of Voice Department and Assistant Professor of Voice
A.B., University of Michigan, 1933; M.A., Teachers College, Columbia University, 1950; student of Francis Rogers, Arthur Gerry and Georges Maugiere—voice; Leo Rosenek (Vienna) and Camille DeCreus (Paris)—song literature; Riccardo Dellera—opera repertoire; Josef Turnau—operatice acting; Thomas Wood Stevens and Thomas Kozelka—play production.

Jack H. Stocker, B.S., M.S., Ph.D. — Associate Professor of Chemistry
B.S., Olivet College, 1944; M.S., University of Indiana, 1947; Ph.D., Tulane University, 1955; post-doctroal, Tulane University, 1955; Heidelberg, Germany, 1955-56.

Wilbur White Stout, A.B., M.A., Ph.D. — Professor of English
A.B., University of North Carolina, 1921; M.A., 1922; Ph.D., 1926.

C. E. Stuart, B.S. — Assistant Athletic Coach and Instructor in Physical Education
B.S., Mississippi State College, 1928.

[2]Esther Jane Swartzfager, B.A., M.A. — Instructor in English
B.A., Southwestern at Memphis, 1955; M.A., Ohio University, 1957.

James R. Switzer, B.S., M.S., Ed.D.—Dean of Student Affairs and Professor of Health and Physical Education

B.S., Mississippi Southern College, 1941; M.S., Louisiana State University, 1947; Ed.D., University of Texas, 1952.

C. J. Taylor, B.S.—Assistant Football Coach and Track Coach and Instructor in Physical Education

B.S., Mississippi Southern College, 1947.

Van B. Temple, B.S., M.A.—Visiting Associate Professor of Mathematics

B.S., Mississippi College, 1916; M.A., University of Texas, 1930; graduate study, Louisiana State University, 1937-38.

Ernestine Thomae, A.B., M.A.—Assistant Professor of English

A.B., Mississippi State College for Women, 1914; M.A., George Peabody College, 1926; graduate study, 1930.

Orville Thomas, B.S., M.A.—Assistant Professor of Industrial Arts

B.S., Mississippi Southern College, 1937; M.A., University of Alabama, 1949.

Amelia Thompson, B.S., M.S.—Assistant Professor of Home Economics

B.S Judson College, 1916; M.S., University of Tennessee, 1938.

James A. Townley, B.S., M.A.—Instructor in Health and Physical Education

B.S., Mississippi Southern College, 1952; M.A., 1953.

Robert M. Treser, B.S., M.F.A.—Instructor in Speech and Associate Director of Theatre

B.S., Lehigh University, 1945; M.F.A. University of Oklahoma, 1953.

[1]Henry Granthum Turner, B.S., M.A.—Assistant Professor of Business Administration

B.S., University of Pennsylvania, 1926; M.A., Columbia University, 1929.

[3]Barry D. Valentine, B.S., M.S.—Assistant Professor of Biological Sciences

B.S., University of Alabama, 1951; M.S., 1953; graduate study, Harvard University, 1953-54.

B. O. Van Hook, A.B., M.A.—Chairman of Department of Mathematics and Professor of Mathematics

A.B., Millsaps College, 1918; M.A., Vanderbilt University, 1922; graduate study, Duke University, 1934-1936.

Thad Vann, B.S.—Head Athletic Coach

B.S., University of Mississippi, 1929.

Elizabeth Vardaman, AB., M.A., M.A. in L.S.—Periodicals Librarian and Assistant Professor

A.B., University of Mississippi, 1925; M.A., 1933; M.A. in L.S., George Peabody College, 1952.

F. A. Varrelman, A.B., M.A.—Associate Professor of Biology

A.B., University of California, 1914; M.A., Columbia University, 1922; graduate student, Missouri Botanical Gardens; New York Botanical Gardens; University of Chicago; University of Vienna, Austria; and Vienna Botanical Gardens.

J. Fred Walker, A.B., M.A., Ph.D.—Chairman of Department of Biology and Professor of Biology

A.B., University of Mississippi, 1927; M.S., 1931; Ph.D., University of Iowa, 1935; Graduate Fellow, University of Miami Laboratory, summer, 1957.

Philip A. Walker, A.B., M.A., Ph.D.—Associate Professor of History

A.B., University of North Carolina, 1940; M.A., Emory University, 1942; Ph.D., University of North Carolina, 1955.

Carrie Lee Warren, B.S., M.Ed. Chairman of Physical Education for Women and Assistant Professor of Health and Physical Education
B.S., Louisiana State University, 1947; M.Ed., University of Texas, 1955; graduate study, University of North Carolina, 1956-57.

Allie M. Webb, A.B., M.A. Assistant Professor of English
A.B., Mississippi State College for Women, 1922; M.A., Teachers College, Columbia University, 1928; graduate study, University of North Carolina, 1936, 1938, 1940; Breadloaf School of English, summer, 1957.

Martin Paul Wehling, B.A., M.B.A. Assistant Professor of Business Administration
B.A., University of Alabama, 1956; M.B.A., University of Mississippi, 1957; graduate study, summer 1957.

William J. Weiersheuser, A.B., M.A., Ph.D. Assistant Professor of Foreign Languages
A.B., Wayne State Teachers College, 1910; M.A., University of Nebraska, 1936; Ph.D., University of Iowa, 1955.

Mollie Jane Welborn, B.S., M.A. Acting Instructor in Business Education
B.S., Mississippi Southern College, 1955; M.A., 1956.

Minnie Patton White, B.S., M.S. Assistant Professor of Home Economics
B.S., George Peabody College, 1928; M.S., University of Tennessee, 1941; graduate study, Ohio State University, 1946; Cornell, 1948; Southern Methodist University, 1953.

Ivah O. Wilber, B.S., M.A. Associate Dean of Women
B.S., Michigan State Normal College, 1921; M.A., University of Mississippi, 1945.

Leon A. Wilber, A.B., M.A., Ph.D. Chairman of Department of History and Government and Professor of History and Government
A.B., University of Michigan, 1927; M.A., 1929; Ph.D., 1939.

Annette Bedford Wilder, A.B., M.A. Assistant Professor and Assistant in Library
A.B., Mississippi Woman's College, 1929; M.A., George Peabody College, 1948.

Albert F. Wilson, Jr., Major, U.S.A., B.S. Assistant Professor of Military Science and Tactics
B.S., Roanoke College, 1940.

Robert A. Woodmansee, B.S., M.S., Ph.D. Associate Professor of Biology
B.S., University of Miami, 1948; M.S., 1949; PhD., Western Reserve University, 1952.

Walter H. Yarrow, B.S., M.A Assistant Professor of Health and Physical Education
B.S., Mississippi Southern College, 1950; M.A., 1951; graduate study, Rutgers University, 1954.

[1]Carolyn Herrington Yates, B.S. Instructor in English
B.S., Mississippi Southern College, 1957.

[1]Resigned during 1957-58 academic year.
[2]Appointed during 1957-58 academic year.
[3]Leave-of-absonce, 1957-58
[4]Leave-of-absence during part of 1957-58 academic year.

## GRADUATE FELLOWS

| | |
|---|---|
| Berl Bolt | Business Education |
| Patricia Ann Childers | Social Studies |
| Robert P. Clapp | Health and Physical Education |
| Doyle L. Clinton | Language |
| James E. Cole | Recreation |
| Betty Jo Coyier | Journalism |
| Denson Deavers | Industrial Arts |
| Larry Elliott | Music |
| Shadworth Elmore | Business Education |
| Marye Charlza Garner | Speech |
| Jack T. Geiger | Speech |
| Mary Elaine Graves | Business Education |
| Billy Ray Keys | Health and Physical Education |
| Marilyn Lane | English |
| Kenneth McCarty | Social Studies |
| Dana McKinnon | English |
| Juanita McMillon | Home Economics |
| Richard Mendenhall | Social Studies |
| Roland W. Oesterreich | Speech |
| Stanley E. Peacher | Biology |
| Charles A. Reynolds | Mathematics |
| Marianna Simmons | English |
| Billy B. Slay | Health and Physical Education |
| Billy Paul Stuart | Music |
| Glenn Swetman | English |
| Kearney Travis | English |
| Milton Turney | Speech |
| Gerard Wagner | Speech |
| Mary Blanche West | Health and Physical Education |
| William Lloyd Womack | Social Studies |

## STAFF MEMBERS

| | |
|---|---|
| Carrie Cleveland | Dormitory Hostess, East Stadium |
| Louie Farmer, Jr., Th.M. M.R.E., B.A. | B. S. U. Director |
| Paul Gillis | Director of Newman Club |
| Jesse Gore | Manager, College Book Store |
| Wallace Gordan, B.S. | Superintendent of Grounds |
| Margaret Hartfield, B.S. | Secretary to Dean of the College |
| Myra Hickman | Director of Housekeeping |
| W. J. Huddleston, M.D. | Director of Student Health Service |
| A. J. Jaeger, B.B.A. | Assistant Financial Secretary |
| Cullie Kilpatrick | Dormitory Hostess, Hickman Hall |
| Joy S. Luckey | Dormitory Hostess, McMillin Hall |
| Dora McCarver | Dormitory Hostess, Substitute |
| H. C. McLeod, M.D. | College Physician |
| Agnes Magee | Dormitory Hostess, Mississippi Hall |
| Maurice L. Malone, B.S. | Purchasing Agent |
| Jessie Morrison, B.S. | Secretary to the President |
| Donald H. Myers | Assistant Director of Public Relations |
| Denson Napier, B.S., B.D. | Director of Wesley Foundation |
| Donna Nydegger | Chairman, Student Welfare, Institute of Latin-American Studies |
| Richard A. Park, B.S., S.T.B. | Director of Canterbury Club |
| Mary Parker | Coordinator of Veterans Affairs |
| George T. Preer, B.A., M.A., B.D., Ph.D. | Director of Westminster Fellowship |
| John T. Reiter | Director of Public Safety |
| Kenneth Simons | Supervisor of Machine Services |
| Kenneth E. Smith, B.B.A. | Chief Accountant |
| Martin H. Stemme | Director of Property Inventory |
| Harry M. Thomas, B.S., M.A. | Director of Buildings |
| Lissa Weeks | Dormitory Hostess, Bolton Hall |
| Annette Weems | Recorder, Registrar's Office |
| Rhoda Williams | Postal Supervisor |
| Lindley Williams, B.S. | Director of College Cafeteria |
| Pauline Wilson | Dormitory Hostess, Hattiesburg Hall |
| Nell Yarrow | Dormitory Hotess, Forrest County Hall |

# *FACULTY COMMITTTEES, 1957-58

**Academic Council:** McCain, Allen, Bigelow, J. T. Davis, Dowell, Forbes, Fortune, Fritzsche, Greene, Kenna, Marsh, Milam, Moorman, Morgan, Musgrave, Nation, Roberts, Stegenga.

**Academic Honors:** L. A. Wilber, Barnes, Bigelow, Easterling, Fortune, Greene, Kenna, Landskov, Lane, R. Phelps, Weiersheuser.

**Administrative Council:** McCain, Allen, Bigelow, Brandes, Burns, Clegg, Cleveland, Dale, Easterling, Fortune, Frazier, Fritzsche, Gough, Green, Greene, R. B. Johnson, Kenna, King, Lane, Lenoir, Lucas, Marsh, Milam, Moorman, Morgan, Ogletree, Reindorp, Roberts, Smalling, Switzer, J. F. Walker, L. A. Wilber.

**Admissions (Undergraduate):** Lucas, Allen, Bigelow, Clegg, Fortune, Greene, Kenna, Ivah Wilber.

**Admissions (Graduate):** Lucas, Allen, Bigelow, Fortune, Greene, Kenna.

**Art:** Lok, Ambrose, Baylis, Benner, D'Olive, Gonzales, Jack Stocker.

**Artist Series:** Marsh, Allen, Eide, Hartwig, Hinds, Huck, Lyall, McDonald, Orange, Phelps, Roberts, Saetre, J. Stocker, Stout.

**Assembly Programs:** Allen, Ball, Clegg, Gough, Hartwig, Hill, B. Jackson, Lyall, Marsh, Moorman, Nau, Christian Federation President, Student Body President.

**Athletics:** Milam, J. T. Davis, Miller, Smalling, Switzer.

**Calendar:** Fortune, Allen, Bigelow, Fritzsche, Gough, Green, Greene, Kenna, King, Lucas, Marsh, Morgan, Reindorp, Staiger, J. Stocker, Switzer.

**Career Day:** Lucas, Brandes, Clegg, Cleveland, Dale, DeVries, Ewell, Fritzsche, Gough, Greene, Hartwig, Hays, Hooker, Hurst, Kenna, Lane, Mannoni, Saetre, Switzer, F. Walker.

**Catalogue:** Kenna, Allen, Bigelow, Clegg, Fortune, Greene, Lucas, Moorman, Smalling.

**Certificates and Graduation:** Kenna, George, Greene, Lok, Morgan, Slade, J. F. Walker, L. A. Wilber.

**Christian Federation:** Nau, Anderson, Barnett, Dowell, Farmer, Felder, George, Gough, Harmon, Hopkins, M. C. Johnson, Magee, Napier, Preer, Reck, Taylor, Thomae, J. F. Walker, L. A. Wilber.

**College Press:** Burrus, Buckley, Dowell, Fike, Foote, Moorman, Stegenga, Varrelman.

**College Union:** Switzer, Gough, Grantham, Hartwig, Hays, Hooker, Ogletree, Interfraternity Council President, Panhellenic Council President, Student Government 1st Vice-President, Student Government 2nd Vice-President, I. O. Wilber.

**Commencement:** Fortune, Allen, Bigelow, J. Dale, Easterling, Fritzsche, Greene, R. B. Johnson, Kenna, Lok, Marsh, Ogletree, R. Phelps, Smalling, Stout, I. O. Wilber, L. A. Wilber, Officers of the Senior Class.

**Community Charities:** King, Burrus, L. Eubanks, Forbes, Flynt, Maclin, Milam, Munn, St. Clair, L. Stocker, O. Thomas, Thompson, Warren.

**Correspondence Instruction:** Morgan, Boroughs, Bigelow, Ewell, Gonzales, W. Jackson, Landskov, Miller, Musgrave, Webb, Yarrow.

**Credits:** Allen, Bigelow, J. T. Davis, Easterling, Fortune, Gill, Greene, Hartwig, Kenna, Musgrave, J. Stocker, Varrelman, Warren, Webb, (Chairman elected).

**Extension:** Morgan, Bigelow, Boroughs, Brandes, Crockett, DiGuilian, Greene, Munn, Nation, Steede, Van Hook.

**Foreign Films:** Burks, Crohn, Frascarelli, Gonzales, Orange, Presser, Treser, P. Walker, Weiersheuser.

**Foreign Students Advisory:** Reindorp, Allen, Burks, Clegg, Kenna, Massey, Varrelman, Weiersheuser.

**Fraternities and Sororities:** Clegg, Benner, Burrus, Chase, Felder, Gough, Hopkins, W. Jackson, Munn, Musgrave, Roberts, Switzer, O. Thomas, P. A. Walker, I. O. Wilber.

**Graduate Council:** Fortune, Allen, Bigelow, Burks, Boroughs, Fritzsche, Greene, Jordan, Kenna, McQuagge, Marsh, Milam, Nation, Stegenga, J. F. Walker, L. Wilber.

**Graduate Fellowships:** Fortune, Hartwig, R. Phelps, Moorman, Musgrave, Stegenga.

**Health:** M. C. Johnson, Baley, Broxton, Clegg, Frazier, Gill, Gough, Huddleston, Smalling, Switzer, J. F. Walker, Warren, Weeks.

**Housing:** Smalling, Green, Gough, Hagenson, Jaeger, R. B. Johnson, Kenna, Moorman, Switzer, I. O. Wilber.

**Library:** Roberts, Allen, Bigelow, Brandes, DeVries, Fike, Fortune, Fritzsche, Gonzales, Greene, Lane, Moorman, Musgrave, R. Owings, R. Phelps, Stegenga, Van Hook, L. Wilber, Woodmansee.

**Orientation:** Massey, Allen, Barnes, Boroughs, Clegg, Gough, Kenna, Lucas, Moorman, Smalling, Staiger, Switzer, I. O. Wilber.

**Placement Bureau:** Lenoir, Barnett, Baley, Bigelow, DeVries, Forbes, Greene, Hinds, Jordan, Landskov, Lowrey, Massey, Milam, Smith, Stegenga, Treser, J. F. Walker, Wehling, L. A. Wilber.

**Publications:** Barnes, Buckley, Burrus, Lok, Lowrey, Moorman, R. Owings, Sorbet, Webb.

**Public Relations:** Cleveland, Buckley, Green, R. Johnson, Lyall, Lewis, Maclin, Mannoni, Marsh, Morgan, Myers, Slade, Smalling.

**Registration:** Kenna, Allen, Bigelow, Easterling, Fortune, Greene, Jaeger, M. C. Johnson, Lucas, Morgan, Reindorp, Simons, Smalling, Switzer.

**Registration in Extension:** Morgan, Kenna, Lucas, Smalling.

**Research:** J. T. Davis, Barnes, Bigelow, Burrus, Chase, Dowell, Easterling, Fike, Fritzsche, Gonzales, Kelly, Lane, McQuagge, Milam, Moorman, Nicholson, R. Owings, R. Phelps, Woodmansee.

**Schedule Committee:** Fortune, Allen, Barnett, Bigelow, Brandes, Greene, Moorman, Morgan, Musgrave, R. Phelps, Stegenga, Van Hook.

**Scholarship Standards:** Switzer, Allen, Broxton, Clegg, DeVries, Dowell, Easterling, Fortune, Gough, Hartwig, H. Jackson, Kelley, Kenna, Lane, Lok, Massey, Moorman, McQuagge, Nicholson, R. Phelps, Staiger, Thompson, P. A. Walker, L. A. Wilber, I. O. Wilber.

**Speakers' Bureau:** Nau, Brandes, Dowell, Miller, Rosso, Varrelman.

**Special Education:** Bigelow, Brandes, Broxton, Burns, McCroskey, Miller, Peters, Staiger.

**Student Aid and Scholarships:** Switzer, Anderson, Clegg, Fortune, Greene, Jaeger, R. B. Johnson, Kelley, Lane, Lucas, Mannoni, Marsh, Nicholson, Ogletree, J. Stocker, I. O. Wilber.

**Student Enrollment:** Lucas, O. Brown, Buckley, Coleman, J. T. Davis, L. Eubanks, Gill, Hopkins, Kenna, Mannoni, Marsh, Nau, Ogletree, Van Hook.

**Student Social Life:** Grantham, Clegg, Coleman, J. T. Davis, Gough, Hooker, Hopkins, McCroskey, Swartzfager, Switzer, I. O. Wilber, President of Panhellenic Council, President of Interfraternity Council, First Vice-President of Student Government Association, Second Vice-President of Student Government Association, Social Chairman of Student Government Association, Chairman of College Union Activities Committee.

**Educational Television:** Morgan, Brandes, Cleveland, Harrisses, Hurst, Knight, Maclin, McCroskey, Nation, Stout.

**Testing:** Massey, Boroughs, Moorman, Musgrave, R. Phelps, Staiger, Switzer.

**Visual Education:** Knight, Ambrose, Burks, Burns, Frazier, Hurst, Orange, Townley, Wilber.

*The President of the College is an ex-officio member of all committees.
The person named first on each committee is chairman of the committee.

# GENERAL INFORMATION

## HISTORICAL

The obvious need for better-educated teachers for all public schools of Mississippi and the organized efforts of the State Teachers Association culminated during the legislative session of 1910 in an enabling act establishing the Mississippi Normal College. This victory of progressive and democratic leadership inspired the first Board of Trustees to make broad and far-reaching plans for the new institution. The generosity of Forrest County and Hattiesburg in offering $260,000 in cash, 840 acres of land, and other valuable considerations for the privilege of having the college located in Hattiesburg made it possible for the newly-elected president and the board to begin the construction of buildings.

In September, 1912, the college opened with an enrollment of 220 students. The course of study, prescribed by legislative enactment, consisted of a certificate course and a diploma course. The need for such an institution and the success with which it was fulfilling its purpose was evidenced by an increase in the enrollment from 220 in the regular session of 1912-13 to 791 during the regular session of 1915-16 and 894 during the 1916 summer session.

The rapid development of high schools called for a higher course of study at Mississippi Normal College, and in 1922 the legislature authorized the college to grant degrees. In 1924 the name was changed to State Teachers College, and by 1929 the diploma course was dropped, the old certificate course having been discontinued several years before. In 1928 the Home Economics Department was certified for the training of vocational home economics teachers. In 1934 the Board of Trustees authorized the degree of Bachelor of Music. In 1938 the Bachelor of Arts degree was authorized, and in 1940 the name of the institution was changed to Mississippi Southern College.

In 1947 the Board of Trustees of Institutions of Higher Learning in Mississippi authorized Mississippi Southern College to give one year of graduate work leading to the degree of Master of Arts in education. In 1951 the board authorized an additional year of graduate work leading to the degree of Master of Education.

Throughout its history Mississippi Southern College has made a continuing contribution to the development of the public schools of the state.

The expansion of existing departments and the addition of new ones, the employment of new faculty members with superior training, and the general raising of academic standards have all played a part in making Mississippi Southern College the modern institution it is today.

The following men have served as president of Mississippi Southern College:

Joseph Anderson Cook, A.B., 1912-1928

Claude Bennett, A.B., A.M., 1928-1933

Jennings Bryan George, B.S., Ph.D., 1933-1945

Robert Cecil Cook, B.S., M.A., Ed.D., 1945-1955

Richard Aubrey McLemore, A.B., M.A., Ph.D., Acting President, January 1 to September 1, 1955

William David McCain, B.S., M.A., Ph.D., 1955-

## PURPOSE OF THE COLLEGE

Mississippi Southern College was founded for the purpose of serving the people of Mississippi. Although this service has been mainly in the area of teacher education, the college offers outstanding courses in liberal arts, preprofessional fields, fine arts, and many practical fields of knowledge. The faculty, library, laboratories, classrooms, special clinics, and student welfare services are equal to those in other colleges and universities in the United States.

Although the college is primarily concerned with resident teaching, it reaches, through various extension centers, workshops, and correspondence courses, citizens in all parts of Mississippi and in various other parts of the world. It is estimated that during the 1953-54 session more than 7,200 different individuals were served by the college, both on the campus and off the campus.

The college is proud of the friendly relationship between students and faculty members, and an effort is made to work with students as individuals in their educational, social, and religious development.

The purposes of the college as developed by the administration and the faculty are as follows:

1. To have a highly trained faculty, an imaginative, sympathetic, and understanding administration, an efficient and cooperative staff, a wise and progressive Board of Trustees, loyal and active alumni, adequate equipment, and high academic standards.
2. To educate in the acquiring of knowledge, skills, disciplines, moral and ethical values and humanistic ideals and in the attaining of dignified, honest, and alert citizenship.
3. To base education on a sound and thorough understanding of the traditional and liberal areas of human knowledge.
4. To provide together with counseling and guidance, a well-rounded program of activities for the purpose of developing in each student a well-balanced personality.
5. To provide areas of developments in professional and vocational education in accordance with facilities of the college.
6. To develop in students the highest types of social graces.
7. To give each student an understanding of the nature and the fundamental problems of the physical world in which he lives and the moral and intellectual knowledge that will enable him to adjust himself to, or change, the environment in which he lives.

## THE CAMPUS

Mississippi Southern College is located in Hattiesburg, near the center of South Mississippi. Excellent air, rail, and bus transportation services and a splendid highway system make it easily accessible to all parts of the state. The City of Hattiesburg provides excellent religious, social, recreational and shopping facilities for the college student. Buses run from the heart of the city to the campus every fifteen minutes.

The college campus consists of 840 acres, 200 of which lie within the city limits of Hattiesburg. Included on the main campus are the principal buildings of the college, the playing fields, and a nine hole golf course. The campus buildings are conveniently located, and the grounds are beautifully landscaped. In addition to the permanent buildings listed below,

there is a veterans' village, including 67 apartments, and there are two temporary buildings used for instructional purposes.

**The Administration Building** is a beautiful structure located at the center of the campus. It houses the offices of the president, dean of the college and Graduate School, dean of School of Arts and Sciences, financial secretary, registrar, director of admission, director of public relations, placement bureau and machine record services.

**The Auditorium** has a seating capacity of 1536 and stage facilities for dramatic productions.

**College Hall** is a three-story fireproof building containing recitation rooms and offices.

**Science Hall** is a three-story fireproof building containing classrooms and laboratories especially designed for science and commerce. It also houses in the basement the college bookstore and post office. A two-story annex contains offices of the dean of student welfare dean of women, dean of men, and the Placement Bureau. On the second floor is a small air conditioned auditorium seating 200.

**The Health and Physical Education Building** is a new, modern two-story brick building specially planned for departmental offices, classrooms, and women's physical education activities.

**The Sports Arena** is a modern brick-veneered building with 20,000 square fee of floor space. Folding bleachers make the total floor space usuable. The building is used for major sports activities and for men's physical education classes.

**The Field House** is a new, modern brick building containing athletic department offices, dressing rooms for varsity sports and visiting teams, and facilities for class instruction in varsity sport.

**The Industrial Arts Building**, a two-story brick structure, is used by the Industrial Arts and Military Science Departments.

**The Joe Cook Memorial Library** is a two-story air-conditioned brick building containing four large reading rooms, reference and periodical rooms, offices, and stock rooms for 80,000 volumes.

**The Grace Bennett House** and the **Kate Hubbard House** are frame dwellings used as home-management houses by the Division of Home Economics for the purpose of guiding senior home-economics majors in experiences involved in effective participation in the responsibilities and activities of the home.

**The Home Economics Building** is a two-story structure which houses the nursery school, classrooms, and laboratories of the Division of Home Economics.

**The Frank E. Marsh Building** houses the Fire Arts Division. It was completed in 1955. This facility provides air-conditioned, soundproof studios, practice rooms, and a concert hall.

**R. C. Cook College Union Building** was completed in 1956. It is a beautiful air-conditioned building with facilities for students, alumni, and religious groups on the campus.

**The Danforth Meditation Chapel** was completed in 1957 and provides a place for noon-day prayer services, meditation, and other religious functions.

**West Hall** is a reconditioned temporary structure providing facilities for drama and special education, and eight classrooms for academic work.

**The White House** is a temporary structure used to house the Department of Mathematics.

**The George Hurst School** is a modern building of fourteen rooms and a library. It affords facilitites for observation, participation, and student teaching in eight grades of public school work.

**George Hurst School Gymnasium** is a brick structure, with an ample playing floor and facilities for an audience of 700 people at games and exhibitions, it contains offices, storage rooms, lockers, showers, dressing rooms, and a lecture room.

**Hattiesburg Hall and Mississippi Hall** are dormitories for women. They are three-story fireproof buildings of modern construction. They contain comfortable bedrooms and reception halls, with well-appointed bathrooms on each floor.

**Alma Hickman Hall,** a women's dormitory joining Hattiesburg and Mississippi Halls, was completed in 1951. Its attractive bedrooms, with facilities for 104 students, are modern in every detail.

**Willa Bolton Hall,** a women's dormitory opened in 1954, is reserved for senior women. It is of modern, fireproof construction, attractively decorated and furnished.

**Forrest County Hall** is a three-story fireproof men's dormitory constructed on modern lines. It accommodates 124 students.

**Weathersby Hall** is a brick fireproof building constructed on modern lines, housing 120 students. It is used as a dormitory for men.

**East Stadium Dormitory** is a dormitory for men. It is a fireproof building constructed on modern lines, housing 140 men. The stadium will seat 5,000 people and furnishes the facilities of an athletic clubhouse.

**West Stadium Dormitory** is a dormitory for men. It is a fireproof building constructed on modern lines, housing 96 men. The stadium will seat 5,000 people. The rooms are attractively furnished.

**McCleskey Hall** is a 14-apartment building for faculty members. There are four 3-bedroom apartments, six 2-bedroom apartments, two 1-bedroom apartments, and two efficiency apartments.

**McMillin Hall** is a brick two-story men's dormitory constructed on modern lines, housing 120 students.

**The Panhellenic House** is a two-story frame building, housing sorority rooms upstairs, and sorority rooms, hostess apartment, general kitchen, and spacious lobby downstairs.

**The Clinic** is a two-story structure adequate for taking care of students with minor ailments. Registered nurses are on duty at all times, and two physicians are subject to call to give medical attention to students needing emergency treatment.

**The Cafeteria** was constructed in 1928. It has a capacity of 1,000. In 1952 the State Building Commission provided funds for completely redecorating and re-equipping the building. In 1956 the cafeteria was air-conditioned. The cafeteria has all modern conveniences for reducing labor to a minimum, for storing and preserving foods, and for serving well-planned, attractice meals. There are two dining rooms, where groups assemble for luncheon and dinner meetings.

**The Institute of Latin-American Studies Building** is a beautiful one-story building housing the Institute of Latin-American Studies. It includes

all of the latest equipment for teaching English-American composition to foreign students. It is completely air-conditioned.

**The Powerhouse** was erected in 1934. It houses the central heating plant and workshops for the college engineers.

**The Swimming Pool**, 45 feet wide and 105 feet long, with showers and locker room adjoining, and lighted for night use, is of modern design with machinery for filtering and purifying the water every eight hours.

**The Memorial Station**, at the campus entrance, is a small, beautiful structure given by students, faculty, officers, and friends of the college, and erected in honor of the students, officers, and faculty members who participated actively in World War I.

A new men's and a new women's dormitory will be constructed in 1958, providing 101 rooms in the women's dormitory and 224 rooms in the men's building.

**Green Village** is a temporary housing project of hutments, which are occupied by men.

Additional projects being planned for construction in the near future are a new science building and a new library.

## ADMINISTRATION OF THE COLLEGE

Mississippi Southern College is one of eight state-owned and state-operated colleges, along with the University of Mississippi, coming under the control of a Board of Trustees of Institutions of Higher Learning in Mississippi. This twelve-person board is the result of a constitutional amendment which directs that one trustee be named from each of the seven congressional districts, one from each of the three supreme court districts, and one from the state-at-large. Each trustee is appointed for a twelve-year term, and the term of office of four members expires each four years. The entire state is thus represented in the management of the college.

The principal administrative officers of Mississippi Southern College are as follows: president, dean of the college, administrative assistant to the president, dean of the school of education and psychology, dean of the school of arts and sciences, dean of the school of commerce and business administration, chairman of the division of fine arts, chairman of division of home economics, registrar, financial secretary, assistant financial secretary, dean of student welfare, dean of men, dean of women, director of admissions, director of extension-correspondence, librarian, executive secretary of the Alumni Association, director of placement, and director of publicity.

## THE INSTITUTE OF LATIN-AMERICAN STUDIES

Reginald C. Reindorp, Director

Adams Jenkins Stewart

The Institute of Latin American Studies was organized at Mississippi Southern College by the late Col. Melvin G. Nydegger in 1947. Its principal aim is to foster and promote better understanding and warmer relationships between the Americas. To implement this aim the Institute offers two general types of courses. One of these is for Latin American students who come to the United States for the purpose of learning to speak the English language and to learn about the culture and customs of the United States. Additional information about these orientation courses may be obtained by writing to the Director of the Institute.

The other general type of course offers training to American students who wish to prepare for work or a career in inter-American affairs. These courses are called Latin American Studies.

## ORIENTATION COURSES FOR LATIN AMERICANS

Each quarter the Institute offers a ten-week orientation course with classes in the English language, conversation, composition, grammar, culture and customs of the United States. These courses are attended by business and professional people, and students, all of whom are international guests from Latin America.

During the months which comprise the summer vacation for the schools of Latin America (December, January, and February) the Institute offers a special course for teachers. The course is of five weeks only and is intend for teachers. More advanced training of a technical nature is offered for both United States and Latin American teachers of English as a foreign language.

An examination of the student's proficiency in English is offered at the end of each quarter. Any foreign student may take this examination by applying in the Institute two weeks in advance. There is a charge of one dollar ($1.00) each time the examination is taken except for orientation students in the Institute who may take it the first time free.

## LATIN-AMERICAN STUDIES

The student who is interested in inter-American affairs will find many opportunities for study at Mississippi Southern College. There is also the advantage of mingling with Latin American students to become acquainted with their customs and culture and practice in speaking Spanish and Portuguese. The various departmental and divisional offerings in this field have been coordinated and developed into several inter-departmental curricula providing the following courses or degrees:

1. The Bachelor of Arts degree in Latin American studies, with emphasis on culture and history.
2. The Bachelor of Arts degree and the Bachelor of Science degree in foreign service.
3. The Bachelor of Arts degree with a major in foreign trade.
4. The Bachelor of Science degree with a major in economics and related fields, with minor in Latin American studies.
5. The Bachelor of Arts degree in secretarial studies.
6. A two-year course for bilingual secretary-interpreters or receptionists specializing in inter-Americans relations.
7. A one-year intensive course in Latin American studies for graduate students, business men, professionals and technicians, and teachers.
8. The Bachelor of Science degree in Latin American studies, leading to certification as a teacher of Spanish.
9. The Bachelor of Science degree in Latin American studies, which prepares for service careers in Latin America in the following areas: elementary education, reading specialists, home economics and homemaking, health education, sanitation, and sanitary engineering.

## CORE REQUIREMENTS

The core requirements for the B.A. and B.S. degrees may be found in the appropriate sections of this catalogue. The total core requirements of 100 hours for the B.A. degree leave a remainder of 92 hours which will be taken in major, minor and elective courses. The total core requirements of 78 hours for the B.S. degree leave 114 hours to be distributed among major, minor, and elective fields.

For a sample curriculum in foreign trade and other major and/or departmental courses which may be counted as Latin American studies, see the Institute Bulletin.

NOTE: Students who major in Latin American studies my not minor in Spanish.

# CAMPUS LIFE

## LIVING ACCOMMODATIONS

Students not living in their homes should arrange to live on the campus. Reservations may be made by sending $8.00 to the director of student housing. Students who wish to room together should make their reservations at the same time. Room reservations are accepted subject to the approval of application for admission to the college. Students already living in the dormitory rooms will receive preference in assignment of rooms if they make reservations before May 1. Except for this preference, rooms are reserved in the order in which deposits are received. No room deposit can be refunded unless the reservation is cancelled ten days prior to the opening of the quarter for which the reservation is made.

Rooms are equipped with the following furniture: single beds with comfortable inner-spring mattresses, a dresser, a chest of drawers, a lavatory, chairs, and study tables. Students must furnish all linens, bed covering, pillows, and curtains. Dormitories are equipped with an air-ventilation system.

Lodging in the fraternity houses is available to fraternity members. Arrangements are made directly with the president of the fraternity. The fraternity presidents will provide the director of student housing with official lists of students living in their houses.

A limited number of houses and apartments are available on the campus for married students.

Women students classified as sophomores or higher may live in approved homes in town; however, arrangements for living off the campus must be cleared with the dean of women. Freshmen women may not live in town except in their own homes unless they are given special permission by the president of the college. Rooms in off-campus homes must be approved by the dean of women or the dean of men.

All students not living in their own homes, whether rooming in dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the college. The college makes an effort to safe guard such students, but its responsibility in this connection must necessarily be very limited.

The dormitory lobbies which serve as social and recreational centers, are supplemented by the R. C. Cook College Union Building. This building contains a lounge, a gameroom, a ballroom, a television lounge, a snack bar, offices for religious organizations and student government, and meeting rooms for other organizations, as well as five bedrooms, which are rented at a nominal fee to parents and other visitors to the campus. Students use the facilities of the College Union Building for games, music, enjoyment, social and religious activities, and other cultural and recreational purposes.

The Panhellenic House, the fraternity houses, the gymnasium, the field house, and the women's gymnasium also are available for social and recreational activities. Two private dining rooms adjoining the cafeteria may be used by clubs and organizations for banquets, dinners, and teas.

The college cafeteria serves well-planned, attractive meals at moderate prices.

## HEALTH SERVICES

The health record of the college is an enviable one. The health education program, which aims at teaching each person how to assume responsibility for safeguarding his health, is supplemented by the health services which the college offers.

A medical examination blank is given the student at the time he applies for admission to the college. The student should have the medical examination done by his family physician and should return the completed medical examination form to the college along with his application for admission. It is urged that any defects noted in the examination be corrected prior to the beginning of the session in which the student will enroll.. The college reserves the right to require a medical examination of any student at any time. No student's admission is complete without a medical examination.

The college clinic is a well-equipped infirmary in which the ordinary illnesses occurring during the college year, but not during the vacation or recess periods, are cared for by the college physicians and nurses. Students with more serious illnesses or injuries, or those in need of immediate surgery, are referred to the regular hospitals in Hattiesburg. Such serious illnesses, injuries, and operations, together with hospital and medical care in private hospitals, cannot be the responsibility of the college.

A small charge is made when penicillin and antibiotic drugs as necessary prescriptions are given to the students. The college physicians have regular office hours for free consultation with students. A nurse is on duty twenty-four hours a day at the clinic.

## SCHOLARSHIPS AND LOANS

A number of scholarships are offered to outstanding students for study at Mississippi Southern College. Some of these scholarships are given by the college and others are awarded by organizations interested in encouraging promising students to continue their college education. Educational loans are also available. Limited funds are available at the college for loans on a short term basis. Loans on a long-range basis are available to worthy students from several philanthropic foundations. The dean of student affairs should be contacted for information regarding the details of these two programs.

Scholarships are offered by the college to talented students in piano, voice, stringed instruments, and band. Awards are based on auditions conducted by the Division of Fine Arts.

Waiver of out-of-state fee is granted to a limited number of out-of-state students. These awards are based upon academic achievement, leadership potential, and evidences of good citizenship. Applicants should request information from the office of the president.

## EMPLOYMENT OPPORTUNITIES

A number of students are employed by the college both in secretarial and clerical work and in maintenance of buildings and grounds. The purpose of this employment is primarily to assist the student in earning a small part of his school expenses. Inquiries concerning these work assignments should be addressed to the dean of student affairs. The college also maintains a service to assist students in finding part-time employment in and near Hattiesburg. Students should remember, however, that their first business is to benefit by their college programs. Usually a student who spends several hours a day earning money must reduce his study load. Students should not expect to be able to earn a considerable part of their expenses and at the same time carry a full academic load. No student should plan a program that allows fewer than thirty hours a week for study.

## STUDENT GOVERNMENT

The constitution of the Student Government Association at Mississippi Southern College states that the functions of the organization are "to insure a continuous exchange of ideas and opinions between the students and the administration, to secure valuable training and experience in democratic

self-government, to assume the fullest powers and responsibilities of self-government consistent with the constitution and laws of the state of Mississippi and the policies of the president of this institution, to promote the general student welfare and to protect the herein enumerated rights of students."

There are three branches of student government: the legislative, the executive, and the judicial. The executive officers and the members of the legislative branch, the Senate, are elected by direct vote of the students. The justices of the student court are appointed by the president of student government subject to approval by the Student Senate.

Many functions of student government are carried out by standing committees, chief of which are the Committee on Social Life, the Elections Committee, and the Executive Committee.

The Committee on Social Life has been active and successful in overall supervision of social affairs on the campus and in direct management of affairs which concern the whole student body, such as after-game dances, the annual Beauty Ball and the bringing of big-name bands to the campus.

The local government unit in each dormitory is called the Dormitory Council. Councils are coordinated by the Men's Affairs Board and Women's Affairs Board. These units regulate all matters relating to dormitory life.

**Student Publications:** The **Student Printz** is the college newspaper. The **Printz** is published weekly by a staff of students under the direction of faculty advisers. It provides a medium through which the students may express themselves and serves as an agency for disseminating news among the students and alumni. **The Southerner** is a yearly publication. It is published by a student staff under the direction of a faculty adviser.

**Religious Life:** Mississippi Southern College is a state school and is entirely nonsectarian. Religious life is encouraged, and every effort is made to cooperate with the local churches. The Christian Federation unifies the activities of all religious groups on the campus. Its executive council is composed of two elected representatives of the student body, who serve as chairman and vice-chairman, and the presidents of all religious organizations on the campus. The Federation works through a number of committees whose chairmen form the Federation Cabinet. The Christian Federation seeks to provide channels for worship and religious development. It sponsors Religious Emphasis Week each year.

The Wesley Foundation, the Baptist Student Union, the Christian Church Student Group, the Westminster Fellowship, the Canterbury Club, the Newman Club and the Vasa League are student denominational groups. Several of these organizations have full-time directors on the campus.

A number of ministerial students and active pastors of churches in and near Hattiesburg are students of the college. They have organized the Ministerial League for worship and study.

## HONORARY AND ACADEMIC ORGANIZATIONS

There are five general honor societies on the campus. A general honor society is an association that receives into membership individuals who have achieved high scholarship and who fulfill such additional requirements of distinction in some broad field of education and culture or in general leadership as the society has established. Pi Kappa Pi is a national honorary society composed of men and women who have made grades of A on seventy per cent of their work while earning ninety consecutive quarter hours of credit. Membership in Pi Kappa Pi is the highest recognition for scholarship accorded at the college. Omicron Delta Kappa is a national honorary leadership society for college men. Membership in Omicron Delta Kappa is the highest recognition accorded men students of the college. Phi Eta Sigma

is a national society which aims to encourage and reward high scholastic attainment among freshman men. Phi Delta Rho is a local honorary leadership society for college women. Membership in Phi Delta Rho is the highest recognition accorded women students of the college. Alpha Lambda is a national society which aims to encourage and reward high scholastic attainment among freshman women.

Other national organizations having chapters on the campus include: Alpha Epsilon Alpha (honorary accounting fraternity), Alpha Epsilon Delta (honorary premedical society), Alpha Psi Omega (honorary dramatic fraternity), American Chemical Society Student Affiliate, Beta Beta Beta (honorary biological fraternity), Delta Sigma Pi (professional business fraternity), Kappa Delta Pi (honorary education society), Future Teachers of America, Home Economics Club, Kappa Mu Epsilon (honorary mathematics fraternity), Kappa Omicron Phi (honorary home econmics fraternity), Kappa Pi (honorary art fraternity), Phi Delta Kappa (professional education fraternity), Pi Kappa Delta (honorary forensic scoiety), Pi Kappa Lambda (honorary music society), Mu Phi Epsilon (honorary music sorority), Phi Mu Alpha Sinfonia (honorary music fraternity), Tau Beta Sigma (honorary band sorority), Kappa Kappa Psi (honorary band fraternity), Pi Gamma Mu (honorary social studies society), Pi Omega Pi (honorary business education fraternity ), Pi Delta Phi (honorary french society), Pi Tau Chi (honorary religious society), Sigma Alpha Eta (honorary speech fraternity, and Sigma Delta Pi (honorary Spanish fraternity).

Other honorary and academic organizations among the students include: Elementary Council, Geology and Geography Club, Graduate Club, Little Symphony, "M" Club, Modern Language Club, Physical Education Club, Prelegal Forum, Psychology Club, School Administrators Club, Sociology Club, Southern Players, Southern Radio Players, Southern Singers, Veterans' Club, and Yellow Jackets Club.

**The Hattiesburg Choral Union** is an oratorio chorus composed of students and citizens of Hattiesburg, which meets once a week for the purpose of studying the great master choral works. The organization presents "The Messiah" at Christmas.

**The Vesper Choir** is a choral organization composed chiefly of students. For many years it has been the custom for the choir to tour the state during National Music Week, presenting programs of sacred and secular music. The choir has sung in Philadelphia, Indianapolis, and Dallas, and before the National Federation of Music Clubs and the Louisiana State Federation of Music Clubs.

The Mississippi Southern College bands have an outstanding record of service to the college and the state.

The Marching Band is open to any regularly enrolled student. Its purpose is to provide color and atmosphere to athletic and community events, and to promote and enhance the dignity and reputation of the college.

The Concert Band and Varsity Band are made up of selected students. Both bands furnish opportunity for students who desire to play the best in instrumental music to become more proficient and also provide practice teaching for those desiring to be band directors.

There are two military bands on the Mississippi Southern College campus—the R.O.T.C. Band and the 313th Army Reserve Band. Both organizations are made up of college students. These organizations provide opportunity for those interested to receive extra financial assistance from government funds.

Scholarships in band are available to talented students. Auditions, held in the spring, may be arranged through the director of bands.

**The Mississippi Southern College-Civic Symphony Orchestra** is made up of faculty members and advanced students, and has won a unique place for itself as a concert organization of more than ordinary importance.

## OTHER ORGANIZATIONS

Six social fraternities hold membership in the Inter-Fraternity Council of the College. They are Alpha Tau Omega, Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, Phi Kappa Tau, and Sigma Phi Epsilon. Each fraternity has a house on the campus.

Seven social sororities hold membership in the Panhellenic Council of the college. They are Alpha Sigma Alpha, Chi Omega, Delta Delta Delta, Delta Sigma Epsilon, Kappa Delta, Phi Mu, and Sigma Sigma Sigma. The Panhellenic Council has supervision of the Panhellenic House, which is used for social purposes and sorority meetings.

## BEST CITIZENS AWARDS

At the beginning of each academic year the president appoints a secret committee from the faculty for the purpose of selecting, near the end of the academic year, two students who, through superior character, leadership, and scholarship, have made the greatest contribution to the life of the college during the year. One man and one woman are selected. Upon recommendation of this committee, the students so selected receive the Best Citizens Awards as a public recognition of services.

Since the institution of the Best Citizen Awards in 1936, the following students have received such recognition: 1936—Miss Mary Evelyn Blanks and Mr. Shelby Rogers; 1937—Miss Katie Ruth Field and Mr. Doris W. Rivers; 1938—Miss Lida Frances Gilliam and Mr. Thomas Carruth; 1939—Miss Virginia Cole and Mr. Buell Evans; 1940—Miss Ruth Martin and Mr. F. J. Dickey; 1941—Miss Hazeline Wood and Mr. Gerald Adams; 1942—Miss Dulcie Davidge and Mr. Leonard Lowery; 1943—Miss Evelyn Hocutt and Mr. Moran Pope; 1944—Miss Wilda Mae Mason; 1945—Miss Doris Fredendoll; 1946—Miss Colleen Gilmore; 1947—Miss Bessie Jean Carraway and Mr. Leonard G. Anderson; 1948—Mrs. Opal Anderson and Mr. Daniel W. Dabbs; 1949—Miss Annie Ruth Ervin and Mr. William F. Dukes; 1950—Miss Katharine Runnels and Mr. Edwin Schmelling; 1951—Miss Tommie Pope and Mr. Woodie Cook; 1952—Miss Dorothy Ann Stuart and Mr. James Price; 1953—Miss Evelyn La Noel Montgomery and Mr. J. Cliff Thomas; 1954—Miss Martha Traylor and Mr. Don Kruger; 1955—Miss Laura Ann Wilber and Mr. Aubrey Lucas; 1956—Miss Patricia Culpepper and Mr. Jack B. Weldy; 1957—Mrs. Carolyn Smallwood and Mr. Frank Carlton.

## ATHLETICS

Mississippi Southern College is a member of the National Collegiate Athletic Assocation and the Southern Intercollegiate Athletic Association, and also has applied for membership in the Southeastern Conference.

Intercollegiate sports are football, basketball, baseball, track, tennis and golf.

Seasonal intramural sports under the supervision of personnel from the Department of Health, Physical Education and Recreation, give every student an opportunity to take part in competition. Among the sports included on the program are tennis, golf, water sports, touch football, basketball, softball, table tennis, badminton, volleyball, horseshoes, handball, track and swimming.

The college golf course, tennis courts, swimming pool, playgrounds and gymnasium facilities are available to the students for recreation.

## MISSISSIPPI SOUTHERN COLLEGE ALUMNI ASSOCIATION

The Alumni Association has been in existence since the fifth year of the college. During the early years its chief function was related to placement service. Beginning with the session of 1945-46, the organization experienced a rebirth. Recognizing the fact that a working alumni association is vital to the development of the college, the Executive Committee began the organization of alumni groups in the various counties of the state. On July 1, 1953, a full-time executive secretary was employed.

Early in the 1945-46 session the executive committee, in cooperation with the college administration, began the publication of the **Alumni News,** which is mailed to active members four times each year. Once each year the magazine is mailed to all members on whom the alumni office has a record. It is the desire of the committee that all of the graduates and former students of the institution become active members of the Alumni Association.

The Alumni Association sponsored the drive to raise the funds necessary for the construction of the R. C. Cook College Union Building. These funds were secured from alumni, faculty, students, friends, and the people of Forrest County.

Two meetings of the general association are held each fiscal year, the first at the annual homecoming in the fall and the second at the Mississippi Education Association convention in Jackson.

At the 1954 Homecoming meeting, the association voted to designate March 30 as Mississippi Southern College Day. Former students of the college are urged to get together on this date when two or more reside in the same area. Organized chapters elect officers at this meeting. March 30 was selected from the important dates in the history of the school because it was on this day in 1910 that the Mississippi Legislature enacted legislation establishing the college.

The officers of the association include: C. L. Milling '26, Meridian, president; Daniel W. Dabbs '48, Hattiesburg, president-elect; Dr. W. H. Jones '49, Columbia, vice-president; A. D. Morgan '40, Jackson, past president; Powell G. Ogletree '48, Mississippi Southern College, executive secretary; and Perrin Purvis '38, Tupelo, Dr. John A. Evans '39, Jackson, Tommy Munro '53, Biloxi, and H. E. Denson '35, Mobile, executive committeemen.

## LYCEUM ATTRACTIONS

The Hattiesburg Concert Association and the Assembly Program Committee arrange an annual series of concerts and attractions by celebrated artists, dancers, and actors, which are held in the college auditorium. General tuition fees cover student admission to these events. The attractions offered in 1957-1958 were: Louis Kenter, famous British-Hungarian Pianist; The Robert Joffrey Theatre Ballet; Virtuosi di Roma; Lily Pons, famous Prima Donna Soprano of the Metropolitan Opera Company; and "The Merry Widow" by Franz Lehar.

## COLLEGE THEATRE

Dramatic productions by the Southern Players, sponsored by the Department of Speech Arts, afford opportunity for all interested students to participate in the several phases of theatre activity: acting, design, stagecraft, and direction. At least one dramatic production is scheduled each quarter, and an experimental theatre is held each winter quarter with a series of one-act plays presented. In addition, one play for children is produced each year and is taken on tour. This program provides not only training for participating students but a well-rounded theatre program for the college audience. Tryouts are open to all students of the college. Participation is particularly

recommended for all students who plan to engage in dramatic activity in high schools or elementary schools.

The following plays are some which have been produced during the past two years: "Oedipus The King," "The School for Scandal," "Born Yesterday," "A Sleep of Prisoners," "The Curious Savage," "Antigone," "The Country Girl," "My Three Angels," and "Brigadoon."

## FORENSICS

The forensics program sponsored by the Department of Speech Arts includes training in debate and discussion, youth congress activities, and individual speech events such as oratory, radio speaking, interpretative readings, and after-dinner and extemperaneous speaking. Statewide and regional tournaments in each of these areas are entered each year. These trips give students experience in meeting college groups in Alabama, Mississippi, Louisiana, Georgia, Tennessee, and Florida.

The major forensics tournament held on this campus is the Gulf States Speech Festival. This is usually held in the second term of the winter quarter.

Students in any department may participate in the forensics program.

## RADIO

Mississippi Southern College has a well-equipped campus radio station, WMSU, which operates five days a week. The station is student-operated and is designed to give students opportunities to study and practice radio announcing, writing, production techniques, and station operation procedures.

## LIBRARY

The Joe Cook Memorial Library, erected in 1939 near the center of the campus, is planned for the purpose of furnishing the students and faculty of the campus modern facilities for research and reading under pleasant conditions. On the first floor are the reference, research, and periodical rooms; the card catalog and general circulation desk; and the cataloging and order departments. On the second floor are the graduate study room, the Sam Woods Collection, the bound periodicals, and the library science laboratory and study room. At present the main library contains more than 95,000 books with 8,000 or more titles being added annually. The periodical room is supplied with approximately 800 current magazines and many daily newspapers, including some microfilm and microcard editions. The library is a depository for United States government documents and for Mississippi state documents.

The library is open from Monday through Friday from 7:45 A. M. to 10:00 P. M., and on Saturday from 8:00 A. M. to 6:00 P. M.

## THE SAM WOODS COLLECTION

The Sam Woods Collection, a gift of the late Sam E. Woods, alumnus of Mississippi Southern College and retired consul general of Switzerland, is comprised of paintings, large Flemish tapestries, antique furniture, and rare books. In the collection are 230 paintings, including the Holy Family by Amigoni from the Stennis Collection, a Murillo copy of the Holy Family from the Prado Gallery, and many Rembrandt and Durer etchings and woodcuts, as well as oils and water colors by contemporary German artists. They have been hung in the president's home, the library, and other main buildings throughout the campus. This collection of paintings is probably the largest in the state. Much of the furniture is of the Renaissance period.

The very valuable collection of more than 1100 early printed and fine press books includes several rare Bibles which have hand-carved bindings and which are illustrated by Durer and other artists. The collection also in-

cludes several atlases of the sixteenth and seventeenth centuries. Of special interest are approximately fifty beautifully illumninated pages from incunabula, as well as globes made before 1800 and maps of America and other countries made before 1700. This collection is housed in the Sam Woods Room in the library.

## NURSERY SCHOOL

The College Nursery School was established as a unit within the Division of Home Economics to provide a laboratory in which college students might observe the development and relationships of a group of normal, healthy young children and participate in directing the various nursery school activities. The school accommodates children between the ages of two and a half and five years. It operates on a full schedule (nine o'clock in the morning to three o'clock in the afternoon) five days per week.

The daily program is planned to create an environment rich in possibilities for developing the child's mental, physical and social self as well as attaining a greater degree of emotional maturity. Independence is encouraged in all children throughout the daily activities. The enrollment is made up of an equal number of boys and girls in the various age groups from town, faculty and student families.

The Nursery School, which was the first to be established in Mississippi, is located on the first floor of the Home Economics Building. The Nursery School has ample space indoors and a large porch and fenced-in play area outdoors. In both space and equipment it meets high standards. The climate permits outdoor play the year round. Requests for registration must be filed with the director of the Nursery School well in advance of the time the child is to be enrolled. The children are not selected from any particular group, but any child may qualify who meets the age and developmental requirements.

## THE LABORATORY SCHOOL

The George Hurst School, formerly known as the Demonstration School, is a fundamental part of the teacher-education program. It is a fully accredited school which serves as an integrating center in which students from all divisions of the college may study in their particular fields.

The first major purpose is to provide a superior school from the first through the eighth grades. This program is designed to meet the needs of the children and the community which it serves.

The second major purpose of the school is to provide college students with an opportunity to do observation, student teaching, and some educational research. In as natural and as realistic a setting as possible the school gives to the prospective teacher the privilege of actually beginning his teaching career under intelligent and sympathetic supervision and guidance.

## PLACEMENT BUREAU

Mississippi Southern College has a year-round placement service for the benefit of its students, graduates, and alumni, as well as for employers who seek college-trained personnel. The college maintains cordial relationships with many employers, and every effort is made to assist registered applicants in finding satisfactory positions in their respective fields.

It is advisable for students to register during the first quarter of their senior year if they are to receive full benefit of the services of the Placement Bureau, such as job information and interviews with campus recruiters.

## SPECIAL EDUCATION AND CLINICAL SERVICES

Mississippi Southern College continues to train the majority of teacher-specialists working in the public schools of Mississippi. The special education curriculum has been expanded to meet the higher certification requirements recently established for teachers of exceptional children.

Students interested in entering the field of special education are afforded opportunity for clinical experience as well as a sequence of courses designed to prepare them for several of the fields of work in special education. This program provides for experience in diagnostic and remedial reading, theory and practice dealing with the problems related to speech and hearing, and work in both the theoretical and applied areas of psychology.

The special education services provide psychological testing for the diagnosis and selection of mentally retarded children for special classes in the public schools, working in cooperation with the state supervisor of special education.

## COLLEGE READING CENTER

In order to provide opportunities for reading improvement to the college students, the College Reading Center was established in 1953 as an adjunct of the Reading Clinic.

Testing, counseling, and instruction are provided in several areas of reading: increasing speed of comprehension, developing vocabulary, and improving study skills and habits.

There is no charge for this service for college students.

## THE READING CLINIC

The nationally recognized Mississippi Southern College Reading Clinic is one of the best equipped clinics of its kind in the South. Its testing and individual teaching facilities offer excellent training for prospective specialists in the reading field, and also for teachers wishing to become more proficient in the teaching of reading.

In addition to an excellent collection of professional books, attractive children's books and remedial training materials, the Reading Clinic has the best obtainable equipment, including a telebinocular, an orthorater, an audiometer, a tachistoscope, an ophthalmograph, reading film, filmstrips, projectors, tape recorders, and an oscilloscope. Practical and systematic training with these materials is given to teachers enrolled in Reading Clinic courses.

A graduate course sequence leading to the M.A. degree with a major in the psychology of reading has been instituted to help fill the demand for qualified reading specialists. A program of research in the psychology of reading is in progress.

Among the services offered to the community by the Reading Clinic, in addition to the training facilities, are diagnostic testing of children with reading problems and counseling with them and their parents. Remedial instruction by qualified teachers is given to a limited number of children who are retarded in reading.

Children may be referred to the clinic by superintendents, teachers, parents, vision specialists, and other agencies. The fee for a complete educational diagnosis and a suggested program for remedial procedures is $10 or less, based on ability to pay.

Daily instruction is given to out-of-town and local children throughout the school year and through the summer months. If a child is enrolled in the

clinic for individual remedial instruction, the fee is $20 per month. It is usually desirable to have a child receive instruction five periods per week. The total number of hours of remedial training required by a child will vary with the extent and type of difficulty exhibited. The increased demand for teachers who are qualified as reading specialists has brought about the extension of courses to meet this demand.

A bulletin on the Reading Clinic may be had upon request.

## SPEECH AND HEARING CLINIC

The Mississippi Southern College Speech and Hearing Clinic has a dual function. One is to provide facilities for the training of specialists in the area of clinical speech and audiology. A second function is to provide clinical services for persons with speech and hearing problems.

Courses are offered in speech and hearing at the undergraduate level leading to either a Bachelor of Arts or a Bachelor of Science degree. A Master of Arts degree may be earned at the graduate level. Clinical training and course sequences meet the certification requirements of the American Speech and Hearing Association.

Clinic services include both diagnostic examinations and therapy programs for both children and adults who have speech or hearing problems. These services are for both college students and members of the community. A nominal fee is charged for clinical services.

# EXTENSION AND SCHOOL SERVICE

## PURPOSES AND AIMS

The purpose of the Division of Extension and Correspondence is to make available, as largly as possible, to every community and every individual in the state the advantages of general equipment, educational training, and specialized information represented on the college campus.

## ORGANIZATION FOR SERVICE

### EXTENSION CLASSES

Mississippi Southern College is prepared to serve adults of Mississippi through extension classes held in local communities. Arrangements have been made to offer by extension any course included in the regular college catalog on condition that satisfactory library and laboratory facilities are available. In the fields of commerce, health, English, education, psychology, geography, speech, and social studies, it is possible to offer a number of courses without special library arrangements other than those available through the college.

### CONSULTATIVE SERVICE

Consultative services are available through the Division of Extension and Correspondence to teachers, administrators, and boards of education for the improvement of instruction and administration in the public schools of Mississippi.

### IN-SERVICE COURSES

Certain short term in-service non-credit courses are offered upon request. These courses may be planned with certain sponsoring groups when a particular need arises in a community.

### STRING MUSIC PROGRAM

The Extension Division sponsors a public school string music program for the purpose of stimulating interest in string and orchestral music. The services of the Extension string faculty are offered to school systems of the state. The plan provides for the organization and operation of a string program by Extension instructors until such time as the community is in a position to employ its own string teacher. Communities desiring this service may make arrangements for it through the Extension Division.

### CORRESPONDENCE STUDY

For the convenience of those who are unable to attend college, a well-rounded curriculum is offered by correspondence at a nominal fee in selected subjects carrying college credit. Approximately one-fourth of the requirements for the bachelor's degree may be met through correspondence and/or extension courses. All courses for college credit given by correspondence count for regular credit in the college and for approved credit on state certificates. However, such courses do not carry quality points or residence credit. High school courses are offered by correspondence and are acceptable as entrance credits by the college.

## GENERAL REGULATIONS FOR EXTENSION CLASSES

1. Any person qualified to profit by an extension course may be admitted to the classes for non-credit study. However, those who expect college credit for a course must meet regular admission requirements. Students will not be permitted to do extension work during regular attendance at any college.

2. Extension classes spend the same number of hours in recitation as are required for the same course taken in residence. No extension class may meet for more than sixteen hours in one week or four hours in one day.

3. Extension classes are organized upon proper petition. Any school principal, superintendent, or responsible local citizen may petition for an extension class, provided he has secured the signatures of not less than twenty qualified persons who join the request for the same course. Blanks for signatures may be secured from the Extension Division. Before mailing the petition to the Extension Division, the prospective class members should make sure that they can provide a suitable classroom, with lights and heat to be furnished without cost to the college.

4. The registration fee for extension is $6.00 per quarter hour in both undergraduate and graduate courses.

5. The Mississippi Southern College Bookstore may sell or rent books to students taking extension work, or books may be purchased directly from the publisher.

6. Non-credit short term courses may be organized through the Correspondence and Extension Division. These courses may be of different lengths of time depending on the need of a particular community group. Fees must be set according to the type of program planned, the number of participants, and the facilities provided.

Certificates may be granted to members participating in these short-term courses if requested by the sponsoring group. Fees for certificates will be included in the cost of the course.

7. No student may register in any extension course after the beginning of the third class meeting. All fees are to be paid not later than the second meeting of the course.

8. Fees are not transferable and are not returnable after the second meeting of the class.

## CORRESPONDENCE COURSES

### INTRODUCTION

Although the direct or residence method of instruction is superior in some respects, the correspondence method of study presents a number of advantages which make it particularly suited to the need of the serious student who is actively interested in the mastery of his studies.

Some of the more apparent advantages of correspondence instruction are as follows: a correspondence course may be begun at any time and completed without interruption as rapidly or as slowly as desired; the student may concentrate on one course at a time; he is unhampered by limitations of time in studying or reciting, or by the rate of a class through the course; every part of each assignment is covered thoroughly, individual attention being given to each student, which insures the mastery of the course; the recitations taken written form, giving training in logical thinking and arrangement of data, and developing the student's ability of expression; writing the recitations helps the student to remember the significant points of the course, and the written assignments give it permanent form, easily accessible for future reference; and finally, correspondence study, seriously undertaken, develops in a marked degree the student's initiative, self-reliance, accuracy, and above all, his perseverance.

## GENERAL INFORMATION

Correspondence courses do not offer a short cut; they are organized to coincide as closely as possible with the correspondence courses offered in residence at the college and usually given by instructors having charge of similar residence courses. The chief merit of such courses is that they offer the isolated student, teacher, housewife, and businessman the opportunity of advantageously utilizing spare hours at home in the pursuance of studies for college credit under college tutelage.

A correspondence course is presented in a number of assignments, usually twenty-four for a four-hour course. Several hours of preparation are expected on each assignment, since an assignment represents approximately one half week's work in residence. Each assignment contains full directions for study, including references to the text, necessary suggestion for assistance, and questions to be answered. Upon satisfactory completion of a correspondence course, including a final examination, college credit will be granted .

From time to time, as demand warrants, new correspondence courses will be added to the list offered. It is advisable for the student to request new courses especially desired, since a real demand must be evinced for a course before it will be regularly offered in the correspondence schedule.

## HIGH SCHOOL CORRESPONDENCE

Mississippi Southern College, in cooperation with the State High School Accrediting Commission, established a Department of High School Correspondence in 1946. The specific aims of this department are varied, but the primary purposes are (1) to provide opportunity for further study to those for whom it is inconvenient to attend regular school, (2) to expand the high school curriculum, and (3) to provide courses meeting specific college entrance requirements.

A student taking high school correspondence work for credit must have a supervisor, to be appointed by the high school superintendent. The supervisor must not be a parent or guardian of the student.

Further information may be secured from the Department of High School Correspondence, Mississippi Southern College, Hattiesburg, Mississippi.

## COLLEGE CORRESPONDENCE

1. The matriculation fee for a correspondence course is $5.00 per quarter hour. Thus the fee for a four-hour course is $20.00, for a three-hour course, $15.00, and for a two-hour course, $10.00.

2. Textbooks may be ordered by the student from the college bookstore or from the publisher whose name and address are listed on the first assignment sheet as well as in this bulletin following each course description. The price of textbooks may change slightly without notice. Used textbooks may be purchased from the college bookstore for 80% of the new book price. Any correspondence about textbooks should be addressed to the Mississippi Southern College Bookstore, Station A, Hattiesburg, and NOT to the Extension Division.

3. Fees are not returnable after lesson assignments have gone out of the correspondence office. Fees are not transferable.

4. If credit is desired, the student must meet the usual college entrance requirements and the course prerequisites. Only those courses numbered below one hundred are open to students of freshman or sophomore rank.

Freshman courses are numbered 1 through 49.

Sophomore courses are numbered 50 through 99.

Junior courses are numbered 100 through 149.

Senior courses are numbered 150 through 199.

Graduate courses are numbered above 500 and are not offered by correspondence.

5. No more than forty-eight quarter hours earned in extension and correspondence may be counted toward a degree from Mississippi Southern College. All of the forty-eight hours may be earned by extension, or all of the forty-eight hours may be by correspondence or in any combination of the two as long as the total is not more than forty-eight quarter hours.

6. Students seeking enrollment for correspondence study courses are required to fill out an application blank for each course desired. A student may not enroll for more than one course at a time.

7. The maximum time for the completion of a four-hour course (twenty-four lessons) is one year from the date of acceptance of the application. For reasons considered adequate by the Extension Division this time may be extended one time for three months upon payment of a fee of $3.00. Application for extension of time should be accompanied by the fee for such extension. No such application can be considered unless received before the date of expiration of the course.

8. The minimum time for the completion of a course is one month from the date of beginning work, provided assignments are sent in two or three at a time at regular intervals proportionately spaced over the minimum time.

9. Students will not be permitted to rush through correspondence courses. Lessons should be carefully prepared and the student should not apply for the final examination until he is adequately prepared to take it.

10. No work may be done by correspondence while a student is in attendance at any institution of learning unless he has written permission of the dean of his college. It must be understood that if correspondence is allowed while in residence, it becomes a part of the student's load for the quarter, and the work must be completed within that quarter. Courses taken during the Christmas vacation period will be counted as part of the student's load for the winter quarter.

11. Teachers in service will not be allowed to complete more than four quarter hours per quarter. Correspondence work and extension may be taken at the same time if the rule that no more than four quarter hours may be taken in any one quarter is observed.

12. As the lessons are completed, the student should mail or bring them to the correspondence office for correction by the instructor.

13. Credit will not be allowed when there is evidence that unfair assistance has been obtained either on the lessons or the final examination. Students denied credit for this reason may not repeat the course by correspondence.

14. Two persons from the same school community or the same family are requested not to register for the same course, because persons taking correspondence are not to work together except in correspondence class.

15. The examination is to be taken under the supervision of a city or county superintendent of education and without the use of notes or the textbook. The examination for a correspondence class, however, will be administered by the instructor.

16. Correspondence courses may not be taken to remove failing or incomplete grades received in campus courses without the written approval of the dean.

17. Students under suspension from any college will not be permitted to take correspondence during the period of suspension.

18. A non-residence course in correspondence that is to be used to complete graduation requirements must be completed, including the examination, and be in the hands of the correspondence department not later than two weeks before the date of the commencement at which the student aspires to receive his degree.

19. The Correspondence Department is not responsible for lessons lost in the mail because of insufficient postage or otherwise.

20. Correspondence classes may be organized upon proper petition. Any school superintendent, principal, or responsible local citizen may petition for a correspondence class provided he has secured signatures of not fewer than eight qualified persons who join the request for the same or similar courses. Blanks for petitioners' signatures may be secured from the Correspondence Department. Before mailing the petition to the Correspondence Department, the prospective class members should make sure that they can provide a suitable classroom with lights and heat to be furnished without cost to the college.

## RULES FOR PREPARATION OF ASSIGNMENTS

1. Use 8½x11 light-weight typing paper. Envelopes addressed to the Correspondence Department are sent with the outline of the course. The lessons must be mailed in these envelopes, three or more assignments to an envelope.

2. In preparing assignments, observe carefully the following rules:

   a. Write on one side of paper only.

   b. Write with ink or use typewriter.

   c. Leave a margin of one inch on left side of paper.

3. Write your name and address, the name of the course, and lesson number at the top of the first page of each assignment.

4. Do not include any letters with lessons. All business and other communications must be written on a separate sheet and mailed in a separate envelope. The department is not responsible for any delay caused by letters being enclosed with assignments.

5. At the end of the course, return all assignment sheets together with the last lesson.

## MAILING OF LESSONS

1. In the upper left corner of the envelope addressed "Department of Correspondence," in which the recitation paper is enclosed, write your full name and address.

2. In the lower left corner of the envelope, write the name of the course and numbers of the assignments.

3. Have your lessons weighed before mailing; be sure there is enough postage on them. When the postage is insufficient, the lessons will not be accepted by the Extension Division until full postage has been paid.

## EXAMINATION INSTRUCTIONS

1. The lesson assignments are intended to assist the student in preparation for the examination.

2. Upon completion of the assignments the student must immediately make arrangements with the Correspondence Department for the examination. Request for examination must not be enclosed with lesson assignments, but must be mailed in a separate envelope.

3. Final examinations are held either by regular instructors of Mississippi Southern College, instructors in other institutions of higher learning, county superintendents, or superintendents of independent districts selected by the student and approved by the director of correspondence. A student may defer examination on a completed course until he enters the college for residence work, in which case the examination must be taken within one week after the student registers. Permission to defer should be requested in writing.

4. A student may not spend more than three hours on the examination.

5. Before beginning the examination all books and papers must be removed from the desk except the examination papers.

6. The student must use ink when writing the examination.

7. No second examination will be given.

8. Students who are taking a course to remove a failing grade received in a campus or correspondence course may be required to come to the campus for the final examination.

# COURSES OFFERED BY CORRESPONDENCE

**Commerce**

40 Introduction to Business
55 Principles of Economics
56 Principles of Economics, Part II
103 Business Correspondence
107 Economics of Consumption
130 Principles of Marketing
134 Salesmanship

## THE EVENING COLLEGE

The Evening College of Mississippi Southern College is designed primarily to serve the adult population of Hattiesburg and other communities within commuting distance. It is believed that education, to be maximally effective, must be a continuous process and that the evening program presents rich opportunities for self-improvement to its present and potential clientele.

The success of the Evening College is evidenced by its ever-increasing enrollment and the rapid expansion of its curriculum, which is being designed more and more to meet the needs of the individuals and business organizations of the community. The Director of the Evening College acts as coordinator of programs, standing ready for consultation with students in the planning of courses of study. Individuals or groups experiencing needs which are not being currently cared for through Evening College offerings should communicate such needs to the director of the program.

The major purposes of the Evening College are to provide adults:

1. An opportunity to learn the liberal arts of reading, writing, and listening;
2. An opportunity to increase their understanding of the world through the social sciences, the natural sciences, the use of the college library, and participation in various programs of community interest;
3. An opportunity for improvement of professional competencies through training in the business and professional fields.

The college has set up two-year certificate programs in a number of fields which will lead to certificates of achievement. These programs may carry regular college credit, and the courses taken may be applied toward degrees at Mississippi Southern College. The following two-year programs are offered at the present time:

1. Certificate in General Education.
   A two-year program for those who want regular college training, but who do not care to specialize in one area.
2. Certificate in Business Administration.
   A two-year program for those who desire proficiency in dealing with problems relating to business, such as organization, finance, and management.
3. Certificate in Marketing.
   A two-year program leading to increased efficiency of persons dealing with the buying and selling of goods.
4. Certificate in Secretarial Studies.
   A two-year program leading to proficiency in secretarial skills.

The Evening College also sponsors certain community service courses, commonly called "non-credit" courses, which carry no credit toward a degree. Such courses are designed to meet interest demands of the community-at-large. They may run one day, several weeks, or several months. They may take the form of a lecture series, discussion group, regular class, workshop, or any other method of group study. Separate fees may be designated for these courses.

# THE GRADUATE SCHOOL

**(A Graduate Bulletin is available on request)**

The graduate program at Mississippi Southern College is based upon firm foundations and ideals of academic excellence, scholarship, and research. These ideals are carried forward by a well-trained and carefully selected graduate faculty utilizing effectively the physical facilities of the college.

In the field of education, Mississippi Southern College takes seriously its responsibility for preparing teachers, supervisors, and administrators for all branches of public school service. The Master of Education degree is offered in several fields of education: school administration, secondary education, elementary education, administrative personnel and counseling, psychology of reading, health and physical education, home economics education, and speech education. The Master of Education is also offered in several teaching fields: the biological sciences, commerce, English, history or social studies, and mathematics. A second year of graduate work is offered in the field of education leading to the following degrees: Master of Education in School Administration, Master of Education in Secondary Education, and Master of Education in Elementary Education.

In the subject matter fields, the Master of Arts and Master of Science degrees are available. More specifically, the Master of Arts degree is offered in English, social sciences, and speech. The Master of Science degree is offered in the biological sciences, the physical sciences, home economics, and speech correction.

In addition, the Division of Fine Arts offers the Master of Music degree

## ADMISSION TO GRADUATE SCHOOL

Admission to Graduate School does not imply that the student is admitted to candidacy for a degree.

A student who is a baccalaureate graduate of institutions approved by a recognized accrediting agency, with a point average of 2.5 (4-point system) in the last two years of undergraduate work, may be admitted to the Graduate School of Mississippi Southern College.

A student with a point average below 2.5 (on a 4-point system) in the last two years of undergraduate work may be admitted by the Graduate Admissions Committee on probation to the Graduate School. This probation on the recommendation of the major professor may be removed by completing twelve (12) quarter hours of graduate work with a grade average of B.

A student shall present a minimum of twelve (12) quarter hours of work of senior college grade in the subject or field chosen for the graduate major. A student otherwise qualified but lacking these basic courses may be permitted by his major professor to remove these deficiencies by completing these courses or demonstrating competence in his chosen field.

The requirements for admission to candidacy for degree, as well as all other requirements for the various graduate curricula, are listed in detail in the Graduate School Bulletin.

## FELLOWSHIPS

A limited number of fellowships is available in almost every department offering graduate work. Application for these fellowships should be made with the Dean of the College and Graduate School before April 1 of each year. Further information about fellowships can be acquired by writing the Dean of the College and Graduate School.

# EXPENSES

A primary objective of the college is to hold to a minimum the expense of its students. Changes in fees are made whenever possible, to benefit the students. Increases are made only when required for support of the institution or improvement of the activity program of the students.

## BUSINESS REGULATIONS

Announcements concerning expenses and furnishings are subject to change without notice and may not be regarded as binding obligations of the college. In time of changing conditions this stipulation is necessary.

Expenses are in the form of incidental fees, room, board and special fees.

INCIDENTAL FEE. This fee is used for general support of the college and consists of charges for matriculation, library, athletic activities, health service, student union, college newspaper, laboratory, concert series, maintenance, etc.

ROOM AND BOARD. These fees are assessed for all students living in college-controlled housing. The board fee is assessed for all students living in fraternity houses, and in certain cases fraternity room fees are assessed by the college. All students rooming in dormitories or fraternity houses are required to take their meals in the college cafeteria.

No reduction in room and board expense is made for absence of less than two continuous weeks, and then only when the absence is necessary and is reported to the business office in advance. No reduction of room or board is made on account of late entrance.

OTHER FEE INFORMATION. Clinical and hospital services covered by the health service charge included in the incidental fee are limited to cases of ordinary illness. Services are provided within the limits of the professional, technical and physical resources of the clinic. The college does not assume responsibility in cases of extended illnesses or for treatment of chronic diseases. Cases requiring surgery must be handled by a physician and hospital of the student's choice.

Students enrolled for more than nineteen quarter hours will be assessed an additional $6.00 for each quarter hour in excess of nineteen. Freshman R.O.T.C. students will be assessed the additional $6.00 for each quarter hour in excess of twenty hours.

Students who are permitted to register for correspondence courses in residence will be charged the regular fee of $5.00 per quarter hour.

A fee of $1.00 is assessed each quarter for operation of the R. C. Cook College Union Building. This fee is added to the incidental fee assessment of part-time students. It is included in the fee of full-time students.

Courses requiring special fees and music fees are shown in the Special Fees listing (Table II).

A six-dolllar fee for the Southerner (college annual) is payable by all full-time students on entrance at the beginning of the fall quarter.

REFUND POLICY. A student who officially withdraws after he has been enrolled may obtain a refund in accordance with the following:

a. A full refund of fees will be made to a student who withdraws within three days after date of registration.

b. Should a full-time student withdraw for any reason prior to midterm of any quarter, fifty (50) percent of the incidental fee will be refunded.

c. Should a full-time student withdraw after midterm of any quarter, no part of incidental fee will be refunded.

d. Special and part-time students' fees will not be refunded after three days from date of registraton.

e. No adjustment of incidental fee will be made when courses are dropped after three days from date of registration.

f. Room and board fees are refunded on the basis of weeks remaining in the quarter.

## TABLE I

### EXPENSES EACH QUARTER[1]

#### Full Time

Fixed Fees

| | |
|---|---|
| Incidental fee[2] | $ 67.00 |
| Room rent[4] | 28.50 |
| Board | 69.00 |
| | $164.50 |

Other Fees When Applicable

| | |
|---|---|
| Non resident fee | $ 66.66 |
| The Southerner (fall quarter only) | 6.00 |

#### Part Time

**Fixed Fees**

| | |
|---|---|
| Incidental fee each quarter hour[3] | $ 6.00 |
| Room rent for half quarter[4] | 14.25 |
| Board for half quarter | 34.50 |

Other fees when applicable

| | |
|---|---|
| Non residence fee each quarter hour | $ 5.56 |

Out-of-state Tuition—P. L. 346, 16 or 894 veterans as follows:

| | |
|---|---|
| Full load (over 12 hours) | $ 66.66 |
| ¾ load ( 9-11 hours) | 49.99 |
| ½ load ( 6- 8) hours | 33.33 |
| ¼ load ( 1- 5 hours) | 16.66 |

[1]Fees of full-time students may be paid one-half upon entrance and the balance at the beginning of the second half of the quarter. Fees of part-time students are payable in full at time of registration.

[2]Twelve (12) to nineteen (19) quarter hours constitute a full load except for freshmen R.O.T.C. students in which case twenty (20) hours is the upper limit. Students enrolled for more than the upper limit will be assessed $6.00 for each additional quarter hour. (P.L. 550 Veterans on the undergraduate level are required by the Veterans Administration to carry a minimum of fourteen quarter hours for the entire quarter to receive full subsistence.)

[3]A fee of $1.00 a quarter is added for operation of the College Union when this fee is assessed.

[4]Room rents vary from $15.00 to $28.50 a quarter. The majority rent for $28.50.

## TABLE II

### SPECIAL FEES AND EXPENSE

Departmental and laboratory fees:

| | |
|---|---|
| Biology 37, 38, 39 each (when taught at Gulf Coast Research Laboratory) | 6.00 per qtr. hr. |
| Laboratory fee in addition to above charge, each course | 6.00 per quarter |
| Uniform laboratory fees on all other courses taught during summer at Gulf Coast Research Laboratory will be determined by the laboratory and will be published in official laboratory catalogue. | |
| Business Education 110 | 10.00 per course |
| Education 181, 182, 183, 184, 185, 186, each | 10.00 per course |
| Geology 180 | 30.00 per quarter |
| Health 137 | 3.00 per course |
| Home Economics 185A | 10.00 per course |
| Home Economics 185B | 10.00 per course |
| Home Economics 186A | 10.00 per course |
| Home Economics 186B | 10.00 per course |
| Library Science 189 | 10.00 per quarter |
| Music Education 179-187 | 6.00 per course |
| Journalism 130 | 20.00 per course |

**Music**

| | |
|---|---|
| Piano, organ voice: | |
| 1 private lesson per week | 16.00 per quarter |
| 2 private lessons per week | 32.00 per quarter |
| Strings, woodwinds, brasses: | |
| 1 private lesson per week | 15.00 per quarter |
| 2 private lessons per week | 30.00 per quarter |
| Theoretical subjects: | |
| 1 private lesson per week | 15.00 per quarter |
| 2 private lessons per week | 30.00 per quarter |
| Orchestral or band instrument rental | 6.00 per quarter |
| Organ rental, 1 hour daily | 12.00 per quarter |
| Organ rental, each additional hour daily | 3.00 per quarter |
| Piano, rental, 1 hour daily | 3.00 per quarter |
| Piano rental, each additional hour daily | 1.00 per quarter |

Summer conferences and workshops:

| | |
|---|---|
| Administration Workshop | 2.50 per course |
| Library Science Workshop | 5.00 per course |
| Pre-School Teachers Workshop | 15.00 per course |
| Reading Conference | 5.00 per course |
| School Lunch Managers Workshop | 10.50 per course |
| Summer Band Camp (Dormitory students) | 45.00 per course |
| (Day students) | 27.00 per course |

Note: The conference and workshop fees listed above do not include the $6.00 per quarter hour assessment for incidental fee where college credit is desired, nor do they include the conference charge for room and board.

| | | |
|---|---|---|
| Reading Clinic, individual remedial instruction: | | |
| Special student (non-credit) | 10.00 | with written report |
| Complete reading diagnosis | 20.00 | per 4 week period |
| Speech and Hearing Clinic service: | | |
| Diagnostic speech or hearing examination | 5.00 | when required |
| Private lessons to college students | 5.00 | per quarter |
| Private lessons to off-campus cases | .75 | per clock hour |
| Examinations and graduation: | | |
| Special examination | 3.00 | when applicable |
| Graduation fee | 7.00 | with application for degree |
| Certificate | 2.50 | when applicable |
| Rental on cap and gown (graduate students) | 4.80 | upon graduation |
| Thesis binding, not to exceed* | 12.00 | when applicable |
| Thesis preparation, not to exceed* | 75.00 | when applicable |

*(Actual costs of charts, typing, materials, binding, etc., payable by G. I. Bill of Rights for Public Law 346 and P. L. 16 veterans on presentation of bills by veterans to college)

| | | |
|---|---|---|
| Extension and correspondence: | | |
| Extension center | 6.00 | per quarter hour |
| Correspondence courses | 5.00 | per quarter hour |
| High school by correspondence | 15.00 | per half unit |
| Registration and records: | | |
| Change of schedule | 1.00 | when applicable |
| Audit fee (non-credit) | 2.50 | per quarter hour |
| Late registration | 5.00 | full load |
| | 2.00 | partial load |
| Memorandum of credits | .50 | when applicable |
| Transcript of credits | 1.00 | when applicable |
| ROTC deposit (refundable if all equipment and supplies are returned) | 10.00 | upon entrance the fall quarter |
| Science breakage | 5.00 | per card |

Card is purchased in Business Office before attending first laboratory meeting. Any balance on card upon completion of course is refundable.

## VETERANS

Incidental fees, laboratory fees, and cost of books and supplies are covered by G. I. Bill of Rights for Public Law 346 and Public Law 16 veterans. Veterans entering for the first time should have in their possession Certificates of Eligibility.

Korean veterans, under Public Law 550, receive their allowance direct from the Veterans Administration and are therefore expected to pay all fees to the college as non-veteran students do.

## SPECIAL REFUND POLICY FOR VETERANS ONLY

### Non-Resident (Out-of-State) Tuition

Length of regular quarter ..... 12 weeks
Length of summer quarter ..... 10-11 weeks

| Period of Veteran's Actual Attendance in Institution from Date of Enrollment | Percent on Non-Resident (Out-of-State) Tuition Fees to Be Charged | |
|---|---|---|
| | **Regular Quarter** | **Summer Quarter** |
| One week or less | 20% | 25% |
| Between one and two weeks | 40 | 50 |
| Between two and three weeks | 60 | 75 |
| Between three and four weeks | 80 | 100 |
| Between four and five weeks | 100 | 100 |
| Over five weeks | 100 | 100 |
| Three days or less | 0 | 0 |

### All Charges Other than Non-Resident (Out-of-State) Tuition

Length of regular quarter ..... 12 weeks
Length of summer quarter ..... 10-11 weeks

| Period of Veteran's Actual Attendance in Institution from Date of Enrollment | Percent of Fees to Be Charged Other Than Non-Resident (Out-of-State) Tuition or Fees | |
|---|---|---|
| | **Regular Quarter** | **Summer Quarter** |
| Three days or less | 0 | 0 |
| Four days to one week | 20% | 25% |
| Between one and two weeks | 40 | 50 |
| Between two and three weeks | 50 | 50 |
| Between three and four weeks | 50 | 50 |
| Between four and five weeks | 50 | 50 |
| Between five and six weeks | 50 | 100 |
| Over six weeks | 100 | 100 |

# ACADEMIC ORGANIZATION

## ORGANIZATION OF INSTRUCTION

Academically Mississippi Southern College is divided into three schools and two divisions for purposes of instruction. They are the School of Education and Psychology, the School of Arts and Sciences, the School of Commerce and Business Administration, the Division of Fine Arts, and the Division of Home Economics. All freshmen and sophomores are registered in the School of Arts and Sciences. It is expected that students in the freshman and sophomore years will complete the college core requirements, and, that in the junior and senior years, they will devote most of their time to meeting major and minor requirements. In the junior and senior years, students are registered in the school in which their chosen majors are offered. Graduate students register in the school offering the graduate major appropriate to their objectives. The deans of the schools and division heads are responsible to the Dean of the College and Graduate School for the execution of the academic policies of the college.

## ADMISSION

Admission to the college is granted only on the basis of application. Application forms may be secured from the Admissions Office.

A student may qualify academically for admission to the college by certificate from an accredited high school; examination, or transfer from another college or university. New students are required to take a psychological examination and/or achievement test as part of their orientation.

**Certificate.** A student may be admitted to the college upon the presentation of an acceptable certificate showing fifteen units of high school work from an accerdited high school. The certificate must be sent by mail in advance, directly from the principal of the school attended.

It is recommended that no student plan to major in mathematics or enter any science or pre-engineering curriculum if he does not have one and one-half units of high school algebra and one unit of plane geometry.

**Examination.** Veterans who have successfully completed the General Educational Development Test, high school level, are eligible for admission. Veterans and non-veteran students who have not completed fifteen units of high school work and who have not successfully completed the General Educational Development Test, high school level, may secure conditional admission to the college by examination. This phase of admission is coordinated with the high school equivalency certificate program sponsored by the State Board of Education and the Mississippi Accrediting Commission. Applicants must be at least twenty-one years of age. These examinations are given at 8:00 a. m. the first and third Mondays of each calendar month, at the Guidance Center in College Hall.

Veterans and non-veteran adults who plan to take the examination for the high school equivalency certificate for purposes other than admission to this college should secure necessary information and application forms from their local school officials.

**Advanced Standing.** A student from a college or university of recognized standing may be admitted to the college on the basis of an official transcript of credits mailed directly to the Director of Admissions from the institution previously attended. The transcript must show that the student is eligible for registration at the school from which he is transferring.

Transfer credit will be accepted according to the following policy: a student whose transcript indicates an overall quality point average equal to

a C or better will be allowed to transfer all courses on which he has made a passing grade of D or above. If the transcript indicates an overall average of below C, only those courses bearing grades of C or better will be accepted. All courses attempted at the institutions from which the student wishes to transfer will be considered in determining the quality point average.

Not more than 99 quarter hours may be transferred from a junior college. If a person has earned a total of 99 quarter hours from all sources, no additional work may be taken at a junior college. At least 96 of the 192 quarter hours required for graduation must be earned in a senior college after admission to the junior class.

**Special Students.** Students from other colleges may enroll as special students without submitting formal transcripts of previous work, if they plan to transfer back to their former school for graduation; but they must present official statements of good standing at the college from which they come. Other irregular students may be classified as special students with permission of the Admissions Committee.

**Foreign Students.** Foreign students are required to meet the following admission requirements, as well as those outlined above: a certificate of Proficiency in the English language must be presented unless the student has been graduated from an accredited English language high school in the continental United States. Foreign students must meet all admission requirements before they are allowed to take final examinations of their first quarter of residency.

**Credit For Military Experience.** For basic training, veterans may receive six quarter hours of credit in military science. Credit for achievement of a commission, or for specialized training received in service schools or through the USAFI, ASTP, or Army University Center courses will be honored according to the recommendations of the American Council on Education.

**Medical Examination.** Each student, prior to registration, is required to submit a medical examination on a form supplied by the college. The medical examination form will be furnished with application for admission. Additional forms may be secured from the Admissions Office.

The college physican requires that all new students be either vaccinated on entrance or submit proof of recent successful vaccination. The college reserves the right to require a physical examination of any student at any time. No student's registration is complete without a medical examination.

**Recommendations.** Each new applicant for admission must submit five letters of recommendation. For a resident of Mississippi, these letters must be from alumni of Mississippi Southern College who are also residents of the applicant's home county. If there are few Mississippi Southern College alumni in the applicant's home county, recommendations from alumni in other counties may be submitted. A resident of another state may submit recommendations from responsible citizens of his home community.

ALL STUDENTS, OTHER THAN FOREIGN STUDENTS, MUST COMPLETE ADMISSION REQUIREMENTS WITHIN THIRTY DAYS AFTER REGISTRATION OR THEIR REGISTRATIONS WILL BE CANCELLED.

## COUNSELING SERVICES

**Orientation.** At the beginning of the fall quarter, freshman and transfer students, together with certain student leaders, reach the campus a few days before other students arrive. At this time faculty and students join in introducing the new students to the campus and registration procedures and

assisting them in securing maximum benefit and happiness at Mississippi Southern College. All new students are given a psychological examination and freshmen are given an English achievement test. These tests aid advisers in planning the individual student's course of study. The participation of student leaders lends much of practical value to the program.

**Academic Guidance.** Mississippi Southern College attempts to provide adequate academic guidance for its students. Students in the freshman year are assigned to an adviser by the director of student counseling. Sophomores are assigned to advisers by the dean of the school of arts and sciences. Upon becoming juniors, students are assigned to advisers in their major fields by the head of the school or division in which their major is taken. Students who are pursuing pre-professional curricula have special advisers whose interests and training enable them to give their advisees adequate guidance. Students may not change their advisers without permission in writing from the appropriate administrative officer indicated above.

**Freshman Guidance.** Carefully chosen advisers from every department of the college make up the group serving as freshman advisers. In addition to advising freshmen in their educational program for the first year, these advisers attempt to become well acquainted with their advisees in order to help them with their personal and vocational problems. The freshman adviser is the student's closest counselor in the first year of his college career. The advisers work closely with the director of student counseling and the Guidance Center in this program.

**Guidance Center.** The Guidance Center, under the director of student counseling, provides assistance to all students in matters of personal, vocation, education and social needs. Diagnostic, psychological, aptitude, and vocational tests are administered as well as some of the national tests such as the Graduate Record Exam.

All types of student problems are brought to the Guidance Center. Those who require specialized assistance are referred to the appropriate departments of clinics.

**Remedial Services.** When the testing program and the student's academic record indicate need for remedial study, the college offers unusual facilities for remedial work. Special services are offered in English, reading, speech, mathematics and other areas. Special corrective procedures are available in the Speech Clinic, the Reading Clinic, and the Physical Education Department. In addition, tutor's work is available for areas of deficiency.

## PREPROFESSIONAL CURRICULA

The preprofessional programs at Mississippi Southern College are designed to prepare students for admission to the professional schools of their choice. In addition to the curricula outlined below, preprofessional programs may be worked out in individual cases for architecture, forestry, social work, veterinary medicine, the ministry, and other fields.

## RECOMMENDED PREMEDICAL AND PREDENTAL PROGRAM

The premedical-predental curriculum is planned to meet the needs of the student wishing ultimately to transfer to an approved school of medicine or dentistry, but the student should exercise care and seek the counsel of his advisers in selecting courses that will meet the specific requirements of the medical or dental school which he intends to enter. This is especially true of science, social science, and language requirements.

It should be remembered that the keen competition for admission to medical and dental schools at present makes it imperative that the student plan his curriculum carefully and maintain a superior scholastic standing. A three-year premedical and predental program is outlined below, but if the student wishes to receive a bachelor's degree before transferring to professional school, a four-year curriculum may be worked out with the pre-

medical or predental adviser. A student accepted in medical or dental school after the junior year may be awarded a bachelor's degree upon completion of the first year of medical or dental school if the requirements outlined elsewhere in this catalog are met.

| Freshman Year | Hours |
|---|---|
| English 25, 26, 27 | 12 |
| Chemistry 25, 26, 27 | 12 |
| Mathematics 32, 35 | 8 |
| Biology 37, 38, 39 | 12 |
| Electives | 4 |
| **Sophomore Year** | |
| Physics 80, 81, 82 | 12 |
| Chemistry 75, 76 | 8 |
| German or French | 12 |
| Biology 143, 144 | 8 |
| Elective (one course in social studies suggested) | 8 |
| **Junior Year** | |
| Chemistry 130, 131, 132 | 12 |
| German or French | 12 |
| Chemistry 177, 178 | 6 |
| Electives | 18 |

## RECOMMENDED PROGRAM IN MEDICAL TECHNOLOGY

The following three-year program is planned to meet the needs of those specializing in medical technology. The student who completes additional work at a recognized school of medical technology and who meets the requirements outlined elsewhere in this catalog may be eligible for a Bachelor of Science degree at Mississippi Southern College.

| Freshman Year | Hours |
|---|---|
| English 25, 26, 27 | 12 |
| Chemistry 25, 26, 27 | 12 |
| Biology 37, 38, 39 | 12 |
| Mathematics 31, 35 | 8 |
| Speech 31 | 4 |
| Physical education activities | 3 |
| **Sophomore Year** | |
| Chemistry 75, 76, 77 | 12 |
| Biology 142, 143, 144 | 12 |
| English 73, 74 | 8 |
| Sociology, government or geography | 4 |
| Psychology 65 | 4 |
| Physical education activities | 3 |
| **Junior Year** | |
| Physiology 129 or Health 125 | 4 |
| Bacteriology 139, 145, 185 | 12 |
| Biology 166, 167 | 8 |
| Physics 80, 81, 82 | 12 |
| Health 79 | 4 |
| Chemistry 92 | 4 |
| Social studies elective | 4 |
| Elective (Business Education 35 suggested) | 4 |

## RECOMMENDED PRE-NURSING PROGRAM

The following program is designed for students who wish to transfer to the Department of Nursing of the University of Mississippi. With minor

deviations it will meet admission requirements for other schools of nursing in this area.

| | Hours |
|---|---|
| Vertebrate biology courses | 4 |
| Chemistry 25, 26 (Inorganic Chemistry) | 8 |
| English 25, 26 (English Composition) | 8 |
| History 27, 28 (World Civilization) or History 61, 62 (American History) | 8 |
| Home Economics 78 (Foods and Nutrition) | 4 |
| Mathematics 21 (Basic Mathematics) | 4 |
| Sociology 63 (Introductory Sociology) | 4 |
| Physical education | 3 |
| Elective (possibly general psychology) | 4 |

## RECOMMENDED PREPHARMACY PROGRAM

The requirement for admission to a college of pharmacy is one year of prepharmacy training. The student should obtain a copy of the catalog of the school of pharmacy which he plans to attend and with his academic adviser adjust his course of study to meet his individual needs.

| | Hours |
|---|---|
| Biology 37, 38, 39 | 12 |
| Chemistry 25, 26, 27 | 12 |
| English 25, 26, 27 | 12 |
| Economics 54 | 4 |
| Mathematics 31, 35 | 8 |
| Physical education | 3 |
| Electives | 4 |

## RECOMMENDED PRE-OPTOMETRY PROGRAM

The following program meets the admission requirements of most schools of optometry. It is suggested, however, that the pre-optometry student obtain a catalog from the school in which he is interested and with his academic adviser allow for any deviations from this program.

Freshman Year

| | Hours |
|---|---|
| English 25, 26, 27 | 12 |
| Chemistry 25, 26, 27 | 12 |
| Mathematics 31, 35 | 8 |
| Biology 37, 38, 39 | 12 |
| Electives | 4 |

Sophomore Year

| | |
|---|---|
| Psychology 65 | 4 |
| Physics 80, 81, 82 | 12 |
| Speech 31 | 4 |
| Biology 143, 144 | 8 |
| Mathematics 75, 76 | 8 |
| Sociology 63 | 4 |
| Health 79 | 4 |
| Electives | 4 |

## RECOMMENDED PRELEGAL PROGRAM

The requirements for admission to accredited law schools vary, ranging from three years of prelegal work to a college degree. It is suggested that the prelegal student obtain a copy of the catalog of the law school which he wishes to attend and that he plan his curriculum under the guidance of his academic adviser. The program at Mississippi Southern College is divided,

therefore, into two parts, and the prelegal student may elect the one which he considers the more appropriate to his circumstances.

A. It is suggested that the prelegal student secure his bachelor's degree before entering a school of law. If he elects to do this, he must complete the core, choose his major and minor, and in general meet the requirements for the bachelor's degree.

B. If the prelegal student desires the three-year program, he may receive his bachelor's degree from Mississippi Southern College after he receives his law degree if he meets the requirements outlined elsewhere in this catalog.

Most law schools do not require specific courses for admission, and Mississippi Southern College accepts this policy. The college invites the student's attention, however, to the following courses in addition to the core curriculum:

Accounting 71, 72, 73
Economics 54
Psychology 139 (Social Psychology)
Sociology 151 (Marriage and the Family)
Biology 136 (Human Anatomy) or Health 170 (Applied Psychology)
Government 25, 45, 130, 135, 185
History 109, 179, 190
Philosophy 130 (Logic)
Sociology 128 (Criminology)
Speech 40, 115, 108
Business Administration 166

## RECOMMENDED PRE-ENGINEERING PROGRAM

The following curricula are set up to meet the requirements for admission to most engineering schools. The student should note that there are no electives and that there are only four courses not required by most engineering schools. These are History 27, History 28, Economics 55, and Speech 31. However, every engineering school requires some courses of the same nature. Students who have selected an engineering school may need to change one or more of these courses to meet the requirements of their particular choice, but no other substitutions should be made.

The pre-engineering student must maintain the average required by the college to conform to the following schedule of more than nineteen hours per quarter. Those students not meeting the requirements of the college for taking this schedule should plan to spend more than six quarters in pre-engineering.

### FRESHMAN YEAR PROGRAM FOR ALL ENGINEERS

## DEGREES AND CURRICULA

Mississippi Southern College grants the following undergraduate degrees: Bachelor of Science, Bachelor of Arts, Bachelor of Music, and Bachelor of Music Education. Candidates who wish to qualify for the professional license in teaching may do so by choosing the proper courses in education and psychology. Candidates may qualify for one of the lower teaching certificates by taking specified courses. In general it is expected that students wishing to qualify as teachers will follow one of the professional programs.

Graduate degrees are discussed in the section of this bulletin devoted to the Graduate School.

**Types of Courses a Student Takes**—Each student takes four types of courses while meeting requirements for a degree: (1) courses from the core curriculum, (2) courses from a field of major interest, commonly called the student's major, (3) courses from a field of minor interest, commonly called the student's minor, and (4) electives. The core is made up of basic courses which every college graduate needs. The major is chosen by the student because he wants to do a great deal of work in that field. A student takes a minimum of 36 hours of work in his major. A student takes a minimum of 28 hours in his minor. Electives are any additional courses a student chooses from any field because of his interest in those courses. The minor and elective courses should be chosen after consultation with the major professor.

The following diagram may help to make this explanation clear.

| Core Curriculum | Major | Minor | Electives and Other Prescribed Courses |
|---|---|---|---|
| 78 to 100 hours<br>Taken by all students | 36 hours<br>(or more) | 28 hours<br>(or more) | To complete a total of 192 hrs. |

### JUNIOR ENGLISH EXAMINATION REQUIREMENT

A college regulation requires that in order to qualify for any undergraduate degree a student must pass a qualifying examination in English after becoming a junior. The examination is given on Thursday of the seventh week of each quarter, and it is to the student's advantage to take the examination during the first quarter of his attendance after he becomes eligible.

### HOURS IN COURSES NUMBERED ABOVE ONE HUNDRED

To become eligible for any undergraduate degree a student is required to complete a minimum of 68 hours of work in courses numbered 100 or above.

## BACHELOR OF SCIENCE DEGREE

The Bachelor of Science degree will be awarded to students who have earned 192 quarter hours of credit including the core and major and minor requirements, and who have conformed to the scholastic regulations governing the degree.

The core requirements for the Bachelor of Science degree are listed below. This core curriculum is the common pattern for all students who are candidates for this degree. The student should plan to complete these requirements during the first two years of his college career.

## CORE CURRICULUM

English 25, 26, 27 — 12
Transfer students who present a year's credit in freshman English will be considered as having met this requirement.
Sophomore literature — 8
Speech 31 — 4
Social studies — 8
The eight hours in social studies must be selected from two of the following fields: geography, government, sociology and principles of economics (or introductory economics).
History 27, 28 — 8
Biological and/or physical science as explained below — 16
(a) Students who are following the professional teaching program must take Biology 37 and 38 and the remaining eight hours in the Division of Physical Sciences — astronomy, chemistry, physics, and geology. Students in home economics education may offer Biology 139 instead of Biology 38.
(b) Students who are not following the professional teaching program may take a year in a laboratory science (one laboratory science) and a sufficient number of hours in mathematics to complete the required 16 hours.
Students who are not following the professional teaching program may elect (a) or (b) above but may not mix the two .
Mathematics — 4
This requirement is in addition to any mathematics that may be offered in connection with the physical science requirement above.
Psychology 65 — 4
Health 79 — 4
Physical education (activity courses) — 6
Military science credit earned in a college program may be used to meet this requirement. Credit for military service experience may not be used to meet this requirement.
Elective in health or physical education — 4
Required for men: Military Science 31, 32, 33 — 6
(3 quarter hours may be used to meet P. E. requirements)

TOTAL — 84

## MAJOR REQUIREMENTS

Specific course requirements for academic majors will be found in the expository material preceding course descriptions in the various divisions.

I. A student who wishes to work for the Bachelor of Science degree, but who does not wish to follow the professional teaching program, must choose his major from among the following fields:

Accounting
Architectural drafting
Art
Biology
Botany
Business administration
Chemistry
Child development
Clothing and merchandising
Clothing and textiles
Economics
English (45 hours required)
Foreign service
French
General home economics
General speech
Institutional management
Journalism
Latin-American studies
Library science
(45 hours required)
Marketing and merchandising
Mathematics
Microbiology
Office management
Oral interpretation of literature
Personnel management
Physical education
Physics
Psychology
Public address
Radio and television

Geology
Geography
German
Government
Health
History
Home economics in equipment
Homemaking
Industrial arts
Recreation
Religion and philosophy
Secretarial science
Sociology
Spanish
Speech correction and hearing
Theatre
Zoology

II. A student who wishes to qualify for a Class-A certificate at the elementary level by following the professional teaching program in connection with his work for a Bachelor of Science degree must complete a major in elementary education. This major includes the following: Education 20, 66, 101, 103, 107, 108, 116, 117, 143, 151e, and 169; ten hours of student teaching and Psychology 116.

A student majoring in elementary education must also complete Art 25 and 26, Music 95, 96, and 97, and Conservation 132 and 147. Education 151b may be substituted for Art 26, or a combination of Art 132 and Art 133 may be substituted for Art 26. Art 112 or Art 113 may be substituted for Music 97. Conservation 147 may be substituted for a physical science in the core curriculum. Education 151e may count as four hours of physical education in this program.

A recommended outline for the program of study for elementary education majors will be found in the section of the catalog devoted to the Division of Education and Psychology.

III. A student who wishes to qualify for a Class-A certificate for teachers at the secondary level by following the professional teaching program in connection with his work for a Bachelor of Science degree must choose his major from among the following fields:

Art
Biology
Business education
Chemistry
Corrective therapy
Education of exceptional children
Educational therapy
English (45 hours required)
French
General science (Required: biology, 18 hours; chemistry, 18 hours; physics, 12 hours)
General speech
Geography
German
Government
Health
Health, physical education, and recreation
History
Home economics
Industrial arts
Library science (45 hours required)
Manual arts therapy
Mathematics
Oral interpretation of literature
Physics
Public address
Radio and television
Recreation
Sociology
Speech correction and hearing
Spanish
Theatre

In addition, the student must complete the following courses: Education 20, 113, 169, 185, and 186; the methods course appropriate to the major field; at least two hours from Education 116, 128, 136, 162, and 164, and Home Economics 220; Psychology 119 and 132; and four hours in fine arts.

## MINOR REQUIREMENTS

The student should select his minor after consultation with his major professor.

I. A student working under the provisions of part I under "Major Requirements" above must establish a minor chosen from among the fields

listed as possible majors (see part I under "Major Requirements" above), with three exceptions.

(1) A student majoring in Latin-American studies may not minor in Spanish.

(2) A student majoring in Spanish may not minor in Latin-American studies.

(3) A student may establish a minor in general science by offering 36 hours from two or more appropriate fields (biology, chemistry, geology, mathematics, and physics), provided he offers at least 12 hours from each field he chooses to include, and provided at least 8 hours of the work offered as a minor have been earned at Mississippi Southern College.

(4) A student, unless he is majoring in physical education, to establish a minor in any field, must earn at least twelve hours above the core requirements in that field.

II. A student working under the provisions of part II under "Major Requirements" above must establish a minor in one of the divisions of instruction (other than the Division of Military science and Tactics) or in a combination of English and speech.

III. A student working under the provisions of Part III under "Major Requirements" above necessarily establishes a minor with his professional courses.

Since most high schools in Mississippi require teachers to teach in more than one field, it is recommended that students working for secondary certificates try to plan electives so as to meet certification requirements in some field in addition to the major.

## BACHELOR OF ARTS DEGREE

The Bachelor of Arts degree will be awarded to students who have earned 192 quarter hours of credit including the core and major and minor requirements, and who have conformed to the scholastic regulations governing the degree.

The core requirements for the Bachelor of Arts degree are listed below. The student should plan to complete these requirements during the first two years of his college career.

### CORE CURRICULUM

| | Hours |
|---|---|
| English composition and literature | 20 |
| Speech | 4 |
| A foreign language (one language) | 18 |
| Social studies | 20 |
| A maximum of four hours in religion and philosophy and four hours in economics may be used in meeting this requirement. | |
| Psychology | 4 |
| A laboratory science (one science) | 12 |
| Mathematics and/or philosophy | 8 |
| Health 79 or 125 | 4 |
| Physical education activity courses | 6 |
| Military science credit earned in a college program may be used to meet this requirement. Credit for military service experience may not be used to meet this requirement. | |
| Elective in health or physical education | 4 |
| Required for men: Military Science 31, 32, 33 | 6 |
| (3 quarter hours of military science may be used to meet P. E. requirements.) | |
| TOTAL | 106 |

### MAJOR REQUIREMENTS

A major may be selected from among the following fields:

Art
Biology
Chemistry
Economics
English (45 hours required)
Foreign trade
Foreign service
French
General speech
Geology
Geography
German
Government
Health
History
Home economics
Journalism
Latin-American studies
Library science
(45 hours required)
Mathematics
Microbiology
Oral interpretation of literature
Physics
Psychology
Public address
Radio and television
Religion and philosophy
Sociology
Spanish
Speech correction and hearing
Theatre
Zoology

### MINOR REQUIREMENTS

The minor should be selected by the student after consultation with the major professor. A minor must be selected from among the fields available as a major except that (1) a student who majors in one area of speech may not minor in another area of speech, (2) a student who majors in Latin-American studies may not minor in Spanish, and (3) a student who majors in Spanish may not minor in Latin-American studies.

### ELECTIVES

A sufficient number of electives must be chosen to bring the total number of quarter hours earned to 192. The electives should be chosen after consultation with the major professor.

## BACHELOR OF MUSIC DEGREE

The requirements for the Bachelor of Music degree are listed in the section devoted to the Division of Fine Arts.

## BACHELOR OF MUSIC EDUCATION DEGREE

The requirements for the Bachelor of Music Education degree are listed in the section devoted to the Division of Fine Arts.

## DEGREES FOR PRE-MEDICAL, PRE-TECHNICIAN, PRE-DENTAL, OR PRE-LAW STUDENTS

Students may be allowed to complete work for B.S. and B.A. degrees in affiliated schools of medicine, medical technology, dentistry, and law on the conditions:

(1) That 140 hours of credit and 280 quality points shall have been completed, with a minimum of four quarters of residence at Mississippi Southern College.

(2) That all core requirements for the degree shall have been completed, except that students preparing for a degree in medical technology or medicine will be allowed to substitute four hours in some other elective subject for four hours in health in the core curriculum.

(3) That credit and quality points shall be transferred back to Mississippi Southern College from the school of medicine, dentistry, or

law to complete requirements for the degree. (In the case of medical technicians, a certificate of graduation from a recognized school of medical technology must be presented.) In any event a minimum of 192 quarter hours must be completed before the degree will be awarded.

(4) That the program leading to the degree shall be completed within two calendar years of the termination of the last quarter of residence at Mississippi Southern College, except that technicians will be allowed three calendar years after the last quarter of residence, for the completion of the program leading to the degree.

## TEACHER CERTIFICATION

College officials attempt to provide up-to-date information regarding teacher certification, and a student graduating from the college under the current catalog will, if he has followed one of the professional teaching programs, qualify for a teaching certificate. The final answer regarding certification, however, must of necessity rest with the Certification Division of the State Department of Educaton. A certification bulletin from that department is available upon request.

## SCHOLASTIC REGULATIONS

### Exemption from Core Requirements

Students may be exempt from any part of the core requirements for any of the degrees on the basis of attainment in the field as demonstrated by examination or by previous record. The granting of exemption does not involve the bestowal of credit; neither does it reduce the total number of hours to be earned for a degree. Its only effect is to increase the number of elective or semi-elective credits which the student may offer as a part of his program for a degree.

### Program of Work

The programs of work outlined for students in this bulletin are suggested but not required. It is expected that all students will conform to the core requirements, but in case of the major and minor programs some flexibility will be allowed. It is obvious that no program can meet the needs of every student. Major advisers will endeavor to see that the programs authorized for their advisees provide the most favorable training for the individuals concerned.

### Physical Education

Freshman and sophomore students are required to earn one hour of physical education credit during each quarter of the freshman and sophomore years unless excused from the requirement by the college physician or the dean.

### Military Science

Physically qualified male freshmen are required to complete at least one year (three quarters) of Military Science.

### Quarter Hours

An applicant for a degree must complete 192 quarter hours, including core requirements and major and minor requirements. No more than six hours of practical music (chorus, band, or orchestra) may be counted toward a degree except by students who are majoring in music. Not more than four hours in any one varsity sport may be used in meeting degree requirements.

### Catalog Governing Graduation Requirements

Graduation requirements must be met under a catalog which is not more than six years old at the time of the student's graduation and which bears announcements for a year during which the student earned some credit at Mississippi Southern College.

### Residence Requirements

To become eligible for a degree at Mississippi Southern College a student must meet the following residence requirements:

(1) He must be a resident student at this institution for at least three quarters.

(2) He must do his last quarter of work on the Mississippi Southern College campus, except that his last four quarter hours of credit may be earned by extension or correspondence work.

(3) He must earn at least 48 quarter hours of credit in residence at Mississippi Southern College.

(4) He must earn at Mississippi Southern College at least twelve quarter hours of credit in his major field.

(5) Military personnel on active duty may be permitted to qualify for graduation by attending two quarters in residence and completing a minimum of 40 quarter hours in residence, provided all other degree requirements are met.

### Quality Point Requirements

Each grade of A carries four quality points for each quarter hour of credit. Each grade of B carries three quality points for each quarter hour of credit. Each grade of C carries two quality points for each quarter hour of credit. Grades of D carry one quality point for each quarter hour of credit. A student must earn a quality point ratio of 2.0 at Mississippi Southern College in residence courses that carry quality points. High grades in institutions from which credits are transferred to this college may not offset low grades made in this institution.

Credit earned in correspondence work, extension work, and workshops may not be used to offset quality point deficiencies. In the case of workshops this regulation became effective as of September, 1950.

Transfer students are expected to present transcripts showing an average of at least C.

A student may not major or minor in an area in which he has earned less than a 2.0-quality point ratio.

### Scholarship Standards

It is necessary that students maintain a reasonable academic record to continue in college. The Scholarship Standards Committee, which has the responsibility of determining whether or not students have met the minimum standards of the college, has set up the following scholastic standards as a guide in fulfilling its responsibility.

1. A student must pass at least eight hours of work on which he earns a minimum grade of C.

2. A student who does not meet the aforementioned standard may be readmitted on academic probation if the Scholarship Standards Committee finds that conditions justify such readmission. A student already on probation will be suspended from college for the next suc-

ceeding quarter if he does not meet the above minimum academic standards. However, a student suspended at the end of the spring quarter is suspended for the following fall quarter. Exceptions will be made of students who attend summer school and earn fifteen hours credit with a C average or better.

3. A student who passes no work is subject to automatic suspension whether or not he has previously been on probation.

4. A student may remove himself from academic probation by earning at least a C average on a load of fifteen hours or more for two consecutive quarters provided his general average is C or better.

5. A student suspended the second time for poor scholarship may not apply for readmission until the expiration of at least one calendar year and presentation of a satisfactory record of work in an accredited college or university, employment, or military service. No student may be readmitted after three suspensions for poor scholarship.

### Approval of Faculty

After a student has met the scholarship requirements for a degree, the question of his graduation is submitted to a vote of the faculty. If a majority of the faculty vote favorably, the president is authorized to grant the degree.

### Application for Degree

A student is expected to file an application for a degree at least three quarters before the degree is to be conferred. This application will show the work completed by the student and the proposed courses for the ensuing quarters. After the application has been approved, it becomes the student's official program.

A student must pay at the time of the filing of his application for degree the seven-dollar degree fee. No application will be accepted until this fee has been paid.

An application for degree will not be accepted for any commencement later than the end of the seventh week of the quarter of the convocation at which the student expects to graduate. Graduate students must make application for degree at least a quarter before the degree is awarded.

### Honors

A student may be awarded a degree with honors or with highest honors. In order to win one of these awards, a student shall have had on the Mississippi Southern College campus not less than five quarters of work of not less than twelve quarter hours of credit in each quarter, and totaling no less than eighty hours of credit. In computing this residence requirement, a six-week term will be considered a half quarter when the load is six hours or more. Honors will be granted to students who maintain an honor-point average of 3.5 or more. Highest honors will be granted to students who maintain an honor-point average of 3.8 or more.

### Second Bachelor's Degree

Mississippi Southern College will confer upon a candidate a second bachelor's degree based upon requirements imposed by the current catalog, provided the program of study for the second degree includes at least 48 quarter hours of credit with 96 quality points. It is required that the 48 hours be related to a specific major.

### Late Registration

A late registration fee is applicable after registration day. For students taking nine hours or less the fee is two dollars, and for students taking more than nine hours the fee is five dollars.

No student may enter after the first day of the third calendar week of any quarter. No student who enters after the first week may take more than twelve hours, except by special permission of the appropriate dean, but those entering any time during the first week may take a full load of sixteen hours provided they make up the work missed.

Students registering for half a quarter may not register for a full load after the second day of the term. Seniors expecting to graduate at the end of a half quarter must register within the first two days of the term regardless of load.

### Program Changes

A student who finds that he is not prepared for courses for which he is registered may be allowed to withdraw on the recommendation of his adviser with the approval of the appropriate academic dean. A student will not be permitted to withdraw from a course after the fourth week of a quarter. A fee of one dollar is required for a change in registration after the regular registration period.

### Foreign Students' Programs of Study

The academic program of every foreign student must be approved by the foreign student adviser (the director of the Institute of Latin American Studies) each quarter. No change may be made in a foreign student's program without the approval of the foreign student adviser.

### Correspondence Work in Residence

A long-standing regulation provides that students will not be permitted to do correspondence study while in residence.

### Language Credit

Students must complete a minimum of one year of work in a foreign language if the credit is to be counted toward a degree.

### Load of Work

The normal student load is twelve to nineteen quarter hours of work. Students who are listed on the honor roll will be permitted to take twenty-one quarter hours of work during the next quarter of attendance.

Seniors may take twenty quarter hours during any one of their last three quarters provided they made no grade lower than C during the previous quarter.

Students who have maintained a place on the honor roll for each of the two preceding quarters of their residence may take up to twenty-five quarter hours of work during their next quarter of attendance.

### Dean's List

Students will be placed on the Dean's List if they have maintained a quality point ratio of 3.25 or above on an academic load of fifteen quarter hours or more, provided they have no grade of D or below. Being on the Dean's List carries with it certain academic and social privileges.

### Absences

Students are expected to attend all classes regularly. When it is neces-

sary that a student be absent from a class, courtesy requires an explanation to the instructor in charge. If a student has as many as 14 absences in any 4-hour course, or the proportionate number of absences in a 1-,2-, or 5-hour course, he will not receive credit in the course.

## Examinations

Examinations will be held on the last three days of the fall, winter and spring quarters.

During each of the two terms of the summer quarter the last regularly scheduled meeting of a class will be used for examination purposes.

No final examinations are permitted prior to the scheduled examination period.

A student who is absent from the examination without valid reason approved by the dean forfeits credit for the quarter. Students will be charged a fee of $3.00 for special examination unless excused by the dean.

## Grading System

A —indicates very superior work.

B —indicates superior to average work.

C —indicates average work.

D —indicates inferior to average work.

E —indicates failure with condition. An E becomes an F if the condition is not removed within the next twelve months, or, if the student is not in residence during all of the next twelve months, within the next quarter of attendance after the expiration of the 12-month period. An E grade cannot be raised higher than a D.

F —indicates failure without condition, necessitating repetition of the course.

I —indicates an incomplete record. An I becomes an F if the work is not completed within the next twelve months, or if the student is not in residence during all of the next twelve months, within the next quarter of attendance after the expiration of the 12-month period.

W—indicates withdrawal. No student will be allowed to withdraw from a courses after the fourth week, except under unusual circumstances approved by the dean.

Y —indicates acceleration, because of proficiency, to a more advanced course.

## Definitions

The college session, beginning in September and ending in August, includes four quarters.

A quarter is twelve weeks in length.

A credit (called also quarter hour, or hour) measures college work and represents the credit received for the successful pursuit of a college subject for one quarter (twelve weeks), one 60-minute class period per week (laboratory periods are 120 minutes). For example, a class meeting four times a week for one quarter earns four hours of credit. A credit is ordinarily presumed to require from one and one-half to two hours of preparation for each hour spent in class.

A memorandum of credits is a statement showing the courses completed and credits earned by the student. Memorandums are fifty cents each, except that upon request of the student one copy of the cumulative record will be supplied to the Mississippi Southern College Placement Bureau without charge.

A student is ranked as a—

Freshman when he has fewer than 40 hours.

Sophomore when he has as many as 40 hours and fewer than 96 hours.

Junior when he has as many as 96 hours and fewer than 132 hours.

Senior when he has 132 or more hours.

Special student when his credentials for admission have not been received or when his work is of an irregular nature.

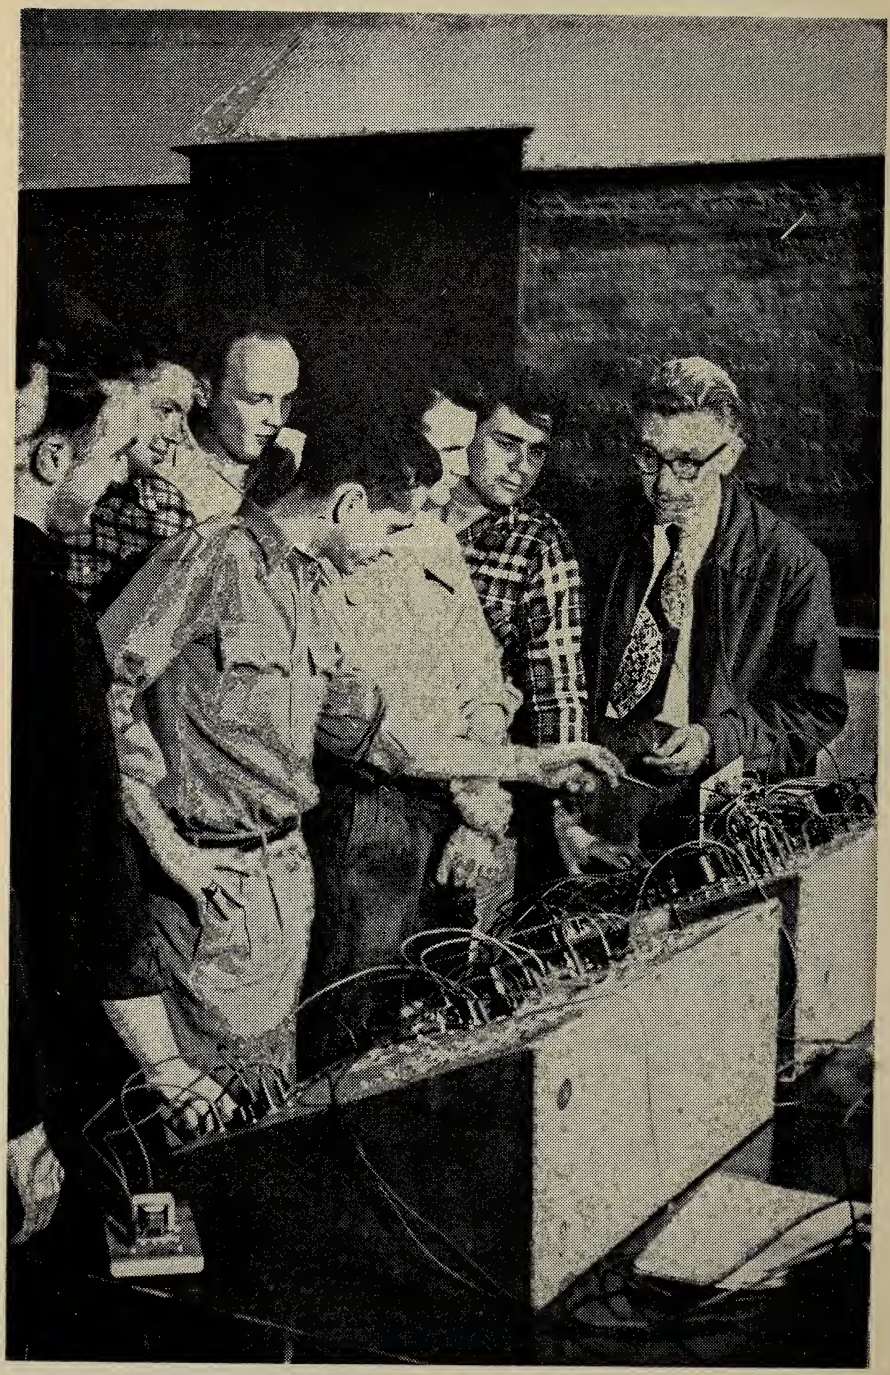
A student is ranked for the Selective Service at the end of the school year, that is, in June: (1) as a freshman if he has completed 55 hours or less; (2) as a sophomore, 56 hours to 105 hours; (3) as a junior, 106 hours to 155 hours; (4) as a senior, 156 hours or more.

## Numbering of Courses

Freshman and sophomore (or junior college) courses are numbered below 100. Senior college courses are numbered from 100 to 399. Graduate courses are numbered 400 or above. A few courses may be had as graduate or undergraduate work, as indicated by their listing under alternate numbers, one below 400, and one 400 or above.

Freshman and sophomore students are not ordinarily permitted to register for senior college courses. Senior college students may register for freshman and sophomore courses, but juniors and seniors who register for courses numbered below 100 in any field except physical education, music, natural sciences, and industrial and fine arts are expected to do some research-type work in addition to the work regularly required of freshmen and sophomores in the same courses.

The student should keep in mind the regulation requiring 68 hours of work in courses numbered 100 or above.



# SCHOOL OF ARTS AND SCIENCES

John H. Allen, Dean

It is the purpose of the School of Arts and Sciences to provide a broad cultural and educational experience for all students at Mississippi Southern College as well as to make available to them the specialized disciplines offered as major and minor fields. Freshmen and sophomores, regardless of their expected majors, are assigned to Arts and Sciences for the purpose of meeting the general education or core requirements necessary for graduation.

## ORGANIZATION

The School of Arts and Sciences is organized into fourteen departments: Biology, Chemistry, English and Literature, Foreign Languages, Geography, Geology, History, and Government, Journalism, Mathematics, Military Science, Physics, Religion and Philosophy, Sociology, and Speech Arts. Majors and minors are offered in all of these areas except military science. In addition to the four year curricula, pre-professional training is provided for students who plan to enter the fields of medicine, dentistry, medical technology, nursing, pharmacy, optometry, law, and engineering.

## THE DEPARTMENT OF BIOLOGY

**J. F. Walker, Chairman**

Walker, Ball, Gunter, Harrises, Rosso, Valentine, Varrelman, Woodmansee

## PURPOSE

The Biology Department endeavors to prepare college students to become research biologists, biology teachers, and workers for state game-fish commissions and national parks. The Department also offers courses in biology to meet all requirements of pre-professional training in the specialized fields of medicine, dentistry, nursing, medical technology, veterinary science, entomology, and marine biology.

### Requirements for Major

A student majoring in biology may elect one of several alternative plans. He may work toward either the B.A., the B.S. Professional or the B.S. Non-Professional degree, the M.A. in teaching of biological sciences, and M.S. in biology. The student's choice of a program of study should be determined by his plans for the future and after consultation with his adviser.

A. Curriculum—College Core

A student working towards either of the above mentioned bachelor of science degrees must include the core curriculum subjects for the degree selected. The core curricula for the degrees listed above in the same sequence of their listing are to be found on page 64 of this catalogue. The student majoring in biology should elect a full year of chemistry and a full year of physics in lieu of the minimum core requirements for the physical sciences.

B. Curriculum—Professional Requirements

The student working toward the B.S. Professional degree must include in his program the courses in Education and Psychology required for the Class A teaching certificate.

C. Curriculum—Departmental Requirements

1. General Requirements

The student wishing to major in biology, regardless of his degree plan, must take 36 hours in the Department of Biology, of which 24 must be in courses numbered above 100. Required of all majors are Biology 37, 38, 39, 140, and 143 and 144 or 190 and 191 or 117 and 118.

2. Requirements fo rspecialized programs:

The pre-professional requirements for the specialized fields of medicine, nursing and medical technology are listed on pages 59-60 of this catalogue.

The specialized programs of Botany, Zoology, and Microbiology are as follows:

**Botany**

A minimum of 36 hours selected with the consent of major professor from the following subjects: Biology 37, 38, 39, 117, 118, 120, 139, 145, 187, 293, 194, 140, 195, 196, and 197.

**Zoology**

A minimum of 36 hours selected with consent of major professor from the fololwing: Biology 37, 38, 39, 63, 64, 115 (or 153), 142, 143, 167, 190, 191, 195, 196, and 198.

**Microbiology**

A minimum of 36 hours selected with consent of major professor from the following: Biology 37, 38, 39, 115, 117, 118, 142, 146, 166, 167, 140, 190, and 191 with eight hours of supporting electives in the departments of Geology, Physics, Chemistry or Health.

Detailed outlines of specialized programs with majors in biology are as follows:

**Curriculum Leading to**
**BACHELOR OF SCIENCE DEGREE**
**Recommended for**
**MAJOR IN BIOLOGY**
**and**
**MINOR IN BOTANY**

**(For freshman and sophomore years, see core curricula)**

**Junior Year**

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Biology 166 or 190 | 4 | Biology 167 or 191 | 4 | Biology 140 | 4 |
| Biology 117 | 4 | Biology 118 | 4 | Biology 120 | 4 |
| Health 125 | 4 | Elective | 8 | Biology 101 | 4 |
| Elective | 4 | | | Elective | 4 |
| | 16 | | 16 | | 16 |

**Senior Year**

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Biology 139 | 4 | Biology 193 | 4 | Biology 194 | 4 |
| Biology 195 | 4 | Biology 196 | 4 | Biology 198 | 4 |
| Elective | 8 | Elective | 8 | Elective | 8 |
| | 16 | | 16 | | 16 |

## Curriculum Leading to
## BACHELOR OF SCIENCE DEGREE
## Recommended for
## BIOLOGY MAJOR
## CHEMISTRY, GEOLOGY, OR PHYSICS MINOR

(For freshman and sophomore years, see core curricula)

### Junior Year

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Biology | 4 | Biology | 4 | Biology 140 | 4 |
| Chem., Geol. or Physics | 4 | Chem., Geol. or Physics | 4 | Chem., Geol. or Physics | 4 |
| Health 125 | 4 | Psychology | 4 | Elective | 8 |
| Elective | 4 | Elective | 4 | | |
| | 16 | | 16 | | 16 |

Summer—6 weeks at Gulf Coast Research Laboratory—
Biology 153 or 161—9 hrs.

### Senior Year

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Chem., Geol. or Physics | 4 | Chem., Geol. or Physics | 4 | Chem., Geol. or Physics | 4 |
| Philosophy 100 | 4 | Philosophy 101 | 4 | Elective | 12 |
| Elective | 8 | Elective | 8 | | |
| | 16 | | 16 | | 16 |

In addition to the core requirements, certification requirements and the departmental requirements, the student must complete requirements for a minor in a related field. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college. The minor field courses should be selected after consultation with the major professor.

The requirements for the M.A. in the teaching of biology are listed in the Graduate Bulletin. Students may also take the M.S. in biology with a minor in geology, physics, chemistry, health, or psychology. Each student before registering for any graduate work must first of all confer with his major professor and obtain his approval of his entire graduate program.

## GULF COAST RESEARCH LABORATORY

Mississippi Southern College is closely allied with the Gulf Coast Research Laboratory at Ocean Springs. Staff members and biology majors in in both the graduate and undergraduate schools have been active participants in the work at the Gulf Coast Research Laboratory. It is strongly recommended that al lgraduate majors in biology take at least a six-weeks program in marine biology as offered at the Gulf Coast Research Laboratory. The following courses are to be had only at the Gulf Coast Research Laboratory: Biology 453, 458, 459, 461, 457, 541.

## GENERAL COURSES

37—**Biology I.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
This course and Biology 38 which follows constitute the general core requirement in biological sciences for the B.S. professional degree.
A treatment of the protoplasmic concept, cell theory, tissues, etc., and the beginning of a survey of animal phyla.

38—**Biology II.** Four hours.
Two theory periods, and two two-hour laboratory periods per week.
A continuation of Biology 37, completing the survey of animal kingdom and beginning study of systems.

39—**Biology III.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Biology 37 (or 40), and 38
The circulatory, respiratory, excretory, reproductive, endocrine, and nervous systems; fundamental principles of genetics and evolution. Vertebates studied in laboratory.

199—**History of Biology.** Four hours.
For seniors and graduate students only.
Lectures and readings concerning the development and organization of the biological sciences, the development of biological principles and theories.

## ZOOLOGY

63—**Field Zoology: Invertebrates I.** Four hours.
Two hours lecture and four hours laboratory per week.
Prerequisites: Biology 37, 38, and 39.
Identification, preservation, and collection of fresh-water and terrestrial inverbebrates, including the phyla Porifera through Annelida. Field trips when possible.

64—**Field Zoology: Invertebrates II.** Four hours.
Two hours lecture and four hours laboratory per week.
Prerequisites: Biology 37, 38, and 39.
A continuation of Biology 63, covering the phyla Arthropoda, exclusive of insects, and Mollusca.

66—**Field Zoology: Herpetology.** Four hours.
Two hours lecture and four hours laboratory per week.
Prerequisites: Biology 37, 38, and 39.
Identification, preservation, and collection of all local species of amphibians and reptiles. Discussions of south-eastern United States zoogeography, and faunal problems. Field trips when possible.

102—**Invertebrate Zoology.** Four hours.
Four hours laboratory and two hours lecture per week.
Prerequisite: Geology 41 and 42. For geology majors, but not to be taken for credit toward a major in biology.
Study of morphology of invertebrates with special reference to fossil-producing forms.

115—**Entomology.** Four hours.
Four hours laboratory and two hours lecture per week.
Prerequisite: Biology 37, 38, and 39.
An elementary study of the principal groups of insects. Life habits, structural adaptations, life histories, natural habitats, classifications and the economic importance of certain species.

140—**Genetics.** Four hours.
Prerequisite: Biology 37, 38, and preferably 39.
The fundamental principles of heredity.

142—**Protozoology.** Four hours.

Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Biology 37, 38, and 39.
Parasitic and free-living protozoa studied: life histories and anatomy of typical forms. Vital stains and permanent mounts utilized; student preparation of some permanent mounts.

143—**Comparative Anatomy I.** Four hours.

Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Biology 37, 38, and 39. Biology majors are not allowed credit for this course unless Biology 144 is completed.
The lower chordates through the dogfish.

144—**Comparative Anatomy II.** Four hours.

Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Zoology 143.
A continuation of Biology 143; laboratory work devoted to study of turtle and cat.

146—**Parasitology.** Four hours.

Four hours laboratory and two hours lecture per week.
Prerequisite: Biology 39.
The epidemiology, morphology and importance of animal parasites, with emphasis on those affecting man.

153 or 453—**Marine Invertebrate Zoology.** Nine hours.

Laboratory and field work.
Prerequisites: 18 quarter hours of biology including general biology or zoology, and junior standing.
General study of anatomy, life histories, distributions, and phylogenetic relationships of all marine phyla below chordates, with special reference to Gulf species.

158 or 458—**Comparative Physiology of Marine Animals.** Six hours.

Prerequisites: General biology and general chemistry. Taught at Gulf Coast Research Laboratory.
Lectures and laboratory experimentation of fundamental physiological principles, using marine organisms.

159 or 459—**Parasitology of Marine Animals.** Four and one-half hours.

Prerequisite: Twenty-four quarter hours of Biology. Taught at Gulf Coast Research Laboratory.
Laboratory and field study of the great variety of parasites found in marine fishes and invertebrates.

161 or 461—**Marine Vertebrate Zoology.** Nine hours.

Prerequisites: 18 quarter hours of biology including comparative anatomy and junior standing. Taught at Gulf Coast Research Laboratory.
General study of all the marine Chordata, including the lower groups, and the mammals and birds; most emphasis will be given to fishes.

166—**Microtechnique.** Four hours.

One hour lecture and six hours laboratory per week.
Prerequisite: Biology 37, 38, and 39. Open to Juniors and seniors, and others by special permission.
Techniques for preparing microscopic slides.

167—**Histology.** Four hours.

Three lecture periods and one two-hour laboratory period each week.
Prerequisite: Biology 37, 38 and 39.
Microscopic anatomy for general students. Recommended for hospital technicians, nurses and biology majors.

168a, b, c—**Biological Problems.** Two hours each.
Given only by special arrangement.
A course in special techniques, designed for majors with a need for certain basic biological techniques as tools for future research. Individual work after advisement with instructor.

190—**Embryology I.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Biology 37, 38, 39, 143, and 144.
Embryology of vertebrates, especially the frog. Maturation, fertilization, cleavage, origin and development of germ layers, histogenesis, and organogenesis. Strongly recommended for majors.

191—**Embryology II.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Embryology 190.
A continuation of Embryology 190. The embryological development of vertebrates, especially the chick and the pig. Histogenesis and organogensis of the chick, the pig, and the human being.

195—**Ecology I.** Four hours.
Two hours lecture and four hours laboratory per week.
Prerequisite: Biology 39, one year of chemistry, a course in physics, and Zoology 142. Botany 120 strongly recommended.
The relationships of organisms to the environment. The study of natural biotic communities.

196—**Ecology II.** Four hours.
Two hours lecture and four hours laboratory per week.
Prerequisite: Ecology 195.
A continuation of Ecology 195, with emphasis upon the dynamics of the biotic community.

197—**Ecology III.** Four hours.
One hour lecture and a minimum of six hours laboratory per week.
Prerequisite: Ecology 196 and senior standing, except by special permission.
Special field and laboratory problems in beginning ecological research under direction.

198—**Limnology.** Four hours.
Lectures, laboratories, and field trips.
Prerequisite: Biology 38, 195, and 196 strongly recommended. Junior standing and permission.
A study of the physical, chemical, and biological conditions in lakes. ponds, and streams.

500—**Special Problems in Biology.** Two to eight hours.
Prerequisite: A thorough background in biology.
Specific problems assigned to students for investigation under faculty direction.

541—**Marine Fisheries Biology.** Six hours.
Prerequisite: Eighteen hours in zoology and one year of college mathematics.

## BOTANY

40—**General Botany.** Four hours.
Four hours of laboratory and two hours of lecture per week.
Anatomy, physiology, and reproduction of major plant groups, with emphasis on problems in the basic plant sciences; an introduction to cellular physiology and structure; and an introduction to taxonomy and taxonomic systems.

101—**Economic Botany.** Four hours.
Prerequisite: Botany 40 or its equivalent.
A study of plants of economic importance to man, including plants that are used for timber, cereal, grains, fruits, gums and resins, spices, drugs, etc.

117—**Botany I.** Four hours.
Two theory periods and two two-hour laboratory periods each week.
A study of gross and microscopic structures, physiology, life cycles, and economic significance of the Thallophytes.

118—**Botany II.** Four hours.
Two theory periods and two two-hour laboratory periods each week.
Prerequisite: Botany 117.
A study of the Bryophytes and Pteridophytes.
Two theory periods, and two two-hour laboratory periods each week.

120—**Taxonomy of Higher Plants.** Four hours.
Prerequisites: Botany 117 and 118.
A study of the classification of both wild and cultivated seed plants, including theoretical, laboratory, and field work.

139—**Bacteriology.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
Prerequisites: Biology 37, 38, and 39, except for students majoring in home economics.
A general course in bacteriology dealing with fundamental principles, and with morphological and cultural characteristics of several forms. Protoboa, molds, and yeasts considered.

145—**Applied Bacteriology.** Four hours.
Two theory periods, and two two-hour laboratory periods each week.
Prerequisite: Bacteriology 139.
A course supplementing Bacteriology 139. Emphasis upon some of the less elementary bacteriology techniques in common laboratory use, and upon an introduction to the types of techniques employed in laboratory diagnostics.

157 or 457—**Marine and Fresh Water Algae.** Four and one-half hours.
Prerequisites: General botany and plant taxonomy, and Biology 139. Taught at Gulf Coast Research Laboratory.
A morphological, systematic, and physiological study of the representative algae flora of the laboratory area. Field and laboratory studies.

170—**Plant Geography.** Four hours.
Four theory periods per week.
Prerequisites: Botany 40 and 120.
Designed to acquaint the student with the distribution, both in time and space, of the major groupings of vascular plants. Emphasis on the present distribution of the families, genera, and species of flowering plants.

187—**Bacteriology.** Four hours.
Four lectures per week.
A course supplementing Bacteriology 139, with special emphasis on molds, yeasts, and bacteria associated with disease.

193. **Plant Physiology I.** Four hours.
Two theory and two laboratory periods per week.
Prerequisite: General botany (Botany 40 or its equivalent). General and organic chemistry recommended.
Designed to acquaint the student with basic physiological processes of green plants. Extensive use of the greenhouse in laboratory work.

194—**Plant Physiology II.** Four hours.
A continuation of Biology 193.

## ANATOMY AND PHYSIOLOGY

119—**Alcohol Studies.** Two hours.

The application of scientific findings to the solution of a social problem. Based on subject matter as presented by the Yale University Summer School on Alcohol Studies.

129—**Physiology.** Four hours.

Three lectures and one two-hour laboratory period each week.

It is recommended that a quarter of general chemistry and general biology precede this course.

Study of the general physiology of the human body. Emphasis upon facts of physiology in their relation to the interpretation of diseases.

136—**Human Anatomy.** Four hours.

Four lectures per week.

Prerequisite: One quarter of general biology is highly recommended.

Study of the structure of the human body. Designed as a first course in human anatomy.

182—**Kinesiology.** Four hours.

Four lectures per week.

Prerequisites: Biology 37, 38, and 39, and Biology 136 or Health 166. Designed primarily for majors in health and physical education.

Study and analysis of movement of human body. Study of principal bones and muscles relative to their contributions to support and motion of body segments.

188—**Zoology for Teachers.** Six hours.

Prerequisites: No biological background required.

Designed to provide teachers of biological sciences in elementary and secondary schools, with opportunity to become acquainted with marine life. Field trips to shrimping grounds, oyster reefs, and seafood processing plants, with opportunity to make teaching collections of marine organisms.

## DEPARTMENT OF CHEMISTRY

C. E. Lane, Jr., Chairman

Hurst, Lane, Propst, Slade, Stocker

Students who are majoring in general science with an education minor (those following the professional teaching program with the expectation of teaching in the high school) are required to take eighteen hours in chemistry, eighteen hours in a biological science (including botany), and twelve hours in physics.

Students who are planning to major in the various fields of chemistry or are preparing for the professional field of education will find programs listed below.

Students who desire to prepare for the professional fields of medicine, industry, etc., and who desire to major in chemistry will find appropriate programs outlined below.

### Specialization in Physical Chemistry

Chemistry 141, 142, 143, 155, 157, 181, 182, and 183
German 35, 36, 37, 125, 126. (French may be substituted)
Physics 90, 91, and 92
Mathematics 180 and 185

**Specialization in Organic Chemistry**

Chemistry 141, 142, 143, 181, 182, and 183, (160, 161, and 162 are suggested)
German 35, 36, 37, 125, 126. (French may be substituted)
Physics 90, 91, and 92
Biology 37, 38, and 39 are suggested

**Specialization in Medical Profession**

Chemistry 130, 131, 132, 181, 182, and 183
German 35, 36, 37, 125, 126. (French may be substituted)
Physics 90, 91, and 92
Biology as needed for profession chosen.

**Specialization in Secondary Education**

Chemistry 130, 131, 132, 181, 182, and 183
Physics 90, 91, and 92
Psychology 119 and 132
Fine arts 4 hours.
Education 113, 128, 151J 162, 169, 185, and 186
Biology 37 and 38. Eight additional hours will permit certification in biology).

**25—General Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.

A course in general inorganic chemistry stressing the fundamental principles and their application in industry, medicine, etc. Not a prerequisite for chemistry majors and not accepted in that program.

Chemistry

**26—General Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.
Prerequisite: Chemistry 25.
Continuation of Chemistry 25.

**27—General Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.
Prerequisite: Chemistry 26.
Continuation of Chemistry 26.

**31—General Chemistry I.** Five hours.

Four theory periods and one three-hour laboratory period per week.
Prerequisite: Algebra, or Mathematics 31 and 32 taken concurrently with Chemistry 31 and 32.

A course in general inorganic chemistry stressing fundamental principles, and a comparative study of the elements. Emphasis upon fundamental laws, theories, and application.

**32—General Chemistry II.** Five hours.
Four theory periods and one three-hour laboratory period per week.
Prerequisite: Chemistry 31.
Continuation of Chemistry 31.

**33—General Chemistry III.** Five hours.
Prerequisite: Chemistry 32.
Four hours lecture and one three-hour laboratory period per week.
Continuation of Chemistry 32.

**75—Analytical Chemistry—Inorganic Qualitative Analysis.** Four hours.

One theory period and three double laboratory periods per week. One hour recitation.

A course intended to give a knowledge of the methods used in qualitative analysis. A study of the reactions and methods of separation and identification of the common metals and anions, and of chemical equilibrium.

76a—**Analytical Chemistry—Qualitative Analysis.** Two hours.

One theory period and three double laboratory periods per week. One hour recitation.

Prerequisite: Chemistry 75.

Qualitative analysis completed.

76b—**Analytical Chemistry—Quantitative Analysis.** Two hours.

One theory period and three double laboratory periods per week. One hour recitation.

Prerequisite: Chemistry 76a.

A study of the techniques necessary in making quantity determinations, both volumetric and gravimetric.

77—**Analytical Chemistry—Quantitative Analysis.** Four hours.

One theory period and three double laboratory periods per week. One hour recitation.

Quantitative work completed. Typical gravimetric and volumetric determinations, with an introduction to instrumental analysis.

92—**Organic Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.

Prerequisite: Chemistry 27.

A short course in organic chemistry designed for students majoring in home economics only. Aliphatic and aromatic hydrocarbons; the applications of organic chemistry to the home.

100—**Glass Blowing.** Two hours.

Prerequisite: Senior college standing.

Four hours laboratory per week.

A course in the practice of handling both soft and pyrex glass. The operation of gas oxygen burners and the fabrication of simple equipment.

101-401—**Chemical Literature.** One hour.

One lecture per week.

Prerequisite: Permission of the instructor.

The selection and use of the reference materials of chemistry: periodicals, journals, texts, patents, and other sources of information.

130—**Organic Chemistry.** Four hours.

Two theory and one four-hour laboratory period per week.

Prerequisite: Chemistry 27.

A course intended to give the student a knowledge of the fundamental principles of the compounds of carbon. Reactions of the hydrocarbons, their derivates, their nomenclature, classification, relationships and general applications. Not a prerequisite for chemistry majors and not accepted in that program.

131—**Organic Chemistry.** Four hours.

Two theory and one four-hour laboratory period per week.

Prerequisite: Chemistry 130.

A continuation of Chemistry 130, introduction of amines, halides, etc.

132—**Organic Chemistry.** Four hours.

Two theory and one four-hour laboratory period per week.

Prerequisite: Chemistry 131.

A continuation of Chimistry 131, completing the study of organic chemistry.

136—**Food Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.

Prerequisite: Chemistry 92.

A brief course in the composition and properties of foods: proteins, carbohydrates, fats, and salts.

141—**Organic Chemistry.** Five hours.
Three theory and one four-hour laboratory period per week.
Prerequisite: Chemistry 33.
A course intended to give the student a knowledge of the fundamental principles of the compounds of carbon. Reactions of the aliphatic hydrocarbons, their derivatives, their nomenclature, classification, relationships and general applications. A more rigorous course than Chemistry 130. Required of Chemistry majors.

142—**Organic Chemistry.** Five hours.
Prerequisite: Chemistry 141.
Three theory and one four-hour laboratory period per week.
A continuation of Chemistry 141.

143—**Organic Chemistry.** Five hours.
Three theory and one four-hour laboratory period per week.
A continuation of Chemistry 142 with emphasis on special topics including stereochemistry, optical isomerism, sugars, dyes and the identification of organic compounds.

155—**Advanced Quantitative Analysis.** Five hours.
One hour consultation and nine hours laboratory or library per week.
Prerequisites: Chemistry 77 and 143.
Offered on demand, but no more often than in the odd-numbered years.
A course in the analysis of minerals, alloys and organic substances, with emphasis on methods taken from recent literature and applied to analytical problems.

157-457—**Qualitative Organic Analysis.** Five hours.
Two hours lecture and six hours laboratory per week.
Offered in the odd-numbered years.
Prerequisites: Chemistry 77 and 143.
Emphasis on the systematic identification of pure organic chemicals and the analysis of mixtures.

160-460—**Biochemistry.** Four hours.
Two theory and two double laboratory periods per week.
Prerequisite: Chemistry 132 or 143.
Offered in even-numbered years.
A course designed to acquaint the student with the chemistry of living organisms. A study of the carbohydrates, proteins, lipids; their digestion and metabolism; and the accompanying vital processes, such as respiration and detoxication.

161-461—**Biochemistry.** Four hours.
Two theory and two double laboratory periods per week.
Prerequisite: Chemistry 160.
Continuation of Chemistry 160.

162-462—**Biochemistry.** Four hours.
Two theory and two double laboratory periods per week.
Prerequisite: Chemistry 161.
Continuation of Chemistry 161.

165—**Physiological Chemistry.** Four hours.
Three theory periods and one double laboratory period per week.
Prerequisite: Chemistry 136.
A course designed for home economics students, with emphasis on a study of the chemistry of the human body.

177—**Physical Chemistry for Pre-medical and Biological Science Students.** Four hours credit.
Three hours theory and one double laboratory period per week.
Prerequisites: Chemistry 77, Mathematics 35.

Those topics of physical chemistry of immediate application to the problems of pre-medical and biological work form the basis of this course, the gas laws, kinetics, equilibrium and free energy, electro-chemistry, pH, buffer, surface, equilibria, colloids, and membrane phenomena.

178—**Physical Chemistry for Pre-medical and Biological Science Students.** Four hours credit.

Three hours theory and one double laboratory period per week.
Prerequisite: Chemistry 177.
A continuation of Chemistry 177.

181-481—**Physical Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.
Prerequisites: Chemistry 77 and Mathematics 176.

A mathematical treatment of the laws governing chemical and physical changes. A study of the fundamental principles of chemistry and physics in their relation to each other.

182-482—**Physical Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.
Prerequisite: Chemistry 181.
Continuation of Chemistry 181.

183-483—**Physical Chemistry.** Four hours.

Three theory periods and one double laboratory period per week.
Prerequisite: Chemistry 182.
Continuation of Chemistry 182.

190-191—**Chemistry Honors Course.** Four hours each.

Prerequisite: Calculus, Chemistry 143 and 183, or physical chemistry taken concurrently.

Available to chemistry majors during their last two quarters of residence, upon recommendation of the Chemistry Department faculty.

A course in library and laboratory research on a problem chosen in consultation with the advisor.

195—**Industrial Chemistry.** Four hours. Four hours lecture.
Prerequisite: Chemistry 77.
A study of modern industrial methods and chemical calculations.

531—**Advanced Inorganic Chemistry.** Four hours.

532—**Advanced Inorganic Chemistry.** Four hours.
Prerequisite: Chemistry 531.

535—**Inorganic Preparations.** Two to four hours.
Prerequisite: Permission of instructor.

581—**Advanced Physical Chemistry.** Four hours.
Prerequisite: Chemistry 183 or 483.

582—**Advanced Physical Chemistry.** Four hours.
Prerequisite: Chemistry 581.

541—**Advanced Organic Chemistry.** Four hours.
Prerequisite: Chemistry 143.

542—**Advanced Organic Chemistry.** Four hours.
Prerequisite: Chemistry 541.

545—**Organic Preparations.** Two to four hours.
Prerequisite: Permission of instructor.

555—**Quantitative Organic Analysis.** Four hours.
Prerequisite: Chemistry 143.

590—**Special Projects.** Two to six hours.
Hours credit and project topics to be assigned by instructor.

595—**Research.** One to three hours.
To be arranged.

596—**Research.** One to three hours.
To be arranged.

597—**Research.** One to three hours.
To be arranged.

## DEPARTMENT OF ENGLISH AND LITERATURE

Charles Moorman, Chairman

Ballard, Barnes, Davis, Eubanks, Hopkins, Lowrey, McKinnon, Orange, Simmons, Sowder, Stout, Swartzfager, Swetman, Thomae, Travis, Webb

### Requirements for Major

A student majoring in English may elect one of several alternative plans. He may work toward either the B.A., the B.S. Professional, or the B.S. Non-Professional degree. The student's choice of program should be determined by his plans for the future and in close conjunction with his adviser.

A. Curriculum—College Core

The student working toward either degree must elect the appropriate core curriculum subjects for his degree found on pages 64 and 66 of this catalogue

B. Curriculum—Professional Requirements

The student working toward the B.S. Professional degree must elect the courses leading toward the Class A teaching certificate.

C. Curriculum—Departmental Requirements

The student wishing to major in English, regardless of his degree plan, must take 45 hours in the Department of English, of which 24 hours must be in courses numbered above 100. Required of all majors are English 25, 26, 27, 73, 74, 100, 104, 105, and 106. Students who make superior scores on the English placement test for freshmen may be allowed to substitute a more advanced course for English 25. Otherwise English 25, 26, 27 and 8 hours of sophomore literature are prerequisites for any English course numbered 100 or above.

D. Curriculum—Minor and Electives

In addition to the core requirements, the certification requirements (where applicable), and the departmental requirements, the student must also complete the requirements for a minor. The English major wishing to qualify as a part-time librarian will need 18 hours of library science and should note specific requirements under Department of Library Science. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college.

### Requirements for Minor

The student minoring in English must take 32 hours in the Department of English, of which 12 hours must be in courses numbered above 100.

Recommended for the minor are English 25, 26, 27, 73, 74, and 12 hours from English 100, 104, 105, 106.

## Courses of Instruction

**23—Writing Laboratory.** No credit.
Required of those freshmen who fall within the lowest quartile in the preliminary testing program or who are discovered to have a deficiency in one or more of the fundamentals of writing. Also required of any upperclassman referred to the laboratory by an instructor who finds the student deficient in any of the fundamentals of writing and of any student failing the junior English proficiency test.

**25—Engish Composition.** Four hours.
The first of a series of three required courses. Major emphasis upon grammar, the mechanics of writing, the use of the library, and vocabulary building.

**26—English Composition.** Four hours.
Prerequisite: English 25.
A continuation of English 25, with special attention to writing for practical purposes, the preparation of a research paper, and further training in the use of the library.

**27—English Composition.** Four hours.
Prerequisites: English 25 and 26.
A continuation of English 25 and 26. Emphasis upon imaginative writing and the reading of selected literature.

**73—Introduction to Literature I.** Four hours.
Prerequisites: English 25, 26, and 27.
Reading in poetry, the short story, the novel, and the drama, to provide critical bases for understanding and appreciating creative literature.

**74—Introduction to Literature II.** Four hours.
Prerequisites: Same as for English 73.
Further reading as in English 73.

**100—American Literature.** Four hours.
An intensive study of selected works of the most important American writers and their contributions to American culture.

**104—English Literature from Chaucer to the Restoration.** Four hours.
A survey of English literature from Chaucer to the Restoration, excluding Milton.

**105—Seventeenth and Eighteenth Century English Literature.** Four hours.
A survey of important selections by masters of literature in the seventeenth and eighteenth centuries with special attention to Milton, Dryden, Swift, Pope, and Johnson.

**106—Nineteenth and Twentieth Century English Literature.** Four hours.
An intensive study of some of the masterworks of the Romantic, Victorian, and Modern Periods.

**108 or 408—The Structure of Modern English.** Four hours.
A review of English syntax and a study of functional pressures upon the conventional forms of English grammar.

**112 or 412—Major American Writers.** Four hours.
Selected readings in the literature of the American Renaissance, with emphasis upon complete texts rather than upon anthology selections.

124 or 424—**Shakespeare.** Four hours.
A critical study of a selected group of Shakespeare's history plays, comedies, and tragedies.

127 or 427—**The English Novel.** Four hours.
A study of the English novel from its beginnings to the twentieth century.

130 or 430, 131 or 431, 132 or 432—**Tutorial in Comparative Literature.** Twelve hours—4-4-4.

135 or 435, 136 or 436—**Nineteenth Century Poetry and Prose.** Eight hours—4-4.
An intensive study of the major figures of the Romantic and Victorian Ages.

138-148—**Advanced Composition.** Eight hours—4-4.
Admission by permission of the instructor.
A course designed for students seriously interested in creative writing.

144 or 444—**Readings from World Literature.** Four hours.

145 or 445—**Literary Criticism.** Four hours.
A survey of the history of literary criticism from the Greeks to the present with special emphasis upon the critical issues raised by Aristotle, Coleridge, and the New Criticism.

146—**The Literature of the Bible.** Four hours.
A literary study of the Old and New Testament Scriptures, together with a consideration of similar writing of Jewish writers contemporary with the Biblical authors, and a comparison of the scriptural writings with related types among other peoples.

147 or 447—**Major Writers of the Eighteenth Century.** Four hours.
An intensive study of the form and contents of the works of Dryden, Swift, Pope, and Johnson.

173 or 473—**Analysis of Poetry.** Four hours.
A study of the techniques of poetry interpretation for the purpose of developing critical insight.

174 or 474—**The Modern European Novel.** Four hours.
A study of the more important English and European novelists of the 20th century, with emphasis upon analysis and critical evaluation.

179 or 479—**Development of English Drama.** Four hours.
A study of representative plays from the origin of English drama to the beginning of the modern period, excluding Shakespeare. Emphasis upon the development of the drama in its various types.

180 or 480—**Modern Poetry.** Four hours.
A study of the more important American and English poets of the late nineteenth and early twentieth centuries, with emphasis upon analysis and critical evaluation.

182 or 482—**American Novel.** Four hours.
Selected readings in the American novel.

183—**Modern Drama.** Four hours.
A study of European and American drama of the late nineteenth and early twentieth centuries.

185—**Literature of the South.** Four hours.
An historical and critical survey of Southern literature from its beginning to the present.

186—**Seventeenth Century Prose and Poetry.** Four hours.

An examination of representative selections from the major English writers, excluding Milton, from Donne to Dryden.

187—**Milton.** Four hours.

A careful study of the principal writing of Milton, including **Paradise Lost**, some of the minor poems, and prose selections.

188—**Chaucer.** Four hours.

An introduction to the language and art of Chaucer, with particular attention to **The Canterbury Tales** and **Troilus and Criseyde.**

502—**Anglo Saxon.** Four hours.

The Old English language, with some attention to the development of Modern English; translations of Old English poetry, including **Beowulf.**

503—**The Development of Modern English.** Four hours.

505—**Seminar in American Literature.** Four hours.

508—**Seminar in Renaissance Literature.** Four hours.

510—**Seminar in Eighteenth Century Literature.** Four hours.

511—**Seminar in Nineteenth Century Literature.** Four hours.

513—**Seminar in Medieval Literature.** Four hours.

514b—**Thesis.** Six hours.

515—**Seminar in Twentieth Century Literature.** Four hours.

580—**Tutorial in English and Germanic Philology.** Four hours.

**English and Literature**

## FOREIGN LANGUAGES

William G. Burks, Chairman

Johnson Reindorp Weiersheuser

**Foreign Language Majors and Minors:** Candidates for either the Bachelor of Arts or the Bachelor of Science degree may choose a major or a minor in French, German, or Spanish. The requirement for a major, in terms of hours, is 24 quarter hours in courses numbered 100 or above. Two college years (24 hours) or its equivalent in high school and college courses is prerequisite to beginning study at the level of the major or minor.

### Suggested Curriculum for Bachelor of Arts Degree with a Major in French, German, or Spanish

**Freshman and Sophomore Years**

| | Hours |
|---|---|
| Courses listed in B.A. core<br>The first two years of major* | 24 |

**Junior and Senior Years**

| | |
|---|---|
| Language to complete major** | 12 to 24 |
| Minor and electives | 44 to 56 |

*Students who have had two years of a language in high school should not schedule freshman courses

**The phonetics course is required for French and Spanish majors.

### Suggested Curriculum for Bachelor of Science Degree with a Major in French, German, or Spanish

#### Freshman and Sophomore Years

| | Hours |
|---|---|
| Courses listed in B.S. core | |
| The first two years of major* | 24 |

#### Junior and Senior Years

| | |
|---|---|
| Language to complete major** | 12 to 24 |
| Education 20, 113, 151J, 164, 169, 185, 186 | 28 |
| Psychology 119, 132 | 8 |
| Fine arts | 4 |
| Electives | 30 to 42 |

*Students who have had two years of a language in high school should not schedule freshman courses

**The phonetics course is required for French and Spanish majors.

**Related Majors:** Credit for all Spanish courses is accepted for majors in the Institute of Latin-American Studies; credit in French or German is accepted for minors.

The major in foreign trade within the Division of Commerce includes a study of the Spanish language and of Latin-American literature and culture and automatically gives the student a second major in Spanish. Credit in French is accepted for Latin-American students who major in foreign trade.

The major in foreign service within the Division of Social Studies is also planned to give the student a second major in the foreign language of his choice.

**Method:** Emphasis is placed upon the oral aspect of the language in the teaching of Spanish and French, so that the first four quarters the classes may be conducted to some considerable degree in the language. This fact tends to be less true in German, where there is greater demand for reading knowledge for science majors.

**Advanced Language Courses:** As the student progresses into the more advanced courses, studies in the literature and civilization of the French-, German-, or Spanish-speaking countries will receive greater emphasis. Oral and written treatment of this material will be largely in the foreign language.

**Registration for Courses:** In all courses which run throughout the year, the first quarter is prerequisite for the second and both the first and second are prerequisites for the third. No credit is granted for any part of the first year of a language until the third quarter has been completed.

It is understood that a student, whether studying a foreign language as a part of his core curriculum, as a requirement in a related major, or as a major or minor in itself, will begin the language in college at the level of his achievement at the time of entrance. If he should be placed in a language course above the beginning level, he will not receive college hours of credit for the courses not studied in college.

**Class Attendance:** Because of the special nature of teaching and learning a foreign language, a minimum amount of "contact time" is essential. Foreign language students, therefore, are expected to attend all classes except those from which they are excused by reason of illness, administrative sanction, or the judgment of the instructor.

## FRENCH

Burks Johnson

25-26-27—**First Year French.** Four hours each.

75-76-77—**Second Year French.** Four hours each.
Prerequisite: French 27, or the equivalent, and consent of the instructor.

125—**Advanced Conversational French.** Four hours.
Prerequisite: French 77.
Offered in the fall quarter.
A course designed to develop further the ability to speak the language fluently. Recommended for those who plan to major in, or teach, French.

126—**Advanced Conversation and Phonetics.** Four hours.
Prerequisite: French 77.
Required of those who plan to major in, or teach, French. Recommended for students of voice.
A course planned to combine the theory and practice required for improvement in comprehension, pronunciation, enunciation, and intonation.

127—**Scientific French.** Four hours.
Prerequisite: French 77, or the equivalent, and consent of the instructor.
Reading in several sciences, such as chemistry and geology.

145-146-147—**Introduction to French Literature.** Four hours each.
Prerequisite: French 77 or the equivalent.

151—**French Romanticism.** Four hours.
Prerequisite: French 147.
Representative writers of the French Romantic movement; emphasis on essential differences between Romanticism and Classicism.

152—**French Realism and Naturalism.** Four hours.
Prerequisite: French 147.
Significant characteristics of Realism and Naturalism; emphasis on outstanding French works of the latter half of the nineteeenth century.

153—**French Literature of the Twentieth Century.** Four hours.
Prerequisite: French 147.
Representative works from authors of present century; discussion in French language.

154—**French Literature Since World War II.** Four hours.
Prerequisite: French 77, or the equivalent, and consent of the instructor.

160-161-162—**French Literature of the Nineteenth Century.** Four hours each.
Prerequisite: French 147.
Offered in alternate years.
Study and discussion of representative works in poetry, drama and fiction.

## GERMAN

Weiersheuser

35-36-37—**First Year German.** Four hours credit each.

85-86-87—**Second Year German.** Four hours credit each.
Prerequisite: German 37, or the equivalent, and consent of the instructor.

100—**Advanced Conversation.** Four hours.
Prerequisite: German 37, or the equivalent, and consent of the instructor.
May be taken concurrently with German 85-86-87.
102—**Contemporary German Literature.** Four hours.

103—**Advanced Readings in German.** Four hours.
Prerequisite: German 87, or the equivalent, and consent of the instructor.

125-126-127—**Scientific German.** Four hours each.
May be taken after one year of German, with consent of instructor.

195-196-197—**Survey of German Literature.** Four hours each.
Prerequisite: German 87, or the equivalent, and consent of the instructor.

## SPANISH

Burks Johnson Reindorp

Students who major in Spanish may not minor in Latin-American studies.

31-32-33—**First Year Spanish.** Four hours credit each.

81-82-83—**Second Year Spanish.** Four hours each.
Prerequisite: Spanish 33, or the equivalent, and consent of the instructor.

100—**Advanced Conversation.** Four hours.
Prerequisite: Spanish 83.
Offered only in the fall quarter. Recommended for those who plan to teach Spanish.

101—**Phonetics.** Four hours.
Prerequisite: Spanish 100.
A study of the phonetics and pronunciation of the Spanish language through phonetic transcription, syllabication, and oral work in the laboratory. Required of all majors and prospective teachers.

102—**Commercial Spanish.** Four hours.
Prerequisite: Spanish 83.
Designed especially for majors in foreign trade. Letter writing and business forms.

148-149-150—**Introduction to Spanish Literature.** Four hours each.
Prerequisite: Spanish 83.
Offered in alternate years.
The reading and discussion of selections of Spanish literature from the beginning down to the early 20th century.

160-161-162—**Introduction to Spanish-American Literature.** Four hours each.
Prerequisite: Spanish 83.
Offered in alternate years.
The reading and discussion of selections of Spanish-American literature from the beginnings down to the early 20th century.

170-171-172—**Spanish Drama and Novel of the 19th Century.** Four hours each.
Prerequisite: Spanish 150.
Offered in alternate years.
Reading and discussion of selected masterpieces of the 19th century.

## DEPARTMENT OF GEOGRAPHY

Arthell Kelley, Chairman

Bolton Kelley

The increase in travel, especially by the American Armed Forces, and the increase in the importance of international trade and international politics during the last generation have created a new impoortance for a knowledge of geography by the American college graduate. The courses offered in geography are designed partly to meet these new needs for the general student and partly to meet the increasing demand for trained geographers in government service and in industry.

### Requirements for Major

A student majoring in Geography may elect one of several alternative plans. He may work toward either the B.A., the B.S. Professional, or the B.S. Non-Professional degree. The student's choice of program should be determined by his plans for the future and in close conjunction with his advisor.

A. Curriculum—College Core

The student working toward either degree must include the appropriate core curriculum subjects for his degree. Core curricula may be found on pages 64 and 66 of this catalogue. The student majoring in Geography should elect Geography 33 among his core subjects.

B. Curriculum—Professional Requirements

The student working toward the B.S. Professional degree must include in his program the courses leading toward the Class A teaching certificate.

C. Curriculum—Departmental Requirements

1. General Requirements:

The student wishing to major in Geography, regardless of his degree plan, must take 36 hours in the Department of Geography, of which 28 hours must be in courses numbered above 100. Required of all majors are Geography 33, 43, 100, 110, and 170. All majors should have 8 hours in introductory courses, 12 hours in regional courses, 12 hours in functional courses, and 4 hours in a field course.

2. Students wishing to qualify for government service should have 45 hours in Geography.

D. Curriculum—Minor and Electives

In addition to the core requirements, the certification requirements and the departmental requirements, the student must also complete the requirements for a minor, preferably in a related field. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college.

### Requirements for Minor

The student minoring in Geography must take 28 hours in the department, of which 20 hours must be in courses numbered above 100. Recommended for the minor are Geography 33 or 43, 110, and 170.

### Courses of Instruction

**33—Principles of Global Geography. Four hours.**
An introductory course dealing with the elements of geography, both physical and cultural. Student applications of the geographic principles studied in interpreting interests and activities of different peoples.

43—**Introductory Economic Geography.** Four hours.
A study of the leading occupations, such as hunting, fishing, grazing, forest industries, mining, manufacturing, transportation, and trade, in their regional setting.

100—**Cartography.** Four hours.
A course in methods of representing landscape features and geographic data on maps and graphs. Includes map projections, with student diagrammatic sketching from nature and from maps.

110 or 410—**Geography of the United States and Canada.** Four hours.
A regional study of Anglo-America, covering people, resources, products, trade, and world relations.

118—**Geography of South America, Mexico, and the Caribbean Countries.** Four hours.
A regional study of Latin America. Intended to acquaint the student with the geography of regions differing from his own.

131—**Geography of Mississippi.** Two hours.
Natural regions, soils, products, industries, and people,. Map-making from U. S. census statistics.

137—**Geography of the U.S.S.R.** Four hours.
A regional survey of the physical, economic, and cultural geography of the U.S.S.R.

138—**Geography of Europe.** Four hours.
A study of the people, resources, products, and possible future development.

139—**Geography of Asia.** Four hours.
A regional study, with emphasis on India, China, Japan and Indonesia.

140—**Geography of Africa.** Two hours.
A regional study.

141—**Geography of Australia.** Two hours.
A regional study.

145 or 445—**Advanced Economic and Commercial Geography.** Four hours.
Includes a short survey of geographic principles governing primary, secondary, and tertiary production.

160 or 460—**Geographic Influences in American Development.** Four hours.
A study of how geography has influenced American history: exploration, settlement, and political, industrial, and social development.

170—**World Political Geography.** Four hours.
A study of the world political situation, present and future, in its relationship to natural environmental backgrounds.

176—**Conservation of Natural Resources.** Four hours.
A study of the problems of conservation of natural resources of the United States and the world, including soil, minerals, natural vegetation, native animals, water, and people.

180 or 480—**Climatology.** Four hours.
Analysis of climatic control and elements; climatic conditions in each of the continents.

184 or 484—**Urban Geography.** Four hours.
Nature, distribution, principal functions of urban settlements and supporting areas, with emphasis on the United States and local field study.

194 or 494a, b—**Tour of Geographical Places.** One and a half hours each.

Prerequisite: Consent of the instructor. May be taken twice as "a" and "b", but only once for credit toward a major or minor in geography.

A three- or four-week, conducted tour of places of geographical interest, varied from year to year. Conducted by a regular faculty member, with prepared lectures and study materials.

500—**Seminar in Geography.** Four hours.
Research in the field of political geography.

571—**Seminar in Geography.** Four hours.
Research in the field of poliitical geography.

## DEPARTMENT OF GEOLOGY

Olin T. Brown, Chairman

DeVries Livingston Nyholm

Students electing geology to satisfy the college one-year science requirement will take Geology 44, 45, and 46. Students majoring in geology will take Geology 44, 50, and 104. Geology majors must elect a minor in mathematics, physics, biology, chemistry, or general science. For requirements for a general science minor, see core requirements for the Bachelor of Science degree. Students expecting to enter the field of geophysics should complete mathematics through calculus and elect a physics minor.

Except as explained below, all geology majors must include the following courses in their programs of study:

Geology 105—Invertebrate Paleontology
Geology 106—Invertebrate Paleontology
Geology 119—Sedimentation
Geology 130—Structural Geology
Geology 180—Geology Summer Camp

Women students are excused from Geology 180 until a permanent camp with suitable quarters and chaperones is available. Certain physically handicapped students may be excused by the department. In either case the department will require the student to offer nine quarter hours of specified work in substitution for Geology 180.

For the work of the first two years see catalog section on the core curricula.

### Junior Year

| | |
|---|---|
| Physics 80, 81, and 82, or 90, 91, and 92 | 12 |
| Geology 119, 130, and 137 | 12 |
| Physical education or health | 4 |
| [1]Minor field | 12 |
| [2]Electives | 8 |
| | 48 |

### Senior Year

| | |
|---|---|
| Geology electives numbered above 100 (to be selected from Geology 138, 139, 153, and 160) | 12 |
| [1]Minor and electives | 36 |
| | 48 |

[1]Students planning to sepcialize in paleontology and stratigraphy should elect a biology minor, or include one year or more of biology if electing the general science minor. The student is cautioned that he must have a total of 68 hours numbered above 100 to be eligible for graduation. In addition, it should be remembered that French and German are required by many graduate schools.

## COURSE DESCRIPTIONS

**44—Physical Geology.** Four hours.

Three lectures and two hours laboratory each week.

An introduction to earth science, including the physical processes responsible for shaping the major features of the landscape. Laboratory study of common minerals and rocks.

**45—Elementary Physiography.** Four hours.

Three lectures and two hours laboratory each week.

Prerequisite: Geology 44.

A study of land forms, their origin, structure, and relationship to the geologic processes at work, accounting for the relief of the earth's surface. Laboratory study of selected topographic and physiographic maps.

**46—Historical Geology.** Four hours.

Three lectures and two hours laboratory each week.

Prerequisite: Geology 44.

A study of earth history as revealed in the character and fossil content of rocks. One field trip for collecting fossils. Laboratory study of fossils, geologic maps, structure sections, and columnar sections.

**50—Historical Geology of North America.** Four hours.

Three lectures and two hours laboratory each week.

Prerequisite: Geology 44.

Designed for majors and minors in geology.

The geologic history of North America, including the nature and fossil content of rocks of various ages, stratigraphic associations, paleogeography, and the continental framework.

**102—Invertebrate Zoology.** Four hours.

For description see Biology 102.

**104—Introduction to Minerals and Rocks.** Four hours.

Two hours lecture and four hours laboratory each week.

Prerequisites: Geology 44 and Chemistry 25.

Identification, classification and crystallography of the important rock-forming minerals. The origin, occurrence, and classification of rocks, and their identification.

**105—Invertebrate Paleontology.** Four hours.

Two lectures and four hours laboratory each week.

Prerequisites: Geology 50 and Biology 102.

A study of invertebrate fossils, devoted to the Protozoa through Echinodermata, with attention to the history of the science, rules of nomenclature, and environments of lower animals.

**106—Invertebrate Paleontology.** Four hours.

Two lectures and four hours laboratory each week.

Prerequisite: Geology 105.

A continuation of the study of invertebrate fossils, beginning with the Bryozoa and extending through Arthropoda.

**119—Sedimentation.** Four hours.

Two lectures and four hours laboratory each week.

Prerequisites: Geology 44, 50, and 104.

A concentrated study of weathering, transportation, deposition, and

lithification of sedimentary materials. Regional and local sediments investigated, classified, and mechanically treated with laboratory apparatus. Microscopic analysis of selected samples.

122—**Petroleum Geology.** Four hours.

Three hours lecture and two hours laboratory each week.
Prerequisite: Senior standing in geology.
The origin, occurrence, distribution, and methods of recovery of petroleum and natural gas.

125—**Advanced Physiography.** Four hours.

Three lectures and two hours laboratory each week.
Prerequisites: Geology 44, 50, and 104.
An advanced course stressing the origin of major order relief features, namely continents and ocean basins, physiographic provinces (constructional land forms), and the third order destructional forms.

130—**Structural Geology.** Four hours.

Three hours lecture and two hours laboratory each week.
A study of the mechanical principles of rock deformation and secondary structures including folds, joints, faults, cleavage and lineation, and regional and local tectonics.

137—**Stratigraphy of North America I.** Four hours.

Four hours lecture each week.
Prerequisites: Geology 50, 105, and 130.
An analysis of stratigraphic principles. Emphasis on correlation, facies, stratigraphic nomenclature, sedimentation, structural and stratigraphic occurrence of petroleum-bearing strata.

138—**Stratigraphy of North America II.** Four hours.

Four hours lecture each week.
Prerequisite: Geology 137.
A study of stratigraphy, involving rocks ranging from the Pre-Cambrian through the Permian. Attention to the importance of stratigraphy to petroleum accumulation.

139—**Stratigraphy of North America III.** Four hours.

Four hours lecture each week.
Prerequisite: Geology 138.
A continuation of the study of stratigraphy, involving rocks ranging from the Triassic through the Pleistocene. Emphasis on petroleum possibilities in Mesozoic and Cenozoic rocks.

143—**Advanced Mineralogy.** Four hours.

Two hours lecture and four hours laboratory each week.
Prerequisites: Geology 104, and Chemistry 26 and 27.
A comprehensive study of the physical properties, occurrence, uses, and identification of minerals.

144—**Marine Geology.** Three hours lecture and two hours laboratory.

Prerequisite: Permission of instructor, Geology 50, 109, 130 and 8 hours of chemistry.

145—**Economic Geology.** Four hours.

Two hours lecture and four hours laboratory each week.
Prerequisites: Geology 130 and 104 and Chemistry 27.
The origin, production, distribution, and utilization of metallic and nonmetallic mineral deposits. Field trips included when possible.

153—**Plane Table Mapping.** Four hours.

Seven hours field work and one hour classroom instruction each week.

Prerequisites: Geology major, upper class standing, and permission of instructor.

Fundamental methods used in topographic mapping. Local areas assigned for mapping and contouring to scale. Instruction by individual assignments.

154—**Problems in Marine Sedimentation.** Four and one-half to nine hours, or one and one-half quarter hours each week.

Prerequisite: Permission of instructor.

Sometimes taught at Gulf Coast Research Labortory.

A study of present marine sedimentation along the Gulf Coast. Mechanical and microscopic analysis of the collected samples.

160—**Petrology.** Four hours.

Two hours lecture and four hours laboratory each week.

Prerequisite: Geology 104.

A study of the origin, description and classification oof igneous, sedimentary, and metamorphic rocks.

161—**Micropetrography.** Four hours.

Two hours lecture and four hours laboratory each week.

Prerequisites: Geology 143 and 160.

A systematic study of rocks, and identification of their constituents by means of the polarizing microscope; interpretation of textures; problems of genesis; qualitative and quantitative classification.

168—**Micropaleontology.** Four hours.

Eight hours laboratory each week.

Prerequisites: Geology 106, one year of biology, and upperclass standing.

An introduction to the study of micro-fossils (particularly Foraminifera), with emphasis on Gulf Coastal Plain forms.

180—**Geology Summer Field Camp.** Nine hours.

One and one-half hours credit per week in the field, the camp to be held in the southern Appalachians at Spring City, Tennessee.

Prerequisites: Geology 104, 105, 106, 119, 130 and 153, 137, and upper class standing.

Designed to give experience in solving stratigraphic, paleontologic, and structural problems in the field. Introduction to field methods, instrumentation, and collection of field data and specimens. Weekly assignments in lieu of field report.

191—**Field Geology of Mississippi.** Four hours.

Minimum of eight hours field and instructional work each week.

Prerequisites: Geology 44, 50, 104, 105, 106, 130, and permission of instructor.

Direction in the study of the geology of the State of Mississippi and adjacent areas (Alabama and Tennessee), with field trips to selected stratigraphic sections. Lectures, discussions, and reading assignments preparatory to field studies.

194—**History of Geology.** Two hours.

Two hours lecture each week.

Open to advanced majors in geology.

Discussions of the development of geology as a science, and of the pioneers who contributed to the various phases of geology.

195—**Special Problems in Geology. Four hours.**

Prerequisite: Permission of the department head.

Independent study or research, to provide an opportunity for well-qualified advanced students to pursue supervised individual work in fields of special interest.

## DEPARTMENT OF HISTORY AND GOVERNMENT

Leon A. Wilber, Chairman

### Requirements for Major

A student majoring in history or government may elect one of three plans. He may work toward the B.A., the B.S. Professional, or the B.S. Non-Professional degrees. The student's choice of program should be determined by his plans for the future and in close conjunction with his advisor.

A. Curriculum—College Core

The student working toward any degree must include the appropriate core curriculum subjects for his degree. Core curricula may be found on pages 64 and 66 of this catalogue. The student majoring in history should elect History 27 and 28 among his core subjects. A student majoring in government should elect Government 25 among his core subjects.

B. Curriculum—Professional Requirements

The student working toward the B.S. Professional degree must include in his program the courses leading toward the Class A teaching certificate.

C. Curriculum—Departmental Requirements

1. General Requirements:

The student wishing to major in history or government, regardless of his degree plan, must take 36 hours in the same subject. Required of all history majors are History 27, 28, 61, 62, and 109.

2. Requirements for secondary school teacher's license:

In addition to the major and the prescribed professional courses, students seeking teachers' licenses should elect Economics 54 (or 55 and 56), Geography 170, Government 25, and Sociology 63 or 107.

D. Curriculum—Minor and Electives

In addition to the core requirements, and the departmental requirements, the student must also complete the requirements for a minor, preferably in a related field. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college. Education will normally be the minor for a student seeking a teacher's license.

### Requirements for Minor

The student minoring in history or government must take 28 hours in the same subject. The student is given free choice of courses to be taken, but History 27, 28, 61, and 62 give good background knowledge for the more advanced courses.

**Requirements to teach social studies as a second field.**

Students wishing to prepare to teach social studies (in high school) as a second field should take the following courses:

| | Hours |
|---|---|
| History 27, 28, 61, and 62 | 16 |
| Education 151L | 4 |
| Government 25 | 4 |
| Economics 54 (or 55 and 56) | 4 |
| Sociology 63 or 107 | 4 |
| Geography 170 | 4 |

This list is designed to cover the principal fields a teacher might be called upon to teach. It does not meet requirements for a minor, however, since for a minor a student must take 28 hours in the same subject.

## GOVERNMENT

Davis Gonzales Jackson Wilber

### Introductory Notes

(1) Government 25 should normally be the first course taken.

(2) Students desiring a complete survey of government in the United States should take courses 25, 45, 130, and 135.

(3) Economics 129, and Economics 147 may be elected as government for meeting requirements for major or minor if approved by the student's adviser.

(4) History 179, and History 190 may be elected as government for meeting requirements for major, if approved by the student's adviser.

**25—American Government.** Four hours.
A survey of our national government, with some related study of Mississippi courts and the state election system.

**45—County Government.** Four hours.
A study of local rural government, with some emphasis on Mississippi.

**106 or 406—American Political Parties and Pressure Groups.** Four hours.
A survey of party structures, problems, and methods of political leaders, and present pressure groups and their methods.

**129—Public Finance.** Four hours.
Same as Economics 129.

**130 or 430—State Government.** Four hours.
A study of the organization and problems of state governments, with some emphasis on Mississippi.

**135 or 435—American Municipal Government.** Four hours.
A study of the principal systems of municipal government in the United States, with emphasis on Mississippi.

**145—Current Problems in Citizenship.** Four hours.
A study of current problems before the national, state, and local governments at the time the course is taught. Different problems studied in different years.

**147—Government and Business.** Four hours.
Same as Business Administration 147.

**150 or 450—Comparative Government.** Four hours.
A survey of the principal types of government abroad, especially British, French, and Russian.

**157 or 457—International Politics.** Four hours.
A study of the types of International Organization and the methods and forces involved in international political struggles.

**160 or 460—Public Administration.** Four hours.
An introductory study including administrative organization, personnel management, and fiscal management.

**185 or 485—International Law.** Four hours.
A sampling of the field, based largely on cases.

**554—Seminar in Problems in Mississippi Government.** Four hours.

**714—Mississippi State and Local Government.** Four hours.
Same as Education 714.

## HISTORY

Davis, Fike, Fortune, Gonzales, Jackson, Nau, Steede
Walker, Wilber

### Introductory Notes

Several courses are parts of sequences, and an entire sequence should usually be taken if any part is taken. These sequences are History 27 and 28, History 61, 62, and History 128 and 129. History 127 also fits well with History 128 and 129.

Economics 112, and Religion 51, 130, and 132 may be elected as history for meeting degree requirements, if approved by the student's adviser.

**27—World Civilization to 1648 A. D.** Four hours.

A study of the cultures of ancient and medieval peoples, including those of the Middle East, Europe, India, China, and America. Cultural aspects emphasized more than political history. Intended to be of value to the general student as well as to history majors.

**28—World Civilization since 1648 A. D.** Four hours.

A continuation of History 27, with emphasis on the latter half upon the twentieth century.

**61 and 62—Problems in American History.** Four hours each quarter.

A study of some of the most important movements in the history of the United States. Students will read and analyze the major primary and secondary sources relating to each movement. The courses are divided at 1865. (Required of history majors.)

**109—Mississippi History.** Four hours.

A study of the political, economic, and social development of the state since 1817. (Required of history majors.)

**127—Inter-American Relations.** Four hours.

A brief study of the Latin-American states from 1830 to the present, with emphasis on international relations among them and with the United States. Emphasis on the ABC powers, Mexico, and Cuba. Intensive study of the Monroe Doctrine, Pan-Americanism, Caribbean problems, and U. S.-Mexican relations.

**128 or 428—American Foreign Relations to 1898.** Four hours.

A survey of U. S. foreign policy from the Revolution to 1898. Emphasis on the Monroe Doctrine and problems of expansion.

**129 or 429—American Foreign Relations since 1898.** Four hours.

A continuation of History 128. Emphasis on imperialism, the World War, and U. S. relations with international organizations.

**132 or 432—The Colonial Period in American History, 1493-1763.** Four hours.

A study of the settlement and growth of the British, French, and Spanish colonies in North America until the end of the French and Indian War. Major emphasis will be placed on the political and economic development of these colonies.

**133 or 433—The Emergence of a New Nation, 1763-1800.** Four hours.

A study of the origins and course of the American Revolution, the successes and failures of the Confederation government, the Constitutional Convention of 1787, and the Federalist era with special attention to Jefferson and Hamilton.

134 or 434—**The Age of Jefferson and Jackson, 1801-1848.** Four hours.
A study of the growth of nationalism and democracy in the United States from 1801 to 1848.

138 or 438—**History of the Old South.** Four hours.
A reading, research, and discussion course on the ante-bellum South. Special attention given to slavery, plantation life, and manners and customs.

140 or 440—**Civil War and Reconstruction.** Four hours.
An intensive study of the period from 1861 to 1877.

141 or 441—**History of the New South.** Four hours.
A study of the South since 1877. Covers social, economic, cultural, and political developments. Special attention to Bourbon rule, the Agrarian revolt and developments during the twentieth century: political, industrial, and educational.

142 or 442—**Contemporary American History.** Four hours.
American history since 1920. Social, economic, and cultural development, and political events.

151 or 451—**American Intellectual and Social Development to 1856.** Four hours.
A study of the intellectual and social forces that have influenced American thought and action. Emphasis on such topics as the influence of racial stocks, and development of religion, literature, science, art, architecture, music, recreation, and political and economic thought.

152 or 452—**American Intellectual and Social Development Since 1865.** Four hours.
A continuation of History 151.

156 or 456—**Survey of Western Intellectual Development.** Four hours.
(Designed not to duplicate Philosophy 104 and 106.)
A survey of western intellectual development outside the United States, from 1400 to the present. Includes humanism, growth of science, mercantilism, the Age of Reason, romanticism, liberalism, socialism, and nationalism.

160 or 460—**Greek Culture.** Four hours.
A study of the literature, art, politics, religion, and philosophy of the ancient Greeks. Emphasis on the Age of Pericles.

162 or 462—**Roman Culture.** Four hours.
A study of the Roman Republic and the early Roman Empire, covering literature, religion, art, philosophy, jurisprudence, administration and political institutions—especially the last three.

164 or 464—**The Middle Ages.** Four hours.
An advanced course in European history from the end of the western Roman Empire to the beginning of the Renaissance.

166 or 466—**Renaissance and Reformation.** Four hours.
An advanced course in European history from the beginning of the Renaissance to 1648, covering art and literature, the rise of capitalism, origins of modern science, the Protestant revolt, and Catholic revival.

167 or 467—**The Age of Absolutism.** Four hours.
A survey of the principal political, economic, social, and intellectual developments in Europe from 1648 to 1789.
(For the period 1789 to 1815 see History 173 below.)

168 or 468—**Age of Nationalism and Liberalism. (1815-1870).** Four hours.
An advanced study of this age of developing nationalism with special emphasis on political, social and economic philosophy.

169 or 469—**Age of Imperialism, (1870-1918).** Four hours.
A survey of the diplomatic and political conditions that led to the international rivalry which resulted in the first World War. The War itself is discussed in some detail.

170 or 470—**The Versailles Era, (1919-1939).** Four hours.
The creation, deterioration, and destruction of the European system as set up in the Treaty of Versailles. A survey of European developments from 1919 to 1939.

171 or 471—**History of Russia.** Four hours.
Political, economic, social, and cultural history since the ninth century. Kievan, Tartar, Muscovite, and Imperial eras, with emphasis to the Soviet period.

172 or 472—**The Far East Since 1853.** Four hours.
A historical study of Siberia, China, Japan, southeastern Asia, and the Pacific Islands. Diplomacy, cultural and economic developments, and nationalism.

173 or 473—**French Revolution and Napoleon, (1789-1815)** Four hours.
A study of the forces and developments of the French Revolution in detail with emphasis upon those forces that affected Europe and the Western world.

174 or 474—**Early English History.** Four hours.
A survey of ancient and medieval England to 1603, with emphasis on customs, literature, and institutions.
Recommended for English majors.

175 or 475—**Modern English History.** Four hours.
A study of England beginning with the Stuarts. Emphasis on development of political institutions, the Industrial Revolution, and imperialism.

179 or 479—**Constitutional History of the United States.** Four hours.
May be elected as government for a major or minor. Especially recommended for prelaw students.
A historical study of the development of American constitutional law, largely based on cases.

186 or 486—**World War II to the Present.** Four hours.
Europe and the world from 1939 to the present.

190 or 490—**English Constitutional History.** Four hours.
May be elected as government for a major or minor. Especially recommended for prelaw students.
A study of the development of English political institutions from Anglo-Saxon times to the establishment of the British Commonwealth of Nations.

192a-b or 492a-b—**Mississippi Materials.** Two hours each.
May be taken twice (as "a" and "b") with permission of the instructor.
A series of special lectures intended to provide teachers with illustrative materials on Mississippi.

194 or 494—**Tour of Historic Places.** One and one-half hours per week.
Prerequisite: Consent of the instructor.
May be taken twice (as "a" and "b"), but only once for credit toward a major or minor in history.
A one- to three-week tour of historic places conducted by a regular member of the faculty, who presents lectures and study materials on the places visited.

500—**Historiography.** Four hours.

514b—**Thesis.** Eight hours.

**548—Biographical History of the United States.** Four hours.

**550—United States Foreign Relations.** Four hours.

**552—Seminar in Southern History.** Four hours.

**553—The West in American History.** Four hours.

**562—European Diplomacy, 1870-1919.** Four hours.

**570—Seminar in the Civil War and Reconstruction.** Four hours.

**575—Seminar in Recent European and Asiatic History.** Four hours.

## DEPARTMENT OF JOURNALISM

Frank W. Buckley, Chairman

Lowrey Moncrief

The Department of Journalism offers professional training leading to a Bachelor of Arts or a Bachelor of Science degree. A student must complete a minimum of thirty-six quarter hours in journalism to qualify for a major in that field. A minor requires twenty-eight hours. Students may also schedule journalism courses to satisfy avocational interests.

Required courses for majors interested in the editorial sequence are 57, 58, 75, 76, 134, 136, 150, 151, 180, and 185. Required courses for students interested in public relations are 57, 58, 130, 134, 136, 150, 157, 158, 165, and 170. All majors and minors are required to do practical work on THE STUDENT PRINTZ. Others are invited to join the staff.

### Suggested Curriculum for Bachelor of Science Degree with a Major in Journalism

#### Freshman and Sophomore Years

| | Hours |
|---|---|
| Courses listed in College Core | |
| Journalism 57, 58, 75, and 76 | 12 |
| Journalism 130*, 134, and 136 | 12 |

#### Junior and Senior Years

| | |
|---|---|
| Journalism 150, 165*, and 180 | 12 |
| Journalism 151, 170*, and 185 | 12 |
| Electives and minor | 60 |

### Suggested Curriculum for Bachelor of Arts Degree with a Major in Journalism

#### Freshman and Sophomore Years

| | |
|---|---|
| Courses listed in College Core | |
| Journalism 57, 58, 75, and 76 | 12 |
| Journalism 130*, 134, and 136 | 12 |

#### Junior and Senior Years

| | |
|---|---|
| Journalism 150, 165*, and 180 | 12 |
| Journalism 151, 170*, and 185 | 12 |
| Electives and minor | 40 |

*Required in public relations sequence only.

**57—Beginning Reporting.** Four hours.
The study of gathering news and writing simple news stories. Study of leads and story structure. Rewrites, follow-up assignments, story polishing, and some interpretation of news.

58—**Intermediate Reporting.** Four hours.
Emphasis on writing of complex and special story types: speeches, conventions, interviews, law courts, business, government, politics, criticism, features, society, sports, and others.

75—**Beginning Photography.** Two hours.
Essentials of news photography and its place in the news field. Use of the simpler cameras, and the developing and printing of pictures. Elements of writing cutlines and captions.

76—**Introduction to Newspaper Advertising.** Two hours.
Preparation of advertising copy, rate structure, promotion and selling for the weekly and daily press.

130—**Press Photography.** Four hours.
Advanced developing and printing of photographs, illustrating the news, advanced reporting with a camera, and evaluation of news photographs.

131—**Advanced Press Photography.** Four hours.
Working with the engraver. Pictures for wire transmission. Picture editing. Problems and trends in photography for the modern newspaper and picture magazine. Discussion of latest techniques, including color.

134—**Copy Reading.** Four hours.
Introduction to copy reading, headline writing and makeup. Intensive practice in the principles and techniques of copy reading.

136—**Newspaper Design and Make-up.** Four hours.
A study of the principles and mechanics of makeup, including a brief history of printing and a study of typography. Practice in fitting together news stories and illustrations to form an attractive, inviting paper.

137—**Principles of Advertising.** Four hours.
Same as Marketing 137. See description in that department.

138—**Writing Brief Fiction.** Four hours.
Same as English 138. See description in that department.

140a, b, c—**Newspaper Advertising.** Two hours each.
A review of principles and functions of advertising with emphasis on selling and promotion, preparation of advertising copy and layouts for newspapers, problems of the small daily and weekly. Servicing accounts, building linage, campaigns, and special pages.

148—**Magazine Article Writing.** Four hours.
Same as English 148. See description in that department.

150—**Advanced Reporting.** Four hours.
A study of interpretative reporting. Emphasis on the news behind the news. Discussion of reporting not only the fact, but the truth about the fact. Completing the account, explanations, predictions, providing perspective. Analysis of current news problems.

151—**Specialized Reporting.** Four hours.
A course designed for students wishing to specialize in a particular type of reporting including governmental affairs, labor, science, business, agricultural, social problems, sports, society, and home economics.

157—**Supervision and Direction of Publications.** Two hours.
A practical course for prospective teachers of high school English, social studies, or commerce who may be assigned to the sponsorship of the school newspaper.

158—**Yearbook Production.** Two hours.
A study of the school yearbook and other annual publications. Place of

the school yearbook in the school; problems of the supervisor and principal; editorial and business policies and practices.

160a, b, c—**Editorial Writing.** Two hours each.
A study of the editorial page: its history, policies and practices. Initial sources, editorial page copy, the editorial cartoon, paragraphy, syndicated commentators, letters to the editor, selected condensations from other sources, and research articles.

165—**Public Relations.** Four hours.
A study of the origin and development of public relations in connection with business and industry, associations, non-profit organizations, government, and labor.

170—**Publicity Methods.** Four hours.
An analysis of the media of communication and their relation to publicity.

178a, b, c—**Feature Writing.** Two hours each.
A study of procedures employed in gathering material for feature stories, especially newspaper articles. Study of the structure of the feature story, development of feature style by practice in writing features, and selling procedure.

180—**Law of Press and Radio.** Four hours.
A study of the precedents and present laws governing the press, radio, advertising, and photography; libel, privilege, right of privacy, and constitutional guarantees.

185—**History of Journalism.** Four hours.
A study of the development of the newspaper in the United States from 1690 to present and the relationship of social, political, and economic factors to the evolution of the American press.

## DEPARTMENT OF MATHEMATICS

B. O. Van Hook, Chairman

Felder, Ferguson, Evelyn Jones, Karolyi, Luckey, Munn, Nicholson, Reynolds, Sanders, Smith, Temple

The Department of Mathematics offers a major or minor for students who are candidates for the Bachelor of Arts or the Bachelor of Science degree. The courses required for a major or minor are listed below by groups, in order to facilitate the proper selection of sequences of courses.
Groups:

(a) Mathematics 32, 35, 75, 175, 176, and 177
(b) Mathematics 178, 180, 181, 182, 183. 185, 187, 189, 190, and 192
(c) Mathematics 31, 60, 76, 120, and 145, and Industrial Arts 135

| Requirements for Majors: | Hours |
|---|---|
| (1) All courses listed in group (a) | 24 |
| (2) At least three courses selected from group (b) | 12 |
| Total | 36 |

Recommendations for minors:

| | |
|---|---|
| (1) All courses listed in group (a) | 24 |
| (2) At least one course selected from group (b) or group (c) | 4 |
| Total | 28 |

The following courses are strongly recommended for:

Prospective high school teachers—Mathematics 178
Prospective elementary teachers—Mathematics 21 and 60
Majors in business administration, economics, or sociology—
Mathematics 120 and 145.
Majors in geology—Mathematics 48

**21—Basic Mathematics.** Four hours.

An elementary treatment of fundamental concepts including logic, the number system, ratio and proportion, percentage, operation and computation exponents, linear equations, and elementary statistical procedures.

**31—College Algebra I.** Four hours .
A first course in college algebra.

**32—College Algebra II.** Four hours.
A second course in college algebra; a continuation of Mathematics 31.

**35—Plane Trigonometry.** Four hours.

**36—Spherical Trigonometry.** Four hours.
Prerequisite: Mathematics 35.

**47—Use of Slide Rule.** Two hours.

A study of the use of the slide rule in the fundamental operations of multiplication, division, squares, square roots, powers, logarithms, sines, cosines, tangents, and cotangents.

**48—Plane Surveying.** Four hours.

Prerequisite: Mathematics 35.

Theory and practice in the use of instruments of surveying, measurement of horizontal and vertical distances, angles, traverse, curvilinear and topographic surveys, triangulation, measurement of latitude, longtitude, azimuth, and time.

**60—Mathematics of Finance.** Four hours.

Prerequisite: A knowledge of geometric progressions and logarithms.

A course in mathematical principles of such things as building and loan associations, sinking funds, bonds, investments, life insurance, installment buying, and amortization of debts.

**61—Mathematics of Finance** Four hours.
Prerequisite: Mathematics 60.
Designed for students of commerce.

A continuation of Mathematics 60, including a study of simple annuities, sinking funds, and amortization of loans.

**75—Analytic Geometry.** Four hours.
Prerequisite: Mathematics 35.

**76—Analytical Geometry.** Four hours.
Prerequisite: Mathematics 75.
A continuation of Mathematics 75.

**120—Elementary Statistics.** Four hours.
Prerequisite: Mathematics 21 or 31.

A study of statistical series, frequency distribution, measures of central tendency, dispersion and skewness, trend, seasonal and cyclical variation, linear correlation, the normal curve, index numbers, presentation of data, collection of data, and sampling.

**138—The History of Mathematics.** Four hours.
Familiarty with mathematical terminology is necessary.
A study of the development of mathematical concepts.

145—**Statistics.** Four hours.

Prerequisite: Mathematics 120.

Average, dispersion, skewness, regression lines and planes, simple correlation, linear and non-linear trends, and normal curve.

175—**Differential Calculus.** Four hours.

Prerequisite: Mathematics 75.

176—**Integral Calculus.** Four hours.

Prerequisite: Mathematics 175.

A continuation of Mathematics 175.

177—**Calculus.** Four hours.

Prerequisite: Mathematics 176.

A continuation of Mathematics 176, emphasizing the application of differential and integral calculus.

178—**College Geometry.** Four hours.

Prerequisite: Mathematics 75.

Geometry of the triangle and the circle beyond ordinary Euclidean geometry.

180—**Theory of Equations.** Four hours.

Prerequisite: Mathematics 175.

181—**Introduction to Modern Algebra.** Four hours.

Prerequisite: Mathematics 180.

Theory of groups, rings, ideals, integral domains, and fields with applications.

182—**Analytical and Applied Mechanics.** Four hours.

Prerequisites: Mathematics 177 and Physics 82.

A study of vectors, concurrent forces, coplanar forces, resultants, equilibrium, forces in space, moments of inertia, center of gravity, hydrostatics, work, kinetic energy, and dynamics of a rigid body.

183—**Vector Analysis.** Four hours.

Prerequisite: Permission of instructor.

Vector algebra and vector calculus, with applications to physics, mechanics, and geometry.

185—**Differential Equations.** Four hours.

Prerequisite: Mathematics 177.

Simple types of ordinary differential equations of the first and second order, linear equations with constant coefficients, and applications to geometry and physics.

187—**Advanced Calculus.** Four hours.

Prerequisite: Mathematics 177.

Infinite series, continuity, limits, Gamma and Beta functions, and vector analysis. Fourier series.

189—**Introduction to Mathematical Statistics.** Four hours.

Prerequisite: Mathematics 120 and Mathematics 177.

Multiple and partial correlation, analysis of variance, non-parametric methods, testing statistical hypothesis, statistical design in experiments, and sequential analysis.

190—**Theory of Functions of a Complex Variable.** Four hours.

Prerequisite: Permission of instructor.

Complex numbers, analytical functions, infinite series, analytic continuation, Reimann surfaces, conformal mapping, Cauchy's integral theorem.

192—**Theory of Functions of a Real Variable.** Four hours.
Prerequisite: Permission of instructor.
Real number system, point set theory, Lebesgue integration, Stieltjes integrals.

600—**Advanced Calculus.** Four hours.
Prerequisites: Mathematics 175, 176, and 177.
A basis for any graduate work in pure and applied mathematics. Especially beneficial to senior high school and to junior college teachers of mathematics.

602—**Introduction to Higher Geometry.** Four hours.
Prerequisites: Mathematics 76, 175, and 178.
Generalization of geometrical concepts, treated principally from the analytic standpoint.

608—**Application of Mathematics to Navigation and Astronomy.** Four hours.
Prerequisite: Mathematics 185.

## DEPARTMENT OF MILITARY SCIENCE AND TACTICS

Lt. Col. John H. Dale, Sr., Chairman

Major Albert F. Wilson, Jr.
MSgt Joe E. McFee
SFC James F. Burdett, Sr.
Capt. Robert E. Macklin
MSgt Dwight L. Grubbs
SFC Harold J. Douglas

### Authorization

Mississippi Southern College was authorized by the Department of the Army to activate on April 3, 1950, a volunteer unit of the senior division Reserve Officers' Training Corps. Training offered was to be a general military science course. The unit was organized June 14, 1950, under the authority of the act of Congress, June 3, 1916, and subsequent amendments thereto.

### Objectives

The general objective of the course of instruction is to produce junior officers who by their education, training, and inherent qualities are suitable for continued development as officers in the United States Army. Training in military leadership will be emphasized. Instruction will be given in subjects common to all branches of the army. It is intended to attain this objective during the time that the students are pursuing the general or professional studies, with the least possible interference with their civil careers, by employing methods designed to fit them physically, mentally, and morally for pursuits of peace as well as pursuits of war. It is believed that such military training will aid greatly in the development of better citizens.

### Mission

The major mission is the training of officers to serve with the reserve components of the Army of the United States, i.e., The United States Army Reserve, and the National Guard. In addition, the ROTC provides the principal source of procurement of junior officers for the regular army.

### Enrollment Requirements

**Freshmen:**

All male freshman students who are citizens of the United States, physically qualified as prescribed by the Department of the Army, over 14 years of age and less than 23 years of age, have had less than 6 months active duty with any of the armed services are required to enroll and complete Military Science I, first year ROTC.

**Sophomore:**

Any male student who is regularly enrolled as a sophomore may enroll in Military Science II, second year ROTC, providing he has successfully completed any of the following:

1. MS I, NS I or AS I of any Senior Division ROTC.
2. MST I and 2 at any Military Schools Division ROTC.
3. MT 1, 2 and 3 of a Junior Division ROTC.
4. 6 months active service or active duty for training in the United States Army, Navy, Air Force, or Coast Guard).

**Junior:**

Any male student who is regularly enrolled as a Junior, physically qualified, attains an acceptable score on the Army RQ test, has acceptable academic grades during his first two years, will not reach the age of 28 prior to scheduled date of completion of ROTC, is accepted by the PMS&T, and meets any one of the following requirements is eligible to apply for entrance into advanced ROTC, and may enroll in MS III.

1. Has successfully completed the basic course at any Senior Division ROTC (Army, Navy or Air Force).
2. Successfully complete MST 1, 2, 3 and4 of a Military Schools Division ROTC.
3. Has satisfactorily completed more than 12 months active service or active duty for training in the Army, Navy, Air Force, Marine Corps or Coast Guard.
4. Has satisfactorily completed 6 months or more active service or active duty for training and MS I, or MST 1, 2 and 3 or MT 1, 2, and 3.
5. Successfully completed 2 years at Service Academies (Army, Navy, Air Force or Coast Guard).

**Senior:**

Any male student who is regularly enrolled as a senior, and will not reach the age of 28 before he is scheduled to complete ROTC and is acceptable by the PMS&T may enroll in MS IV providing he meets any one of the following requirements:

1. Has successfully complete MS III, NS III or AS III at a Senior Division ROTC.
2. Has completed MST 1, 2, 3, 4 and 5 at a Military Schools Division ROTC.
3. Has completed 3 years at one of the Service Academies (Army, Navy, Air Force or Coast Guard).

All students who are accepted in Advanced ROTC (MS III and IV) are required to sign an agreement to complete the course of instruction offered unless released by the Department of the Army.

### Training Courses and Allowances

The course of training covers four years and is divided into two periods.

**The Basic Course.** The basic course consists of a minimum of three hours of instruction weekly during the first two academic years of military science. A complete uniform of the type worn by the U. S. Army officers will be issued to each basic course student without cost.

**The Advanced Course.** The advanced course consists of five hours of instruction weekly during the third and fourth years of military science, with a six-week summer camp which is normally held at the end of the junior year. No credit will be allowed for advanced ROTC unless the entire advanced course is completed. The advanced course is not open to all students completing the basic course, nor to all veterans. Only those will be selected whose past military and academic records are of such high standing as to warrant the belief that they will become qualified reserve officers of the Army of the United States.

Students taking the advanced course of instruction are paid by the federal government at a rate fixed by the secretary of defence. The present rate is approximately $27.00 per month. Normally, there are about 105 days between the end of the spring quarter and the beginning of the fall quarter. ROTC students who have finished the first year of the advanced course will be required to spend 42 days in summer camp. They will be paid a ration value of 90 cents per day for the remaining 63 days of their summer vacation. This amount (approximately $57.00) will be paid when students return to school in the fall. See information covered under "Summer Camp" below concerning pay and allowances for the 42 days while at summer camp.

All clothing, equipment. and textbooks necessary for the pursuance of military science course are loaned, free of charge, to the student. However, any such article lost or damaged by any means other than fair wear and tear, must be paid for by the student to whom it is issued. A deposit of ten dollars is required of all students enrolled in ROTC. This fee is refunded when the student clears his supply account with the Department of Military Science and Tactics. Students who fail to clear their accounts with the military property custodian before leaving the institution will not only have their academic credits withheld, but will face the possibility of federal prosecution for illegal possession of government property.

### Summer Camp

The six-week summer camp is normally attended by students upon completion of the first year of the advanced course of military training. Students are paid five cents per mile for the distance from the institution to the place of camp and return. While at camp each student will receive food, uniforms, medical attention, and pay of the first grade of the U. S. Army (currently $75.00 per month) from the government.

At this camp the students meet young men from many of the best institutions in the United States, thus broadening their contacts and gaining opportunity to make friendships that may be of great value in later life. In addition to the many physical, moral, and mental benefits from the healthful camp life, there are sufficient recreational features provided to make the stay thoroughly enjoyable.

### Commission in the Army of the United States

Students successfully completing the advanced course and the summer camp are tendered commissions as reserve officers in the Army of the United States.

There are certain stipulations whereby a student who completes the first year advanced course may be designated a "Distinguished Military Student". A student so designated who maintains such standards until he graduates will be designated a "Distinguished Military Graduate" and will be eligible for consideration for appointment in the regular army.

### Awards

Each year the outstanding ROTC cadet in each class is selected on the basis of leadership, scholarship, and military aptitude. The cadet so honored

is awarded a key, and his name is engraved on the appropriate plaque displayed in the Military Science Building. Plaques were donated by the following civic organizations:

Outstanding Senior Award—Rotary Club.

Outstanding Junior Award—Kiwanis Club.

Outstanding Sophomore Award—Elks Club.

Outstanding Freshman Award—Veterans of Foreign Wars.

A certificate of meritorious leadership achievement designed to recognize cadet leadership is awarded annually to the graduating cadet selected by the head of the institution on the basis of leadership development throughout his ROTC career.

## CURRICULUM

31, 32, 33—**Military Science.** Two hours each.
Organization of the army and ROTC, individual weapons and marksmanship, American military history, physical training, school of the soldier and exercise of command.

61, 62, 63—**Military Science.** Three hours each.
Map and aerial photograph reading, crew-served weapons and gunnery, physical training, school of the soldier, and exercise of command.

121, 122, 123—**Military Science.** Three hours each.
Small unit tactics and communications, organization, function and mission of the arms and services, military teaching methods, leadership, school of the soldier, and exercise of command.

161, 162, 163—**Military Science.** Three hours each.
Logistics, operations, military administration and personnel management, service orientation, school of the soldier, and exercise of command.

## DEPARTMENT OF PHYSICS AND ASTRONOMY

William F. St. Clair, Chairman

Hughes

A student may major in physics by taking thirty-six quarter hours in the department. The student must take either Physics 90, 91, and 92, or Physics 80, 81, and 82. It is recommended, however, that the physics major take Physics 90, 91, 92. In addition, the student must take twenty-four quarter hours of work selected from the following courses: Physics 102, 112, 113, 150, 160, 161, 164, 182, and 183.

Many graduate schools require French and German .

20—**Acoustics.** Four hours.
Four theory periods a week.
A non-laboratory course in physics for students of music and speech.

23a—**Physical Science.** Four hours.
A non-laboratory survey of the physical sciences.

80—**General Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisites: Mathematics 32 and 35.
A traditional course in general physics intended for liberal arts and premedical students. Mechanics.

**81—General Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisite: Physics 80.
Heat and sound.

**82—General Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisite: Physics 81.
Light, electricity, and magnetism.

**90—Technical Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisites: Mathematics 35 and 175 (may be taken concurrently).
A first course in college physics designed for engineering students and science majors. Mechanics.

**91—Technical Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisites: Physics 90 and 176 (may be taken concurrently).
Heat, sound and light.

**92—Technical Physics.** Four hours.
Two theory periods and two double laboratory periods a week.
Prerequisite: Physics 91.
Electricity and magnetism.

**102—Basic Electronics.** Four hours.
Three theory periods and one double laboratory period a week.
Prerequisite: A year of general physics, and Mathematics 35.
Electronic instrumentation for science majors.

**112—Sound.** Four hours.
Four theory periods a week.
Prerequisite: Physics 81 or 91.
An intermediate course in sound.

**113—Modern Physics.** Four hours.
Four theory periods a week.
Prerequisite: Physics 82 or 92.
A study of the advances in physics made during the last few decades.

**137—Household Physics.** Four hours.
Three theory and one double laboratory period per week.
A course in physics for students of home economics.

**150—Optics.** Four hours.
Four theory periods a week.
Prerequisites: Mathematics 176 and general physics.
An intermediate course in light covering both geometrical and physical optics.

**160—Electricity and Magnetism.** Four hours.
Four theory periods and one two-hour laboratory period a week.
Prerequisites: Mathematics 176 and general physics.
An intermediate course in the theory of electricity and magnetism.

**161—Electricity and Magnetism.** Four hours.
Three theory periods and one two-hour laboratory period a week.
Prerequisite: Physics 160.
Further studies in electricity and magnetism.

**164—Heat.** Four hours.
Four theory periods a week.
Prerequisites: Mathematics 176 and general physics.
An intermediate course in heat.

**182—Analytical and Applied Mechanics.** Four hours.
For description see Mathematics 182.

**183—Vector Analysis.** Four hours.
For description see Mathematics 183.

## DEPARTMENT OF RELIGION AND PHILOSOPHY

John F. Nau, Chairman

The purpose of this department is to offer cultural materials for the general student. Courses in religion and philosophy may be combined for a major or minor.

### RELIGION

**20—The Old Testament.** Two hours.
A general survey, covering types of literature, and general content of the books of the Old Testament, with some attention to Hebrew historical movements.

**22—The New Testament.** Two hours.
A general survey, covering New Testament life and times, nature and content of the New Testament books, the ministry of Jesus, and the launching of the Christian movement.

**51—History of Non-Christian Religions.** Four hours.
May be elected as history.
A study of the grounds for religious beliefs of men, the emergence of tribal and national religions in antiquity, and a survey of the principal non-Christian faiths of ancient and modern times.

**121—The Minor Prophets of Israel.** Two hours.
A study of the lives and teachings of the Old Testament prophets; the social, political, economic, and religious backgrounds to their work; and the relevance of their messages to modern times.

**123—The Major Prophets of Israel.** Two hours.
A course similar to 121, but dealing primarily with Isaiah, Jeremiah, and Ezekiel.

**126—The Gospels.** Four hours.
A study of the biography of Jesus and literary problems of the synoptic Gospels approached through intensive work on Mark; with materials integrated from the Gospel of John.

**130—History of Christian Culture.** Four hours.
May be elected as history.
A study of the cultural development of Western Europe during the Christian era, with emphasis on religious thought, and on religious aspects of institutions, literature, and art.

**132—Religion in the Rise of American Culture.** Four hours.
A study of the origin and development of the major religious groups and of the shifts in religious thought in the United States from colonial times to the present.

**146—The Types of Literature in the Bible.** Four hours.
May be elected as English 146.
An analysis of the types of literature in the Old and New Testaments and a comparison of these with similar writings of other Jewish writers of the same periods, and with related types of writing among other peoples.

## PHILOSOPHY

100—**Introduction to Philosophy.** Four hours.
A course intended to acquaint the student with the general nature of philosophical study. Covers values, methods, themes, the nature of reality, epistemology, ethics, and aesthetics.

101—**Representative Philosophers I.** Four hours.
An introduction to the great thinkers of the world, beginning with Plato. Based on selections from their writings.

102—**Representative Philosophers II.** Four hours.
A continuation of Philosophy 101.

104—**History of Ancient and Medieval Philosophy.** Four hours.
A study of the main philosophic movements, and of the findings of Greek pioneers, the patristic writers, and the scholastics.

106—**History of Modern Philosophy.** Four hours.
A study of the main problems and movements in philosophy from the Renaissance to the present. Attention to the impact of philosophy on the great revolutionary movements in religion, politics, and education.

130—**Logic.** Four hours.
A study of the methods and problems of accurate and critical thinking. Induction, deduction, the syllogism, fallacies, the scientific method, and symbolic logic. Emphasis on practical applications.

177—**Ethics.** Four hours.
A study of the evolution of moral ideas from primitive to modern times, and a critical analysis of ethical theories and of social institutions such as the state, property, and the family.

## DEPARTMENT OF SOCIOLOGY

John N. Burrus, Chairman

Allen Chase

### General Statement

The Department of Sociology offers a major and minor in sociology and a preprofessional program for social work training. In addition, provision is made for the student who is not a major or minor but wishes to select one or several courses in sociology according to his interests or needs.

The student may pursue either the B.S. or the B.A. degree. He should take care to include appropriate core curriculum subjects for the degree selected. Core curricula may be found on pages 64 and 66 of this catalogue. Sociology majors who wish to meet requirements for a teacher's license should take note of these requirements.

A minimum of 36 quarter hours is required for a major in sociology. Twenty-eight hours are required for a sociology minor.

The student planning to major in sociology should work out a specific program in consultation with his major professor. In addition to the major, he will need to complete a minor of 28 hours preferably in a related field. The core requirements should be completed as early in the academic program as possible. Courses not needed to fulfill major, minor, or core requirements are free electives and may be taken in any department of the college.

Majors should usually select their minor field from among the follow-

ing: geography, history, government, psychology, economics, and religion and philosophy. Students planning to train for careers in research sociology should be well prepared in fundamental mathematics.

Ordinarily, all students are expected to take Sociology 63 as their first course. Students taking only one course or beginning a program may take 107 without prerequisites, if an upperclassman. General sociology majors should plan their programs to include the following courses: 63, 107, 112, and/or 116, 118, 130, 170, 181 and 182. With the approval of the sociology adviser, one or more of the following courses may be substituted for those listed above. They are 100, 105, 109, 128, 129, 147, 175, and 176. This arrangement allows the major to provide for special interests within the field of sociology and to prepare for certain preprofessional programs.

### Sociology Major for Preprofessional Training in Social Work

Many undergraduate majors in sociology are planning to enter some phase of social work. There are numerous opportunities for trained workers in the fields of child welfare, family, medical, and psychiatric social work, in parole and probation positions, and in other areas. A student planning to enter professional social work should obtain a well-balanced undergraduate education with courses selected from all major academic areas. He should plan to obtain his professional training in a graduate school of social work. The student planning to do professional social work usually takes a major in sociology with a minor in another social science. In addition to the minor, the student should take courses in the other social sciences.

A program should be worked out with the sociology adviser. The following courses are recommended but not mandatory: Sociology 63, 100, 105, 107, 112, and/or 116, 128, and/ or 129; Psychology 116, 129, 137, and 139; Education 169 or Mathematics 120; Government 25, 45, and 130; Physical Education 133; and History 27, 28 or 61 and 62.

### Courses of Instruction

**63—Introduction to Sociology.** Four hours.

A course designed to give the student a general overview of the content, and methodology of sociology. Attention is focused on how man builds his culture; the components of personality; how customs and behavior patterns are developed; and the function and importance of social institutions.

**100—Introduction to Social Work. Four hours.**

An introduction to the purpose, methods, and philosophy of contemporary social work. Divisions of the field (case work, group work, and community organizations), the relation of social work to the social sciences and allied professions, and the professional status of social work. Especially for persons planning to enter social work as a vocation.

**105—Methods of Social Work.** Four hours.

Prerequisites: Sociology 63 and 100.

A study of principles of social case work, including consideration of methods employed by public and private agencies. Lectures, laboratory projects, and field trips.

**107—Rural Sociology.** Four hours.

A study of the characteristics of rural people; of the structure, institutions, and social processes of rural society; and of the effect of urbanization on rural society. Emphasis on Mississippi data. Especially recommended for persons entering professions or business in either rural or urban areas of Mississippi or similar states.

109—**Cultural Anthropology.** Four hours.
Prerequisite: Sociology 63.
A study of human behavior in preliterate societies to discover what features of human society are constant, and which are variable. Attention to how cultural traits are invented and diffused; and to the relation of cultural change to modern civilization. Emphasis on the American Indian.

112—**Social Problems.** Four hours.
Prerequisite: Sociology 63, or consent of the instructor.
A study of representative contemporary problems, with emphasis on causes which arise from cultural patterns and social change.

116 or 416—**Rural Social Problems.** Four hours.
Prerequisites: Sociology 107 or Sociology 63 and advanced standing.
An advanced course in Rural Sociology. Certain areas of rural life and social change are selected for detailed study. The effects of urbanization, mechanization, and migration are examined. Recommended as complementary to Sociology 118.

118—**Urban Sociology. Four hours.**
Prerequisite: Sociology 63, or consent of the instructor.
An analysis of the nature of urban society and the factors shaping it, including the influences of urban ecology, and ecological processes. Consideration is given to the impact of urbanization and industrialization on social institutions, levels of living, and demography.

128—**Criminology.** Four hours.
Prerequisites: Sociology 63 or consent of instructor.
A study of causes, treatment, and prevention of crime. Part of the presentation deals with criminology, penology, and criminal legislation in ancient and modern times.

129 or 429—**Juvenile Delinquency.** Four hours.
Prerequisite: Sociology 63 and advanced standing.
A study of causes and the nature of juvenile delinquency, the development of the juvenile court and probation and other rehabilitative programs. Recommended for students, teachers, social workers and others with a serious interest in the study of delinquency.
130 or 430—**Population.** Four hours.

Prerequisite: Sociology 63.
A first course in population analysis. Examines differentials and trends in birth rates, migration, sex ratios, and mortality rates. Instruction is given in how to compute and interpret elementary vital data. Some special attention is given to Mississippi population trends. Recommended for all majors and minors.

147—**The Family.** Four hours.
Prerequisites: Sociology 63 and consent of instructor.
Not a duplicate of Marriage and the Family.
An analysis of the structure and function of the family as an institution. Some emphasis on contemporary trends, and factors shaping the contemporary family.

151—**Marriage and the Family.** Four hours.
Same as Home Economics 151. (May not be used to meet core requirements in social studies.)

170 or 470—**Advanced General Sociology.** Four hours.
An advanced course in general sociology giving expanded treatment to the basic sociological concepts and subject-matter areas. Designed for departmental majors of advanced standing, but open to graduate students without prerequisites. Not to be used as a prerequisite for other advanced courses without approval of the department chairman. Not open to freshmen and sophomores.

175 or 475—**Social Institutions.** Four hours.
Prerequisites: Sociology 63 and advanced standing.
A detailed study of major American social institutions; their function, interrelationships, and significant trends. Emphasis on theory of social structure.

176—**Educational Sociology.** Four hours.
Prerequisite: Sociology 63 or eight hours in Education, or consent of the instructor.
A comprehensive study of the educational institution; an analysis of the school as a social institution; and the relationship of educational institution to the community and general society.

181 or 481—**History of Social Thought.** Four hours.
Prerequisites: Sociology 63 and consent of instructor.
An introduction to social theory, with a historical approach. The development of western ideas and values are traced. Includes applications to modern society and times. Recommeded for all majors. Not open to freshmen and sophomores.

182 or 482—**Methods of Social Research.** Four hours.
Open only to sociology majors and minors.
A survey of elementary research techniques, illustrated by demonstrations, and projects.

507—**Seminar in American Community Life.** Four hours.

## DEPARTMENT OF SPEECH ARTS

Paul D. Brandes, Chairman

M. Brown, George, Hartwig, Maclin, McCroskey, Peters, Treser

### Purpose

The Division of Speech Arts aims to improve effectiveness of oral communication.

### Organization

The Division of Speech Arts has five areas of study: oral interpretation of literature, public address, radio and television, speech correction and hearing, and theatre. Students may follow a generalized program in speech or may specialize in one of the five areas.

### Curriculum—Basic College Core

Since core requirements for majors in the several areas and in general speech are listed in the section devoted to the Basic College, it is suggested that speech students study page 75 of this catalog.

### General Statements Concerning Majors and Minors

Recommended for minor: 28 hours in speech, including Speech 31 and any three of the following courses: Speech 40, 50, 53, 60, 131, and 152.

Note One: Elementary education majors who choose a minor in English and speech should elect Speech 131 as a part of their minor.

Note Two: English majors wishing to satisfy the state requirements for certification to teach English and/or speech in the secondary school should elect, in addition to Speech 31, the following courses: Speech 40, 50, and 60. The minor may be completed with any additional twelve hours in speech.

**Recommended Curriculum Leading to**

**BACHELOR OF ARTS DEGREE***

**with a Major in**

**ORAL INTERPRETATION OF LITERATURE**

| | Hours |
|---|---|
| Core requirements | 100 |
| Additional work outlined by the department | 20 |
| Major requirements in speech (in addition to above) | |
| Speech 116, 170, and 199 | 12 |
| Electives in speech | 8 |
| Education 117 or Library Science 102 | 4 |
| English 100, 135 or 180, and 182 or 183 | 12 |
| Minor and electives | 36 |
| Total | 192 |

Recommended minor: English.

*Bachelor of Science candidates should substitute the appropriate core requirements and make other necessary modifications.

**40—Fundamentals of Oral Interpretation.** Four hours.
Prerequisite: Speech 31.
Voice analysis of each student for enunciation problems, with remedial exercises recommended. Presentation of a series of short and moderate-length selections for criticism by class instructor. Particularly recommeded for English majors and teachers.

**116 or 416—Advanced Oral Interpretation.** Four hours.
Offered winter quarter every year.
Prerequisite: Speech 40.
Plays, novels, and longer poems arranged for public presentation.

**170 or 470—Seminar in Oral Interpretation.** Four hours.
Offered spring quarter.
Prerequisite: Speech 40.
The role of interpretation in radio and television, public address, and theatre. Criticism and aesthetics in oral reading. The diferences between impersonation, actin gand oral reading. Dialects.

## DOUBLE MAJOR IN SPEECH CORRECTION AND HEARING, AND ELEMENTARY EDUCATION

A program of study which affords a double major in speech correction and hearing, and elementary education can be had. Interested students should consult with the head of the Speech Arts Division and the head of the Elementary Education Department.

**130 or 430—Voice Science.** Four hours.

Prerequisite: Speech 131.

Survey of the physiology and pathology of the speech and hearing mechanism.

131 or 431—**Introduction to Speech Correction.** Four hours.
Prerequisite: Preferably, Speech 152.
An introduction to the the types of speech disorders.

132 or 432—**Principles of Speech Correction.** Four hours.
Prerequisite: Speech 131.
Advanced therapy for speech disorders. Observation, and assistance with therapy, in the speech and hearing clinic.

133 or 433—**Introduction to Audiology.** Five hours.
Prerequisite: Speech 131. Offered spring quarter.
An introduction to hearing problems and the testing of hearing.

134 or 434 **Auditory Training.** Two hours.
Offered alternate years.
Clinical methods used in rehabilitating the acoustically handicapped.

192 or 492—**Stuttering and Related Problems.** Four hours.
Prerequisites: Speech 131, 132, 152.
Theories and programs of therapy evaluated with respect to the problem of stuttering by children and adults.

193 or 493—**Cerebral Palsy Speech.** Four hours.
Prerequisites: Speech 131, 132, 152.
Cerebral Palsy from the standpoint of causative factors, speech problems, and current therapy practices.

194 or 494—**Cleft Palate Speech.** Four hours.
Prerequisites: Speech 131, 132, 152.
Includes the study and application of theories and therapies for cleft palate persons.

195 or 495—**Delayed Speech and Aphasia.** Four hours.
Prerequisites: Speech 131, 132, 152.
Problems of delayed speech and aphasia studied with particular emphasis on therapy techniques.

196 or 496—**Voice and Articulation.** Four hours.
Prerequisites: Speech 131, 132, 152.
A study of disorders of voice (hoarseness, nasality, pitch, and laryngetomized) and articulation (substitution, omission, addition, and distortion).

197 or 497—**Clinical Audiology.** Four hours.
Prerequisites: Speech 131, 133.
Offered alternate years.
Advanced audiometric techniques and clinical audiology procedures.

544—**Advanced Problems in Speech Correction and Hearing.** Four hours.

50—**Introduction to Theatre.** Four hours.
Survey of all aspects of theatre. Practical application in one area on a major college production. Recommended for high school play directors.

104 or 404—**Acting.** Four hours.
Prerequisite: Speech 50 or consent of instructor.
Fundamentals oof movement, pantomine, voice, and characterization for the stage.

106a or 406a—**History of the Theatre (Ancient).** Two hours.
Prerequisite: Consent of instructor.
Important playwrights, structures, and influences from primitive times through the Roman era.

106b or 406b—**History of the Theatre (Medieval through Victorian).** Two hours.
Prerequisite: Consent of instructor.
Playwrights, structures, and influences from 479 A. D. to 1850.

106c or 406c—**History of the Theatre (Modern).** Two hours.
Prerequisite: Consent of instructor.
Playwrights, structures, and influences since 1850.

120 or 420—**Scene Design.** Four hours.
Prerequisite: Speech 122a, b, or c, or consent of instructor.
Elements of stage design. Play analysis in terms of visualization and style.

121 or 421—**Stage Lighting.** Four hours.
Prerequisite: Consent of instructor.
Theory and application of general and special lighting, color, instrumentation and control.

122a, b, c—**Stagecraft.** Two hours each.
Laboratory work. Construction of scenery, painting, stage rigging.

126 or 426—**Seminar in Theatre Production.** Two hours.
Prerequisite: Speech 50 or consent of instructor.
A study of special problems in period plays for contemporary production.

151 or 451—**Directing.** Four hours.
Prerequisite: Speech 104.
Principles of stage direction. Application of principles by students in directing a one-act play.

154 or 454—**Playwriting.** Four hours.
Prerequisite: Consent of instructor.
Analysis of play structure and guidance in the writing of a play.

171a, b or 471a, b—**History and Design of Costume.** Two hours each.
Examination and analysis of costume. Designing suggestively accurate and authentic modifications for present-day production of period drama.

172 or 472—**Dramaturgy.** Four hours.
Prerequisite: Consent of instructor.
Examination and evaluation of theories of dramatic construction since Aristotle.

153-453—**Advanced Acting.** Four hours.
Theories of acting. Methods employed.

| Electives (for A.B.) | 34 |
| Total | 192 |

*Bachelor of Science candidates should substitute the appropriate core requirements. The Bachelor of Science candidate who wishes to follow the professional teaching program at the secondary level should take the prescribed professional courses (see page 78) as his minor.

**Substitutions possible with consent of chairman of Speech Arts Division.

Speech Laboratory. No credit.

A program of study for college students who have a voice deficiency which is not severe enough to warrant participation in the clinic.

1-2-3-4— Re-education in the Speech and Hearing Clinic. Zero to four hours each.

A course for students who have a disorder so serious as to require treatment in the clinic.

31—Oral Communication. Four hours.

Fundamentals of speaking and listening. Research for proper speech materials, organization of materials, language for expressing materials, and the means of delivering ideas.

111a, b—Forensics. Four hours each. Offered in winter quarter.

Prerequisites: Sophomore (or higher) standing, and consent of the director of forensics and the head of the Speech Arts Division.

112—**The Theatre.** One-half hour.
May be repeated to a limit of six hours hours of total credit.

113a, b, c, d—**Reading Chorus.** One-half hour each.

114—**The Speech Bureau.** One-half hour.
May be repeated to a limit of six hours of total credit.

152 or 452—**Phonetics.** Four hours.
Prerequisite: Speech 31.
The International Phonetic Alphabet and the several guides to pronunciation of the major English dictionaries.

161-461—**Advanced Phonetics.** Four hours.

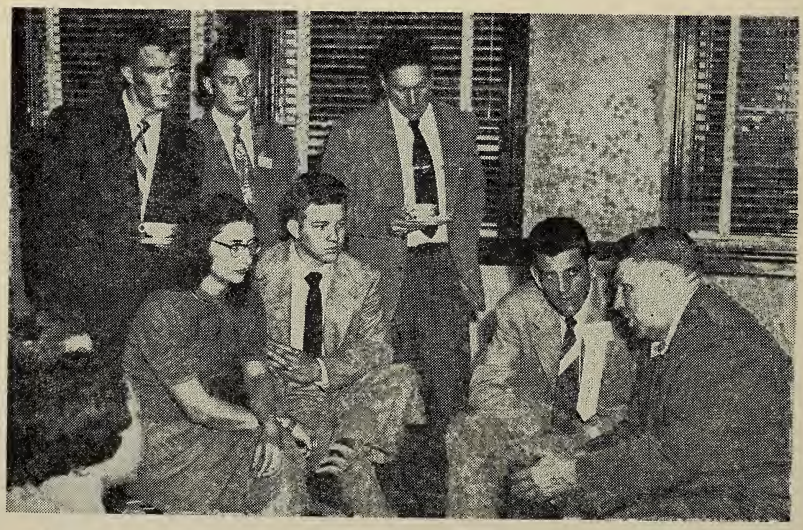
199 or 499—**Problems in Speech.** One to four hours per quarter may be repeated, provided total credit for course does not exceed six hours.
Prerequisite: Consent of instructor.
Special research study.

514b—**Thesis.** Four to eight hours.

590—**Psychology of Speech.** Four hours.

600—**Materials and Methods of Research.** Two hours.

STUDENTS TRAIN ON OFFICE MACHINES TO FIT INTO MODERN BUSINESS OFFICES ON GRADUATION



STUDENTS MEET PLACEMENT DIRECTORS OF SOUTHERN BUSINESSES AT ANNUAL CAREER CONFERENCE

# SCHOOL OF COMMERCE AND BUSINESS ADMINISTRATION

J. A. Greene, Jr., Dean

## PURPOSE

The aim of the School of Commerce and Business Administration is to train the young men and women of today to enter the business world and the teaching profession better prepared for success than those who preceded them. This training includes courses in general education, general business, economics, management, and specialized areas of commerce.

## ORGANIZATION

The School of Commerce and Business Administration is organized into five departments: Accounting, Business Administration, Business Education, Economics, and Marketing. Majors are offered in the following areas: accounting, business administration, business education, personnel management, marketing, and secretarial studies. In addition a student may choose a field of specialization in accounting, business administration or marketing. For the student who cannot attend four years, a two-year curriculum in secretarial training is offered.

## PLAN FOR FRESHMAN AND SOPHOMORE YEARS

Students intending to enter the School of Commerce and Business Administration must enroll in the School of Arts and Sciences for the freshman and sophomore years. Transfer students who expect to enter the School of Commerce and Business Administration should conform to the following suggested curriculum as far as possible and take only standard courses in arts and science subjects when substitutions are necessary. All students must apply for admission and take care of such things as housing and fees through the regular offices of the college and not through the School of Commerce and Business Administration.

### Curriculum for Freshmen and Sophomores

#### Freshman Year

| | Hours |
|---|---|
| English 25, 26, 27—Freshman Composition | 12 |
| History 27, 28—World Civilization | 8 |
| Speech 31—Oral Communication | 4 |
| Mathematics 21 or 31—Basic Mathematics or Algebra | 4 |
| Science (Twelve hours in one laboratory science) | 12 |
| Business Administration 40—Introduction to Business | 4 |
| Business Education 35 or 36—Beginning or Intermediate Typewriting | 4 |
| Physical Education Activity Courses or Military Science | 3 to 6 |
| | 51 or 54 |

#### Sophomore Year

| | |
|---|---|
| English 73, 74—Introduction to Literature | 8 |
| Health 79—Personal Hygiene | 4 |
| Psychology 65—Elementary Psychology | 4 |
| Social Studies—Government, Sociology or Geography | 4 |
| Mathematics 120—Elementary Statistics | 4 |
| Economics 55, 56—Principles of Economics | 8 |
| Accountng 71, 72, 73—Principles of Accounting | 12 |
| Health or Physical Education Elective | 4 |
| Physical Education Activity Courses | 3 |
| | 51 |

Majors in Business Education must make the following substitutions in this curriculum: delete Business Administration 40 and Mathematics 120; take Biology 37 and 38 and eight hours of physical science in place of the science requirement; take two courses in typewriting instead of one; and, postpone the work in health and social studies and take one year of shorthand instead.

Majors in Foreign Trade must take the Bachelor of Arts Degree core. The social studies requirement in the core must be Economics 55; Geography 33, 118, and 145; and History 127. One of the mathematics requirements must be Math 120. Spanish is the language ordinarily selected to meet the language requirement. Two quarters of Spanish on the junior level should have been completed by the start of the junior year. The commerce requirements for the freshman and sophomore years are Economics 56, Business Education 35 or 36, and Accounting 71, 72, 73.

Those taking the two-year secretarial training curriculum are referred to the curriculum outlined under the Department of Business Education.

Any student who has had a year of high school typewriting cannot take Business Education 35. A student with one year of shorthand in high school must start with Business Education 67. If a student has had more work than this in either or both fields, he should consult the Head of the Department of Business Education about the appropriate beginning courses.

## PLAN FOR JUNIOR AND SENIOR YEARS

### Commerce Core

Students majoring in accounting, business administration, economics, marketing, office management, personnel management or secretarial studies are required to take the following core in commerce in addition to their major requirements. This core constitutes a minor in business administration and meets the college requirement in that respect. Business Administration majors may minor as specified in the departmental curricula.

| Course | Title of Course | Hours |
|---|---|---|
| Business Education 103 | Business Correspondence | 4 |
| Marketing 130 | Principles of Marketing | 4 |
| *Economics 133 | Money and Banking | 4 |
| Business Administration 166, 167 | Business Law | 8 |
| Business Administration 142, 182 or 183 | Principles of Management, Personnel Management, or Industrial Management | 4 |
| Business Administration 140 or 189 | Business Organization and Finance or Corporation Finance | 4 |
| | TOTAL | 28 |

*A secretarial studies major may substitute Economics 107 or 108.

### Major Requirements

The majors are outlined under the departments in which they are located. With the consent of his advisor, a student occasionally may make a substitution for one of his required courses.

### Electives

Electives are courses a student chooses. They may be selected from any department in the college.

## DEPARTMENT OF ACCOUNTING

Ben L. Forbes, Chairman

Anderson, H. O. Jackson, Puyper, Maxey

In recent years, due to taxation, governmental regulations, and the necessity for business to have adequate accounting records and information to meet competition, there has been a tremendous increase in the demand for accountants. The demand for the general accountant has been supplemented by the demand for the specialist. The Department of Accounting provides for the supply of both types by providing programs with emphasis on industrial or public accounting as well as the general accounting program.

Accounting majors should take Accounting 71, 72, and 73 in their freshman year and postpone part of their core. They should follow with Accounting 100, 101, and 150 in their sophomore year.

The following courses are recommended for students planning to minor in accounting: Accounting 72, 73, 100, 101, and three other advanced accounting courses.

### General Accounting

| | |
|---|---|
| Commerce core | 28 |
| Accounting courses as listed below: | 32 |
| Accounting 100—Intermediate Accounting I | 4 |
| Accounting 101—Intermediate Accounting II | 4 |
| Accounting 122—Federal Income Tax | 4 |
| Accounting 123—Cost Accounting | 4 |
| Accounting 124—Auditing | 4 |
| Accounting 150—Advanced Accounting | 4 |
| Accounting 172—Municipal Accounting | 4 |
| Accounting 174—Accounting Systems | 4 |
| Electives | 27 or 30 |

### Industrial Accounting

| | |
|---|---|
| Commerce core | 28 |
| Major requirements as listed below | 36 |
| Accounting 100—Intermediate Accounting I | 4 |
| Accounting 101—Intermediate Accounting II | 4 |
| Accounting 122—Federal Income Tax | 4 |
| Accounting 123—Cost Accounting | 4 |
| Accounting 123a—Cost Accounting II | 4 |
| Accounting 124—Auditing | 4 |
| Accounting 150—Advanced Accounting | 4 |
| Accounting 173—Budgeting | 4 |
| Accounting 174—Accounting Systems | 4 |
| Electives | 23 or 26 |

### Public Accounting

| | |
|---|---|
| Commerce core | 28 |
| Major requirements as listed below | 36 |
| Accounting 100—Intermediate Accounting I | 4 |
| Accounting 101—Intermediate Accounting II | 4 |
| Accounting 122—Federal Income Tax I | 4 |
| Accounting 122a—Federal Income Tax II | 4 |
| Accounting 123—Cost Accounting | 4 |
| Accounting 124—Auditing I | 4 |

| | |
|---|---|
| Accounting 124a—Auditing II | 4 |
| Accounting 150—Advanced Accounting | 4 |
| Accounting 172—Municipal Accounting | 4 |
| Electives | 23 or 26 |

## ACCOUNTING

71—**Principles of Accounting I.** Four hours.
The meaning and purpose of accounting, the balance sheet, the profit and loss statement, the trial balance, working papers, the accounting cycle, accounting for purchases, sales and cash, and the periodic summary.

72—**Principles of Accounting II.** Four hours.
Prerequisite: Accounting 71.
Accounting for notes and interest, deferred and accrued items, valuation of current and fixed assets, accounting procedures, the voucher system, accounting for payrolls, and accounting for taxes.

73—**Principles of Accounting III.** Four hours.
Prerequisite: Accounting 72.
A treatment of partnership, corporation, departmental and branch, and manufacturing accounting.

100-400—**Intermediate Accounting I.** Four hours.
Prerequisite: Accounting 73.
A study of fundamental processes, accounting statements, the accounting process, and classification of assets and liabilities.

101-401—**Intermediate Accounting II. (Formerly 121).** Four hours.
Prerequisite: Accounting 100.
A coverage of corporate capital and surplus, and analytical processes, including statements from incomplete data, errors and their correction, and statement of application of funds.

122-422—**Federal Income Tax Accounting I.** Four hours.
Prerequisite: Accounting 101.
An introductory course covering classification of taxpayers, rates, taxable income, exclusions, deductions, expenses, losses, individuals' returns, payment of taxes, employment taxes, depreciation, amortization, depletion, tax accounting, long-term income, and inventories.

122a-422a—**Federal Income Tax Accounting II.** Four hours.
Prerequisite: Accounting 122.
A continuation of Accounting 122 with emphasis on installment sales, unpaid items, basis for gain or loss, capital gains and losses, net operating loss, partnerships, decedents, estates and trust, corporations changes in capital, liquidations, employees' plans, foreign taxes, deficiency, refund, estate, gift, and excise taxes, and the revenue system.

123-423—**Elementary Cost Accounting.** Four hours.
Prerequisite: Accounting 101, or consent of instructor.
A beginning course in cost accounting, treating of terminology, the mechanics of process and job order cost accounting, the cost accounting cycle, accounting entries, and cost statements.

123a-423a—**Advanced Cost Accounting.** Four hours.
Prerequisite Accounting 123.
A continuation of Accounting 123, with coverage of estimated costs, standard costs, variance analysis, joint and by-product costs, distribution costs, budgets, profit planning, and cost reports and statements.

124-424—**Auditing I.** Four hours.
Prerequisite: Accounting 150 and senior standing.
A study of auditing principles, techniques, and procedures, professional

ethics and legal responsibility, the audit program, field work, and the audit report.

124a-424a—**Auditing II.** Four hours.

A continuation of Accounting 124, with emphasis on auditing principles and standards as set forth by the American Institute of Accountants, and application of procedures and techniques through use of practice sets.

150-450—**Advanced Accounting (Formerly 121a).** Four hours.

Prerequisite: Accounting 101.

A comprehensive treatment of partnership accounting, consignments and installment sales, insurance, receiver's accounts, and annuities.

151—**Consolidated Statements and Accounting for Fiduciaries. (Formerly 176 and 177).** Four hours.

Prerequisite: Accounting 101.

A treatment of estate accounting principles and reports, home office and branch accounting, parent and subsidiary accounting, consolidations and mergers, and foreign exchange.

172—**Municipal and Governmental Accounting**—Four hours.

Prerequisite: Accounting 101.

A study of the principles and standards of governmental accounting, with emphasis on classification of accounts, fund accounting, statements, and reports.

173—**Budgeting.** Four hours.

Prerequisite: Accounting 100.

An analysis of the procedures used in preparation of business budgets, with consideration given to the principles underlying these procedures, comparison of performance with the budget, and enforcement of the budget.

174—**Accounting Systems.** Four hours.

Prerequisite: Accounting 150.

A study of the nature and procedure of systems work with attention given to the design and use of business papers and forms, mechanical equipment and auxiliary devices, punched-card accounting methods, journals, ledgers, internal checks, and applied accounting systems and procedures.

175—**CPA. Problems.** Four hours.

Prerequisite: 28 hours in accounting and senior standing.

An intensive and comprehensive review of various phases of accounting through study of past C.P.A. examination problems. Recommended for those who plan to sit for the C.P.A. examination.

178—**Research in Accounting Problems.** One or two hours.

Prerequisites: Accounting 150, senior standing, and approval of instructor.

A seminar course for advanced study in problems in cost accounting, budgeting, auditing, or income tax.

## DEPARTMENT OF BUSINESS ADMINISTRATION

R. R. Hardin, Chairman

Wehling, Harlan, Bass, Santa Cruz, Stegenga

Success in business today demands maximum preparation. This is true whether one intends to own his own business or work for some company. The curricula in the Business Administration Department are designed to give the student the broad knowledge of the business and economic world necessary to prepare him for the vast majority of non-specialized positions open to the graduating student. Specialized courses are offered for the student who definitely knows the area of business he wishes to enter.

The recommended minor in business administration for a non-commerce major is: Accounting 71 and 72; five advanced courses in business administration which may include Marketing 130 or Economics 133.

The recommended minor in personnel management for a non-commerce major is: Accounting 71 and 72 or Economics 55 and 56; Economics 127; Business Administration 142, 182 and 183; and Psychology 149.

The recommended minor in personnel management for a commerce major is: Business Administration 182 and 183; Psychology 149 and 178; and Business Education 160 or Marketing 155.

### General Business

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 12 |
| Business Administration 147 or Economics 129—Government and Business or Public Finance | 4 | |
| Economics 127—Labor Problems | 4 | |
| Elective in Accounting, Business Administration, Economics or Marketing | 4 | |
| Minor requirements and electives (minor may be in any department in the college) | | 47 or 50 |

### Banking and Finance

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 12 |
| Business Administration 144—Bank Administration | 4 | |
| Business Administration 194—Investment Finance | 4 | |
| Economics 129—Public Finance | 4 | |
| Minor requirements (must be in economics and must include Economics 180) | | 20 |
| Electives | | 27 or 30 |

### Small Business

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 12 |
| Business Administration 126—General Insurance | 4 | |
| Business Administration 185a—Principles of Small Business Organization | 4 | |
| Business Administration 185a—Problems of Small Business | 4 | |
| Minor requirements (must be in marketing and include Marketing 134 and 137) | | 20 |
| Electives | | 27 or 30 |

| Commerce core | | 28 |
| Major requirements as listed below | | 16 |
| Business Administration 182—Personnel Management | 4 | |
| Business Administration 183—Industrial Management | 4 | |
| Economics 127—Labor Problems | 4 | |
| Business Education 160 or Marketing 155—Office Management or Sales Management | 4 | |
| Minor requirements (must be in psychology and include Psychology 129, 149, and 178) | | 24 |
| Electives | | 19 or 22 |

## BUSINESS ADMINISTRATION

**40—Introduction to Business.** Four hours.
An introductory course to practically all phases of the business and economic world for the beginning student in commerce.

**126-426—General Insurance.** Four hours.
A beginning course in insurance, designed to explain the fundamental principles of risk and risk bearing and to introduce the insurance mechanism as a device for reducing risk and sharing losses.

**131—Life Insurance.** Four hours.
A comprehensive treatment of life insurance, with the use of materials paralleling those approved by the American College of Life Underwriters.

**140-440—Business Organization and Finance.** Four hours.
Prerequisite: Economics 54 or 55.
An analysis of the forms of business organization from the economic and financial viewpoints, including a history of antitrust legislation, with emphasis on recent developments and trends.

**142—Principles of Management.** Four hours.
Basic management concepts and principles applied to the functions of planning, organization and control in a business enterprise.

**144—Bank Administration.** Four hours.
Prerequisite: Economics 133.
A comprehensive survey of practical bank administration, covering such topics as bank practices and problems, loans and discounts, investments, fiduciary and other services, and the money market.

**145—Fire and Casualty Insurance.** Four hours.
Prerequisite: A previous course in insurance.
An analysis of the fire policy, consequential loss contracts, ocean and inland marine risks, automobile underwriting, business liability protection, personal and professional liability contracts, dishonesty coverages, and compensation insurance, with principles of policy selection emphasized.

**147—Government and Business.** Four hours.
Prerequisite: Economics 54 or 55.
A study of the place of government in the business world, with emphasis on types of controls, regulation of public service corporations and financial institutions, laws to enforce competition, and government aids to business.

**166—Business Law I.** Four hours.
The fundamental principles of law that apply to common business transactions, including contracts, agency employment, negotiable instruments, personal property, bailments, and transportation.

**167-467—Business Law II.** Four hours.
A study of the principles of law that apply to sale of personal property, insurance contracts, contracts of suretyship and guaranty, partnerships, deeds and conveyances, mortgages, leases, trusts, bankruptcy, and torts and crimes.

**182-482—Personnel Management.** Four hours.
A course covering the tools of personnel management, with principal emphasis on the major task of procuring, developing, maintaining, and using an effective working force.

**183-483—Introduction to Industrial Management.** Four hours.
The basic principles and policies with respect to the management of an industrial plant, covering such topics as plant location and layout, purchasing, materials handling, quality control, maintenance, and production control systems.

185a—**The Organization and Operation of a Small Business.** Four hours.
Prerequisites: Accounting 71, 72, and 73; and Economics 54 or 55.
A course designed to give the student a knowledge of sound business principles to be applied to the problems of organizing and operating a small business.

185b—**Case Studies in Small Business Organization and Operation.** Four hours.
Prerequisite: Business Administration 185a.
The principles studied in Business Administration 185a re-examined in the light of actual business successes and failures.

189-489—**Corporation Finance.** Four hours.
Prerequisites: Accounting 71, 72, and 73; and Economics 54 or 55.
A course dealing with the organization of corporations, methods of financing and types of securities, analysis of causes of failure, and rehabilitation of bankrupt corporations.

194-494—**Investment Finance.** Four hours.
Prerequisite: Business Administration 140 or 189.
The techniques of investment analysis as applied to industrial, railroad, public utility, and other securities, with emphasis placed upon the importance of a knowledge of American industry.

198—**Independent Study.** Four hours.
A case problem to be worked out to meet the needs of the particular student; to include a research paper to be presented to the major professor and chairman of the division.

540—**A Survey of American Financial Institutions.** Four hours.
An integrated study of the American financial structure. American financial structure. American financial institutions; their organization, functions, methods of operation, and services; and management problems.

## DEPARTMENT OF BUSINESS EDUCATION

Martin Stegenga, Acting Chairman

Reck, Ewell, Coleman, Welborn

The business education curriculum qualifies the student to teach business courses in secondary schools. In addition to this curriculum the Department of Business Education offers curricula in office management, secretarial studies and a two-year program in secretarial training.

Education is the minor in business education.

The recommended minor in office management is: Accounting 71 and 72; Business Administration 142 and 182; Business Education 118, 150, and 160.

The recommended minor in secretarial studies is: twelve hours in typewriting; twelve hours in shorthand; and twelve hours in advanced business education courses. High school courses taken in typewriting and shorthand will reduce the number of required hours.

| | |
|---|---|
| Freshman and Sophomore curriculum | 114 |
| Professional requirements as listed below | 40 |
| Fine Arts | 4 |
| Education 113—Principles of High School Teaching | 4 |
| Education 169—Tests and Measurements | 4 |
| Education electives from 116, 128, 136, 162, and 164 | 6 |
| Education 151a—Methods in Business Education | 4 |
| Education 185-186—Directed Teaching | 10 |
| Psychology 119—Educational Psychology | 4 |

| | | |
|---|---|---|
| Psychology 132—Adolescent Psychology | 4 | |
| Commerce requirements as listed below | | 28 |
| Business Education 103—Business Correspondence | 4 | |
| Business Education 118—Office Practices | 4 | |
| Business Education 101—Filing Systems | 2 | |
| Business Education 102—Typewriting Problems | 2 | |
| Business Education 150—Office Machines | 4 | |
| Business Administration 140—Business Organization and Finance, | 4 | |
| Business Administration 166—Business Law I | 4 | |
| Marketing 130 or Economics 107—Principles of Marketing or Economics of Consumption | 4 | |
| Electives | 7 or 10 | |

### Office Management

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 32 |
| Business Education 101—Filing Systems | 2 | |
| Business Education 102—Typewriting Problems | 2 | |
| Business Education 109—Advanced Typewriting | 4 | |
| Business Education 118—Office Practices and Procedures | 4 | |
| Business Education 150—Office Machines | 4 | |
| Business Education 160—Office Management | 4 | |
| Business Administration 182—Personnel Management | 4 | |
| Psychology 129—Applied Psychology | 4 | |
| Psychology 149—Industrial Psychology | 4 | |
| Electives | 27 or 30 | |

### Secretarial Studies

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 32 |
| *Business Education 66, 67, 104, 114 or 115—Shorthand | 16 | |
| Business Education 101—Filing Systems | 2 | |
| Business Education 102—Typewriting Problems | 2 | |
| Business Education 109—Advanced Typewriting | 4 | |
| Business Education 118—Office Practices and Procedures | 4 | |
| Business Education 150—Office Machines | 4 | |
| Electives | 27 or 30 | |

*A student who does not use Business Education 115 to meet his major requirements must use four hours of his electives for the course.

### Secretarial Training

Two-Year Curriculum

| | | |
|---|---|---|
| Required courses—general education as listed below | | 34 |
| English 25, 26, 27—English Composition | 12 | |
| Speech 31 | 4 | |
| Mathematics 21—Basic Mathematics | 4 | |
| Psychology 65—General Psychology | 4 | |
| Physical Education—Activity courses | 6 | |
| Social Studies—Government 25, or History 27, or 28, or Sociology 63 | 4 | |
| Required courses—commerce as listed below | | 64 |
| *Business Education 35, 36 and 109—Typewriting | 12 | |
| *Business Education 66, 67, 104, 114 and 115—Shorthand | 20 | |
| Business Education 101—Filing Systems | 2 | |
| Business Education 102—Typewriting Problems | 2 | |
| Business Education 103—Business Correspondence | 4 | |
| Business Education 118—Office Practices and Procedures | 4 | |

| | |
|---|---|
| Business Education 150—Office Machines | 4 |
| Business Administration 40—Introduction to Business | 4 |
| Economics 54 or 55—Principles of Economics | 4 |
| Accounting 71 and 72—Principles of Accounting | 8 |

*If a student has had one year of typewriting in high school he will start with Business Education 36; if a year of shorthand in high school, Business Education 67. The four or eight hours saved are to be used on two of the following courses: Economics 56; Accounting 73; Business Administration 140 and 166; Business Education 160; and Marketing 130 and 134.

## BUSINESS EDUCATION

35—**Elementary Typewriting.** Four hours.
For beginners in typewriting. Acquiring keyboard control, developing correct typewriting techniques, and the application of this acquired skill to letter writing and simple tabulated reports. No credit to a student whose high school transcript shows one unit in typewriting.

36—**Intermediate Typewriting.** Four hours.
Prerequisite: Business Education 35 or equivalent.
A review of keyboard and manipulative controls, with emphasis on letter styles, manuscripts, and tabulated reports. Students who have had more than one year of typewriting in high school should enroll in Business Education 109.

66—**Beginning Shorthand.** Four hours.
The theory and practice of Gregg simplified shorthand, with emphasis on fluency of writing and reading; a limited amount of dictation and transcription. English 25, 26, and 27 to be taken concurrently, or to have been completed previously.

67—**Intermediate Shorthand.** Four hours.
Prerequisite: Business Education 66 or its equivalent.
Completion of theory of Gregg simplified shorthand, with some emphasis on dictation and transcription. English 25, 26, and 27 to be taken concurrently or to have been completed.

101—**Filing Systems.** Two hours.
An introduction to major filing systems in business, with a study of standard rules for alphabetizing, practice in the use of common systems of filing, and the application of filing principles to specific types of business.

102—**Problems in Typewriting.** Two hours.
Prerequisite: Business Education 36 or equivalent.
A review of techniques in skill building, with development of speed and accuracy in typing a variety of office forms, and emphasis on shortcuts in production typewriting.

103—**Business Writing.** Four hours.
Prerequisites: English 25, 26, 27, and ability to typewrite.
The principles of effective business-letter writing, with the preparation of business letters, such as sales, credit, collection, business, promotion, and application.

104—**Advanced Shorthand (Formerly 68).** Four hours.
Prerequisite: Business Education 67 or two years of high school shorthand.
A constant automatic review of shorthand theory, developing the student's shorthand speed, and emphasizing mailable transcripts.

109—**Advanced Typewriting (Formerly 37).** Four hours.
Prerequisite: Business Education 36 or equivalent.
Preparation of stencils, business forms, and legal documents; further practice with tabulations, manuscripts, and letter forms.

110—**Key Punch Machine Operation.** Two hours.
Course for beginners in IBM key punch machine operation, with practice on alphameric key board, and stress on numeric punching and study of punch-card programming and punch-card form. Certificate of proficiency given by International Business Machines Corporation to those completing course satisfactorily.

114—**Dictation and Transcription.** Four hours.
Prerequisite: Business Education 104.
Emphasis on office style dictation using the vocabulary of different types of businesses.

115—**Advanced Dictation and Transcription.** Four hours.
Prerequisite: Business Education 114.
The finishing course in shorthand dictation and transcription, with speed attained through the use of shortcuts used by court reporters and expert shorthand writers.

118—**Office Practice and Procedures.** Four hours.
Prerequisite: Business Education 36.
A course covering practical secretarial problems and the building of an employable personality.

150—**Office Appliances.** Four hours.
Prerequisite: Business Education 35 or equivalent.
Sufficient practice to develop a thorough working knowledge of the operations involved on calculators, adding machines, transcribers, electric typewriters, posting machines, mimeoscope, and direct process and mimeograph duplicators.

160-460—**Office Management.** Four hours.
A study of the principles of management as applied to office work, covering office organization, supervision, layout, supplies, machines, training, office forms and reports, and office services.

595—**Foundations of Business Education.** Four hours.
Principles and trends of business education, curriculum construction, tests and testing programs, guidance, and literature in the field.

596—**Seminar in Business Education.** Four hours.
An intensive study of specific problems in business education, administration and supervision in high school and junior college.

## DEPARTMENT OF ECONOMICS

Greene, Jordan, Hruby, Nation, Wehling

The curriculum in economics is intended to prepare the student for many positions in business or government or give him the background necessary for further study in a graduate school. For the non-major the courses in economics have become popular as a minor or as electives, for they add greatly to one's understanding of the social and economic environment in which he lives, thereby making him a better citizen as well as a better-informed businessman.

A Bachelor of Arts degree is offered in economics, the curriculum below being changed as needed by the department head.

In addition, a Bachelor of Arts degree is offered in foreign trade in cooperation with the Latin-American Institute. These curricula may be secured in the office of the dean of the School of Commerce and Business Administration.

The recommended minor in economics consists of Economics 55, 56, 112, 133, 169 and two other advanced courses. A commerce major must substitute Economics 180 for Economics 133, which is in the commerce core.

### Economics

| | |
|---|---|
| Commerce core | 28 |
| Major requirements as listed below | 32 |
| Economics 112—Economic Development of the U. S. | 4 |
| Economics 129—Public Finance | 4 |
| Economics 169—Economic Theory | 4 |
| Economics 180—Business Cycles | 4 |
| Economics 190—International Trade Theory | 4 |
| Economics 195—Comparative Economic Systems | 4 |
| Elective in economics | 8 |
| Electives | 30 |

### Foreign Trade

| | |
|---|---|
| Basic College foreign trade core | 120 or 123 |
| Major requirements as listed below | 24 |
| Economics 133—Money and Banking | 4 |
| Economics 190—International Trade Theory | 4 |
| Economics 192—International Trade Practices | 4 |
| Business Administration 140—Business Organization and Combination | 4 |
| Business Administration 166 and 167—Business Law | 8 |
| Major requirements in Spanish (assuming Spanish 80, 81, and 82 have been taken) as listed below | 24 |
| Spanish 100—Advanced Conversation | 4 |
| Spanish 101—Phonetics | 4 |
| Spanish 160, 161 and 162—Introduction to Spanish-American Literature | 12 |
| Spanish elective over 100 | 4 |
| Electives | 21 or 24 |

## ECONOMICS

**54—Introduction to Economics.** Four hours.
A course for non-commerce majors only.
An introductiory course in economic principles, with emphasis on fundamental economic concepts as they relate to citizenship and the understanding of national and international problems.

**55—Principles of Economics, Part I.** Four hours.
A course for commerce majors only.
An introduction to economic analysis and its use in dealing with business problems, a study of price theory as related to competitive and monopolistic market structures, and economic principles as they relate to the distribution of income on functional and individual levels.

**56—Principles of Economics, Part II.** Four hours.
A course for commerce majors only.
A continuation of economic study, with emphasis on the macro-economic analysis of national income theory, governmental fiscal and monetary policy formation, and international economics.

**105—Current Economic Issues.** Two hours.
A course covering economic problems current at the time, and the perennial problems of stability, monopoly, distribution of income, international policies, and extent of planning.

**106—Social Security.** Two hours.
The current social security laws, their development, their economic implications, and arguments presented for and against them.

**107—Economics of Consumption.** Four hours.
A course designed to give the student an understanding of the economic

principles of laws that govern consumption and to present facts relating to American standards of living and consumption habits.

108—**Personal Finance.** Four hours.

A study of the principles of personal finance, covering family budgeting, maintenance of family income, family health and life insurance needs, home financing, personal investments, and better buying methods.

112-412—**Economic Development of the United States.** Four hours.

A study of the economic forces that have led to the development of American economy as it exists today.

127-427—**Labor Problems.** Four hours.

The history of organized labor in the United States, with an analysis of the chief problems that confront labor today, and special emphasis on current legislation and court decisions.

129—**Public Finance.** Four hours.

Prerequisite: Principles of economics.

A general course designed to acquaint the student with the various types of local, state, and federal taxes, principles of government finance, and the effects of government fiscal policy on the economy.

133-433—**Money and Banking.** Four hours.

Prerequisite: Economics 54 or 55.

A study of the nature and functions of money, an analysis of commercial banking operations, the Federal Reserve System, foreign exchange, and the relation of banking to the entire economy through monetary policy.

169-469—**Economic Theory.** Four hours.

Prerequisite: Economics 133.

A rapid survey of the various economic theories since Adam Smith, with special emphasis on the classical pricing analysis, Keynesian economics, and current thought.

175—**Economics of Management.** Four hours.

Prerequisites: Principles of Economics and Principles of Marketing.

An application of economic analysis to the managerial problems of production control and the physical distribution of commodities.

180-480—**Business Cycles.** Four hours.

Prerequisite: Economics 133.

An analysis of business cycles, with emphasis on their history and characteristics, and stabilization proposals.

190-490—**International Trade Theory.** Four hours.

Prerequisite: Economics 133.

A course covering the historical development of international trade, the importance of trade, the mechanism of international payments, and modern theories dealing with the subject.

192—**International Trade Practices.** Four hours.

Prerequisites: Economics 54 or 55, and preferably Economics 190.

The fundamental techniques of exporting and importing, methods of financing exports and imports, documentary procedure, and current problems in international trade.

193—**Transportation.** Four hours.

Prerequisite: Economics 54 or 55.

A survey of transportation as a whole, with attention given to railroads, airlines, highways, and ocean shipping; and with coverage of history, costs and rate making, legislation and regulation, documents, and intercarrier relationships.

195-495—**Comparative Economic Systems.** Four hours.
Prerequisite: Economics 54 or 55.
A course designed to acquaint the student with the origins, development, and characteristics of fascism, socialism, communism and capitalism.

550—**National Economics Policies.** Four hours.
Prerequisites: Principles of Economics and advanced course in economics requiring economic analysis.
An examination of national economic problems and a critical analysis of the policies adopted to solve or to ameliorate them.

## DEPARTMENT OF MARKETING

W. B. Nation, Chairman

Sorbet, Brock

The increasing emphasis which is being placed on the problems of marketing the nation's output of goods and services has created many new positions of responsibility in the business world. The curricula below are designed to train college graduates for those positions.

The recommended minor in marketing for a non-commerce major is: Accounting 71 and 72 or Economics 55 and 56; Marketing 130, and four advanced courses in marketing.

The recommended minor in marketing for a commerce major consists of five advanced courses in marketing above 130, which may include Business Administration 185a.

### General Marketing

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 32 |
| Marketing 134—Salesmanship | 4 | |
| Marketing 135—Principles of Retailing | 4 | |
| Marketing 137—Principles of Advertising | 4 | |
| Marketing 152—Principles of Wholesaling | 4 | |
| Psychology 129—Applied Psychology | 4 | |
| Twelve hours to be selected from marketing courses, Business Administration 185a, or Economics 192 | 12 | |
| Electives | | 27 or 30 |

### Sales and Sales Management

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 32 |
| Marketing 134—Salesmanship | 4 | |
| Marketing 135—Principles of Retailing | 4 | |
| Marketing 152—Principles of Wholesaling | 4 | |
| Marketing 155—Sales Management | 4 | |
| Psychology 129—Applied Psychology | 4 | |
| Twelve hours to be selected from marketing courses, and Business Administration 185a and 185b | 12 | |
| Electives | | 27 or 30 |

### Advertising

| | | |
|---|---|---|
| Commerce core | | 28 |
| Major requirements as listed below | | 32 |
| Marketing 134—Salesmanship | 4 | |
| Marketing 137—Principles of Advertising | 4 | |
| Marketing 157—Advertising Copy and Layout | 4 | |
| Marketing 158—Market Research | 4 | |
| Psychology 129—Applied Psychology | 4 | |
| Twelve hours to be selected from marketing courses, and Business Administration 185a and 185b | 12 | |
| Electives | | 27 or 30 |

### Retail Management

| | |
|---|---|
| Commerce core | 28 |
| Major requirements as listed below | 32 |
| Marketing 134—Salesmanship | 4 |
| Marketing 135—Principles of Retailing | 4 |
| Marketing 137—Principles of Advertising | 4 |
| Marketing 156—Retail Merchandising | 4 |
| Marketing 165 and 166—Professional Retailing Experience | 12 |
| Four hours to be selected from marketing courses or Psychology 129 | 4 |
| Electives | 27 or 30 |

## MARKETING

130 (formerly 153)—**Principles of Marketing.** Four hours.

An introductory course designed to give a general understanding of marketing forces, institutions, policies, and functions as they relate to the economic structure.

134—**Salesmanship.** Four hours.

A study of the principles of salesmanship, with the students applying the principles in classroom sales presentations.

135—**Principles of Retailing.** Four hours.

Prerequisite: Marketing 130 or permission of the instructor.

A survey course comprising an analysis of the principles underlying the successful operation of retail stores, with an approach both institutional and functional.

136—**Credit and Collection.** Four hours.

A study of the nature and functioning of retail and mercantile credit, sources of credit information, financial statement analysis, credit, collection procedures, and the legal aspects of credit.

137—**Principles of Advertising.** Four hours.

An introductory course in the principles of advertising and the psychology of advertising, and a study of agencies, media, and methods.

152—**Principles of Wholesaling.** Four hours.

Prerequisite: Marketing 130 or permision of the instructor.

A study of the nature of wholesaling from the institutional and functional points of view.

155—**Sales Management.** Four hours.

Prerequisite: Marketing 130 or permission of the instructor.

A course covering the problems usually met in the administration of a sales organization, including sales research and planning, coordination of personal selling and advertising, and the selection, training, and control of a sales force.

156—**Retail Merchandising.** Four hours.

Prerequisite: Marketing 135.

The tools that buyers and merchandise managers use, including purchase planning, makeup, inventory control, turnover, operating statements, and expense controls.

157—**Advertising Copy and Layout.** Four hours.

Prerequisite: Marketing 137.

The principles of copy and layout for magazines and newspapers, with practical advertisements developed by the students through the laboratory technique.

158-458—Market Research. Four hours.
Prerequisite: Twelve quarter hours of marketing.
The scientific principles of research applied to marketing problems, with field investigations made covering consumer, retailer, wholesaler, and manufacturer marketing situations.

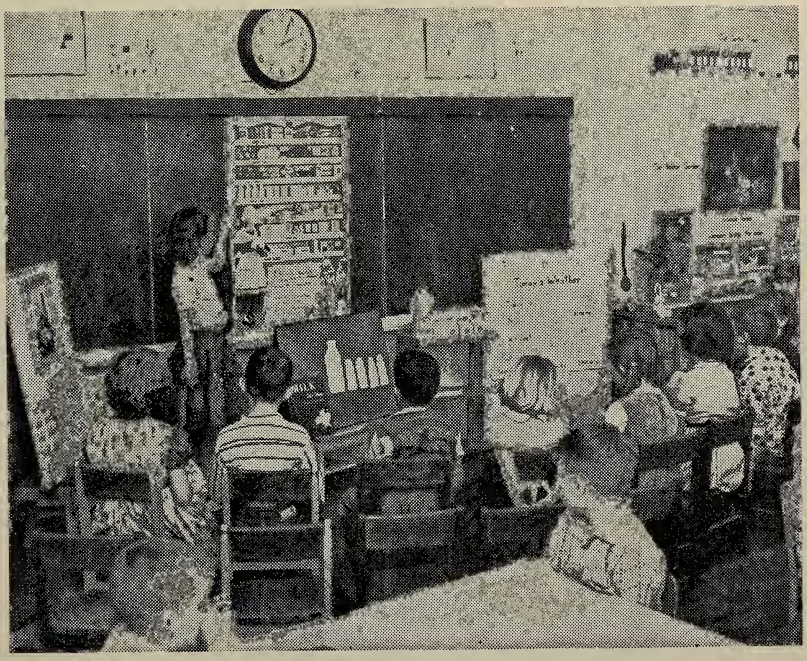
159—Market Seminar. Two hours.

Prerequisite: Consent of instructor.
A course designed to give students an opportunity to apply in a practical manner the principles and theories studied in course work.

165, 166—Professional Retailing Experience. Six hours each.
Prerequisite: Permission of Department of Marketing faculty.
Actual work experience to be gained by working full-time or part-time in cooperating retail stores under the supervision of a faculty member.
Twelve hours of credit must be earned by the student. Part-time work will receive a maximum of six hours of credit per quarter. Full-time work will receive twelve hours of credit per quarter. The credit given for these courses will be extension credit rather than residence credit. This means the student cannot take this work his last quarter before graduating unless it is part-time work and he is carrying at least twelve hours of class work on the campus at the same time. Furthermore, the credit earned must be included in the amount of extension and correspondence credit which may be applied toward a degree.

170-470—Marketing Problems. Four hours.
Prerequisite: Twelve hours of marketing courses.
An examination of specific problems in the field of marketing, including problems of the individual enterprise with relation to channels of distribution, pricing, promotion, organization and trends. The case method is employed.

THIRD GRADERS ENJOY NATURE STUDY



GEORGE HURST SCHOOL AT WORK

# SCHOOL OF EDUCATION AND PSYCHOLOGY

Roy G. Bigelow, Dean

A major concern of this school is to offer those courses in education and psychology required in the preparation of teachers for elementary and high schools. A second major concern is to give basic training in the field of psychology for the student who will continue his work in graduate school, pursuing advanced degrees in this field. A third major concern is to serve other departments of the college having special needs which are usually met by professional schools of education, psychology, physical education, health education and recreation.

### Organizational Plan of the School

Fifteen undergraduate departments, areas and special services are included in the School of Education and Psychology, each of which has an administrative chairman or director. They are: Conservation and Natural Resources, Elementary School Education, Guidance, Health, Industrial Arts, Library Science, Physical Education, Psychology, Recreation, Secondary School Education, Audio-Visual Education, George Hurst Laboratory School, Reading Clinic, Special Education Services and the Division of Extension and Correspondence. The Department of School Administration, Supervision and Curriculum, which is of graduate rank, is joined by the graduate areas of other undergraduate departments of the School, and administered in a similar manner to the undergraduate areas.

### Teacher-Education Curriculum

A student desiring to qualify for a license to teach registers in this school. In so doing it is assumed that he or she possesses the personal qualifications to become a successful teacher. Such a student should seek counsel and guidance early in his college career regarding the academic, professional, and personal requirements necessary to qualify. Courses in education and psychology required for teachers' licenses, popularly known as professional courses, are best taken in sequence and not crowded into one or two quarters. Such qualifications are established by state boards of education or similar agencies, and usually require the candidate to follow a course pattern extending over two or more years. The dean or school faculty will gladly advise a student wishing to apply for a teacher's certificate in Mississippi or other states and assist in planning schedules.

The core curriculum, required of all freshmen and sophomores, is found in its own pertinent section of this bulletin. The core curriculum for the student desiring to teach in the elementary school (grades 1-8) is set forth in detail elsewhere in this bulletin, and the senior college curriculum is given on the following pages. The student will major in elementary education in this case.

A student who wishes to teach in high school (grades 7-12) will enroll in the school and major in an academic department of his choice, such as English, Chemistry, or Industrial Arts. The professional courses which he will take to qualify for a teaching license are listed also in a separate section.

## DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

John M. Frazier, Chairman

This department is organized to train elementary teachers, secondary teachers, home demonstration agents, conservationists, and others interested in the arts and sciences related to the improvement of our natural resources. The courses are planned to give a practical knowledge and understanding of the various areas.

Courses especially for elementary teachers are Conservation 132—Science for Elementary Teachers, and Conservation 147—Nature Study and Elementary Science. Supplementary courses for elementary teachers include Conservation 85—Forestry, and Conservation 148—Ornithology.

Majors in secondary education can profit by supplementing general science and biology courses with Conservation 85—Forestry, Conservation 148—Ornithology, and Conservation 149—Game Management.

Students who expect to enter the field of conservation as foresters, game managers, and similar work with wildlife, should select all courses in conservation except those planned specially for elementary teachers.

## AGRICULTURAL EDUCATION

**123—Landscape Gardening.** Four hours.

Lectures, laboratory, and field work as required by instructor.

A course planned to develop appreciation for, and understanding of, the principles of design. Emphasis on soils, propagation, culture, and use of native plants for home and school.

## CONSERVATION

**85—General Forestry.** Four hours.

Lectures and field work at the discretion of the teacher, five hours per week.

A survey of the major phases of forestry, with special emphasis on farm forest development, protection, and use.

**101—Conservation of Wildlife.** Two hours.

An introductory survey of wildlife resources of North America, including the relationships of the flora and fauna to economic and cultural life, the history of wildlife conservation, and the programs of governmental agencies.

**132—Science for Elementary Teachers.** Four hours.

Two double activity periods per week and two hours lecture.

A professionalized course in basic principles of science needed by elementary teachers, and methods of presentation to children.

**133—Introductory Ecology.** Four hours.

Two lectures and two laboratory and field-trip periods per week.

Course dealing with both animals and plants in relation to their environment and their responses to changing conditions.

**141—Field Conservation.** Two hours.

Offered in fall only.

A course planned to train science and social science teachers in the practical aspects of conservation. Trips under direction of specialists to see demonstrations of conservation in action on soil, forest, water, and wildlife projects.

**142—Field Conservation.** Two hours.

Offered in spring only.

A continuation of Conservation 141, planned to give the spring aspects of conservation. Requirements are similar.

**147—Nature Study and Elementary Science.** Four hours.

Two theory periods and two two-hour periods each week.

A course for the elementary teacher, dealing with environment of the child, and giving general directions as to material and methods to be used.

148—**Ornithology.** Four hours.

Two lectures and two double periods of field work per week.

An introduction to the study of birds, including biological principles, identification, habitats, food supply, and means of protection.

149—**Game Management.** Four hours.

Lectures and field work two single and two double periods per week.

An introductory study of native game animals in relation to habitats, conservation, propogation, protection, food supply, migration; legislation and civic organizations.

177—**Conservation Problems.** Four hours.

Offered fall and winter quarters by conference and report method.

A course designed for teachers and social workers in rural communities, including a survey of soil, water, forest, grazing, agriculture, mineral, and industrial resources of selected areas.

178—**Resource Use Education.** Four hours.

A course designed to give teachers and conservationists an understanding of the ways and means of using natural resources to meet ordinary needs more adequately.

## DEPARTMENT OF ELEMENTARY SCHOOL EDUCATION

Leo R. Miller, Chairman

Black, Dent, Dowell, Easterling Knight, Lucas, Staiger

The courses described in this department are concerned principally with the background and preparation of those students intending to teach in the elementary and junior high schools. The prospective teacher of elementary schools will major in this field and earn a minor in a related academic field.

### Requirements for Major

A student majoring in elementary education will complete the requirements for the B. S. Professional Degree, the requirements for which will include the core curriculum, the major, a minor, and a number of elective courses. The minor and the electives should be chosen carefully according to the student's plans for the future and in consultation with his advisor.

A. Curriculum—College Core

The student majoring in elementary education must include the core specified for the Bachelor of Science Professional Degree as outlined on page 64 of this catalog. He shall also elect Geography 33 or 43, Physical Education 149, and Conservation 147 among his core courses. Physical Education 149 will serve as his elective in physical education and Conservation 147 will count as four hours of his required physical science.

B. Curriculum—Professional Requirements

The student working toward the B. S. Professional Degree must include in his program the courses leading toward the Class A teaching certificate. Those requirements are listed on page 65 of this bulletin. A student earning this degree in elementary education will automatically meet all requirements for the Class A elementary teaching certificate in Mississippi.

C. Curriculum—Departmental Requirements

1. General Requirements

The student majoring in elementary education must complete 96 quarter hours in courses at the senior college level and must complete 68 quarter hours in courses numbered above 100.

### Requirements for a Major in Elementary Education

| | Hours |
|---|---|
| Basic curriculum (core) | 78 |
| Basic curriculum in elementary education | 28 |
| Professional education and psychology courses as listed here | 24 |
| Psychology 116 | 4 |
| Education 107, 108, 116, 143, 169 | 20 |
| Specialized education courses | 34 |
| Education 101, 103, 117 | 12 |
| Physical Education 149 | 4 |
| Conservation 132, and 147 | 8 |
| Education 181-182 or 183-184 | 10 |
| Electives and minor | 28 |
| (It is recommended that Conservation 132 and 147 be taken in the junior year to avoid conflict with directed teaching.) | |
| Total | 192 |

D. Curriculum—Minor and Electives

In addition to the core requirements, the major requirements, and the departmental requirements, the student must complete requirements for a minor preferably in a related academic field. Courses not used to fulfill these stipulated requirements are free electives and may be taken in any department of the college.

An elementary education major may minor in practically any area of the college curriculum. He must complete 28 hours in the department in which his minor is selected and none of these 28 hours has to be in courses above 100. In general, required courses in either the core or the major field will also apply toward the minor requirements. The student will select his minor in consultation with his adviser.

## ELEMENTARY EDUCATION

**20—The Teacher and the Community.** Four hours.

An orientation course designed to introduce the student to different phases of education and psychology, to prepare him for advanced courses, and to help him decide in what field he would like to work.

**66—The Modern Elementary School.** Four hours.

An introduction to elementary education stressing school organization, curriculum, materials and methods in the elementary school, the daily schedule, school reports, and the personality of the teacher as a factor in success.

**101 or 401—Arithmetic in the Elementary School.** Four hours.

A course in the methods of teaching arithmetic in the elementary grades. Special attention is given to developing an understanding of numbers, teaching basic combinations, and the use of arithmetic text books and workbooks.

**102—Kindergarten—Primary Education.** Four hours.

A study of the contributions which group living makes to the mental and physical health of young children, with emphasis upon child development research in curricular experiences and records designed to help teacher and parent understand child development.

**103 or 403—Social Studies in the Elementary Grades.** Four hours.

A study of the social studies in the integrated curriculum and the objectives and content of the social studies, areas and sequences of units, and the selection and evaluation of social studies units for grades 1-6, inclusive.

**104a, b, c—The Reading Conference. One and one-half hours each.**

May be taken once as Education 534.

An intensive program for five days during the summer quarter consisting of lectures, group discussions, and demonstration lessons. Afternoon sessions devoted to laboratory observation and to diagnostic and remedial procedures.

**107 or 407—Reading and Language Arts in the Elementary School. Four hours.**

A course dealing with basic reading problems in the elementary grades, reading interests, and the appraisal of reading abilities. Concerns the creative aspects of language and the elimination of errors of speech.

**108 or 408—Diagnostic and Remedial Reading. Four hours.**

A study emphasizing diagnosis and remedial treatment of difficulties in reading in the elementary schools with special emphasis on practices suitable for typical classroom situations through demonstration and observation.

**110 or 410—Clinical Procedures and Case Study Techniques in Reading. Four hours.**

A specialized course in diagnostic and remedial reading with emphasis upon educational and psychological testing and the analysis of reading difficulties. Provides clinical practice in testing and remedial work.

**117 or 417—Methods and Materials in Children's Literature. Four hours.**

Reading in mythology, legend, history, biography, fiction and poetry. Narrative and dramatic presentations. Comparative editions, graded bibliographies, and standard practice in building collections of books for children.

**120—Advanced Clinical Procedures in Reading. Four hours.**

An advanced course in reading clinic procedures. Experience provided in serving as assistant in the reading clinic, administering tests, and teaching remedial cases or groups.

**143 or 443—Methods and Materials in the Elementary Grades. Four hours.**

A critical study of general methods of instruction in the elementary subjects. Stresses approved techniques in the light of research in these fields: language arts, social studies, number relationships, handwriting, and spelling.

**144a, b, c—Projects in Elementary Education. Four hours each.**

Designed for school systems planning local projects of curriculum revision and course of study construction. Available for credit more than once if projects require more than one quarter to complete.

**154—Industrial Arts for Elementary Teachers. Four hours.**

A course intended to aid the elementary teacher in guiding children in all free activities. Cardboard and wood construction, clay modeling, weaving, coping saw work, letter cutting, and basketry included.

**181-182—Student Teaching in Lower Elementary Grades. Five hours each.**

Prerequisites: Education 20, 66, 101, 103, 107, and 143; and Psychology 116.

Students arrange for this course with director of student teaching two quarters in advance. Schedules to be adjusted to allow four consecutive hours daily in the George Hurst School or in other centers.

**183-184—Student Teaching in Upper Elementary Grades.** Five hours each.

Descriptive statement and prerequisites under Education 181-182.

**501—Research: Its Introduction and Methodology.** Four hours.

See course description under Educational Administration.

**504—Foundations in American Education.** Four hours.

A survey of the philosophies, psychologies, and history of American education intended to give the student a fundamental understanding of more specialized courses in these fields. Required of all graduate students.

**518—The Elementary School Principal.** Four hours.

A study emphasizing the administrative problems of the principal. Considers practices in administration, supervision, school plant, supplies and equipment, attendance, curriculum, personnel, and parent-teacher cooperation. Stresses the professional leadership of the principal.

**526—Supervision of Instruction.** Four hours.

See course description under "Educational Administration."

**528—Curriculum Problems in the Elementary School.** Four hours.

A course involving analysis of elements of the curriculum. Emphasis is placed upon the implications of social life and the nature of the individual for curriculum development. Evaluates various curriculum procedures in terms of these implications.

**530a, b, c—Research in Reading.** Four hours each.

An advanced course for students interested in individual and group research in methods, materials, and procedures of instruction in reading.

**532—Measuring Results in Elementary Education.** Four hours.

A course designed to equip the teacher for effective selection and construction of tests for measuring specific achievement of teaching objectives and for statistical interpretation of data. Stresses use of teacher-made tests.

**535a, b, c—Special Problems.** One to three hours.

A problem study to be approved by the appropriate department head, to develop knowledge and facility in a field of interest for the student which requires preparation of a scholarly paper under the supervision of a graduate professor.

**536—Practicum in Reading.** Four hours.

A laboratory course consisting of analysis of extreme reading disabilities, case typing, and recommended remedial procedures. Experience in techniques, procedures, and the preparation of case reports.

**574—The Psychology and Education of the Elementary School Child** Four hours.

A course dealing with the mental, motor, social, and emotional development of children of elementary school age. Stresses the application of development psychology to education and guidance. Considers child growth as a progressive development.

**576—Pre-School Education for School Entrance.** Four hours.

A study emphasizing problems connected with the development of the whole child. Case studies analyzed, materials and equipment for work and play investigated. Activities planned to develop readiness for school.

**578—Art in Child Development.** Four hours.

A consideration of art as an integral part of child growth and as inti-

mately related to the social studies curriculum of the elementary school. Opportunity provided for creative aspects of learning and for evaluation of experiences.

## DEPARTMENT OF GUIDANCE

Herman Boroughs, Acting Director

The courses in guidance are planned to give public school teachers, supervisors, and administrators a foundation in the understanding and use of guidance services and for the preparation of specialists in this area. Selections from the following courses may be used to meet the requirements for a master's degree in personnel and counseling, and for qualification for certificates in school and vocational counseling. By careful planning and advisement a secondary school teacher may qualify for both a Secondary AA Certificate and a Counselor Certificate by taking graduate hours in addition to those required for either certificate alone.

Background courses recommended: Psychology 65, 116, 119, and 132; and Education 136, 169, 512, 532, and 574.

(Note: The courses in guidance: Education 136, 506, 522, 571, 587, 588, 590, 591a, b, c, 592, 594, and 596a, b, c, are being offered to meet the minimum state requirements for those desiring to become counselors.)

### GUIDANCE

**136—Principles of Guidance.** Four hours.
See course description under "Secondary Education."

**506—Fundamentals of Guidance.** Four hours.
A brief survey of vocational and educational guidance practices. Intended to give teachers and administrators a fundamental understanding of the role of guidance in public school programs.

**522—Organization and Administration of Pupil Guidance.** Two hours.
Prerequisite: Education 506.
A course stressing administrative relationships in instituting and maining guidance programs, with study of principles and techniques for the formulation and evaluation of a complete guidance program, including cumulative records, counseling, placement, and follow-up.

**571—Occupational Information Services in Guidance.** Two hours.
Brief survey of present practices in vocational guidance, designed to provide the teacher and administrator with the source and content of occupational information, and with successful methods of disseminating occupational and training information.

**586—Seminar in Student Personnel Problems.** Four hours.

**587—Individual Psychological Testing: Stanford-Binet.** Four hours.
See course descriptions under "Secondary Education."

**588—Individual Psychological Testing: Wechsler-Bellevue.** Four hours.
See course descriptions under "Secondary Education."

**590—Methods and Techniques of Counseling.** Four hours.
Prerequisite: Education 506.
A course designed to acquaint the guidance worker with the basic fundamentals of counseling and interviewing, including a resume of both old and new methods and techniques used in counseling the individual.

**591a, b, c—Supervised Practice Counseling.** Two hours each.
Prerequisite: Education 590 and consent of instructor.
Assignment of hours and responsibilities arranged with each student.
A supervised practicum in counseling giving the advanced student an opportunity for needed experience under close supervision.

592—**Use and Interpretations of Tests in Guidance.** Four hours.

Prerequisite: Education 506.

A course designed to provide the counselor with means of securing, recording, and using data concerning the individual, with practical experience in using tests, inventories, and other devices for measurement.

593—**Analysis of the Individual.** Four hours.

Prerequisite: Education 506.

A study of the methods and techniques used by guidance workers in helping individuals evaluate themselves, with consideration of collecting, assembling, and using information. Emphasis on subjective techniques.

594—**Advanced Guidance Research Seminar.** Four hours.

Assignments of problems, hours of credit, time of seminar meetings, and individual conferences will be arranged with each student.

Research in the guidance area on problems faced by counselors, teachers, and administrators.

596a, b, c—**Field Work in Guidance.** Two hours each.

Assignment of hours and responsibilities will be arranged with each student. Registration only by permission.

A course designed to give guidance students the opportunity to obtain experience in agencies that provide guidance.

## DEPARTMENT OF HEALTH, PHYSICAL EDUCATION AND RECREATION

J. Lloyd Milam, Chairman

Instruction: Dr. Baley, Miss Brown, Mr. Edgar, Mr. Frazier, Mr. Grantham, Miss Hill, Mrs. Hooker, Miss Jellinek, Mr. Johnson, Dr. Milam, Dr. Switzer, Mr. Townley, Miss Warren, Mr. Yarrow.

Varsity Coaching: Mr. Green, Mr. Lewis, Mr. Stuart, Mr. Taylor, Mr. Thomas, Mr. Vann.

The health, physical education, and recreation program is operated for the following purposes: (1) to promote the health and fitness of college students: (2) to build a basis in scientific information for good health attitudes and habits; (3) to train in habits of exercise; (4) to offer opportunity for recreation; (5) to prepare teachers, coaches, health educators, supervisors, administrators, recreation directors, and other specialists in the fields of school and community health, physical education, and recreation.

Six hours of physical education activity courses are required of all students. Freshmen men will meet the first three hours of physical education through their regular R.O.T.C. freshman course. Those students showing proficiency may choose activities during the sophomore year. Varsity players may receive credit for activity courses during the regular season.

Following the medical examination, students are interviewed in order to guide them into appropriate remedial procedures.

Men are required to have suitable unforms consisting of "T" shirts, shorts, and soft-soled shoes. Freshman women must wear all-white gym suits. Modern dance students will wear leotards and sandals. Freshmen need bathing suits in September.

Course numbers followed by "w" indicate courses open only to women. Course numbers followed by "m" indicate courses open only to men. Courses without the letter are coeducational.

**Special Areas of Concentration in Health, Physical Education, and Recreation**

1. Hgh school teachers of health and physical education (men and women).
2. High school teachers of health and physical education (coaches).
3. Health educators.

It is recommended that those desiring a concentration in this area select Biology 37, 38, 39, and 139; Chemistry 2 and 26; Physics 80 and 81; Mathematics 32 or 35; and Health 27, 125, 131, and 192. Adjustments may be made in the professional requirements.

4. Sanitarians.

It is recommended that those desiring concentration in this area select Chemistry 25, 26, 27; Mechanical Drawing 27, and 28; Biology 139, and 145; and Health 131.

5. Recreational leaders.

## HEALTH

**27—Community Health.** Four hours.
Community control of environmental health hazards, community control of disease; health agencies.

**79—Personal Health.** Four hours.
The human body and its functioning as related to problems of health and disease.

**123—Elementary Course in Nutrition.** Two hours.
Same as Home Economics 123.

**125 or 425—Problems of Child Health.** Four hours.
Prerequisite: Health 79 and junior standing.
Child safety, nutrition, diseases of children, mental health of children, growth.

**131 or 431—Sanitation.** Four hours.
Problems of sanitation in the home and school, in food producing and handling, water supply, waste and excreta disposal. Based on an understanding of general biology.

**133 or 433—First Aid.** Two hours.
Standard first aid as approved by the American Red Cross. Emphasis on preparing students in the knowledge and skills needed in preventing accidents as well as rendering first aid to the sick and injured.

**134—Home Nursing.** Two hours.
Same as Home Economics 134.

**135 or 435—Safety Education.** Two hours.
A study of the general program of safety education in public schools, with special reference to the selection and organization of materials, including the methods and techniques of instruction: visual aids, safety projects, special programs, and the utilization of agencies outside the school.

**137—Driver Education.** Four hours.
Driver education provides an opportunity for public school teachers to be certified, covering such items as program of instruction, use of training cars, delegation of authority, legal responsibilities, and qualifications of teachers.

**143 or 443—Advanced and Instructor First Aid.** Two hours.
Prerequisite: Health 133.
An advanced study certifying personnel to conduct first aid courses in schools and community.

**151 or 451—Marriage Problems and the Family.** Four hours.
Same as Home Economics 151.

**152 or 452—Physiology of Exercise.** Four hours.
A study of the physiological changes which occur in the body during muscular activity. Based on a general understanding of the human body.

**154—Health Education in Elementary Schools.** Four hours.
Methods and materials for the elementary teacher, with special emphasis on instruction and on coordination of school and community health programs.

**155—Health Education in Secondary Schools.** Four hours.
Primarily for students majoring or minoring in health and physical education.
Materials and techniques for high school teachers of health; conducting the school health program at the secondary level.

**170 or 470—Anatomy and Applied Physiology.** Four hours.
A study of the human skeleton, with emphasis on the joints, points of muscular attachments, and basic principles involved in physiology of exercise.

182 or 482—**Kinesiology.** Four hours.
Analysis of movement based on a knowledge of anatomy and physiology as applied to the function of muscles in body mechanics.

192 or 492—**School Health.** Four hours.
Organization and operation of the school health program, with emphasis on policies, procedures, problems, cooperating agencies, and field work.

194 or 494.—**Evaluation in Health and Physical Education.** Four hours.
Open to qualified seniors and graduates.
Tests in health, fitness, strength, skills and abilities. Administration and interpretation.

196 or 496—**Marriage and Family Life.** Four hours.
Physical, emotional, and medical basis and preparation for successful courtship, marriage, and parenthood.

540—**Problems of Administration in Health, Physical Education and Recreation.** Four hours.
Selection and care of equipment; school and community organizations, facilities, budget, finance, and educational publicity.

542—**Problems of Curriculum in Health and Physical Education.** Four hours.
Fundamental principles and bases of curriculum construction, analysis of activities for teaching purposes and program planning.

544—**Foundations and Trends in Health and Physical Education.** Four hours.
Scientific bases, history, principles, curricula, and professional preparation.

545—**Problems in Recreation.** Four hours.
Special attention to problems in recreation, including small town recreation, the school and recreation, coordinating community recreation services, field trips, public relations, program planning for given situations, and survey for recreational needs.

546—**Advanced School Hygiene.** Four hours.
Health service, plant and equipment, meeting community needs, utilizing community resources, health instruction.

548—**Seminar in Health and Physical Education.** Two hours.
Discovery and recognition of problems, evaluation of problems and procedures, types and techniques of research.

## PHYSICAL EDUCATION

### Theory Courses

56—**History of Physical Education.** Two hours.

70—**Introduction to Health, Physical Education, and Recreation.** Four hours.

100a—**Coaching the Majors Sports—Football.** Two hours.
A study of the fundamentals, player selection and training, offensive and defensive formation, and game strategy of football.

100b—**Coaching the Major Sports—Basketball.** Two hours.
The growth and popularity of basketball, selection, practice, and training of players, offensive and defensive strategy.

100c—**Coaching the Major Sports—Baseball.** Two hours.
A study of the background and development of baseball, coaching of the fundamentals, player selection and placement, and other coaching problems.

100d—**Coaching the Major Sports—Track.** Two hours.
Development of track as a sport. Selecting of personnel, fundamentals and training techniques for all events.

110w—**Teaching and Officiating Team Sports for Women.** Four hours.
Soccer, speedball, field hockey, basketball, volleyball, softball, organization G.A.A., intramural, tournament. Official sports ratings given.

118m—**Care of Athletic Injuries.** Two hours.
The care and prevention of athletic injuries. Taping and wrapping all parts of the body.

120m-w-a-b-c—**Techniques of Teaching Tumbling and Calisthenics.** Two hours each.

121a-b-c-d-e-f—**Beginners, Intermediate, Advanced Modern Dance.** One hours each.
Prerequisite: Permission of instructor.

122 or 422—**Techniques of Teaching Rhythms.** Two hours.
Prerequisite: Some knowledge of music.

144a—**Beginning Course in Life Saving and Water Safety.** Two hours.
Prerequisite: Skill in all strokes.
Senior Life Saving, Water Safety courses approved by American Red Cross. Emphasis toward certifying life guards for swimming areas.

144b—**Instructor's Course in Water Safety.** Two hours.
Prerequisite: Physical Education 144a.
Emphasis on obtaining knowledge and skills beyond the scope of Senior Life Saving and certifying personnel to conduct other water safety courses in schools and community.

149—**Physical Education in Elementary Schools.** Four hours.
Materials and methods of teaching physical education in the elementary grades; both theory and practical experience in selecting, organizing and directing activities for the elementary school.

151—**Physical Education in Secondary Schools.** Four hours.
Experience in planning activities for the high school and in reviewing or learning the necessary skills and techniques of leadership. Opportunity for study of rhythms, dual sports, tumbling, gymnastics, group games (volleyball, speed ball, soccer), and aquatics.

155m or 455m—**Techniques of Officiating Sports.** Four hours.
Football, basketball, baseball, and track.

155w or 455w—**Teaching and Officiating Individual and Dual Sports.** Four hours.

160m—**Organization and Administration of High School Athletics.** Four hours.
Program theory and practice in program organization of the major and minor sports, with emphasis on selection, purchase and care of equipment; travel, scheduling, officials, facilities and business management.

181 or 481m-w—**Preventive and Corrective Physical Education.** Four hours.

187 or 487—**Theory of Teaching Swimming and Diving.** Two hours.
Prerequisite: Physical Education 125 or equivalent.

190 or 490—**Organization and Administration of Health, Physical Education, and Recreation.** Four hours.
A course emphasizing the theory and practice in adopting policies and procedures necessary to the development and administration of a sound program in small, medium, and large high schools.

195a-b-c- or 495a-b-c—**Coaching the Minor Sports.** Two hours.
Golf, tennis, badminton, volleyball, archery, handball, swimming, tumbling, and gymnastics. Practical experience in the various phases of the intramural program or the required program of physical education.

## Activity Courses

Six hours of physical education courses are required of all students. All students should have 1m-w, 2m-w, and 3m-w courses in freshman year. Three additional hours may be secured by electing any of the activity courses numbered 100 or above. One should have a minimum of one course each in acquatics, rhythms, and individual or dual sports.

1, 2, 3w—**Seasonal Sports and Activities for Freshman Women. One hour each.**
(1w meets 3 days a week fall quarter only).

1w—**Swimming, Body Mechanics, Volleyball, and Basketball.**

2w—**Modern, Folk, Square, and Social Dancing.**

3w—**Softball and Swimming.**

1, 2, 3m—**Seasonal Sports and Activities for Freshman Men. One hour each.**
1m—Swimming, Gymnastics.
2m—Gymnastics, Handball, Volleyball.
3m—Badminton, Swimming.
Tumbling, boxing, wrestling, tennis, swimming, team games.

11, 12, 13, 14, 15, 16m-w—**Individual Physical Activities. One hour each.**
Courses designed for students unable to take regular activity classes. For students who bring a physician's excuse, who are advanced in age, or others in the restricted group. Instruction on individual basis by regular appointments and not by class periods.

101w—**Softball.** One hour.

102m-v—**Football.** One hour.

104m-w—**Women's Basketball.** One hour.
Offered winter quarter only.
Open to women desiring to improve their skill and both men and women students desiring to qualify as coaches and officials for women's basketball. National rating examination given.

105w—**Soccer and Speedball.** One hour.
Offered fall quarter only.

106m-v—Baseball. One hour.

107—**Water Pagentry.** One hour.

108a—**Beginning Badminton.** One hour.

108b—**Avanced Badminton.** One hour.

109—**Archery.** One hour.

112a—**Beginning Golf.** One hour.

112b—**Advanced Golf.** One hour.

114a-b-c—**Relaxation.** One hour each.
A functional course in relaxation designed to prevent or to remove occupational hazards, such as tensions and fatigue.

117a—**Beginning folk and Square Dancing.** One hour.

117b—**Advanced Folk and Square Dancing.** One hour.

119—**Bowling.** One hour.

123w-a—**Beginning Calisthenics and Tumbling.** One hour.

123w-b—**Advanced Calisthenics and Tumbling.** One hour.

124m-w—**Volleyball.** One hour.

125a—**Beginning Swimming and Diving.** One hour.

125b—**Advanced Swimming and Diving.** One hour.

132m-v—**Track and Field.** One hour.

134a—**Beginning Tennis.** One hour.

134b—**Advanced Tennis.** One hour.

136a—**Beginning Gymnastics.** One hour.

136b—**Advanced Gymnastics.** One hour.

138m—**Boxing.** One hour.

139a—**Beginning Handball and Squash.** One hour.

139b—**Advanced Handball and Squash.** One hour.

173a—**Beginning Social Dancing.** One hour.

173b—**Advanced Social Dancing.** One hour.

175m-w—**Marksmanship.** One hour.

## RECREATION

133 or 433—**Camp Counseling and Administration of Camping.** Two hours.
A course dealing with the development of skills in the technique of camp leadership and administration.

140 or 440—**Recreation Leadership.** Four hours.
A course offering opportunity to develop individual personality and competency in leading recreational activities.

148 or 448—**Recreational Music.** Two hours.
A course approaching music in relation to recreational possibilities; developing group singing, novelties, concerts, and home-made instruments.

169 or 469—**Recreational Skills.** Four hours.
A course adapting different craft media to use in recreation programs, including making of game equipment, dramatic properties, hobbies, decorations, and other related craft.

191 or 491—**Administration of Recreation.** Four hours.
A study of official, voluntary, and private organizations for recreation, with special consideration of legal aspects, personnel, facilities, finance, program, and public relations.

## DEPARTMENT OF INDUSTRIAL ARTS

Zed H. Burns, Chairman

Burns Livingston Thomas

The Department of Industrial Arts offers a choice of four curricula, each of which leads to the Bachelor of Science degree. These four curricula are as follows: the professional curriculum for the preparation of teachers of industrial arts, the non-professional curriculum, the architectural drafting curriculum, and the manual arts therapy curriculum.

Students who plan to teach industrial arts must take at least 45 quarter hours in this field and must have at least a minimum of work as follows: general shop—4 hours, wood work—8 hours, metal work—8 hours, drawing—8 hours, elective—17 hours. In addition to the core curriculum (page 64), the student in this curriculum must elect to take Education 116, Industrial Arts 27, 31, 41, and 63, also Music 97 or Art 112 during his freshman or sophomore year. Other courses in Education and Psychology are also required to qualify for a teaching license as given below.

Curriculum recommended for

PROFESSIONAL INDUSTRIAL ARTS MAJOR
(See Basic College for work of first two years)

Junior Year—48 Qr. Hrs.

| | |
|---|---|
| Psychology 119, 132 | 8 |
| Education 113 | 4 |
| Electives | 12 |
| Industrial Arts 64, 126 or 127, 140, 142, 144, 150, 160 | 24 |
| | 48 |

Senior Year—44 Qr. Hrs.

| | |
|---|---|
| Education 151G and 169 | 8 |
| Education 162 or 164 | 2 |
| Education 185 and 186 | 10 |
| Electives | 16 |
| Industrial Arts 128 and 190 | 8 |
| | 44 |

Those individuals who are interested in securing technical training may major in industrial arts by taking 36 quarter hours of work in this field. Where this non-profesional major is selected the student is encouraged to minor in some allied technical field such as mathematics, physics, chemistry or management. Twenty-eight quarter hours are required for a minor in industrial arts.

The Department of Industrial Arts offers a special four-year curriculum for those interested in becoming achitectural draftsmen.

Curriculum recommended for

ARCHITECTURAL DRAFTING MAJOR

Freshman Year

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| English 25 | 4 | English 26 | 4 | English 27 | 4 |
| History 27 | 4 | History 28 | 4 | Speech 31 | 4 |
| Math 31 | 4 | Math 32 | 4 | Math 35 | 4 |
| Art 23 | 4 | Art 32 | 4 | Art 118 | 4 |

### Junior Year

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Health 79 | 4 | Geology 41 | 4 | Ag. Ed. 123 | 4 |
| P. E. elective | 4 | Bus. Adm. 183 | 4 | Ind. Arts 144 | 4 |
| Ind. Arts 140 | 4 | Ind. Arts 142 | 4 | Ind. Arts 160 | 4 |
| Ind. Arts 126 | 4 | Art 122 | 4 | Math 47 | 2 |
| plus ROTC | | plus ROTC | | plus ROTC | |
| | 16 | | 16 | | 14 |

### Senior Year

| Fall | Hrs. | Winter | Hrs. | Spring | Hrs. |
|---|---|---|---|---|---|
| Ind. Arts 170 | | Ind. Arts 171 | | Ind Arts 172 | |
| Arch. Design I | 4 | Arch. Design II | 4 | Arch. Design III | 4 |
| Ind. Arts 137 | 4 | Ind. Arts 180 | | Ind. Arts 181 | |
| Electives | 8 | Structures I | 4 | Structures II | 4 |
| | | Electives | 8 | Electives | 4 |
| | 16 | | 16 | | 12 |

For those individuals interested in entering the field of manual arts therapy the following curriculum is provided. Students selecting this curriculum will comply with the requirements of core curriculum, page 64, and will also take the courses specified below. The senior year will be taken in cooperation with certain government agencies with the student in residence either at Gulfport or Biloxi, Mississippi.

### Curriculum recommended for

## MANUAL ARTS THERAPY

### (See Basic College for core of first two years)

### Freshman and Sophomore

| | Hours |
|---|---|
| Art 21—Freehand Drawing | 4 |
| Art 23—Beginning Design | 4 |
| Industrial Arts 31—Woodwork | 4 |
| Industrial Arts 27—Mechanical Drawing | 2 |
| Industrial Arts 144—Plastics and Leather | 4 |
| | 18 |

### Junior

| | |
|---|---|
| Art 131—Ceramics | 4 |
| Biology 129—Human Physiology | 4 |
| Industrial Arts 142—Machine Shop | 4 |
| Industrial Arts 41a—General Shop | 2 |
| Elective | 4 |
| | 18 |
| Psychology 137—Mental Hygiene | 4 |
| Education 136—Principles of Guidance | 4 |
| Art 128—Jewelry Design | 4 |
| Industrial Arts 160—Electricity | 4 |
| Elective | 2 |
| | 18 |

| | |
|---|---|
| Psychology 191—Abnormal Psychology | 4 |
| Art 112—History of Art | 4 |
| Industrial Arts 64—Metal Work | 2 |
| Art 160 or 162—Advanced Jewelry Design or Ceramics | 4 |
| Industrial Arts 170—Architectural Design | 4 |
| | 18 |

**27—Mechanical Drawing.** Two hours.
Four-hour class.
Use of drawing instruments, geometric construction. Conventions used in depicting objects for reproduction. Representation in one, two and three dimensions. Shades and shadows. Object drawing. Special practice in lettering. Orthographic projection, cross-sections, dimensioning.

**28—Mechanical Drawing.** Two hours.
Prerequisite: Industrial Arts 27.
Four-hour class.
Development of surfaces and intersections for sheet metal work. Isometic, oblique, and cabinet projection. Drafting room practice. Advanced study of working drawings, detail and assembly, sheet lay-out, and structures. Four hour class.

**31a—Woodwork.** Two hours.
Four-hour class.
A course designed to develop skill, knowledge and appreciation in the care and use of woodworking tools, materials, processes, and products. Hand and machine tools, tool processes, tool maintenance, wood and lumber, joints, gluing, nails and screws, wood turning, carving and inlaying, finishing, and upholstery.

**31b—Continuation of 31a—Woodwork.** Two hours.

**41a—General Shop.** Two hours.
Four-hour class.
A general course in accordance with the modern development of industrial education. Sheet metal, elementary electricity, and house wiring.

**41b—Continuation of 41a—General Shop.** Two hours.

**63a—Advanced Woodwork.** Two hours.
Four-hour course.
Continuation of Industrial Arts 31, with emphasis on the selection of projects to implement the objectives of an industrial arts program. The importance of individual design.

**63b—Continuation of 63a—Advanced Woodwork.** Two hours.

**64—Metal Work.** Two hours.
An introduction to the application of hand and machine processes. Simple pattern drafting. Study of materials. Working cold iron; cutting, forming, seaming, burning, crimping, and fastening, as applied to the making of sheet metal products.

**126—Engineering Drawing.** Four hours.
Prerequisite: Industrial Arts 27 and 28.
Use of instruments, engineering lettering, freehand sketches, applied geometry, orthographic projection, pictorial drawings, sectional views, and working drawings from written descriptions as well as from actual objects.

**128—Planning and Equipping of the School Shop.** Four hours.
Planning the laying out of rooms and other building facilities. Purchase and arrangement of equipment. Selection of suitable equipment for special conditions. The cost of equipment, supplies, and maintenance.
Similar to Industrial Arts 170 but intended for the non-professional draftsman.

**127—Architectural Drawing.** Four hours.

**129—Shop Care and Management.** Four hours.
A study of machine placement; student movement; arrangement of

safety zones; upkeep and repair of tools; tool storage and distribution; storage of materials; assembly areas; and the general appearance of the shop.

**135—Descriptive Geometry.** Four hours.
A study of the general principles of descriptive geometry and their application to engineering, architecture, and geology.

**137—Statics.** Four hours.
Prerequisite: Physics 80 or 90 and Mathematics 35.
An elementary technical study of force systems and their action on rigid bodies at rest. Topics considered are center of gravity, moment of inertia of areas, and friction. For architectural and engineering students.

**142—Machine Shop.** Four hours.
Introduction to the procedures in grinding; thread cutting; quick change gears; the drill press and its operation; taper turning; cutting tools; grinding machines; and the assembling of machine parts.

**144—Plastics and Leather.** Four hours.
A study of plastics most commonly used in school shops; general operations in design; shaping and finishing selected projects in plastic. Instructions in tooling, embossing, lacing, and designing selected leather projects.

**150—Organization and Administration of Industrial Arts.** Four hours.
Objectives of industrial arts for different school levels. Bases of organization. Character of work for different levels and different types of schools. Organization of courses of study and teaching materials. Class organization for individual and group work.

**154—Handicrafts for Elementary Teachers.** Four hours.
A course for teachers of both lower and upper elementary work. Intended as an aid to the teacher in her preparation to guide the children in all free activities. Cardboard and wood construction, weaving, coping saw work, and letter cutting.

**160—Industrial Arts Electricity.** Four hours.
An introduction to some phases of electricity such as magnetism, bell wiring, bell transformers, repair of electrical appliances, sources of electrical energy, house wiring, and generators and motors.

**170—Architectural Design I.** Four hours.
Use of drawing tools, delination, lettering, shadows and perspective, elementary design problems .

**171—Architectural Design II.** Four hours.
Analysis and solution of simple problems of architectural design, study of space and mass, structural details, outline specifications.

**172—Architectural Design III.** Four hours.
Analysis and solution of architectural problems of moderate complexity, emphasis on domestic problems and simple commercial buildings. Attention is given to construction and finish details through research, discussion, drawings, and models.

**180—Structures I.** Four hours.
Analysis of fundamental structural principles, application of mathematics to structural theory.

**181—Structures II.** Four hours.
Study of statically determined structures including shear and bending moments, torsion, slope and deflection, design of beams, columns, trusses, struts, problems dealing with wood, reinforced concrete, steel, and other materials.

**190—History and Philosophy of Industrial Arts.** Four hours.
Open to juniors and seniors.
A critical consideration of various points of view; important contributions to general education; philosophy of industrial arts education.

## DEPARTMENT OF LIBRARY SCIENCE

Anna M. Roberts, Chairman
Flynt

A student majoring in Library Science may elect one of several alternative plans. He may work toward either the B.A. or the B.S. Professional degree. The student's choice of program should be determined by his plans for the future and in close conjunction with his adviser.

A. Curriculum—College Core

The student working toward either degree must include the appropriate core curriculum subjects for his degree. Core curriculum may be found on pages 64 and 66 of this catalog.

B. Curriculum—Professional Requirements

The student working toward the B.S. Professional degree must include in his program the courses leading toward the Class A teaching certificate. Those requirements are listed on page 65 of this bulletin.

C. Curriculum—Departmental Requirements

1. General requirements:

The student wishing to major in Library Science, regardless of his degree plan, must take 43 hours in the Department of Library Science, all of which must be in courses numbered above 100. Required of all majors in addition to Library Science is Education 116.

Students may qualify for the Class A Certificate by completing at least 36 quarter hours of library science:

| | Qtr. Hrs. |
|---|---|
| Books and related materials for children and young people | 8 |
| Administration of libraries | 8 |
| Electives in library science | 20 |

No correspondence or extension work is counted toward this credit.

Five hours of the directed teaching may be in school library practice. Education 116 (Audio-Visual Education) may be counted toward the major in library science, provided it is done in residence.

Students who are planning to study librarianship should consult the chairman of the Department of Library Science for advice regarding their curricula.

**Suggested Curriculum for Bachelor of Science Degree with a Major in Library Science (Professional Teaching Program)**

**Freshman and Sophomore Years**

Courses listed in Basic College Core

**Junior and Senior Years**

| | Hours |
|---|---|
| Library Science 101, 102, 103, and 115-116 | 22 |
| Library Science 112, 127, 128, 132 and 189 | 21 |
| Education 20, 113, 116, 169, and 185 | 21 |
| Psychology 119 and 132 | 8 |
| Fine Arts | 4 |
| Electives | 21 |

The Bachelor of Science degree with library science as a major may be

had in the regular or non-teaching program. The library staff should be consulted in this connection.

**Suggested Curriculum for Bachelor of Arts Degree with a Major in Library Science**

**Freshman and Sophomore Years**

Courses listed in Basic College Core

**Junior and Senior Years**

| | Hours |
|---|---|
| Library Science 101, 102, 103, and 115-116 | 22 |
| Library Science 122, 127, 128, 132 and 189 | 21 |
| Education 116 | 4 |
| Electives and minor | 46 |

D. Curriculum—Minor and Electives

In addition to the core requirements, the certification requirements and the departmental requirements, the student must also complete the requirements for a minor, preferably in a related field. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college.

**Requirements for Minor**

The student minoring in library science must take 28 hours in the department all of which must be in courses numbered above 100. Recommended for the minor are 102-103, 115-116, 127, 132, 101, and 122.

## COURSES OF INSTRUCTION

**101—Book Selection.** Four hours.
A general study of principles of selection and standards for evaluation of books, periodicals and other library materials; book publishers, series and editions; use of standard book selection aids.

**102—Books and Related Materials for Children.** Five hours.
A study of library materials and their uses for children of preschool age through the elementary grades; emphasis on the examination of both printed and audio-visual materials.

**103—Books and Related Materials for Young People.** Four hours.,
A study of the reading needs and interests of adolescents with criteria for selecting books for the school library. Emphasis on a wide study of both books and allied materials.

**115—Organization and Administration of School Libraries.** Five hours.
A study of the technical processes involved in organizing a library: circulation, classification and cataloguing; care of collections; maintenance of library materials library quarters and equipment, finance, the acquisition of books and non-book materials.

**116—Organization and Administration of School Libraries.** Four hours.
Continuation of 115. May be taken concurrently with 115.

(NOTE: Education 116—Audio-Visual Education—may be counted as library science. For description, see Education Department.)

**122—The Library and the Community.** Four hours.
Relation of the library to other agencies and resources of the community; the provision of library materials for community and school groups; fundamentals of operation for county and regional systems.

127—**School Library Reference Materials.** Four hours.
Required for the 27-hour program and above.
The study and evaluation of basic reference materials for school library use.

128—**Advanced Reference and Bibliography.** Four hours.
Prerequisite: Library Science 127. Not required on 27-hour program.
A study of the more specialized reference material, including bibliographic and government materials, lectures, and problems.

132—**Clasification and Cataloguing.** Four hours.
Prerequisites: Library Science 115, 116, and 127.
A study of the fundamental principles and methods of clasification and cataloguing suitable for the average school library situation. Dewey Decimal Classification and simplified cataloguing with emphasis on the printed cards and other aids.

133—**Classification and Cataloguing.** Four hours.
Prerequisite: Library Science 132.
Expansion of the principles and methods of classification and cataloguing with attention given to more advanced problems.

189—**Practice Work.** Five hours.
Prerequisite or parallel: Library Science 115-116.
Culmination course for majors in Library Science to be taken in lieu of Education 186. Experience in various phases of library work. Approximately 180 hours of laboratory work including a one-day field trip which will involve a small expense.

192a, b, c—**School Library Problems.** One and one-half hours each.
An intensive course through group study in the analysis of special problems in the library field. Full-time work for five days, offered during the summer quarter; to be conducted through the cooperative efforts of the Department of Library Science and the State Department of Education.

## DEPARTMENT OF PSYCHOLOGY

Ray S. Musgrave, Head

Balch, Broxton, Clegg, Freeny, *Frye, Massey, Staiger

*On leave of absence 1957-58.

The Department of Psychology offers a full range of courses in psychology and two major sequences. It also serves as a service department in teacher education, offering certain courses required for teacher certification. In addition, the Department of Psychology stands in this same service relationship to other schools and departments in the college which require or recommend courses in psychology in their respective curricula.

### Requirements for Major

A student majoring in psychology may elect one of several alternative plans. He may work toward either the B.S. or the B.A. degree. In each degree program he may follow either the preprofessional major sequence, or he may elect the general major program. The student's choice of program should determine his plans for the future in close consultation with his adviser.

### General Psychology Major—Non-Professional

This major is provided for the student who is interested in psychology and who plans to enter an occupation other than professional psychology. The student who elects this major will not be recommended for professional work in psychology or for graduate professional training. Students aspiring to advanced professional training in psychology should take the preprofessional sequence.

### Psychology Major—Preprofessional

This major sequence is planned to provide the student with the background and skills essential for graduate professional training in psychology.

A. Curriculum—College Core

The student working toward either degree must include the appropriate core curriculum subjects for his degree. Core curricula may be found on pages 64 and 66 of this catalog.

Bachelor of Science candidates should take Biology 37 and 38 and eight hours of physical science to meet science core requirements. They should also elect Sociology 63 as one of the social science core requirements. Those who contemplate advanced graduate work are reminded that a reading knowledge of two foreign languages is often required, and the undergraduate program affords an excellent place to take work in at least one language.

Bachelor of Arts canidates include Biology 37 and 38 in their core science requirement. They should also take one course in philosophy, one course in mathematics, and at least one course in sociology as parts of the prescribed core.

B. Curriculum—Departmental Requirements

1. General and Specific Requirements

The student wishing to major in psychology. regardless of his degree plan, must take 36 hours in the Department of Psychology in addition to Psychology 65. Required of all majors are Psychology 65 and 129. Psychology 187 and 191 are strongly recommended.

The student taking the preprofessional psychology major should take, in addition to Psychology 65, 129, 187, and 191 as indicated above, Psychology 139, 178, 180, 190, and 194 plus one additional course.

The student following the Bachelor of Science degree program should take, in addition to the College Core and specific major requirements listed above, either Biology 129, or 140, Mathematics 120, one course in philosophy, and at least one advanced sociology course.

The student following the Bachelor of Arts degree program shall take Mathematics 120 in addition to the College Core and specific major requirements listed above.

C. Curriculum—Minor and Electives

In addition to the core requirements and the departmental requirements, the student must also complete the requirements for a minor preferably in a related field. Courses not used to fulfill any of these requirements are free electives and may be taken in any department of the college.

## PSYCHOLOGY

**65—General Psychology.** Four hours.
Prerequisite: Sophomore standing.
An introduction to the scientific study of human behavior and experience. A core requirement for all degrees.

**116—Human Growth and Development, Part I: Child.** Four hours.
Prerequisite: Psychology 65.
Study of the child through the elementary school years, emphasizing principles and problems of development. Case studies of individual children.

**119—Educational Psychology.** Four hours.
Prerequisite: Psychology 65.
Application of psychological methods, facts, and principles to education.

129—**Applied Psychology.** Four hours.
Prerequisite: Psychology 65.
Application of psychological methods and principles to occupational fields other than education, including business and industry, law, medicine, the ministry, and others; emphasis on increased personal efficiency.

132—**Human Growth and Development, Part II: Adolescent.** Four hours.
Prerequisite: Psychology 65.
A course dealing with development of the individual through the adolescent years. Case studies of individual adolescents.

137—**Mental Hygiene.** Four hours.
Prerequisite: Psychology 65.
Characteristics of the wholesome personality and the building of healthy emotional attitudes; promotion of good mental health and prevention of abnormalities.

139 or 439—**Social Psychology.** Four hours.
Prerequisite: Psychology 65.
(Same as Sociology 139).
Psychological factors and influences in group behavior. Study of the individual in group situations, and the influence of the social environment on his behavior and development.

149—**Industrial Psychology.** Four hours.
Prerequisite: Psychology 65 (Mathematics 120 recommended).
Applications of psychological principles and methods to problems of industry, emphasizing employee selection and placement, merit rating, accident reduction, training, and measurement and improvement of employee morale.

176 or 476—**Individual Psychological Testing: Stanford-Binet.** Four hours.
Prerequisites: Good background in psychology and permission of the instructor.
Experience under close supervision in the administration, scoring, and interpretation of the Terman-Merrill Revision of the Stanford-Binet test; use of test results in diagnosis of scholastic and personality problems.

177 or 477—**Individual Psychological Testing: Wechsler-Bellevue.** Four hours.
Prerequisites: Good background in psychology and permission of the instructor.
Experience under close supervision in the administration, scoring, and interpretation of the Wechsler Adult Intelligence Scale; use of test results in diagnosis of scholastic and personality problems.

178 or 478—**Psychological Measurement.** Four hours.
Prerequisites: Psychology 65 (Mathematics 120 recommended).
Theory, problems and techniques of psychological measurement. Group tests of ability, aptitude, interests and personality are emphasized.

180 or 480—**Psychology of Personality.** Four hours.
Prerequisites: Psychology 65 and permission of the instructor.
A study of the factors involved in the development of the mature personality, with an analysis of the structure and dynamics of personality; critical review of methods of personality evaluation.

187 or 487—**Experimental Psychology.** Four hours.
Prerequisites: Psychology 65 and permission of the instructor (Mathematics 120 recommended).
Two hours of lecture and two two-hour laboratory periods.
Methods and techniques of psychological experimentation. Experiments include study of sensory and perceptual processes, motivation and emotion, learning and memory, and thinking.

188 or 488—**Experimental Educational Psychology.** Four hours.
Prerequisites: Psychology 65, and 119 or 116.
A study of the methods and techniques of experimental study of school problems; experience in setting up and conducting studies.

190 or 490—**Physiological Psychology.** Four hours.
Prerequisites: Psychology 65, Biology 37 and 38, or equivalent.
Relationships between physiological functions, especially those of the nervous system, and psychological functions, including perception, emotion, motivation and learning. Primarily for psychology majors and premedical students.

191 or 491—**Abnormal Psychology.** Four hours.
Prerequisites: Good background in psychology and permission of the instructor.
Study of the major psychoses, the psychoneuroses, and mental deficiency; field trips and and demonstration clinics. Primarily for psychology majors, premedical students, and students planning to enter law, social work, teaching, or the ministry.

193a or 493a—**Psychological Field Service.** Four hours.
Prerequisites: Twenty-eight hours in psychology, which must include Psychology 196, and approval of the department head.
Intensive review of relevant fields of applied psychology followed by field work under supervision in agencies, schools, clinics, or industries using psychological services.

193b or 493b—**Psychological Field Testing.** Four hours.
Prerequisites: Thirty-two hours in psychology, which must include Psychology 193a and 196, and approval of the department chairman.
Continuation of Psychology 193a. Experience under supervision in the Psychological Clinic and the Mississippi State School, Ellisville.

194 or 494—**History and Systems of Psychology.** Four hours.
Prerequisite: Permission of the instructor.
Review of the history of psychology, and intensive study of current systems of psychology. Primarily for psychology majors as final senior course.

196 or 496—**Clinical Psychology.** Four hours.
Prerequisite:s Twelve hours in psychology, including Psychology 65, and permission of the instructor.
Psychological case-study method, emphasizing historical information, use of clinical tests in personality diagnosis, a general survey of prevention and treatment techniques, including introduction to the several methods of psychotherapy.

## DEPARTMENT OF EDUCATIONAL ADMINISTRATION

Ralph S. Owings, Chairman

Bigelow, Dowell, Easterling, Landskov, McQuagge, Miller, Morgan

The Department of Educational Administration has the responsibility of training school administrators for various supervisory and administrative positions. Principals, supervisors, and superintendents are now required to have completed certain specified courses in this area of service, and such courses are offered in this department and in allied departments of the college. A major in this department leads to the Master of Arts degree in school administration and supervision.

The masters degree is also offered with majors in these areas: secondary education, elementary education, elementary supervision, administrative personnel and counseling, psychology of reading, health and physical education, home economics education, general speech, speech correction and

hearing, teaching of biological sciences, teaching of commerce, teaching of business education, teaching of English, teaching of mathematics, and teaching of history or the social sciences.

The degree of Master of Education, representing two years of graduate work, is offered with majors in school administration and supervision, secondary education, and elementary education.

Full treatment of curricula, course offerings, and requirements is given in the Graduate School Bulletin.

## EDUCATIONAL ADMINISTRATION

**501—Research: Its Introduction and Methodology.** Four hours.
Methods of scientific inquiry, selection of a research topic, and functional statistics.

**504—Foundations in American Education.** Four hours.
See course descriptions under "Elementary Education."

**507—Basic Course in Curriculum Development.** Four hours.
A fundamental course in curriculum and teaching concerned with principles, problems, and issues of curriculum development, the nature and scope of educational experience and opportunities essential to a well-developed curriculum program.

**510—Advanced Educational Psychology.** Four hours.
See course descriptions under "Secondary Education."

**513—Organization and Administration of the Junior High School.** Four hours.
The philosophy, functions and curriculum and their implementation in the organization and administration of the junior high school program.

**516—Secondary School Administration.** Four hours.
The practical problems encountered by high school principals: scheduling, calendar, attendance, discipline, office management, records and reports, activities, selection and supervision of staff; the principal's professional growth and his relationship to the school, teachers, and patrons.

**518—The Elementary School Principal.** Four hours.
See course descriptions under "Elementary Education."

**520—Local School Administration.** Four hours.
Credit will not be allowed for both Education 502 and Education 520.
A basic course designed for the local school superintendent (city, county, town, or consolidated district), dealing with the various internal and external problems of the school superintendent, particularly with the legal, financial and school plant problems of the local school system.

**526—Supervision of Instruction.** Four hours.
A practical course in supervision from the standpoint of the elementary or secondary principal, supervisor, or superintendent. Deals with principles, nature, and procedures in supervision. Emphasizes growth of teachers in service.

**555a, b—Field Problems in Production.** Four or eight hours.
Opportunity to study local school problems of curriculum revision, course of study construction, evaluation of methods, building projects, community surveys, testing programs, and record systems under careful supervision of authorities in the field of educational research.

**568—Public School Finance and Business Management.** Four hours.
Principles of taxation; local, state, and federal financing of public education; equalization of educational opportunity; budget making; school busi-

ness administration; management of school property and supplies. For superintendents and business managers.

575—**Advanced Adolescent Psychology.** Four hours.
An advanced study of the adolescent and his needs in the home, school, and community, including a survey of the research studies and literature on the period of adolescence, and individual and group reports.

## SECOND YEAR GRADUATE WORK

700a, b, c—**Field Problems in Administration and Supervision.** Two hours each.
A seminar in supervision for the in-service superintendent dealing with principles, nature, and procedures . Criteria developed to evaluate teaching efficiency. Conferences and observations utilized to gain insight into effective learning situations.

702—**Research Problem.** Eight hours.
Selection of practical educational problems for solution by candidates for Master of Education degree, using research and professional knowledge. Scholarly report required.

704—**School-Community Relations.** Four hours.
A study of the public relations problems faced by the in-service superintendent; reporting to parents and acquainting community with the purposes, methods, accomplishments and needs of the school.

706—**Administration of School Building and Grounds.** Four hours.
Designed for the local superintendent, treating the problems of housing, such as surveys, architect, finance, site, plans and specifications, equipment, awarding contract, construction procedures, accepting, building, and care of grounds.

708—**Administration of School Personnel.** Four hours.
A course stressing the administrative relationships involved in developing satisfactory personnel policies, techniques, and regulations dealing with the pupil, the staff, and the public. The general principles of personnel management as it affects the pupil and staff, instructional and noninstructional, will be covered.

710—**School Law.** Two hours.
Legal aspects of such factors as school income, injury to pupils, keeping the school census, enforcing attendance, teaching certain subjects, and related matter.

712—**Public Speaking.** Two hours.
The development of proper speech habits, voice modulation, posture, and delivery. Emphasis placed upon organization of talks dealing with public relations topics affecting the school program.

714—**State and Local Government.** Four hours.
An introduction to the organization and problems of state government with specific application to the conditions existing in Mississippi, and the powers and duties of the various state and local officials as they relate to the operation of the public schools.

716—**History of Public Education in the United States.** Four hours.
A survey of the development of elementary and secondary education in the United States with emphasis on the nineteenth and twentieth centuries.

718—**Comparative Philosophies of Education.** Four hours.
A study of issues in educational philosophy, and criticism and evaluation of the major works of contemporary educational philosophers.

720—**Administrative Workshop.** One and one-half hours per week.
(Course may be repeated, with only nine hours counting toward a degree.)

## DEPARTMENT OF SECONDARY SCHOOL EDUCATION

N. L. Landskov, Chairman

Boroughs, Hagenson, Johnson, Kenna, McQuagge, Morgan

A student desiring to qualify for a high school teacher's certificate will major in the subject matter field of his choice. Also he will be expected to have completed the college core requirements (page 64) and, if certified in the State of Mississippi, a course in fine arts. In addition, the student will complete the professional courses in education and psychology listed below. This is the pattern to follow for a B.S. Professional degree, a pattern which satisfies certification requirements in most states. It is the recommended pattern.

### Requirements for High-School Teachers

| | | Hours |
|---|---|---|
| A. | Curriculum—College Core | 78 |
| B. | Education—psychology courses as listed here | 36 |
| | Education 20* | 4 |
| | Psychology 119 and 132 | 8 |
| | Education 113 and 169 | 8 |
| | Special methods in major field | 4 |
| | Education electives (162, 164, 128, or 136) at least | 2 |
| | Education 185-186 | 10 |
| | Major and electives | 78 |
| | Total | 192 |

*Transfer students who have not had Education 20 should substitute Education 128

### Requirements for

### B.S. DEGREE IN EDUCATIONAL THERAPY

#### Freshman Year, 53 Qt. Hrs.

| | |
|---|---|
| Education 20—The Teacher and the Community | 4 |
| *English 25, 26, 27—English Composition | 12 |
| *Speech 31—Speech | 4 |
| *History 27, 28—World Civilization | 8 |
| *Biological Science 37, 38—Biology | 8 |
| *Physical Education (activity courses) | 3 |
| *Mathematics 21 or 31—Basic Mathematics or College Algebra | 4 |
| Typing 35 or 36, or 109—Elementary, Intermediate, or Advanced Typing | 4 |
| Major or electives | 6 |
| | 53 |

#### Sophomore Year, 2 Hrs.

| | |
|---|---|
| *English—An Introduction to Literature, English Literature, American Literature | 8 |
| *Psychology 65—General Psychology | 4 |
| *Social Studies—(From two of the following fields: sociology, economics, government) | 8 |
| *Physical Activity Courses | 3 |
| *Physical Science—(chemistry, physics, geology, astronomy) | 8 |
| *Health 79—Personal Health | 4 |
| Music 97—Enjoyment of Music; Art 112, History of Art; or 113, History of Art | 4 |
| Accounting 71 | 4 |
| Major or Electives | 9 |
| | 52 |

**Junior Year, 51 Hrs.**

| | |
|---|---|
| Psychology 119—Educational Psychology | 4 |
| *Eelectives in Health or Physical Education | 4 |
| Psychology 132—Psychology of Adolescents | 4 |

| Psychology 191—Abnormal Psychology | 4 |
| Major and/or electives | 21 |
| | 51 |

**Senior Year, 36 Hrs.**

| | |
|---|---|
| Directed Teaching 185-186 | 10 |
| Clinical Experiences | 26 |
| | 36 |
| TOTAL | 192 |

*Core Requirements.

## SECONDARY SCHOOL EDUCATION

**113—Principles of Teaching in High School.** Four hours.

Prerequisite: Psychology 119.

Aims of secondary education, motivation and direction of learning, school organization, including guidance, and an introduction into methodology.

**128—Foundations of Education.** Four hours.

The background, bases, underlying principles, purposes, organization, and trends in education in the United States.

Juniors and seniors preparing for secondary school teaching may take this course in lieu of Education 20.

**134—Improvement of Study.** Two hours.

Prerequisite: Permission of the instructor.

An analysis of effective study techniques for use by secondary school teachers. Useful for college students who wish to improve their own reading and study habits.

**136—Principles of Guidance.** Four hours.

An introductory course dealing with the fundamental philosophy, methods, and organization of guidance services in the public schools.

**146—Improvement of Learning.** No credit.

Admission on recommendation of the dean. Required of certain students designated by the Scholarship Committee or the dean.

For students not maintaining class standing because of poor reading or study habits. Small group instruction in developing effective study habits, increasing speed and comprehension in reading, the organization of material, and vocabulary development.

**151A—Methods in Business Education.** Four hours.

A study of business education trends and aims, teaching procedures, tests and measurements, special helps, and teaching materials.

**151B—Methods in Art.** Four hours.

Aims and objectives of art education in the elementary and secondary schools.

151G—**Methods in Industrial Arts.** Four hours.

Methods and materials in the teaching of industrial arts.

151H—**Methods in English—Secondary.** Four hours.

Required of English majors who follow the professional teaching program. Should be taken in the third quarter of the junior year or in the summer preceding the senior year.

A course in methods of teaching English in the junior and senior high schools.

151-I—**Methods in Foreign Languages.—Secondary.** Four hours.

Required of foreign language majors who follow the professional teaching program.

A course in methods of teaching French, Spanish, and German in high schools.

151J—**Methods in Sciences—Secondary.** Four hours.

Prerequisite: Major in science taught in high school.

A course intended to give teachers the techniques of handling science classes, including selection, organization, and presentation of subject matter.

151K—**Methods in Mathematics—Secondary.** Four hours.

Should be taken after the student has completed most of his mathematics courses.

A course designed to give the student a knowledge of the foundation on which mathematics is built, the aims and purposes of teaching the subject in high school, curriculum problems, organization and presentation of subject matter, methods of teaching, and methods of testing

151L—**Methods in Social Studies—Secondary. Four hours.**

Prerequisites: Education 113 and Psychology 119, or consent of instructor.

A study of principal methods of teaching, application of psychological principles to teaching, methods of selecting content, and materials available, as adapted to the social studies in the high school.

151M—**Methods in Speech.** Four hours.

Prerequisite: Consent of instructor.

A general orientation to the teaching of speech, followed by individualized unit work in the special fields of speech.

151N—**Methods in Speech Correction.** Four hours.

Prerequisites: Speech 131, 132, and 152.

A course designed to acquaint the correction major with clinical conditions as found in public schools, including practice with various types of speech cases, and instruction in working with parents, teachers, and the public in solving speech correction problems.

151P—**Methods and Principles. Four hours.**

For grades 1 thru 12. Primarily for students majoring or minoring in Health, Physical Education and Recreation. Materials and techniques of teaching Health, Physical Education and Recreation in public schools.

162 or 462—**Curriculum of the Secondary School.** Two hours.

Prerequisite: Education 113.

A critical examination of the present day curriculum with greater emphasis upon the core curriculum.

164 or 464—**Student Activities in Secondary Schools.** Two hours.

Consideration is given to the general nature and organization of the program popularly known as extra-curricular activities. Major emphasis

upon the various activities that constitute an activity program in a modern high school.

169 or 469—**Tests and Measurements.** Four hours.

Consideration of good evaluative practices in elementary and high schools, the preparation and use of informal objectives and essay-type tests, a study of typical standard tests, and an introduction to elementary statistical procedures.

178—**Principles of Supervision.** Four hours.

A course dealing with principles and practices in supervision. Cooperative procedures and in-service growth of teachers emphasized for those planning to be principals, supervisors, and superintendents.

185—**Student Teaching in the High School.** Five hours.

Prerequisites: (1) The completion of 120 hours of college work including Education 20 or 128, 113, Psychology 119, the methods course in the student's major field, and 24 hours in the student's major field, of which at least eight hours must have been in residence at this institution. (Students already holding degrees excused from the eight-hour residence requirement by the adviser in their major fields.) (2) Maintain a "C" average in major field and in the specific course to be taught as a student teacher.

Course to be arranged with the director of student teaching at least two quarters in advance; schedules to be arranged so as to have two consecutive hours each day for work in the George Hurst School.

186—**Student Teaching in the High School.** Five hours.

Continuation of 185, which is a prerequisite.

192—**Administration of Public Schools.** Four hours.

A course designed for superintendents, principals, supervisors, and experienced classroom teachers interested in administration of public schools. A detailed study of the general problems of the organization, supervision and management of public schools.

501—**Research: Its Introduction and Methodology.** Four hours.

See course description under "Educational Administration."

504—**Foundations in American Education.** Four hours.

See course description under "Elementary Education."

506—**Fundamentals of Guidance.** Four hours.

See course description under "Guidance."

508—**High School Curriculum.** Four hours.

Various designs of the curriculum as they apply to general and specialized education, and a critical evaluation of the content of subject matter areas in terms of the needs of youth.

510—**Advanced Educational Psychology.** Four hours.

Designed primarily for the graduate student wishing to broaden his knowledge in the field of psychology of learning. Careful study of research and experimentation dealing with individual and group learning.

513—**Organization and Administration of the Junior High School.** Four hours.

See course description under "Educational Administration."

514b—**Thesis.** Eight hours. (Credit deferred until thesis completed.)

516—**Secondary School Administration.** Four hours.

See course description under "Educational Administration."

535a, b, c—**Special Problems.** One to three hours.

For description of course, see section on "Elementary Education."

571—**Occupational Services in Guidance.** Two hours.
See course description under "Guidance."

587—**Individual Psychological Testing: Stanford-Binet.** Four hours.
Prerequisites: Good background in psychology, and instructor's permission.
Experience under close supervision in the administration, scoring, and interpretation of the Terman-Merrill Revision of the Stanford-Binet; use of tests results in diagnosis of scholastic and personality problems.

588—**Individual Psychological Testing: Wechsler Scales.** Four hours.
Prerequisites: Good background in psychology, and instructor's permission.
Experience under close supervision in the administration, scoring, and interpretation of the Wechsler Adult Intelligence Scale; use of test results in diagnosis of scholastic and personality problems.

590—**Methods and Techniques of Counseling.** Four hours.
For description of course, see section on "Guidance."

591a, b, c—**Supervised Practice Counseling.** Two hours each.
For description of course, see section on "Guidance."

592—**Use and Interpretations of Tests in Guidance.** Four hours.
For description of course, see section on "Guidance."

593—**Analysis of the Individual.** Four hours.
For description of course, see section on "Guidance."

594—**Advanced Guidance Research Seminar.** Four hours.
For description of course, see section on "Guidance."

596a, b, c—**Field Work in Guidance.** Two hours each.
For description of course, see section on "Guidance."

## AUDIO-VISUAL EDUCATION

S. L. Knight, Director

The audio-visual courses are designed primarily for teachers and ad-administrators with emphasis upon the use of sound and visual classroom teaching aids. Much attention is given to the sources, selection, and use of audio-visual materials and equipment. Practical problems of developing the teaching program and appraising its adequacy and effectiveness are considered from a study of functions, organization, and administration of the program.

The film library, one of forty-nine in the United States with over 1000 primary instructional films, is an important part of the audio-visual courses providing many stimulating opportunities for students enrolled in audio-

## AUDIO-VISUAL EDUCATION

116 or 416—**Audio-Visual Education.** Four hours.
A general course for teachers with emphasis upon sound and visual classroom teaching aids. Attention given to the sources, selection and the uses of audio-visual materials.

517—**Organization and Administration of an Audio-Visual Program.** Four hours.
A study of functions, organization, and administration of the audio-visual program, with emphasis on staff and housing requirements and determining materials and equipment needs. Practical problems of developing the program and appraising its adequacy and effectiveness.

519—**Utilization and Selection of Audio-Visual Materials.** Four hours.
General principles, problems, and practices involved in selecting and utilizing audio-visual materials for instructional purposes. Emphasis on the advantages, limitations, and practical uses of each major type of material.
**Education and Psychology**

## SPECIAL EDUCATION

Under the designation of special education is included education for those children who are mentally retarded or accelerated, and those with physical or emotional defects requiring special teaching. The term exceptional children is generally applied to such persons.

### Requirements for Teaching Exceptional Children

| | Hours |
|---|---|
| A. Curriculum—College Core | 78 |
| *Professional education courses as listed here | 24 |
| Education 108, 150, and 196 | 12 |
| Speech 131 and 132 | 8 |
| Elective (approval of coordinator required) | 4 |

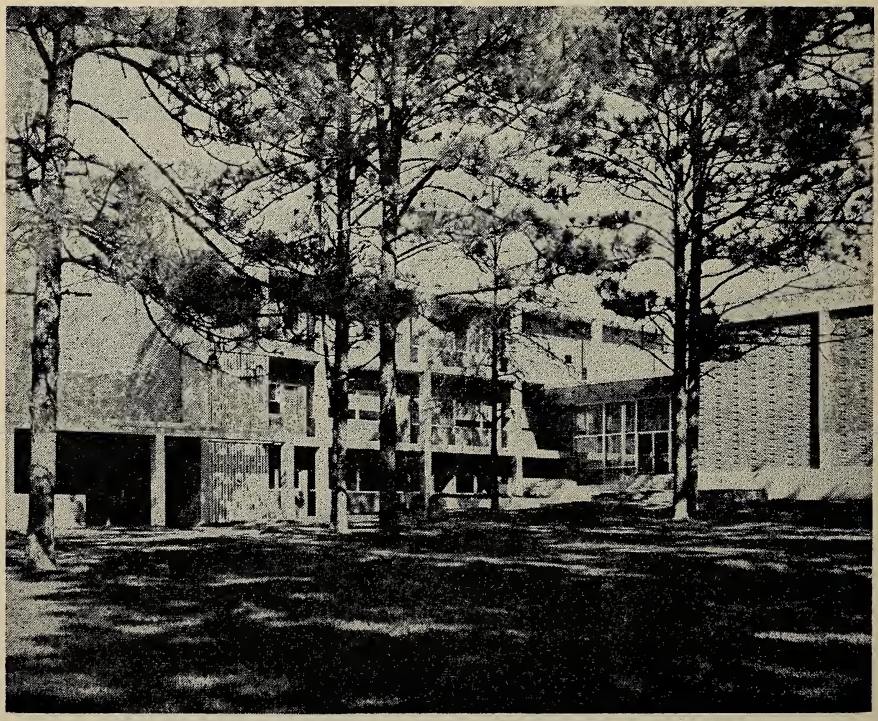
*The student planning to do work in speech therapy must have additional courses and clinical practice.

150 or 450—**Education of the Mentally Retarded.** Four hours.
A study of the social, emotional, physical, and intellectual characteristics of the nmentally retarded; methods of diagnosis and differentiation; special class organization, methods, and materials.

196-496—**The Psychology and Education of the Exceptional Child.** Four hours.
Considers the psychological and educational needs of children in the atypical groups: physically, visually, or auditorially handicapped; defective speech, mentally retarded, or socially and emotionally maladjusted.

197-497—**Problems in Special Education.** Four hours.
Orgonization and administration at both state and local level of the education of the exceptional child, with attention to the related problems of special education of the atypical, or handicapped child.

AN ORGAN LESSON



FRANK EARL MARSH, JR., FINE ARTS BUILDING

# DIVISION OF FINE ARTS

Frank Earl Marsh, Jr., Chairman

## ART

Walter Lok, Chairman

Ambrose D'Olive

Major programs available in Drawing and Painting and in Commercial Art.

Courses recommended for the fulfillment of specialized education in art for Class B special subject field teacher certification are:

Art 21, 23, 28, 32, 34, 50, 112, 113, 118, 121, 123, and Education 151B ..... 48 hours

Students should also elect a speech arts course in stagecraft.

Exhibitions on tour and student exhibitions are arranged and presented by the faculty, student committees, and members of the local chapter of Kappa Pi, national honorary art fraternity.

The department reserves the right to retain student work for exhibition purposes.

21—**Beginning Drawing.** Four hours.
Basic problems in black and white sketching and modeling. Techniques for dry media such as pencil, conte crayon, charcoal.

23—**Beginning Design.** Four hours.
Study of the terms of visual design, problems in balance and counterbalance, line, texture, and problems involving all the design elements and bridging the gap between abstract and natural symbols. Lettering and color theory.

25—**Introductory Art.** Four hours.
For students in the teaching programs.
Fundamentals of lettering; perspective; light and shade; figure and animal drawing; color theory; still life; landscape; design.

26—**Elementary School Art.** Four hours.
Prerequisite: Art 25.
Problems in this course follow work suggested by the "Mississippi Course of Study in Art for Elementary Schools."

28—**Intermediate Drawing.** Four hours.
Prerequisite: Art 21 or permission of instructor.
Fluid media techniques; pen and ink; felt nibs; wash. More emphasis on composition.

29—**Advanced Drawing.** Four hours.
Prerequisite: Art 28 or permssion of instructor.
Creative drawing in all media. Introduction of color. Emphasis on interpretation and composition.

32—**Intermediate Design.** Four hours.
Prerequisite: Art 23 or equivalent, or permission of the instructor.
Problems in two and three dimensional design involving various kinds of color harmony, in a variety of media.

33—**Advanced Design.** Four hours.
Prerequisite: Art 32 or permission of the instructor.
A course in design applied to a number of practical situations related to the commercial, industrial, and fine arts.

34a, b, c—**Figure Drawing.** Four hours each.

Prerequisites: Permission of the instructor.

Study of the construction and the use of the human figure in design. Drawing from the model in various media.

50—**Sculpture I.** Four hours.

Problems in ceramic sculpture. Study of glazes; mixing and application. Firing.

52—**Grapic Arts I.** Four hours.

Prerequisites: Art 29 and 33 or equivalent, or permission of the instructor.

A study of design for, and techniques of, the various graphic arts (etching, drypoint, lithograph). Studio problems in some of the above techniques.

108—**Problems in Lettering for the Nonprofessional.** Four hours.

Open to all students.

Practice and experiment with basic alphabets in pen and brush and their organization. Specially designed for those interested in retail selling and others needing some knowledge of poster and show card work.

112—**History of Art I.** Four hours.

Open to all students.

Pre-Historic to Gothic art. A course in appreciation.

113—**History of Art II.** Four hours.

Open to all students.

Gothic through Modern art. A course in appreciation.

115—**Sculpture II.** Four hours.

Prerequisite: Art 50.

Creation of larger solid clay forms for casting. The use of armatures and various types of molds.

118—**Water Color I.** Four hours.

Prerequisites: Art 29 and 33 or permission of the instructor.

121—**Oil Painting I.** Four hours.

Prerequisites: Art 29 and 33 or equivalent, or permission of the instructor.

Studies in the technique of oil painting. Some problems in still life and landscape.

122—**Commercial Art I.** Four hours.

Prerequisites: Art 29 and 33 or permission of the instructor.

Recommended for those interested in any form of commercial art.

The rendering of objects and materials for commercial presentation.

123—**Commercial Art II.** Four hours.

Prerequisites: Art 29 and 33 or permission of the instructor.

Hand and precision lettering and advertising and show card layout.

126—**Commercial Art III.** Four hours.

Prerequisites: Art 122, 123 or permision of the instructor.

A study of commercial illustrative techniques and their application to a variety of layout problems.

130—**Sculpture III.** Four hours.

Prerequisite: Art 115.

Problems in wood, stone and metal sculpture.

**132—Special Projects for Elementary Teachers I.** Two hours.
Projects in art and methods of presentation to children in the grades.

**133—Special Projects for Elementary Teachers II.** Two hours.
Additional projects as in Art 132. (Need not necessarily follow Art 132).

**134—Advertising Design I.** Four hours.
Prerequisite: Art 126 or permission of the instructor.
Practical problems in advertising design with particular attention to modern reproduction methods and the preparation of suitable copy.

**135—Graphic Arts II.** Four hours.
Prerequisite: Art 52.
Further problems in design and production using various graphic media.

**137—Graphic Arts III.** Four hours.
Prerequisite: Art 135.
A continuation of Graphic Arts II.

**150—Water Color II.** Four hours.
Prerequisite: Art 118.
Continuation of Art 118 with problems in opaque media.

**151—Advertising Design II.** Four hours.
Prerequisite: Art 134.
A continuation of Art 134 including a study of color separation techniques and typographic experiments.

**152—Oil Painting II.** Four hours.
Prerequisite: Art 121.
Further study of composition in oil with emphasis on color harmony. Some problems involving selection of subject matter.

**154—Illustration.** Four hours.
Prerequisites: Art 34 and 29, or permission of instructor.
Practical problems in the illustration of poems and short stories. Black and white and color studies involving the relation of medium and technique to subject.

**155—Advertising Design III.** Four hours.
Prerequisite: Art 151.
A continuation of Art 151 with particular emphasis on professional procedure.

**156—Mural.** Four hours.
Prerequisites: Art 118, 121, or permission of instructor.
The design of several large-scale mural projects culminating in the execution of one in a choice of medium. Special study of the relation of wall decoration to the surrounding architecture.

**158—Advertising Project.** Four hours.
Pfrerequisite: Art 155 or permission of instructor.
Full quarter series or unit project in advertising design and presentation involving considerable research. Seminar.

**161—Water Color III.** Four hours.
Prerequisite: Art 150.
Advanced study in opaque and transparent watercolor. Experiments with mixed media.

**163—Studio Problems in Oil Painting.** Four hours.
Further study in oils based on experiments in Art 121 and 152, with special emphasis on techniques and specialized subject matter fields.

## MUSIC

Baylis, Benner, Crohn, Eide, Frascarelli, Harmon, Hays, Hinds Huck, Francis Imbragulio, Betty Jackson, Lyall, McDonald, Mannoni, Mildred Phelps, Roger Phelps, Presser, Saetre, Leonard Stocker

Mississippi Southern College is a member of the National Association of Schools of Music and is accredited by that organization. The requirements for entrance and for graduation are in accordance with the published regulations of the National Association of Schools of Music.

The Department of Music was organized for a four-fold purpose: (1) to combine musical and literary studies as a broad basis for regular college work; (2) to use the art of music as a means of intellectual, aesthetic, and moral culture; (3) to furnish instruction to special and general students; and (4) to train vocal and instrumental supervisors of music and music therapists.

### Admission

**First, as a regular student.** For any curriculum leading to a degree, the student must satisfy the entrance requirements of the college.

Students entering the applied music program must give evidence that the preparatory course in applied music has been completed.

Freshmen must take entrance examinations in elementary theory. Those passing may enroll in the regular required courses. Students who have had preparatory work but cannot pass the examination may enroll for the regular required courses, but must do two hours of supervised work each week without credit in elementary theory until the entrance requirements are satisfactorily fulfilled.

**Second, as a special student.** A student may, as a special student, elect any curriculum his previous training has qualified him to pursue with profit.

The curricula include systematic and progressive instruction in theory, history and practice of the arts to which they severally relate, and in those branches of language, philosophy, history, and criticism which bear most directly upon these arts, and without knowledge of which success in the higher domain of arts is impossible.

Students desiring to major in music should register for the Bachelor of Music degree with piano, church music and organ, voice, violin, viola, violoncello, string bass, flute, oboe, clarinet, bassoon, French horn, trumpet, trombone, tuba, or musical composition, as a major; or for the Bachelor of Music Education degree with vocal or instrumental music education as a major. However, any student of the college not registered for a music degree may pursue such courses in the Department of Music as he wishes if he pays the required fees.

Music majors who have taken music courses under private instruction or in such way as not to receive credit may be excused from required courses in the music curriculum on the basis of tests of proficiency.

### I. The Curriculum in Piano

The best principles of modern piano technique form the basis of teaching in this department. The student is thoroughly grounded in the classics, including Bach's Inventions and Well-Tempered Clavichord, with Hanon, Czerny, Clementi, Chopin and Liszt Etudes, sonatas by Mozart and Beethoven, and selections from the compositions of the best composers of the classic, romantic, and modern schools of composition.

In the junior and senior years of the course, concertos by Mendelssohn, Beethoven, Chopin, Grieg, Schumann, Liszt, and modern composers are studied and performed. Students to rank as freshmen must show that they have had the equivalent of four years of serious study of the piano.

Candidates for the degree of Bachelor of Music with Piano as a major must present recitals selected from composers of the classic, romantic, and modern schools in their junior and senior years. Candidates with piano pedagogy as a major must be prepared to present part of a recital in their senior year and place more emphasis on the teaching of piano.

### II. The Curriculum in Voice

The aim of the Voice Department is to prepare the student technically to meet the vocal demands of the best in song, operatic, and oratorio literature. Good intonation, flexibility, and a scale that is resonant and of pleasing quality throughout its entire range are sought through the medium of progressive exercises and vocalises. Song literature of the classic and modern schools is given to build musicianship and a sense of style. Upon graduation, the student must have a repertoire of recitatives and arias from standard operas and oratorios, as well as a repertoire of songs from the English, German, French, and Italian schools. Students to be classified as freshmen in the vocal degree course must show by examination that they have the technical and musical development equivalent to one year of vocal study, as well as preparatory piano.

Candidates for the degree of Bachelor of Music with voice as a major must be prepared to present a recital of standard songs and arias selected from the classic and modern schools in their senior year. A candidate with vocal pedagogy as a major must be prepared to present part of a recital in his senior year and place more emphasis upon the teaching of voice.

### III. The Curriculum in Violin and Viola

It is the aim of the Violin Department to offer instruction that will thoroughly train the student to meet the demands of the orchestra and concert violinist as well as to prepare for the field of teaching. Throughout the course careful attention is given to the development of technique, musical style, interpretation, and musicianship. Special emphasis is placed on ensemble in advanced classes.

The material studied is selected according to the individual needs of the student from the following studies: Sevick, Leonard, Kayser, Mazas, Schradieck, Kruetzer, Rhode, and others. For the development of style and interpretation, sonatas by Tartini, Nardini, Handel, Haydn, and Bach are used, and concertos by Viotti, Rode, DeBeriot, Mendelssohn and Wieniawski. For graduation, selections are made from concertos by Beethoven, Bruch, Mendelssohn, Vieuxtemps, and others of equal difficulty, and miscellaneous compositions from Paganini, Sarasate, Wieniawski, Hubay, and representative modern composers.

Candidates for the degree of Bachelor of Music must be prepared to present a recital from composers of the classic, romantic, and modern schools in their junior and senior years.

### IV. The Curriculum in Violoncello and String Bass

The aims of this department are the same as those of the Violin Department.

The material studied is selected according to the individual needs of the student from the following studies: Dotzauer, Grutzmacher, Duport, Popper, and Piatti. For development of style and interpretation sonatas by Coverette, Locatelli, and Boccherini, and suites for violoncello alone by J.

S. Bach, concertos by Romberg, Davidoff, Servais, Popper, Golterman, Saint-Saens, Lalo, Haydn, Dvorak, D'Albert, and Schumann. Concert pieces by Tchaikowsky, Davidoff, Popper, and Boellman.

Candidates for the degree of Bachelor of Music must be prepared to present a recital of selected composers of the classic, romantic, and modern schools in their junior and senior years.

### V. The Curriculum in Composition

This course offers special study in the practical writing of original work for instruments or voice, including the larger forms such as the sonata-allegro form, variations, art songs, anthems, and other forms of freer content.

The latest developments distinctive of modern harmony, the various melodic, and rhythmic idioms of the present day are made available to the student through discussion and practical use.

The course in advanced composition is given by private instruction only, and is designed for the talented student who is especially qualified to enter the field of musical composition.

### VI. The Curriculum in Music Education

The teaching of music in the public schools is now considered the work of a specialist of broad training. The importance of laying a thorough musical foundation in the grades is generally recognized and calls for great ability in the teacher of music. In the high school, music is now accorded a place of importance, and the demand for teachers who can organize and direct choral, instrumental, theoretical, and appreciation courses is increasing from year to year.

The courses in public school music supervision are designed to give not only thorough and practical training in music pedagogy but also adequate preparation in practical and theoretical music, psychology, education, and cultural subjects.

The degree of Bachelor of Music Education is offered upon completion of the four-year curriculum. There is an increasing demand for supervisors of music and junior and senior high school music teachers holding a bachelor's degree. This course offering a degree combining music and education is planned to meet the demand in music education.

### VII. The Curriculum in Church Music and Organ

The organ course is designed to provide a thorough and sufficient education for both the concert and the church fields, the latter being particularly stressed. It includes a fundamental study of the manual touch, pedal technique, the independence of the hands and feet, and elementary and advanced registration. The earlier literature is designed for the special needs of the individual student, and includes technical studies, the short preludes and fugues of Bach, the choral preludes, etc.

### VIII. The Curriculum in Applied Woodwinds (Flute, Oboe, Clarinet, and Bassoon)

It is the aim of this curriculum to provide instruction which will prepare the student for a career as a professional musician in a symphony orchestra or some other ensemble of comparable stature. Throughout the course careful attention is given to the development of technique, musical style, interpretation ,and musicianship. Special emphasis is placed on advanced ensemble playing.

Candidates for the degree of Bachelor of Music must be prepared to

present a recital indicating a familiarity with composers of the classic, romantic, and modern schools of composition.

### IX. The Curriculum in Applied Brass (Trumpet, French horn, Trombone, and Tuba)

It is the aim of this curriculum to provide instruction which will prepare the student for a career as a professional musician in a symphony orchestra or some other ensemble of comparable stature. Throughout the course careful attention is given to the development of technique, musical style, interpretation, and musicianship. Special emphasis is placed on advanced ensemble playing.

Candidates for the degree of Bachelor of Music must be prepared to present a recital indicating a familiarity with composers of the classic, romantic, and modern schools of composition.

### X. The Curriculum in Music Therapy

Music therapy has received widespread acceptance in recent years. Its value in the rehabilitation of individuals with certain types of illnesses has been recognized by medical authorities for years. There is an ever-increasing number of calls for music therapists.

The curriculum has been designed to prepare specialists who can work with mentally retarded children, handicapped children, and adults who are patients in various kinds of hospitals.

The Bachelor of Music Degree in Music Therapy is offered upon the completion of a four-year curriculum. Undergraduate requirements contain a six-month period of internship in an approved neuropsychiatric hospital.

| | 14 | 18 | 14 |

**Internship Requirement:** This course is followed by a six months' internship in an approved neuropsychiatric hospital. Students planning to work with mentally retarded children, handicapped children, or in other clinical areas are advised to spend an additional period of internship in an

appropriate institution. The internship is in addition to the on-campus work. Some background in the biological sciences, psychology, and social studies is essential.

### Practice

Regular hours of practice are assigned each student by the chairman of the division. The number of hours of daily practice depends on the classification of the student. Bachelor of Music students are required to practice four hours daily throughout their four years. If students of other classifications, one or two hours of daily practice are required.

### Recitals

In order that students may become accustomed to appearing in public, frequent afternoon recitals are given. Public recitals are given by advanced students as often as is consistent with their regular work.

All applicants for the Bachelor of Music and Bachelor of Music Education are required to appear on afternoon programs, once in the freshman year, twice in the sophomore year and three times in both junior and senior years.

Opportunities are given students to hear the best music in concerts given by the members of the music faculty and visiting artists. Attendance at all recitals is obligatory.

### Special Requirements

All dormitory students are required to practice in the Fine Arts Building under supervision.

All students, regular or special, are required to sing or play in any chorus, quartet, orchestra, or band, in which their presence may be desired.

No student in the department of Music may appear as a representative of the college in a public musical performance, except by permission of the chairman of the Division of Fine Arts.

## THEORETICAL AND HISTORICAL

34xl-35xl-36xl—**Music Theory.** Five hours each.

Prerequisite: A knowledge of music notation.

Scales, intervals, and part-writing; using triads, the dominant seventh chord, non-harmonic tones and modulation. Correlated keyboard harmony and dictation. Sight-singing in bass and treble clefs.

64xl-65xl-66xl—**Advanced Music Theory.** Five hours each.

Prerequisite: Music Theory 34xl, 35xl, 36xl.

Part-writing, including secondary seventh chords, altered chords, and foreign modulation. Correlated keyboard harmony and dictation. Sight-singing in all clefs.

114-115-116—**Harmonic and Form Analysis.** Two hours each.

Prerequisite: Advanced Music Theory 64xl, 65xl, 66xl.

Music of various periods is analyzed formally, harmonically, and contrapuntallly.

117-118-119—**Counterpoint.** Two hours each.

Prerequisite: Advanced Music Theory 64xl, 65xl, 66xl.

Two, three, and four-voice contrapuntal writing in the style of Palestrina and/or Bach.

164-165-166—**Composition.** Two hours each.

Prerequisites: 114-115-116 and 117-118-119.

Composition in the smaller forms. Contemporary techniques.

167-168-169—**Orchestration.** Two hours each.

Prerequisite: 114-115-116.

A study of the instruments of the band and orchestra and scoring for small combinations and band, orchestra, and chorus.

197-198-199—**Advanced Counterpoint.** Two hours each.

Prerequisite: 117-118-119.

Eighteenth century canons and fugal writing. Sixteenth century writing in madrigal style.

200-201-202—**Advanced Composition.** Two hours each.

Prerequisite: 164-165-166.

Writing in larger forms for various choral and instrumental combinations.

203-204-205—**Advanced Orchestration.** Two hours each.

Prerequisite: 167-168-169.

43-44-45—**Survey of Music Literature.** Two hours each.

A cultural course in the appreciation of music, planned to develop appreciative listening and individual understanding of a composer's musical message.

73-74-75—**History of Music.** Two hours each.

Prerequisite: 43-44-45.

Music of primitive nations; rise and developments of liturgy; the Polyphonic Age; the rise of opera and oratorio; the periods of Bach and Handel, Haydn, and Mozart; advent of Beethoven; American musical development.

206-207-208—**Music in World Civilization.** Two hours each.

Prerequisite: 73-74-75.

A background of cultural history designed for the music student; the place of music in the educational, religious, social, and esthetic life of all peoples and all ages.

## MUSIC LITERATURE

221-222-223—**Piano Literature.** One hour each
Required of all senior piano majors.

224-225-226—**Vocal Literature.** One hour each.
Required of all senior voice majors.

227-228-229—**Instrumental Literature.** One hour each.
Required of all senior string or wind instrument majors.

## ENSEMBLE

28xl-29xl-30-xl—**Class Voice.** One hour each.
A course meeting two hours per week. Emphasis is placed upon correct tone production and diction. Each student is given opportunity for individual aid. Elementary level.

123xl-124xl-125xl—**Ensemble.** Two hours each.
Prerequisite: Junior standing in the applied music area concerned.
Instrumental ensemble in piano organ, strings, and winds. The study and performance of two-piano literature, and/or ensemble work for strings, piano, organ, voice, woodwinds, and brasses.

173xl-174xl-175xl—**Advanced Ensemble.** Two hours each.
Prerequisite: 123xl, 124xl, 125xl, and Senior standing in the applied music area concerned.

The study of chamber music literature with participation in public programs of chamber music.

## MUSIC EDUCATION (Public School Music)

70—**Elementary Music Methods.** Two hours.
Procedures for teaching children in the first second, and third grades, with attention to remedial work for non-singers; presentation of rote songs; the child voice; development of rhythmic and melodic expression; reading readiness; listening.

71—**Intermediate Music Methods.** Two hours.
Problems peculiar to fourth, fifth, and sixth grades; music reading, listening, rhythmic and creative activities, part-singing, and the instrumental music program; appropriate materials for these grades.

72—**Junior High School Music Methods.** Two hours.
Materials and methods appropriate for the seventh, eighth, and ninth grades; continuation of part-singing; the adolescent voice; choral and instrumental activities; general music classes; materials suitable for junior high school students.

95—**Fundamentals of Music.** Four hours.
May not be applied toward a Bachelor of Music or Bachelor of Music Education degree.
A course designed to give students without previous musical experience a basic knowledge of the fundamentals of music; principles of notation, construction of major and minor scales, intervals, solmization, tendency tones, and triads.

96—**Music for Elementary School Children.** Four hours.
May not be applied toward a Bachelor of Music or Bachelor of Music Education degree.
Materials and methods of presenting music to children in the first six grades.

97—**The Enjoyment of Music.** Four hours.
Prerequisite: None.
May not be applied toward a Bachelor of Music or Bachelor of Music Education degree.
Elements and principles of music necessary for intelligent listening and appreciation; the chief developments in music history, the works of master composers, folk music, and trends in contemporary music; required reading and extensive listening.

120—**Senior High School Music Methods..** Two hours.
Prerequisite: Music 70-71-72.
Organization and administration of music in the high school; music in the assembly, visual aids, elective music classes, concerts and festivals, tests and measurements; development of public school music in the United States; current philosophies of music education.

121a—**Senior High School Choral Methods and Literature.** Two hours.
Prerequisite: Music 120.
Problems peculiar to the choral director; organization and administration of choral activities, voice class, small ensembles, boys' glee club, girls' glee club, mixed chorus, public performances, and rehearsal techniques; materials for high school use.

121b—**Senior High School Instrumental Methods and Literature.** Two hours.
Prerequisite: Music 120.
The instrumental director and problems; rehearsal techniques, instrumental emsembles; problems of the string, woodwind, brass, and percussion groups; program building; minor instrument repairs; critical evaluation of materials.

122a—**Curriculum Problems in Music Education.** Two hours.
Prerequisite: Music 121a.
Discussion of problems of interest to students in music education; research by students in their particular phases of interest.

122b—**Organization and Administration of School Orchestra and Bands.** Two hours.
Prerequisite: Music 121b.
Techniques of promoting and maintaining successful orchestra, bands, and instrumental ensembles; research by students; emphasis on problems of marching bands and pageantry.

126-127-128—**Conducting.** One hour each.
Prerequisite: Advanced Music Theory 64xl, 65xl, 66xl.
Techniques of choral and instrumental conducting.

170-170a—**Instrumental Class (Strings).** Two hours each.
Practical string class instruction on the violin, viola, violoncello, and double bass; correct playing position for each instrument; materials for public school purposes.

171-171a—**Instrumental Class (Woodwinds).** Two hours each.
Woodwind class instruction of a practical nature on the clarinet, flute, oboe, and bassoon; embouchure and fingering problems of each instrument; materials for public school use.

172-172a—**Instrumental Class (Brass).** Two hours each.
Practical class instruction to general supervisory students on trumpet, mellophone, French horn, baritone, trombone, and tuba; critical examination of materials appropriate for use in public schools.

176-177-178—**Diction.** Two hours each.
Prerequisite: Junior voice.
The correct use and pronunciation of English, Italian, French and German as applied to the vocal art, with special stress on Italian.

179-180-181—**Vocal Pedagogy.** Three hours each.
Vocal characteristics of various types of voices; treatment for each type.

182-183-184—**Piano Pedagogy.** Three hours each.
Modern methods of teaching; lectures, observation of private and class lessons, and practice teaching under supervision; teaching piano to adults; practice teaching throughout the senior year under supervision.

185-186-187—**Violin Pedagogy.** Three hours each.
Different methods of presenting basic technical problems; review of various etudes, concertos, and other compositions; observation and participation in both individual and class teaching.

188-189-190—**Opera Workshop.** Two hours each.
Basic experience and actual participation in operas; acting; and production of works for the musical stage; actual operatic presentations. Required of all junior voice majors.

191—**String Instruments Class Methods.** Two hours.
Practical class instruction on the violin, viola, violoncello, and string bass; correct playing position for each instrument; problems of beginning string students; materials for public school classes.

192—**Woodwind Instrument Class Methods and Reed Making.** Two hours.
Practical class instruction on the clarinet, flute, oboe, and bassoon; embouchure and fingering problems; making and adjusting double reeds; materials appropriate for use in public schools.

193—**Brass Instrument Class Methods.** Two hours.
Class instruction of a practical nature on trumpet, mellophone, French horn, baritone, trombone, and tuba; problems of beginning brass students; examination of materials suitable for public school use.

194—**Advanced String Instrument Class Methods.** Two hours.

195—**Advanced Wind Instrument Class Methods.** Two hours.

196—**Percussion Instrument Class Methods.** Two hours.
Practical class instruction on snare drum, timpani, marimba, bells, and other percussion instruments; materials applicable for public school use.

209-210-211—**Advanced Choral Conducting and Materials.** Two hours each.
Prerequisites: Music 126-127-128 and two years of voice.
Conducting and interpretation of representative works of the great choral schools and composers since the sixteenth century; opportunities for the formation of judgment of choral music. Church chorus and sacred music studied in fall quarter.

230-231-232—**Advanced Instrumental Conducting and Study of Band and Orchestral Materials.** Two hours each.

238-239-240—**Opera Workshop.** Two hours each.
A continuation of Music 188-189-190. Required of all senior voice majors.

## CHURCH MUSIC

212-213-214—**History of Church Music.** Two hours each.
History of Christian church music, with emphasis on the use of literature; history of organ music, with emphasis on its use in the church service; practical aspects of the music of the church.

215-216-217—**Practical Church Music.** Two hours each.
Gregorian chant, its history and development; history of the Christian hymn; use of hymns in the modern service; methods of choir organization and training; the volunteer choir system; development of the church music library.

218-219-220—**Liturgies.** Two hours each.
Liturgy in worship; the Jewish, Eastern Orthodox, and Roman Catholic liturgies and their music; liturgies of the Reformation period; music of the Lutheran, Calvinist, and Anglican churches; music of the non-liturgical churches.

## MUSIC THERAPY

241—**Introduction to Music Therapy.** Four hours.
Prerequisites: 4 hours each of biological science, psychology and sociology. Consent of instructor.
An introductory course in the therapeutic use of music in institutions and special schools; includes a survey of current research and experimental studies. Field trips and observations are part of course requirements.

242—**Music Therapy II: Problems and Procedures.** Four hours.
Prerequisites: Introduction to Music Therapy. Influence of music on Behavior, and Psychological Foundations of Music.
Survey of current methods and techniques in the functional use of music in schools, institutions, and industry. Primary emphasis is on problems and procedures relating to the therapeutic use of music in special schools and neuropsychiatric hospitals.

243—**Recreational Music.** Four hours.
Prerequisites: Functional Piano and Introduction to Music Therapy.
Materials and techniques useful in developing recreational music activities including vocal and instrumental ensembles, rhythm bands, musical games, and community singing.

250—**Influence of Music on Behavior.** Four hours.
Prerequisites: Introduction to Music Therapy, Physiology 129, Sociology 63, and Psychology 65.
A study of the physiological and psychological effects of music on behavior; this includes a survey of research and experimental studies.

251—**Psychological Foundations of Music.** Four hours.
Prerequisites: Introduction to Music Therapy, Physiology 129, Sociology 63 and Psychology 65.
Survey and investigation of the acoustical and psychological aspects of music; development of experimental procedures and laboratory practice in methods of research relating to music therapy.

252-253-254—**Functional Piano.** One hour each quarter.
Prerequisites: Music 25b 26b, 27b, 55b, 56b, 57b.
A course designed to provide experience in sight-reading, transposition, and accompanying, using materials appropriate for recreational and functional music.

## PRACTICAL MUSIC

20a-20b-20c—**Choral Music.** No. credit.

50a-50b-50c—**Choral Music.** No credit.
Prerequisite: Music 20a-20b-20c.

100a-100b-100c—**Choral Music.** No credit.
Prerequisite: Music 50a-50b-50c.

150a-150b-150c—**Choral Music.** No credit.
Prerequisite: Music 100a-100b-100c.

21a-21b-21c—**Orchestral Music.** No credit.
51a-51b-51c—**Orchestral Music.** No credit.

Prerequisite: Music 21a-21b-21c.
101a-101b-101c—**Orchestral Music.** No credit.

Prerequisite: Music 51a-51b-51c.
151a-151b-151c—**Orchestral Music.** No credit.

Prerequisite: Music 101a-101b-101c.
22a-22b-22c—**Band Music.** No credit.

52a-52b-52c—**Band Music.** No credit.
Prerequisite: Music 22a-22b-22c.

102a-102b-102c—**Band Music.** No credit.
Prerequisite: 52a-52b-52c.

152a-152b-152c—**Band Music.** No credit.
Prerequisite: 102a-102b-102c.

## GRADUATE COURSES

### APPLIED COURSES

**502-503-504—Violin or 'Cello.** Five hours each.

**505-506-507—Piano.** Five hours each.

**508-509-510—Voice.** Five hours each.

**517-518-519—Organ.** Five hours each.

### THEORETICAL AND HISTORICAL

521-522-523—**Analytical Technic.** Two hours each.
A graduate course in the technic of Harmonic and Contrapuntal Analysis.

524-525-526—**Pedagogy of Theory.** Two hours each.
A course in the teaching of theory for the graduate student.

527-528-529—**Music Literature.** Four hours each.
Advanced work in various fields of musical literature with special emphasis on the style analysis and the performance of music of all periods.

536-537-538—**Advanced History of Music.** Four hours each.
Prerequisite: Music 73-74-75.
A graduate seminar course in the various fields of music; individual reports and papers from members of the class.

### MUSIC EDUCATION

530-531-532—**Psychology of Music.** Two hours each.
A course designed for teachers and prospective teachers of music, dealing with individual differences in musical capacities, and current psychological tests and measurements in music.

533-534-535—**Seminar in Music Education.** Two hours each.
Required of all students who are pursuing the master's degree in music education. Open by permission to other graduate students interested in teaching music in a university, college, conservatory, or public school.
Current philosophies of education and their application to music in the curriculum; individually chosen problems of special interest to students.

THE NURSERY SCHOOL GIVES OPPORTUNITY FOR STUDENT PARTICIPATION IN ONE OF THE MOST IMPORTANT AREAS OF HOME AND FAMILY LIFE.

# DIVISION OF HOME ECONOMICS

Bertha M. Fritzsche, Chairman

Barnett, Campbell, Chichester, Hamman, Hesson, Owings, Thompson, White

## PURPOSE

The curricula and courses in the Division of Home Economics are planned to place emphasis on improving family living by preparing students for homemaking and for vocations which will further the improvement of living within the family. Students may select major areas, minor areas, and/or electives from the offerings in this division.

## ORGANIZATION

The Division of Home Economics is organized into six departments: Child Development, Clothing and Textiles, Food and Nutrition, Home-Economics Education, Housing and Home Management, and Marriage and Family Life. Majors are offered in child development, clothing merchandizing, clothing and textiles, institution management, teaching homemaking, home-economics extension service, home economics in equipment, and homemaking. A two-year schedule which leads to a certificate is offered for school-lunch managers.

## CURRICULUM—BASIC COLLEGE CORE

The core curriculum for the Bachelor of Science degree as outlined below is to be followed by the student who pursues any major in the Division of Home Economics with one exception, this exception being the major in homemaking for which the Bachelor of Arts Degree is earned. See page 221 under the catalogue description for the Department of Marriage and Family Life.

| Course | Hours |
|---|---|
| English 25, 26, 27—English Composition | 12 |
| English 73, 74—Introduction to Literature | 8 |
| Speech 31—Oral Communication | 4 |
| Sociology 63—Introduction to Sociology | 4 |
| Economics 54—Introduction to Economics | 4 |
| History 27—World Civilization to 1648 A. D. | 4 |
| History 28—World Civiliation Since 1648 A.D. | 4 |
| Biology 37—Biology I | 4 |
| Whenever possible, home-economics majors should take the section designated as Biology 37H. | |
| Biology 139—Bacteriology | 4 |
| Physical Science | 8 |

For a major in teaching homemaking education, home-economics extension service, or institution management this requirement is met by Chemistry 25, 26, and 27, which gives four quarter hours more than is needed for the Basic Core.

For a major in home economics in equipment, this requirement is met by Household Physics 137, to be taken during the junior or senior year, and one additional course, Biology 38.

For a major in Clothing Merchandising four hours of this requirement is met by Mathematics 120—Elementary Statistics and four hours by Biology 38.

Students not following the professional teaching program may meet this requirement by Biology 38 giving a year in a laboratory science, and one course in mathematics.

| | |
|---|---|
| Mathematics 31—College Algebra I | 4 |
| or | |
| Mathematics 21—Basic Mathematics (required for a major in home economics in equipment) | |
| Psychology 65—Geneal Psychology | 4 |
| Health 79—Personal Health | 4 |
| Physical Education (activity courses) | 6 |
| Health 133—First Aid | 2 |
| Health 134—Home Nursing | 2 |

Students who major in Clothing and Textiles may substitute Health 151 for Health 133, 134.

In addition to the Basic College Core, the student selecting a major in the Division of Home Economics should take the following courses before the junior year:

| Course | Hours |
|---|---|
| *Home Economics 22—Introduction to Home Economics | 2 |
| Food and Nutrition 37—Food Study | 4 |
| Food and Nutrition 85—Meal Planning and Table Service | 4 |
| Clothing and Textiles 26 (or **50)—Selection of Clothing and Textiles | 4 |
| Child Development 39—The Individual and The Family | 4 |
| Art 23—Beginning Design | 4 |
| Total for Home Economics Core for freshman and sophomore years | 22 |

*Not required of transfers from junior colleges.

**Students who pass the placement test in Clothing and Textiles 26 may substitute Clothing and Textiles 50.

Students majoring in clothing merchandizing are expected to complete before their junior year the following additional courses:

| Course | Hours |
|---|---|
| Art 25—Introductory Art | 4 |
| Business Administration 40—Introduction to Business | 4 |
| Clothing and Textiles 50—Textiles and Clothing | 4 |
| Those not proficient in typing should take: | |
| Business Education 35 or 36—Typewriting | 4 |

## Schedule for Curricula

## Leading to a Bachelor of Science Degree

### Freshman Year

| Course | Hours |
|---|---|
| Home Economics Education 22—Introduction to Home Economics | 2 |
| Food and Nutrition 37—Food Study | 4 |
| English 25, 26, 27—English Composition | 12 |
| History 27—World Civilization to 1648 A. D. | 4 |
| History 28—World Civilization Since 1648 A. D. | 4 |
| Clothing and Textiles 26—Selection of Clothing and Textiles | 4 |
| or | |
| Clothing and Textiles 50— Textiles and Clothing | |
| Mathematics 31—College Algebra I | 4 |
| or | |
| Mathematics 21—Basic Mathematics | |
| Biology 37—Biology I | 4 |
| Physical Education—one course to be taken each quarter | 3 |
| Art 23—Beginning Design | 4 |
| Child Development 39—The Individual and The Family | 4 |
| | 49 |

### Sophomore Year

| Course | Hours |
|---|---|
| English 73, 74—Introduction to Literature | 8 |
| Sociology 63—Introduction to Sociology | 4 |
| Economics 54—Introduction to Economics | 4 |
| Psychology 65—General Psychology | 4 |
| Health 79—Personal Hygiene | 4 |
| Speech 31—Oral Communication | 4 |
| Food and Nutrition 85—Meal Planning and Table Service | 4 |
| Chemistry 25, 26, 27—Inorganic Chemistry or 8 quarters of a Physical Science of the student's own choice | 8 to 12 |
| Elective | 8 or 4 |
| | 48 |

## CURRICULUM—HOME ECONOMICS CORE

All students in the junior and senior years regardless of the major selected in the Division of Home Economics are expected to take, in addition to the core plan for the freshman and sophomore years, a common core of courses.

| Course | Hours |
|---|---|
| *Foods and Nutrition 135—Nutrition | 4 |
| Marriage and Family Living 151—Marriage and The Family. This may be taken as Health 151 or Sociology 151. | 4 |
| **Child Development 138—Child Development | 4 |
| Clothing and Textiles 104—Related to the Home and Dress | 4 |
| Housing and Home Management 196—Economics of the Home | 4 |
| Housing and Home Management 197—Home Management Residence | 6 |
| Bacteriology 139 (taken as a part of the Basic College Core) | 4 |
| Health 133, 134 (taken as a part of the Basic College Core) | 4 |

*For majors in Child Development, substitute Food and Nutrition 136

**For majors in Clothing Merchandising and in Clothing and Textiles substitute Child Development 39.

## CURRICULUM—MAJOR REQUIREMENTS

The majors are outlined under the departments in which they are located.

### Offerings for Non-Majors

Students may earn a minor in home economics by selecting twenty-eight hours of work from the following courses: Child Development 39, and 138; Clothing and Textiles 23, 26, 50, and 104; Foods and Nutrition 37, 85, 123, and 135; The House and Home Management 105; Marriage and Family Life 51 and 151. The same courses may be selected for electives. The only prerequisite to these courses for non-majors is the necessary academic standing; courses with junior or senior numbers may not be taken by freshmen and sophomores. Non-majors who wish to substitute other courses for those named above, may do so if they have had the necessary prerequisites to the courses.

A student may minor in any area in which he can major. The twenty-eight hours of courses for a minor in a specialized area as institution management should be approved by the chairman of The Division of Home Economics.

## DEPARTMENT OF CHILD DEVELOPMENT

The child development curriculum is designed to interest majors with special abilities and interests in young children. It provides opportunities to observe and work with nursery school children. Specialization in this area prepares a student for nursery school teaching and administration and for leadership in educational programs of children's institutions. Those who wish to begin study for positions in such areas as child welfare, college nursery schools, or private nursery schools should follow the curriculum in Child Development.

### Child Development

| | |
|---|---|
| Home Economics Core | 26 |
| Major requirements as listed below | 22 |
| Child Development 182—The Child's Play Environment | 4 |
| Child Development 184—Supervised Participation | 6 |
| Child Development 191—Creative Materials and Activities for Pre-school Child | 4 |
| Child Development 220—Advanced Child Development | 4 |
| Psychology 116—Human Growth and Development | 4 |
| Minor requirements | 28 |
| Electives | 16 |

## CHILD DEVELOPMENT

**39—The Individual and the Family.** Four hours.

Three 1-hour recitations and two 2-hour laboratory periods, or one 4-hour laboratory period.

Not required of junior transfer students.

Observation and participation in the Nursery School weekly.

**130—Preschool Teacher's Workshop.** One and one-half hours.

For day-care operators, nursery school teachers, and educational leaders in church groups, on the preschool level; includes a week of lectures, demonstrations, and observation of preschool children. Emphasis placed upon increasing knowledge of standards in physical, mental, social, and emotional development of young children.

**138—Child Development.** Four hours.

Three 1-hour recitations and five hours of observation and participation in the Nursery School weekly.

Designed to create interest in preschool children and to develop an understanding of the development and behavior patterns of preschool children. Problems involved in guiding children toward happy, successful adulthood.

**182—The Child's Play Environment.** Four hours.

A study of the role of play in the development of young children, with emphasis upon selection, care, and use of equipment. Opportunities provided to evaluate materials in use, to plan play activities for children, and to construct toys.

**184—Supervised Participation.** Six hours.

Prerequisite: Child Development 220.

Directed participation in the Nursery School for one quarter.

**191—Creative Materials and Activities for the Preschool Child.** Four hours.

A study of creative activities for children of the preschool years, including literature, art, music, nature study, and others. Practical experiences with these in the Nursery School.

**220—Advanced Child Development.** Four hours.

Two 1-hour recitations weekly, plus six hours of participation in the Nursery School.

Course is for students interested in further study of preschool children, and in developing techniques, and accepting full responsibilities in the daily activities of the Nursery School.

## DEPARTMENT OF CLOTHING AND TEXTILES

This area offers opportunities to the future homemaker for the selection and care of clothing and household fabrics for the family, and basic principles of clothing construction. It gives preliminary education which may lead to commercial work; to clothing or textile designing; to becoming a clothing or textile specialists, stylist, consumer consultant; or buyer; or to doing editorial writing for women's pages of newspapers or magazines. Two curricula are offered in the Department of Clothing and Textiles: the curricula Clothing and Textiles, and Clothing Merchandising.

The curriculum for the major, clothing and textiles, is appropriate for a person wishing to begin preparation for a position as a designer of clothing or textiles, as a fashion or clothing consultant, as a specialist in clothing or textiles, or as an editorial writer for women's pages of newspapers or magazines. It may serve as a basis for graduate study in clothing and textiles which might lead to college teaching or research. Suggested minor areas appropriate for this major include art, chemistry, journalism, radio and television, and economics.

The major in clothing merchandising makes advancement more readily available to those seeking positions as buyers for apparel specialty stores or apparel departments in department stores. Also, it leads to the management of one's own small store or to the management of ladies apparel chain stores. Those who wish to begin study for positions as buyers for apparel specialty stores or departments should follow the curriculum in Clothing Merchandising.

### Clothing and Textiles

| | | |
|---|---|---|
| Home Economics core | | 18 |
| Child Development 39 may be substituted for Child Development 138. Health 151 may be used to meet a part of the core curriculum requirements. | | |
| Major requirements as listed below | | 22 or 24 |
| Clothing and Textiles—Textile Economics 156 (2) or Fashion Fundamentals 157 (4) | 2 or 4 | |
| Clothing and Textiles 125—Advanced Clothing and Consumer Problem | 4 | |
| Clothing and Textiles 150—Family Clothing and Textiles | 4 | |
| or Clothing and Textiles—Advanced Tailoring 158 | | |
| Clothing and Textiles—Textiles 112 | 4 | |
| Clothing and Textiles—Garment Selection and Wardrobe Planning 113 | 4 | |
| Housing and Home Management 105—Housing and House Furnishings | 4 | |
| Minor requirements | | 28 |
| Electives | | 24 |

### Clothing Merchandising

| | | |
|---|---|---|
| Home Economics core | | 26 |
| Major requirements as listed below | | 16 |
| Housing and Home Management 105—Housing and House Furnishing | 4 | |
| Clothing and Textiles 125—Advanced Clothing and Consumer Problems | 4 | |
| Clothing and Textiles 150—Family Clothing and Textiles | 4 | |
| Psychology 129—Applied Psychology | 4 | |

| | | |
|---|---|---|
| Minor in Marketing as listed below | | 34 |
| Marketing 130—Principles of Marketing | 4 | |
| Marketing 134—Salesmanship | 4 | |
| Marketing 135—Principles of Retailing | 4 | |
| Marketing 137—Principles of Advertising | 4 | |
| Marketing 156—Retail Merchandising | 4 | |
| Marketing 165 & 166—Professional Retailing Experiences | 12 | |
| Textile Research | | 2 |
| Electives | | 8 |

## CLOTHING AND TEXTILES

23—Clothing Selection and Personal Appearance. Four hours.
The selection of costume for becomingness to the individual, and the care of clothing with emphasis on the relationship to personal appearance.

**26—Selection of Clothing and Textiles.** Four hours.
Two 1-hour periods and two 2-hour laboratory periods per week.
Study of textiles most commonly used; selection of materials and ready-made clothing; selection and use of commercial patterns; planning and construction of garments of cotton, rayon or linen; use and care of sewing equipment; care of garments; appropriate accessories.

**50—Textiles and Clothing.** Four hours.
Two 1-hour periods and two 2-hour laboratory periods weekly.
Prerequisite: Clothing and Textiles 26, or equivalent.
Study of characteristics and identification of fibers; uses and cost of material; consideration of wool and wool substitutes; fitting, construction, remodeling and mending problems.

**104—Art Related to the Home and Dress.** Four hours.
Three 1-hour periods and one 2-hour period per week.
Prerequisite: Art 23.
A course designed to develop an understanding of applied principles of design in clothing, clothing accessories, exterior and interior of houses. Opportunity furnished for practical solution of personal and home design problems.

112—Textiles. Four hours.
A practical consumer study of textiles; the fibers, structure, design, finish, and quality of fabrics for clothing and house furnishings including selection, use, and care.

**113—Garment Selection and Wardrobe Planning.** Four hours.
Two one-hour periods and two two-hour laboratory periods weekly.
Selection of ready-to-wear garments on basis of cost, aesthetic value, and serviceability.

**125—Advanced Clothing and Consumer Problems.** Four hours.
Two 1-hour classes and two 2-hour laboratory periods weekly.
Prerequisite: Clothing and Textiles 26 or 50, and 104 or equivalent.
Developments in the clothing field; new textile fibers and fabrics; new manufacturing processes; advanced work involving designing, construction, fitting, tailoring, procedures essential to independent work.

**150—Family Clothing and Textiles.** Four hours.
Two 1-hour classes and two 2-hour laboratory periods weekly.
Prerequisite: Clothing and Textiles 26 or 50, and 104 or equivalent.
Planning the wardrobe within different income levels; renovating, remodeling old garments and construction of new garments for the family; designing and construction of a child's self-help garment; economic problems in meeting family clothing needs.

156—Textile Economics. Two hours.
A study of problems which affect the consumer in the production, dis-

tribution, and consumption of textiles and clothing. Survey of recent developments in the textile and clothing field.

157—**Fashion Fundamentals.** Four hours.
Fashions as a social force and the factors that affect and influence it. A study of the workings of the fashion world, including designers, leading markets, and fashion cycles.

158—**Advanced Tailoring.** Four hours.
Two one-hour periods and two two-hour laboratory periods weekly.
Prerequisite: Textiles and Clothing 125.
Detailed study of selection, fitting, and construction of tailored wool garments.

## DEPARTMENT OF FOODS AND NUTRITION

This area includes courses designed for all students, especially those interested in securing information concerning the foods that will provide an adequate diet. Some of the basic courses are for non-majors as well as all home economics majors.

The major, Institution Management, is designed for persons wishing to prepare for positions in quantity food service. It prepares students as school lunch managers, community nutritionists, food service directors, or for dietetic or school lunch internships.

### Institution Management

| | |
|---|---|
| Home Economics core | 26 |
| Major requirements as listed below | 30 |
| Food and Nutrition 94—Food Problems | 2 |
| Food and Nutrition 142—Experimental Foods | 4 |
| Food and Nutrition 144—The School Lunch | 4 |
| Food and Nutrition 176—Diet in Disease | 4 |
| Food and Nutrition 178—Advanced Nutrition | 4 |
| Food and Nutrition 192—Quantity Cookery | 6 |
| Food and Nutrition 194—Institution Management | 6 |
| Additional requirements for internships | 28 |
| Chemistry 92—Organic Chemistry | 4 |
| Chemistry 136—Food Chemistry | 4 |
| Chemistry 165—Physiological Chemistry | 4 |
| Biology 129—Physiology | 4 |
| Accounting 71—Principles of Accounting | 4 |
| Psychology 119—Educational Psychology | 4 |
| Education 113—Principles of Teaching in High School | 4 |
| Minor requirements | 12 |

To meet the 28 hours for the minor, 16 hours will be provided from required courses.

### Two-Year Certificate Course

A two-year schedule of courses which leads to a certificate is planned for school-lunch managers. The program includes general education courses as well as those designed to add to the special preparation of the individual as a school-lunch manager.

### Curriculum for Two-Year Certificate Course for School-Lunch Managers

| | |
|---|---|
| **General Education Courses** | |
| English 25, 26, 27—English Composition | 12 |
| Mathematics 21—Basic Mathematics | 4 |
| History (any course) | 4 |

| | | |
|---|---|---|
| Psychology 65—General Psychology | 4 | |
| Biology 37H | 4 | |
| Health 79—Personal Hygiene | 4 | |
| Art (any course) | 4 | |
| Health 133, 134—First Aid, Home Nursing | 4 | |
| Economics 55—Principles of Economics | 4 | |
| Clothing and Textiles 23—Clothing Selection and Personal Appearance | 4 | |
| Child Development and The Family 39—The Individual and The Family | 4 | |
| English 73—An Introduction to Literature | 4 | |
| | | 56 |

**Food and Nutrition Courses**

| | | |
|---|---|---|
| Food and Nutrition 37—Food Study | 4 | |
| Food and Nutrition 85—Meal Planning and Table Service | 4 | |
| Food and Nutrition 78—Nutrition and Diet Therapy | 4 | |
| Food and Nutrition 62—Problems in Managing a School Cafeteria | 4 | |
| Food and Nutrition 63—Menu Planning, Food Preparation, and Cerving for The School Cafeteria | 4 | |
| Food and Nutrition 64—Sanitation for The School Cafeteria | 4 | 24 |
| Electives | | 16 |
| TOTAL | | 96 |

## FOOD AND NUTRITION

37—**Food Study.** Four hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Study of the body's need for food. Application of principles in planning, preparing and serving simple meals.

56—**School Lunchroom Conference: Purchasing.** One and one-half hours.

Thirty-six hours of class and laboratory work.

Involves study of available stocks; receiving and storing practices; emphasis on inventories, storage room, and food purchasing.

57—**School Lunchroom Conference: Meal Planning.** One and one-half hours.

Thirty-six hours of class and laboratory work.

Emphasis on planning and serving nutritious quantity meals at minimum cost.

58—**School Lunchroom Conference: Food Cost Control.** One and one-half hours.

Thirty-six hours of class and laboratory work.

Emphasis on budget break-down, records, inventories, and meal cost for school lunch.

59—**School Lunchroom Conference: Personnel Management.** One and one-half hours.

Thirty-six hours of class and laboratory work.

Emphasis on problems of personnel for school lunch.

62—**Problems in Managing a School Cafeteria.** Four hours.

One theory and three laboratory periods weekly.

Prerequisites: Foods and Nutrition 37 and 85.

Study of menu planning, food cost control, institution buying of food and equipment, personnel management, and records.

63—**Menu Planning, Food Preparation and Serving for the School Cafeteria.** Four hours.

Two theory and two laboratory periods weekly.

Emphasis on actual experience in planning, preparing, and serving nutritious meals for institutions.

64—**Sanitation for the School Cafeteria.** Four hours.

Three theory periods and one laboratory period weekly.

Prerequisites: Health 79 and 133, and Foods and Nutrition 37.

Emphasis on all phases of sanitation in school lunchrooms.

65—**School Lunchroom Conference: Quantity Food Preparation.** One and one-half hours.

Preparation of appetizing, nutritious, and attractive meals for the school child.

66—**School Lunchroom Conference: School Cafeteria Equipment.** One and one-half hours.

A course designed to teach managers how to conserve time and energy through efficient arrangement, use, and care of equipment.

67—**School Lunchroom Conference: New Developments in the School Lunch Program.** One and one-half hours.

Recent research and findings in phases related to the school cafeteria; special problems of the manager.

68—**School Lunchroom Conference: Nutrition and the School Child.** One and one-half hours.

69—**School Lunchroom Conference: Organization and Management of Food Services.** One and one-half hours.

70—**School Lunchroom Conference: Food Storage.** One and one-half hours.

Designed to give understanding of how to prevent the loss of food. Emphasis placed on proper temperature, ventilation, and systematic food storage.

78—**Nutrition for Nurses.** Four hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Designed for nurses. Practical knowledge of nutrition and its relation to health. Application of principles in food preparation.

85—**Meal Planning and Table Service.** Four hours.

Prerequisite: Foods and Nutrition 37.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Continuation of Food Study 37. Emphasis on more advanced meal planning, preparation, and service; scientific principles of cookery stressed.

94—**Food Problems.** Two hours.

A study of individual problems in food preparation. Problems developed by students in conference with instructor.

123—**Elementary Course in Nutrition.** Two hours.

Planned for non-home-economics majors. Nutritional needs of body and proper selection of foods emphasized.

135—**Nutrition.** Four hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Prerequisite: Foods and Nutrition 85.

Intensive study of the body's need for foods, including the chemistry of digestion, care of digestive system, nutritive requirements of body during different stages of life.

**136—Child Nutrition.** Four hours.

A study of nutritive requirements of yonng children, with laboratory experiences in the Nursery School.

**142 or 442—Experimental Foods.** Four hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Prerequisite: Foods and Nutrition 85.

Elementary research to determine factors affecting standard products. Experimentation in preparation, ingredients, methods of cooking, temperature, and utensils used.

**144 or 444—The School Lunch.** Four hours.

One 1-hour theory period and three 2-hour laboratory periods weekly.

Designed to give experience in menu planning, records, food buying, and preparing and serving food on quantity level.

**176 or 476—Diet in Disease.** Four hours.

Prerequisite: Foods and Nutrition 135.

Study of diseases influenced by diet, and dietary treatment of diseases.

**178 or 478—Advanced Nutrition.** Four hours.

Four 1-hour periods weekly.

Prerequisite: Foods and Nutrition 135.

Study of current literature for newer findings in field of nutrition.

**192—Quantity Cookery.** Six hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Prerequisite: Foods and Nutrition 85.

Emphasis on actual food preparation and serving on quantity level.

**194—Institution Management.** Six hours.

Two 1-hour theory and two 2-hour laboratory periods weekly.

Prerequisite: Foods and Nutrition 192.

Study of institution buying of food, equipment; menu planning; table service; and record keeping.

## DEPARTMENT OF HOME ECONOMICS EDUCATION

The curricula in the Department of Home Economics Education are planned for those who wish to be teachers of homemaking education in the schools or who wish to work in the home economcs extension service. Those preparing for teaching should major in teaching homemaking education, and those for extension service in home economics extension service.

Students who complete the curriculum in teaching homemaking education will receive the vocational license to teach homemaking education in the secondary schools of the State of Mississippi.

### Teaching Homemaking Education

| | Hours | |
|---|---|---|
| Home-Economics core | | 26 |
| Major requirements as listed below | | 16 |
| Housing and Home Management 105—Housing and Home Furnishing | 4 | |
| Housing and Home Management 115—Household Equipment | 4 | |
| Clothing and Textiles 125—Advanced Clothing and Consumer Problems | 4 | |
| Clothing and Textiles 150—Family Clothing and Textiles | 4 | |
| Professional requirements | | 37 |
| Psychology 119—Educational Psychology | 4 | |

| | | |
|---|---|---|
| Psychology 132—Human Growth and Development—Adolescent | 4 | |
| Education 113—Principles of Teaching High School | 4 | |
| Education 162—Curriculum of the Secondary School | 2 | |
| or | | |
| Education 164—Student Activities in Secondary Schools | | |
| Education 169—Tests and Measurements | 4 | |

## HOME-ECONOMICS EDUCATION

**22—Introduction to Home Economics.** Two hours.

A course designed to show the value of home economics in personal and family living, as well as in vocational pursuits.

**146—Teaching Food and Nutrition in the Elementary Grades. Four hours.**

Three 1-hour theory periods and one 2-hour laboratory period.

Course planned to give those preparing to teach in the elementary grades some understanding of materials and methods for teaching nutrition.

**180—The Teaching of Homemaking Education.** Four hours.

Prerequisite: Junior standing in home economics.

A study of the place of homemaking education in the total school program. Emphasis on organization of teaching plans and materials; opportunity for class and home experiences, and evaluation for the school homemaking education program.

**185a-186a—Student Teaching and Observation (Participation in Teaching Homemaking Education).** Ten hours.

Prerequisite: Home Economics Education 180.

Observation of homemaking in the elementary school program, and in

junior and high school homemaking classes. Student teaching in a few of the schools in which there is a strong homemaking program.

185b—**Extension Education.** Five hours.
Opportunities provided to work with state extension specialists and with the district extension leader to become acquainted with special methods in extension work.

186b—**Extension Teaching and Observation.** Five hours.
Prerequisite: Home Economics Education 180.
Educational experiences in extension service program for a six-week period, or the equivalent, with a home agent. Supervision of work provided co-operatively with the college and Agricultural Extension Service.

185c—**Home Economics in Equipment.** Five hours.
Course taken with Home Economics Education 195.
Planned experiences with home economists in power and utility companies, lectures, and field visits. Introduction to the role of the home economist in business.

195—**Field Work in Home Economics.** Five hours.
Field work for those planning to become home economists in equipment. Educational experiences with home economists in the co-operatives, or with other utility companies.

200—**Teaching Homemaking to Adults.** Five hours.
Prerequisite: Home Economics Education 180.
A study of the adult homemaking program, with experiences which will help the student to participate effectively in the teaching of homemaking to adults.

## DEPARTMENT OF HOUSING AND HOME MANAGEMENT

The increasing opportunities for home economists in business with utility companies and manufacturers of equipment for the home have created many positions for those with the necessary educational background. The major, home economics in equipment, is designed for those preparing for such a career.

### Home Economist in Equipment

| | |
|---|---|
| Home-Economics core | 26 |
| If a student has had C. D. 39 it will not be necessary to take C. D. 138 with this major. | |
| Major requirements | 35 |
| Housing and Home Management 105—Housing and House Furnishings | 4 |
| Housing and Home Management 115—Household Equipment | 4 |
| Home Economics Education 185a—Home Economics in Equipment | 5 |
| Home Economics Education 195—Field Work in Home Economics | 5 |
| Home-Economics Education 200—Teaching Homemaking to Adults | 5 |
| Clothing and Textiles 125—Advanced Clothing and Consumer Problems | 4 |
| Journalism and Radio | 4 |
| Business Education 160—Office Management | 4 |
| Minor requirements | 28 |

Basic College core curriculum

Household Physics, Physics 137, must be taken. It may serve as a part of the physical science requirement of the Basic College core curriculum.

## HOUSING AND HOME MANAGEMENT

**105—Housing and House Furnishings.** Four hours.
Three 1-hour periods and one 2-hour period a week.
Prerequisite: Clothing and Textiles 104.
A study of the economic and sociological problems in housing and house furnishings; house plans in relation to their influence on family life; trends in heating, plumbing and lighting houses; selection and arrangement of house furnishings.

**115—Household Equipment.** Four hours.
Two 1-hour theory and two 2-hour laboratory periods weekly.
Prerequisite: Foods and Nutrition 85.
A study of the selection, operation, care, repair, and arrangement of appliances in the home.

**196—Economics of the Home.** Four hours.
Problems of homemaking relating to wise use of time, energy, money, and resources of home. Consumer problems of the homemaker.

**197—Home Management Residence.** Six hours.
Prerequisites: Foods and Nutrition 135 and House and Home Management 196.
Application of the principles of homemaking through actual participation in responsibilities of home. Care of home; meal-planning, preparation, and serving; responsibility for baby; and social responsibilites.

## DEPARTMENT OF MARRIAGE AND FAMILY LIFE

Marriage today is becoming widely recognized as the most important vocation for which young people can prepare.

The primary objective of the marriage and family life curriculum is to assist college students to grow into intelligent, effective and satisfying family members in their own homes. The vast majority of youth today marry and establish homes of their own. There is grave evidence of the need for giving intelligent and functional guidance to these young people in order that their homes can be satisfying and lasting. Although the basic emphasis of the curriculum is learning to become a good marriage partner and parent, it also qualifies the student for some avenues of employment for additional income and/or as a means of self-expression.

The two majors are offered in homemaking, one leading to a Bachelor of Science degree and one to a Bachelor of Arts degree.

### Homemaking-Bachelor of Science Degree

| | Hours | |
|---|---|---|
| Home-Economics core | | 26 |
| Major requirements | | 28 |

| Electives | | 4 |

*May be used to meet part of the core curriculum requirements.

### MARRIAGE AND FAMILY LIFE

**51—Personal Development, Dating and Courtship. Four hours.**

Establishing satisfying relationships in intellectual, social, emotional environment of college living. Study of personal social values influencing dating and courtship. Student interests and problems arising out of college life.

**151—Marriage and the Family. Four hours.**

Prerequisite: Junior or senior standing.

A course designed to give better understanding of the factors that contribute to success and happiness in marriage. Preparation for marriage; marriage adjustment; family functions and situations; factors making for successful family living.

## GRADUATE COURSES IN HOME ECONOMICS

**600—Supervision of Home Economics.** Four hours.
Designed for high school home economics teachers interested in the student-teacher program. Supervisory practices and procedures for promoting student-teacher growth and development.

**602—Home Economics in American Education.** Four hours.
A brief survey of home economics in American education, with a study of the trends and issues in curriculum development, instruction, guidance, supervision, administration, and research in this field.

**604—Curriculum Problems in Home Economics.** Four hours.
A course for teachers, dealing with problems in curriculum making and the place of homemaking education in the total school curriculum or specialized area.

**608—Seminar in Home Economics.** Two to six hours.
Seminar problems may be taken for two, four, or six hours of credit.

**610—Home Economics in Higher Education.** Four hours.
A study of home economics at the junior college level, including problems in development of the curriculum in college instruction, in guidance of students, in administrative problems, and in evaluation of a department.

**612—Special Problems in Home-Economics Education.** Two to six hours.
A course in which students choose, for investigation, research problems pertinent to their situation.

**614—Teaching Homemaking to Adults.** Four hours.
A study of the adult homemaking program with opportunity for experiences in effective participation.

**640—Home Engineering.** Four hours.
An intensive survey of various handicraft materials, processes, and procedures, as applied to a home situation. Adaption of the activities to adult programs. Mechanical care and use of home appliances.

**650—Early Marriage Adjustments.** Four hours.
Prerequisite: Permission of the instructor.
Social-psychological aspects of the pair relationship during engagement and early marriage. Emphasis placed on interaction and communication as the pair faces the determining of family goals, planning for the family, and living together.

**651—The Family in the Community.** Four hours.
Designed to develop teacher understanding of the social setting in which students live, and its importance in the development of family-living courses to meet student needs.

**652—Teaching Family Living on the Secondary Level.** Four hours.
A study of the theory, content, and methods of marriage and family life education at the secondary level; designed to meet the needs of high school teachers and administrators.

654—**Parents and Children.** Four hours.
This course is offered to the mature student who is interested in parent-child relationships. Emphasis will be given to parent-child inter-action, home-social relationships and methods of working with parents in groups and individually.

**660—Bishop Method of Clothing Construction.** One and one-half hours.
Workshop in clothing construction in which student is taught the newest development in teaching clothing construction, the unit method introduced by Mrs. Edna Bryte Bishop.

661—**Institute on the Bishop Method Applied to Tailoring.** One and one-half hours.
Prerequisite: Home Economics 660.

662—**Institute on the Bishop Method Applied to Tailoring and the Cutting-to-Fit Course.** Two hours.
Prerequisite: Home Economics 660.

670—**Textiles: Recent Developments.** Two hours.

674—**Special Problems.** Two to six hours may be earned in any of the following areas:

a. Clothing

b. Household Equipment

c. Child Development

d. Nutrition

e. Housing

f. Family Living

g. House Furnishings

h. Home Management

675—**Community Health and Nutrition.** Four hours.
Insight and understanding in education of pupils to conditions and facilities of their community. A study of the physical, mental, social, economic, and spiritual requirements necessary for wholesome development.

677—**The Nutrition of Children.** Four hours.
The application of basic principles of nutrition in growth and development of children from birth through early childhood, school age, and adolescence, to maturity.

678—**Quantity Food Preparation.** Four hours.
Prerequisite: Approval of instructor.
One lecture and six hours of laboratory.
Application of basic principles of cookery to preparation of food in large quantities; standardization of formulas with reference to quantity, manipulation, and cost. Use of institution food service equipment.

679—**School Luncheon Supervision.** Four hours.
A study of school lunch program, of organization and administration with experiences which will help the school lunch supervisor in supervising school lunch programs on the city, county, state and national level.
